

# THE PHILADELPHIA Real Estate Record AND BUILDERS' GUIDE.

DEVOTED TO REAL ESTATE, BUILDING, ARCHITECTURAL AND INSURANCE INTERESTS

[ENTERED AT THE PHILADELPHIA POST-OFFICE AS SECOND CLASS MATTER.]

VOL. XIII.—No. 1.

PHILADELPHIA, WEDNESDAY, JANUARY 5, 1898.

\$5.00 PER YEAR.

## Architect Notes.

The proposed new building for the De Lancy School, at 1420-22 Pine street, will likely not be erected before Spring of 1898. This work has been noted previously, and plans are by George C. Mason, architect, Drexel Building.

The bids for the church at Cape May, N. J., after plans by J. C. Newsom, architect, 1001 Chestnut street, were \$500 too high and the committee are considering the question of asking revised estimates in the office of the architects. Previously noted in these columns.

Harry Peale, architect, Harrison Building, Fifteenth and Market streets, is making plans for a Casino at Atlantic City, N. J. The work is of frame, two stories high, 1600 sq. ft. in area, fitted with electric lighting, steam heat, stage floor, lavatories, etc.

J. Cather Newsom, architect, 1001 Chestnut street, is one of the busy architects of the city, being engaged on plans for a church in this city; location cannot be given yet. Previously noted. Also plans for an operation of houses in West Philadelphia, and others outside of the city.

John C. Edwards, architect, Langsford, Pa., has made plans for a pair of houses to be erected at that place for John C. Edwards. These will be two and one half stories high, frame and shingle roofs, hot air heat and best comforts on interior. Estimates are being taken on work.

A. C. Wagner, architect, 514 Walnut street, is taking estimates on the schoolhouse for brewery of John Hohendale, at Thirty-fifth street and Indian Queen Lane. It will be two stories high, brick, stone and iron, with all conveniences, etc. Also estimates have been received for a storage house at Percy and Ninth streets. Previously noted in these columns.

William Macauley, architect, 1530 Chestnut street, is making plans for a residence to be erected at Wilmington, Del. It will be of gray stone; steam heat, electric work, slate and tile work, and best interior accommodations, etc. Also plans for an operation of dwellings to be erected in this city. These are to be of fancy buff brick and the interiors will contain best modern comforts.

Stearns & Castor, architects, 1152 Stephen Girard Building, Twelfth, above Chestnut street, are engaged on quite a number of designs for work, chief among which is the A. Lehigh Avenue Baptist Church, which we noted previously. Also plans for several houses in Frankford and vicinity, and other minor work, to be noted at an early day as details are arranged for the work.

Baker & Dallett, architects, 1604 Chestnut street, are now busily engaged on the drawings for the Chester County Asylum for the Insane, which as previously noted in this journal, will

be built early in the present year. The structure will be of stone and brick, and fitted throughout in the most complete manner for the care of the unfortunates. Fuller details later as plans develop.

Addison Hutton, architect, 1100 Chestnut street, has made plans for alteration and addition to the store of George B. Evans, at the northeast corner of Eighth and Arch streets. These contemplate the taking in of three additional properties and making them all four stories high, with steam heat, electric work, elevators and all conveniences. Estimates are being made in office of Stacey, Reeves & Sons, contractors, 1611 Filbert street.

Stacey Reeves & Sons, contractors, 1611 Filbert street, have on boards for estimate the plans for re-building and adding to the stores of Strawbridge & Clothier, 817-19-21-23 Market street, of which this journal has previously given a descriptive notice. The new structures are to be of stone, brick and terra cotta work, steam heat, electric work, elevators and freight lifts. Addison Hutton, architect, 400 Chestnut street, made the plans and will supervise the work.

Samuel R. Hawes, of Ardmore, Pa., has received the contract to build a colonial stable and carriage house for James Florey. It will be located at Lancaster pike and Bryn Mawr avenue. Plans by Schermerhorn & Rheinhold, architects, 430 Walnut street, who are also making plans for three houses to be erected on Spring avenue, Ardmore, Pa., for the above contractor. These are to be of Flemish design, black header bricks, all modern comforts and conveniences on interior. Also plans are being made for alterations and additions to a store and residence for Messrs. Ware and Eldridge, at Cape May, N. J. To be stone and frame, three stories high, slate roof, hot air heat, electric work, and best comforts and conveniences, etc.

## Building and Real Estate Notes.

J. F. Molloy, contractor, Betz Building, is making general estimates on an addition and alteration to a residence at Kensington and Lehigh avenues. It will be of brick and stone trimmings, and contain all modern improvements.

Revised estimates are being made on the alteration and addition to the residence of W. W. Frazier, at Jenkintown, Pa. F. L. Hoover & Son, 703 Jayne street, and other contractors, are giving figures on the work. Plans were made by Cope & Stewardson, architects, 320 Walnut street. Previously noted in full.

It has been decided by the Capitol Building Commission at Harrisburg, Pa., to build the new capitol at that place of Pennsylvania white marble. A bond of \$100,000 will be required to furnish all the stone inside of six

months. Other material will be considered at future meetings of that body. Bids are to be asked at once upon the work.

Plans are being made in office of Charles McCaul, No. 10 North Eleventh street, for the new store of John & James Dobson, at 809-811 Chestnut street. The new structure will be five stories high and basement; stone brick, iron and terra-cotta work, steam heat and electric work, elevators and freight lifts; cement work in basement. All modern improvements will be introduced. Estimates are to be made at once by sub-contractors.

The plans for the house for H. McMurtrie, at Germantown, and previously noted in this journal, as designed by L. Vischer Boyd, architect, have been placed on boards of W. R. Dougherty, contractor, 1604 Sanson street, for estimate. It will be stone, brick, and frame, three stories, and of elegant design. The interior will contain all the most recent improvements and comforts for home life, including steam heat, electric work, finest plumbing, hard wood finish, etc.

It is estimated by the committee in charge of preparation for the Exposition to be held in this city during the present year that the buildings of permanent and temporary character will cost about \$400,000. Hewitt Bros. and Wilson Bros., architects and engineers, associated, will make all plans for the work, which has previously been noted in these columns. Officers have been elected as follows: President, P. A. B. Widener; vice-presidents, W. W. Foulkrod and Dr. William Pepper; treasurer, Sydney L. Wright; secretary, William M. Watts.

Early in the present year it is likely work will be started on the new office building at the southeast corner of Broad and Chestnut streets for the Real Estate Trust Company. The plans are almost completed by Architects Roberts & Seeler, and are likely to be placed on boards of contractors for general estimate at an early day. Mr. Hippie, the president of the trust company, has now recovered from his illness, and will be able to supervise the project. A full description of the structure has been given in previous issue of this journal.

It has developed during the last few days that Jerome Carty, Esq., of this city, in behalf of Charles F. Haseltine his property 1216-18 Chestnut street, for a Chicago syndicate of capitalists. The price paid for the was \$900,000, and an office and business house will be erected at once, and will be of the sky scraping kind, as it is intended to erect on twenty or twenty-one stories high. The lot 54 x 230 feet. At the present, details are meagre but plans will be decided upon at an early day and an architect selected to prepare drawing which a full description will be given in columns. All information in regard to matter of erection of the above structure can be had of Mr. Carty, the purchaser.

PHILADELPHIA, WED'Y, JAN. 5, 1898.

#### The Maennerchor Ball.

The Maennerchor Society of this city, which for many years has utilized its popularity by turning its annual frolics into practical benefits, helping charitable associations, such as hospitals, etc., has announced its regular annual ball at the Academy of Music, for Monday evening, February 7th, next.

The institutions to be benefited through a division of profits are the Maternity Hospital of the University and the Philadelphia Exchange for Women's Work, which is located at the northwest corner of Twelfth and Sansom streets.

The latter institution is a depository and salesroom for the work of women who are dependent upon their own industry and perseverance for support. It has constantly on sale an almost endless variety of articles, including about everything that can be made by women at their homes, from the home-made loaf of bread to the most enchanting bit of lace and embroidery.

This institution has been for many years under the personal supervision of Miss Elizabeth Kent, one of the direct descendants of the Kents of Maryland. Miss Kent's business qualities have had a telling effect upon the prosperity of this institution, and its beneficial purposes justly merit support.

The Honorary Board of Managers and the list of patronesses embrace many of our prominent business men and popular society women.

#### More Calendars.

Messrs. George E. Wagner & Co., Insurance Brokers, 401 Walnut street, have kindly favored us with an interesting selection of handsome calendars for 1898.

For solving intricate problems of fire insurance we commend these gentlemen, for we know of an incident involving an insurable interest in the profits of a hotel company which was turned down by every fire insurance man that had been approached as an Utopian dream, yet Wagner & Co. were ingenious enough to appreciate the applicants' peculiar environments and to find a proper remedy—in other words, they got there, while the other fellows didn't.

#### Building and Real Estate Notes.

Chas. McCaul has started rebuilding the Apt Bros. stores, 39-41 North Eighth street, recently destroyed by fire, and previously noted in these columns.

J. W. Fritzinger, contractor, is at work upon a fine home at Hermitage and Shallkop streets. This will be stone, peaked roof, all the latest improvements on interior.

White & Harrar, builders, will at once begin the erection of sixteen dwellings, 14 x 33 feet, two stories high, on south side of Lee avenue, west of Sixtieth street; all to be of brick, stone facings, and best interior comforts.

R. T. Hazard, 815 Pine street, is having plans made for alterations to his house at Cape May, N. J. It will be a three-story addition and fitted with all modern conveniences, etc.

T. M. Reger, real estate operator, has bought the Webster Bros.' farm, at Old York Road and Edge Hill, for \$50,000, and intends to cut the site up into building lots after grading the same and laying out the streets.

The Girard Life Insurance, Annuity and Trust Company has taken title to thirty acres of ground at West Overbrook. Streets are being laid out and graded and building operations of an extensive character are to be started during the coming Spring.

Charles Auchter, contractor, Twenty-sixth and Thompson streets, is taking bids on a residence for W. Heimgartner, 1232 Frankford avenue. It will be three stories high, brick and stone, hot-air heat, electric work, tin roof, and best comforts on interior.

Estimates are being made in the office of Wm. R. Dougherty, 164 Sansom street, for fitting up offices in the Harrison Building. Also upon rebuilding a stable on Queen street, above Second, for John S. Kennelly. The structure was recently destroyed by fire.

Fire destroyed the handsome house of Allen Evans, architect, of the firm of Furness, Evans & Co., Provident Building, at Haverford, Pa., on main line of the Pennsylvania R. R., on the 30th of December. Mr. Evans will rebuild at once upon the site. His loss is fully covered by insurance.

W. Gruhler, contractor, Harvey street, Germantown, has been asking bids on work as follows: For alteration and addition to house of R. H. Haines, at that place. Stone, cement, brick work, paving, plate and leaded glass, plumbing and tiling, electric and gas work, hard-wood finish, mantels, slate roofing, etc.

1897

(COMPLETE.)

*The Building Construction Work in its Entirety, Together with the Transfers of Real Estate by Months.*

**SEVEN THOUSAND THREE HUNDRED AND FORTY-FOUR New Buildings of all kinds last year, Representing Investments amounting to \$23,531,942.**

**229 More New Buildings than in '96, and the Investment just \$410,542 greater.**

**5382 ALTERATIONS AND ADDITIONS, Costing \$8,073,000, 630 more than in '96, and an Increased Expenditure in these improvements of \$645,000.**

**Total Expenditures during 1897 for all kinds of building improvements, \$31,604,942.**

It will be noticed that there is a generous difference between our figures representing the building construction work of this city for 1897 and those given by the daily papers on January 1st.

We do not refer to this in a spirit of criticism, but, through some reason, we never agree. As we are only responsible for our own figures, we invite the closest investigation as to their correctness. At the last session of the State Legislature, a Senator, while eloquently expatiating upon the wonderful growth of our city, stated that 14,000 new buildings had been erected the previous year. This gentleman innocently and ignorantly made a statement which was several thousands beyond the high mark of any year, for the greatest number ever erected was 10,230 in 1889, which was followed by 10,136 in 1890. Here is difference enough to discourage anyone in quest of reliable data.

A prominent daily, on January 1st, stated that there were over 14,000 operations last year. As an operation could never embrace anything less than a single building, it is fair to presume that over 14,000 buildings were represented by these operations, while the fact is just as we have stated.

It will be seen that the results of 1897 compare very favorably with previous years, for its record of 7344 has been beaten since 1889 in four instances only, and the investment of \$23,531,942 is greater than in 1896 and 1894, and but a trifle behind that of 1892.

In the building line much was accomplished in '97 that was not anticipated; in fact, the results of the year would have been a surprise were it not for our widely disseminated figures in our November special.

We maintained that building was not over done, and that the houses would be filled when business activity had been resumed. The clever men who accumulate large sums are, as a rule, clever enough in their judgment as to its investment, and it is conclusive that they were not disposed to ignore the merits of real estate, or

## Beautiful Sea Shells

Every one admires them. Since coming south I have received numerous inquiries from northern people for sea shells, and now I am prepared to answer yes, I can send you shells, for I have made quite a collection of lovely shells, both from our own coast, the coral reefs, and some beautiful ones from the West India Islands. I will mail a dozen or more different kinds, no two alike, to any one who sends a stamp for postage. Also send you a lovely piece of white branch coral.

Yours, **MRS. P. A. WARNER,**

### Miscellaneous.

At Toledo, Ohio, J. W. Matz, Hartford Block, has made plans for a flat and store building for Jacob Schuyler, to cost about \$30,000. It will be of brick, stone and terra cotta.

At Williamstown, Berkshire county, Mass., Professor J. H. Hewitt, of Williams College, is chairman of the Williams College Y. M. C. A. Building Committee, which proposes to erect a building to cost about \$38,000.

At Newton Centre, Middlesex county, Mass., plans have been prepared by W. H. McGinty, 53 State street, Room 1032, Boston, Mass., for the interior of a church to cost \$30,000. Rev. D. J. Wholy, pastor, can give information.

At Buffalo, N. Y., H. G. Larzalere, Fornes Building, has prepared the plans for a large six-story building, which will be fitted up for hotel purposes.—Strong & Melby have made plans for a seven-story steel building to be erected at Main and Ferry streets. It will be handsomely finished and provided with all modern improvements for a first-class apartment houses.

At Winchester, Middlesex county, Mass., Thomas B. Lawson, the millionaire gas magnate, has arranged for the erection of a magnificent residence and stable on his property on Main street. The estimated cost of the improvements, including the beautifying of the grounds, is about \$250,000. The dwelling will be of steel construction and will be made as fire-proof as possible.

At Springfield, Mass., a syndicate has been formed which will put on the market ninety new lots in the triangle bounded by Carew, Liberty and Armory streets. The land was formerly owned by Stephen B. Seymour, and the price paid was \$30,000. The company, which is under the management of George W. Fairfield, will erect a number of dwellings. Mr. Fairfield's address is 283 Main street, Springfield.—William A. Webster, secretary of the Board of Trade, can give information regarding the proposed erection of a silk mill to be removed from New Jersey.—The City Property Committee will select the plans for the new Forrest Park Grammar School in a few days. Seven sets of plans have been filed from which to make selection.

# THE RECORD AND GUIDE.

5

The following carefully prepared Table, with classification, shows the total number of New Buildings erected during the twelve months of 1897, with the estimated cost of the same, exclusive of the cost of the land.

1897.	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	No. Operations	Estimated Cost
Two-story Dwellings . . . . .	235	222	474	925	789	494	313	234	475	641	427	261	5490	\$10,980,000
Three-story Dwellings . . . . .	46	107	164	246	179	110	187	96	186	132	39	89	1561	5,381,800
Four-story Dwellings . . . . .	0	8	2	4	0	4	0	0	2	3	0	0	23	307,000
Office Buildings . . . . .	0	0	0	0	0	0	0	0	0	1	0	0	1	15,000
Office Buildings over two stories . . . . .	1	1	1	0	1	3	1	0	0	1	0	0	9	2,258,800
Warehouses . . . . .	0	2	1	0	1	0	1	2	1	0	2	1	11	208,200
Dye and Dry Houses . . . . .	0	0	0	0	0	0	0	0	2	0	1	2	5	15,200
Factories . . . . .	0	0	8	2	1	3	6	4	5	6	5	5	45	418,500
Engine and Boiler Houses . . . . .	2	0	0	0	0	0	1	0	0	1	1	0	7	105,700
Breweries and Bottling Houses . . . . .	0	0	0	0	0	0	1	0	0	1	0	0	2	11,000
Foundries and Shops . . . . .	1	1	0	2	1	0	1	1	2	0	0	0	10	58,900
Stores . . . . .	1	1	2	10	2	3	2	0	1	0	0	0	22	482,800
School Houses . . . . .	0	0	2	2	0	1	0	0	0	1	0	0	6	345,742
Stables . . . . .	1	3	5	9	16	13	9	7	10	12	8	7	100	150,000
Churches . . . . .	0	0	0	1	1	2	0	1	0	1	0	0	6	178,000
Miscellaneous . . . . .	1	1	6	1	8	7	11	4	2	3	1	1	46	2,065,800
Total . . . . .	288	346	666	1208	999	641	512	349	686	803	485	386	7844	\$23,531,942
Alterations and Additions . . . . .	226	272	565	578	769	479	497	428	890	501	863	324	5883	8,073,000
GRAND TOTAL of Expenditures, including alterations and additions . . . . .														\$31,604,942

The forty-six miscellaneous buildings include four halls, costing, respectively, \$25,000, \$5,000, \$30,000 and \$9,000; two homes, costing, each, \$50,000; five apartment houses, costing \$15,000, \$10,000, \$50,000, \$125,000 and \$17,000; banks, \$30,000 and \$30,000; museums, \$33,000 and \$500,000; infirmary, \$15,000; Philadelphia Saving Fund, \$150,000; chapels, \$8,000, \$6,000, \$7,000, \$8,000, \$4,800, \$12,000 and \$6,000; asylum for the blind, \$425,000; Friends' school, \$10,000; parish buildings, \$10,000, \$12,000, \$10,000; children's play-house in Fairmount Park, \$48,000, and a few other buildings of minor importance.

## The following is a Table of Conveyances by Months.

1897.	No. of Transfers	Amount of Transfers.	Mortgage Incumbrance on Transfers.	Ground Rent Incumbrance on Transfers.	Sales of Real Estate at Auction.	Mortgage Incumbrance on Real Estate at Auction.	Ground Rent Incumbrance on Real Estate at Auction.
January . . . . .	962	\$6,666,769 11	\$2,585,617 59	\$54,249 08	\$184,302 33		
February . . . . .	922	6,264,066 76	2,621,564 23	119,806 35	131,266 66		
March . . . . .	1039	6,387,274 65	2,384,960 30	121,208 88	212,415 00		
April . . . . .	1146	7,720,617 91	3,339,344 46	133,130 15	236,812 00

December . . . . .	1301	8,797,609 91	3,325,987 68	48,128 42	168,638 50		
TOTAL . . . . .	12,876	\$78,117,354 46	\$30,376,503 95	\$1,104,112 03	\$1,970,515 09	\$2,500 00	\$1,402 97

the 7344 new buildings would not have been erected last year.

Many influences have wrought serious changes. A manufacturing city of the size of Philadelphia, with its hundreds of thousands of skilled wage earners facing idleness for months, would necessarily be the first to show a great falling off in the demand for houses of all kinds. And yet building has gone on unintercepted, and why? Because some men comprehend that periods of stagnation are never permanent. Progression, and not retro-action, is the shibboleth that sets the pace onward in every essential factor of the country's greatness, and if these homes were not needed they would not have been built.

Prices have not receded, except in local cases, which establish nothing.

Our tables show that 797 new dwelling houses were erected in this city last year. This is 24 more than were built in 1896. In other words, there were 430 more two-story dwellings, 199 less three-story and 10 less four-story.

There were 13 office buildings, costing \$2,448,000, erected in 1896, while last year there were but 9, costing \$2,258,800.

The industrials always command serious attention, for they are the precursors of prosperity.

Warehouses last year were 11 in number and \$208,200 in the investment. This is 4 less than in 1896, and the investment is \$215,800 less. Dye and dry houses are two more than in 1896, and the expenditure was \$150,000 more. Factories have done extremely well, for there were 45 of them last year, costing \$418,500, against 47 in 1896, costing \$615,100, a difference of \$196,600 in favor of the latter year. Engine and boiler houses fall off 10, and the investment is short \$8100. There were 5 breweries and bottling houses, costing \$94,300, erected in 1896, but only 2 in 1897, costing \$11,000. Foundries and shops lose

8 in number, and yet the 10 erected in 1897 cost within \$100 as much as the 18 built in 1896.

Stores (not stores and dwellings) show a large gain, and they are the only class of buildings among the industrials that do. There were 22 of them, costing \$482,800 in 1897, while in '96 there were but 9 erected, costing \$246,500.

The following table of industrial buildings, erected in this city since 1889, will show the ups and downs of this kind of buildings.

	1889	'90	'91	'92	'93	'94	'95	'96	'97
Warehouses . . . . .	39	32	28	45	35	24	28	15	11
Dye and dry houses . . . . .	4	11	10	15	9	6	3	3	5
Factories . . . . .	77	83	65	89	57	56	62	47	45
Engine and boiler houses . . . . .	18	30	39	45	27	28	6	17	7
Breweries and bottling houses . . . . .	5	11	7	5	4	5	2	5	2
Foundries and shops . . . . .	75	117	64	60	51	42	31	18	10
Stores . . . . .	78	61	44	34	49	11	18	9	22
	296	345	247	293	232	172	150	114	102

The percentage of industrial buildings to the whole number of buildings erected since 1889 is as follows by years:

	New Bldgs.	Indus. Bldgs.	Per Cent.
1889	10,290	296	2.8
1890	10,136	345	3.4
1891	6738	247	3.7
1892	7611	293	3.8
1893	6255	232	3.7
1894	6563	172	2.6
1895	7540	150	1.9
1896	7115	114	1.6
1897	7344	102	1.3

The miscellaneous buildings last year were 46 in number, while in 1896 there were 63, but those erected in 1897 cost \$2,065,800, while those of '96 cost but \$1,407,000.

Stables continue to increase. There were 100 put up last year against 83 the year before, and the investment is increased over '96 by \$25,500.

There were six new school-houses last year, costing \$345,742. This is a clear gain, for there were none erected in 1896.

Six new churches last year, a falling off of 2. \$178,000 was expended on these last year, and \$255,000 in '96.

Alterations and additions are increasing yearly. These are important, for they afford steady work for thousands of mechanics, besides contributing largely towards the demand for material. 5,382 of these improvements, and they only include the important, against 4,732 in 1896. Then the cost was \$7,128,000, while the handsome total of \$8,073,000 is shown—a gain of \$945,000 for 1897.

We repeat our table of construction work since 1889, inclusive. We do this because many wrong impressions need correcting:

No. of New Bldgs.	Estimated Cost.
6,784 . . . . . 1887 . . . . .	\$23,787,320
10,250 . . . . . 1888 . . . . .	27,790,816
10,136 . . . . . 1889 . . . . .	31,276,739
6,738 . . . . . 1890 . . . . .	33,830,046
6,811 . . . . . 1891 . . . . .	24,115,870
6,255 . . . . . 1892 . . . . .	29,159,646
6,593 . . . . . 1893 . . . . .	23,548,818
7,560 . . . . . 1894 . . . . .	21,540,071
7,115 . . . . . 1895 . . . . .	25,511,199
7,344 . . . . . 1896 . . . . .	23,121,000
84,598 . . . . . 1897 . . . . .	\$25,531,942

It is a matter of surprise to those whose statements are based upon what they suppose, and not what they know, when they run against these figures. Outside of

# PITTSBURGH Plate Glass Co.

The Largest Producers of Plate Glass in the World

PHILADELPHIA WAREHOUSE

1012-14-16-18 Filbert St. and 1009-11-13-15 Commerce St.

The largest stock of PLATE GLASS that has ever been carried in this market will be found constantly on hand, also a well assorted stock of FRENCH AND AMERICAN WINDOW AND PICTURE GLASS, and CHANCES' FIGURED ROLLED GLASS. A complete Beveling and Silvering Plant on the premises.

H. E. SEALEY, Local Manager

the efforts made by this journal, there is not much done towards converting the outside world to the belief that, while we excel as manufacturers of nearly all of the staple products, we also lead the van in the matter of home building; in fact, we can discount most cities and beat them easily.

We are not in the least alarmed as to 1898. It came in under good auspices. If nature properly looks after its end and yields such crops as we have been in the habit of harvesting, it looks at present as though Europe will want it all, and at paying prices.

The transfers of real estate last year numbered 12,876 against 13,745 for 1896, a loss of 870. Yet the value of the property transferred was \$78,117,354.46, or \$3,659,712.94 more than the value of that transferred in 1896.

The mortgage incumbrance of \$39,376,593.95 is 38.8 per cent. In 1896 the mortgage incumbrance was 34.7 per cent., the increase being 4.1 per cent. The ground rents amount to \$1,104,112.03, which, on a six per cent. basis, represents a further incumbrance of \$18,401,867.16.

The sales of real estate at auction amount to \$1,950,548.09.

We give a table of transfers for comparison since 1888:

	Transfers.	Amounts.
1888	12,679	\$62,663,201.87
1889	15,945	80,225,270.88
1890	15,571	82,879,165.22
1891	14,244	71,875,876.33
1892	13,374	79,079,818.00
1893	12,965	72,777,192.51
1894	12,137	64,597,185.40
1895	13,336	83,753,349.37
1896	13,745	74,457,645.12
1897	12,876	78,117,354.46

### Through Pennsylvania.

When any of the following are not post office towns they will be so designated.

—At Etna, Lehigh county, the Donaldson Iron Company will erect an additional plant, 50 x 80 feet, in the spring.

—At Harrisburg, a charter has been issued to incorporate the Pittsburgh Woven Wire Fence Company. The capital is \$200,000.

—At Doylestown, Bucks county, fire a few days since destroyed the dwelling on the farm of ex-Sheriff Alonzo Nicholas, of Doylestown. The loss is about \$4,000.

—At Rowersville, Franklin county, it is probable that a water works system will be constructed. Address P. Rowzer, chairman of committee having the matter in charge.

—At Haverford, Montgomery county, the handsome country residence of Allen Evans, of the firm of Furness & Evans, architects, Philadelphia, was entirely destroyed by fire on December 30th. The estimated cost is about \$20,000, fully covered by insurance.

—At Allegheny, it is stated that the board of managers of the Presbyterian Hospital has decided to erect a new building and is now considering the selection of a suitable site for the proposed structure. Dr. Louise J. Lysle is superintendent and can give information.

—At Washington, Washington county, a stock company has been formed to have charge of the erection of the proposed new hotel for

The Following Table shows the building operations in the respective Wards for the weeks in December for which permits were issued WEEKS ENDING SATURDAYS, 4th, 11th, 18th, 25th and 31st.

which preliminary plans are preparing by local architects. The estimated cost of the structure is \$30,000. F. J. Torrance, of Washington, Pa., is interested in the enterprise and can give information.

At Allentown, Lehigh county, a charter has been granted to the Allentown and Emaus Street Railway Company to construct an electric railway eight miles long. The capital is \$10,000, and the incorporators are F. G. Crutly and Jno. D. Schuit, of Allentown, and W. H. Wesand, of Emaus, and others. The Adelaide sink main will be enlarged.

At Beranton, Lackawanna county, a stock company has been formed to erect a 10-story office building, to adjoin the new Board of Trade Building on Linden, between Washington and Adams streets. The plans for the proposed structure are being prepared by L. C. Holden, of New York City. It will be of brick, steel and stone, and provided with all modern conveniences. Conrad Schroeder is president and E. P. Peck treasurer of the stock company.

At Reading, Berks county, it is probable that a building will be erected to be fitted up as a home for women of Reading. Daniel Miller and Mrs. H. Livingood are interested in the project, and a Reading architect has been selected to prepare sketches and preliminary plans. The proposed building will be of ornamental brick and stone, to be three stories and basement, fine interior finish and modern conveniences. F. O. Reilly will erect a four-story office building at fifth and Penn streets, to cost \$30,000; also, four handsome dwellings at sixth and Spruce streets, to cost about \$25,000. They will be finely finished and provided with all modern improvements. It is probable that steps will be taken to enlarge the Boys' High School. The Polish Catholic Sisters have bought the Peterson property at Ridgewood, and will fit it up for purposes of the order. A number of alterations will be made.

At Pittsburg, the subject of water filtration is under consideration. H. P. Ford, mayor, can give information. A charter has been issued by the State Department at Harrisburg to the Highland Bridge Company, of Pittsburg. The capital is \$75,000, and the object of the company is to erect a bridge to cross the Allegheny river from Aspinwall to the Brilliant pumping station at Pittsburg. The incorporators are F. K. Patterson, James Shanor, Jr., M. D. Wayman and J. F. Peffer. It is stated that the directors of the Union Trust Company will erect a new building to replace the structure recently destroyed by fire. The congregation of the First

United Presbyterian Church will erect a new edifice on Fifth avenue on a site adjoining the Bellview school building, on property now owned by Mrs. Mary E. Schenley. The new building will cost about \$50,000. Plans for the new armory are being prepared by Rutan & Russell, Tradesmen's Building, and will soon be ready for bidding. E. M. Butz & Co., Park Building, are preparing plans for a brick colonial residence to be erected for Dr. J. H. Morrow, and which will be erected on Baum street. It will cost about \$8,000. The same architect will prepare plans for four brick dwellings to be erected in Allegheny. The same architect has finished plans for a school building to be erected in Wilkesburg. Struthers & Hannah are making the plans for the plant of the American Ax and Tool Company. Joseph Neal, 215 Fourth avenue, is at work on plans for an office building. Elmer Miller, Penn Building, has made plans for a dwelling for Mrs. E. R. Gray, to be erected in Sewickley. Charles Bickel, Publication Building, will prepare plans for a building for Mr. Arnsfeld, the clothier, to occupy a site adjoining his present building on Penn avenue. G. W. Wilson and G. O. West, Kelly street, will erect five two-story and attic brick dwellings at Kelly and Stirrett streets. The estimated cost is about \$15,000. William McHenry, 351 North Linden avenue, has the contract for a two-story and attic brick dwelling on Frankstone avenue for W. D. Finley. It will cost \$4,000.

#### Through New Jersey.

At Rahway, Union county, it is said that the subject of water filtration is under consideration.

At Fairview, Bergen county, Peter M. Coco, 36 Union Square, New York City, has made plans for a three-story brick factory, to cost \$4,000.

At Englewood, Bergen county, Lemuel C. Fiel will erect a two-story and attic frame dwelling, to cost about \$1000, from plans prepared by Eugene M. Roheim.

At Montclair, Essex county, a handsome dwelling will be erected by Ruth C. Draper from plans prepared by W. E. Cummings, of Orange, N. J. It will be finely finished, plain and ornamental glass, tile work and all modern conveniences. The cost will be about \$10,000.

At Basking Ridge extensive alterations will be made to the store and dwelling of S. S. Childs, 45 Cortlandt street, New York City, from plans prepared by Meeker & Lewis, 180 Broadway, New York City.

At Hoboken, Bernard Foley will erect a four-story frame building, to be fitted up as flats. The plans have been prepared by Chas. Reiskie. William Taylor will erect a three-story brick dwelling and stable, to cost \$7,000, from plans prepared by B. J. Deeking.

At Woodbury, Gloucester county, the fire department has outgrown the present quarters and a petition will be sent to council to make an appropriation for the erection of a new fire house, to be supplied with all modern conveniences and improvements.

At Butler, Morris county, a one-story frame chapel will be erected by the Baptist congregation, of which Rev. Mr. Fox is the pastor. The plans have been prepared by Franklin Van Winkle, 120 Liberty street, New York City.

At New Brunswick, Middlesex county, it is said the plans are under way looking to the erection of a theatre, to cost about \$40,000. The site most favorably considered is the Waldron property in Dennis street. Work on the proposed structure will begin in the Spring, provided the site can be secured on favorable terms.

At Hackensack, Bergen county, Marcelinus F. Mayo will erect a two and one-half story frame dwelling, 30 x 41 feet, to cost \$1000, from plans prepared by Herman Fritz, of Passaic, N. J. Mrs. Lenora Vice will erect a similar dwelling from plans prepared by A. P. Vall. Dork Lanstra has made plans for a frame dwelling to be erected on James street for Bessie Byrne.

At East Orange, Essex county, Watson Whitteley will erect a two-and-a-half-story frame cottage, to cost \$5,000, from plans prepared by S. S. Colt, of Orange, N. J. S. S. Childs, 45 Cortlandt street, New York City, will erect a three-story brick and stone structure to be fitted up for apartment purposes. The interior will be finely finished and provided with modern improvements. The plans have been prepared by W. H. Abbott, 19 Broadway, N. Y.

At Haverdenville, Somerset county, S. S. Childs, 45 Cortlandt street, New York City, has arranged for the erection of a three-story frame hotel, 100 feet x 36 feet, and to cost \$35,000. It will be well finished and provided with all modern improvements. There will also be a one-story frame bowling alley, 9 feet x 88 feet, wing 14 feet x 26 feet. The plans have been drawn by Meeker & Lewis, 180 Broadway, New York.

**THE RAINY DAY**

The business conditions, from which the country is now escaping, carried with them great misfortunes to worthy families, whose bread-winners were powerless to avert them. Mitigate them, they sometimes might; wholly prevent, they could not.

**Wants.**

At Marion, Va., B. W. Dinsmore is reported as having needs for estimates for electrical supplies and water works outfit. About 1200 sixteen-power lights will be required.

At New Orleans, La., proposals will be received until January 31st, at the U. S. Engineer's office, for constructing a steel tow boat about 135 feet long with compound engines.

At Kansas City, Kan., it is said that bids are wanted until January 11th for the construction of a 50 foot bridge over the east fork of Big Creek, near Greenwood. Thomas F. Callahan is County Surveyor, and can give information.

At New York city, proposals will be received until January 12th for paving with asphalt block the carriageway of three streets. Address Charles H. T. Collis, Commissioner of Public Works.

At Boston, Mass., proposals are wanted until January 24th for drainage and sub-grading work on the Charles river reservation from Western avenue to North Harvard street. William B. de Las Casas, chairman Board of Metropolitan Park Commissioners, can give information.

**Miscellaneous.**

At Denver, Col., Mr. McDaniels will erect a block for business purposes, to cost about \$75,000. It will be four stories high, of brick and stone, fine interior finish and all modern conveniences and improvements. The plans have been drawn by Edbrooke & Co.—The Denver Dry Goods Company have arranged for the erection of a business block, to cost \$90,000, from plans by the same architect. The structure will be 100 x 125 feet, four stories high and finely finished, being provided with all modern conveniences and improvements.

At Bayonne, the new borax factory, to be erected by the Pacific Coast Borax Company, of 185 Water street, New York City, and of which Mr. Frank W. Smith is president, will be a four-story building, 200 x 250 feet, of iron and concrete, and will be supplied with three one hundred horse-power boilers; two one hundred and fifty horse-power engines, crystallizing vats, evaporating pans, screens and grinding mills. The cost, with machinery, will be about \$300,000.—The Bayonne Chemical Works will erect a two-story brick factory, 80 x 130 feet, from plans prepared by Quimby & Broome, 99 Nassau street, New York City.

At Deal, Monmouth county, building operations are progressing on two cottages, each to cost about \$700, for which Samuel W. Kirkbride, of Asbury Park, has the contract from the Atlantic Coast Realty Company. These cottages will be ready to occupy by May 1st. The plans were made by James Brown Lord and Morgan P. O'Brien, a relative of John P. O'Brien, president of the company. Mr. Martinez, a New York contractor, has given Mr. Kirkbride the contract for erection of several handsome cottages. The owners of the above cottages are John P. O'Brien, Percival Farquhar, Robert McCalmont, of Franklin, Pa.; ex-Mayor Lawrence Fell of Orange, N. J.; Mr. George F. Broehl; Mr. Kirkbride and Mr. A. C. Turning, of Asbury Park. The owners of these cottages have combined to erect two other cottages to cost \$7000 each.

At Newark, Carmell Campione will erect a three-story brick store and dwelling, to cost \$35,000, from plans prepared by A. H. Thompson.—V. J. Hobbins has prepared plans for four two-and-a-half-story frame dwellings, to cost \$12,000.—J. L. and W. C. Ely have made plans for a two-and-a-half-story brick and stone dwelling, to be erected at Mount Pleasant and Third avenues, at a cost of about \$10,000.—William K. Schoenig has made plans for a three-story frame building, to be fitted up as flats, for Barbara Radler. The estimated cost is about \$5,000.—S. J. Kutz will erect two frame dwellings at 203 and 205 South Eleventh street, to cost \$1,500 each.—The vestry of St. Thomas' Episcopal congregation will erect a one-story frame Sunday-school room, 45 x 22 ft, and to cost about \$1,600. The plans have been prepared by Brower & Albro, 4 South Maple avenue, East Orange, N. J.

At Jersey City, H. I. Darling has arranged for the erection of seven two-story frame dwellings on Hudson Boulevard at a cost of \$21,000. They will be well finished and provided with all modern comforts and conveniences. The plans have been prepared by William Howard Louche, Pallade avenue, Weehawken Heights.—The Jersey City Electric Light and Power Company will erect a one-story brick office and store room, to cost about \$3,000, from plans prepared by F. S. Pearson, Newark, N. J.—Leopold Kramer will erect a three-story frame building, to be fitted up as flats, from plans prepared by J. A. Reech. The estimated cost is \$4,000.—Robert Stewart has prepared plans for three handsome dwellings to be erected for Mrs. Thomas Miller. The plans have been prepared by Robert Stewart.—John Rowland, Jr., has made plans for a two-and-a-half story frame dwelling to cost about \$5,000. It will be well finished and provided with modern conveniences and improvements.

At Atlantic City, through the agency of F. D. Smith, Lawyer O. W. Payran sold to Charles O'Donnell the unimproved lot on Atlantic avenue, above Indiana avenue. The price paid was \$6,000, and the new owner contemplates quite an extensive building operation, consisting of the erection of a handsome three story brick building which will be fitted up for store and dwelling purposes. The lot has a frontage of twenty feet on Atlantic avenue, and a depth of one hundred feet. Work on this improvement

will begin about February 1st.—At a recent meeting of city council a resolution was adopted looking to an improvement in street paving. The property owners on Illinois avenue were authorized to lay an improved pavement, and steps were also taken to place all electric wires in conduits under the boardwalk, as provided in the original plans of the new walk.—It is reported that the West Jersey Railroad Company will construct a branch road from Absecon to Pleasantville, where it will connect with the Somers Point branch.—The Hotel Glenville, on Tennessee avenue, has been bought by Thomas L. Moss, of Philadelphia, for \$20,000. T. P. Smith, real estate agent, made the sale.—At the last meeting of council it was decided to advertise in Philadelphia and other cities for lighting the town with electricity. It is probable that Michigan avenue will be lighted. Joseph H. Borton, of the Dennis; James D. Southwick, of the Shelbourne, and others are interested.

#### Through Delaware.

At Wilmington, a survey will soon be made for the proposed New Castle, Newport & Wilmington Electric Railway.

At Milford, Kent county, William S. Abbott has the contract for the erection of two large freight houses for the owners of the steamer Endeavor.

#### Through Maryland.

At Frederick, Frederick county, it is said that a bridge to cost about \$13,000 will be constructed across the Monocacy river at Sully's Ford.

At Chestertown, Kent county, permission has been granted by the commissioners that the city be lighted by electricity. M. Wilber Thomas, city clerk, can give information.

At Baltimore, Charles Blauch will erect four two-story dwellings of brick on the south side of Booth street, between Calhoun and Stricker street; also three three-story brick dwellings on Hollins street, between Calhoun and Stricker streets.—Florence E. Jewell and wife have conveyed to Mary L. Gorsuch a lot on the west side of St. Paul street, near Twenty-eighth street, for \$6,500.—John D. Eckert and wife have conveyed to Frederick W. Kilper lot No. 19 on plan of Belvidere Land Company, containing ten acres and five perches, for \$5,000.

William W. Dashiels will erect twelve two-story brick dwellings on the east side of Haubert street, between Nicholas and Marriott streets.—James L. Kernan has bought the Scarlett property near Back river. This tract comprised about twenty-four acres of land and is improved by a large dwelling. It is the intention of the purchaser to convert the place into a summer resort similar to Electric Park. The property has a frontage of one thousand feet on Back river and is a station on the Middle River Electric Road. The name of this station has been changed from Scarlets to Kernans.

#### Washington, D. C.

The office of the supervising architect of the Treasury will be unable to do anything to advance work on the new city post office until Congress acts on the recommendation of Secretary Gage to make an additional appropriation of \$175,000 to complete the building. Chairman Cannon, it is said, will take steps to have the appropriation made shortly after Congress reassembles.—It is said that the Glen Echo Railroad Company has a plan under consideration to change the location of the power house, and instead of having it as at present, at the northern end of the line near the conduit road, a new building will be erected at West Chevy Chase on property recently bought by the company, where a sewerage system is now

being put in. Mr. Gustave Stahl, of Philadelphia, is interested in the project.—Assistant Secretary Roosevelt has reported that the United States Naval Academy is in a deplorable condition and recommends the following appropriation: \$50,000 for the construction of the line of sea wall on the river side and for dredging and filling in as necessary; \$500,000 for a new armory, \$500,000 for a new boat house, \$100,000 for a power house and \$90,000 for grading and electric lighting. Mr. Flagg has prepared sketches for such improvements.

**Miscellaneous.**

At San Antonio, Texas, M. Half Bros. will erect a three-story stone house, to cost about \$20,000. The plans have been prepared by Alfred Giles & Grunden.

At Fairbault, Minn., it is reported that a new school building will be erected in a short time. E. N. Leavens, clerk of the school Board, can give additional information.

At Cleveland, Ohio, the Perkins Power Block, which was destroyed by fire not long since at a loss of about \$1,000,000, will probably be rebuilt as soon as the insurance is adjusted.

At Akron, Ohio, plans and estimates have been ordered for the construction of a viaduct on Mill street. Address S. W. Parsnall, civil engineer, also city engineer, for further information.

At Worcester, Mass., Denholm & McKay Company will erect a brick and stone addition to their present block. The cost will be \$15,000. The plans have been prepared by Fuller & Deland.

At St. Louis, Mo., H. Benois will erect a three-story dwelling on Berlin near Euclid street. It will cost \$18,000.—Thomas McKittrick will erect a two-and-a-half-story dwelling, to cost about \$15,000.

At Dayton, Ohio, it is reported that an ordinance has been passed by city council providing for the construction of a new central passenger station. It is said that the railway company is willing to accept the terms of the ordinance.

At Kansas City, Kansas, a charter has been granted to the Kansas City, Lawrence, & Topeka Electric Railway and Power Company with a capital of \$3,000,000. The purpose of the company is the construction of an electric railway between Kansas City and Topeka.

At Columbus, O., David Tiebel, Schlee and Kemmler Building, has made plans for a handsome school building to be erected by the Board of Education at a cost of about \$60,000. It will be of brick, with trimmings of stone, slate roof, galvanized iron cornices, iron fence, fine school furniture, sanitary plumbing, etc.

At New York, plans have been prepared by McKim, Mead & White for the proposed Union Club house to be erected on Fifty-fourth street and Fifth Avenue. The estimated cost is about \$1,000,000.—The Board of Estimates has appropriated \$125,000 for additions and alterations to Bellevue Hospital and for buildings on the islands.—The bids for the construction of the Hall of Records were opened not long since and the contract was awarded to John Pierce at his bid of \$1,997,000.—The contract for the projected museum building and power house, stable and closet groups was awarded to John H. Parker Co., No. 257 Broadway, at \$347,019.—The Commissioner of Street Improvements of the 23d and 24th wards has plans in progress for a bridge over Mott Haven canal, at 135th street, to cost \$70,000, and a viaduct over the Mott Haven R. R. yards to cost about \$150,000.—The plans for the horticultural building in Bronx Park have been filed by Lord & Burnham. The plans call for a one-story brick, stone and iron structure, 52 x 225 feet, to cost about \$200,000.—W. E. D. Stokes is to erect a fashionable hotel on the West Side, and plans for the structure have been filed. The proposed building is to be fourteen stories high, of brick, and situated at Seventy-third street and the Boulevard. The cost will be about \$300,000.—William Ebling, 760 St. Ann avenue, will erect a two and a half story frame and stone dwelling at 163d and Prospect avenue, to cost about \$35,000. The plans have been prepared by M. J. Garom, 3311 Third avenue.—Wm. J. Casey, 110 West One-hundred-and-fifth street, will erect four five-story dwellings on One-hundred-and-seventh street, near West End avenue, from plans prepared by Neville &

Bagge, 217 West One-hundred-and-twenty-fifth street.—Louis W. Dinkelspiel, 30 Broad street, has had plans drawn by Werner & Windolph, 93 Liberty street, for a three-story building, to cost \$100,000.—Archibald D. Russell, 55 Liberty street, will erect a building for mercantile purposes, to cost about \$30,000.—T. Mahoney & Sons, 156 Fifth avenue, were the lowest bidders for the new school building, No. 170, at One-hundred-and-fifteenth and One-hundred-and-twelfth streets, between Fifth and Lenox avenues. Their bid was \$285,000.—The contract for constructing the viaduct extension of Riverside drive has been awarded to O'Brien, Sheehan & McBean for \$370,019. The work must be finished in four hundred days.—Carrere & Hastings, 44 Broadway, have made plans for a fine dwelling to be erected for Walter Jennings, care Standard Oil Company, 26 Broadway, N. Y. It will be erected at Cold Spring Harbor; will probably be of stone, and will cost about \$100,000.

**Wants.**

At Atlanta, Ga., proposals will be received until January 11th for the construction of a brick area way. Address, R. H. Porter clerk of the board of commissioners.

At Fort Washington, Maryland, sealed proposals will be received until January 27th for sinking an artesian well at that post. Address Lawrence Neller, Q. M.

At Norristown, Pa., proposals will be received until January 14th for the construction of sanitary sewers on Powell and Main streets. The amount of sewers will be about 4500 lineal feet of salt-glazed fire clay pipe. Address P. Frank Hunter, chairman of sewer committee.

At Newark, N. J., proposals will be received until January 10th for Telford paving on Walnut street, in the Township of Livingston and on Franklin avenue, in the Townships of Bloomfield and Bellville. Address Thomas McGowan, director, 300 Broad street, Newark, N. J.

At Cranford, N. J., bids will be received until January 12th for the erection of two brick school houses. Plans, specifications, etc., may be obtained at the office of the architects, Messrs. Ackermann & Ross, No. 156 Fifth avenue, New York City. Address the committee, James W. Ferguson, Robert C. Plume and Eugene W. Austin.

**Judgments****PHILADELPHIA****ABBREVIATIONS.**

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.  
The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term, and S, for September Term.

S. F.—Sicre Facias, to revive judgment.

A star (\*) denotes judgment confessed or bond and warrant conditioned.

## Architect Notes.

Otto C. Wolf, architect, 1345 Arch street, is engaged on plans for a brewery plant to be erected at Harrisburg, Pa., for George Daney, of that place. It is to be three stories and basement, of brick, iron and stone, also on interior will contain electric work, plumbing, piping and general fixtures for the business of brewing, etc.

Stearns & Castor, architects, Stephen Girard Building, Twelfth above Chestnut street, are engaged in a number of plans for single residences and one or two of a public character, some of which have been noted before in these columns. Also for a sea shore cottage, to contain all modern comforts, which will be noted later.

Wilson R. Kerr, architect, 723 Walnut street, has completed all plans for an operation of dwellings at Angora, and expects to start work at an early day. Contracts on the masonry have been let and the rest will be considered as required. The materials will be brick, stone trimming and best interior comforts and accommodations.

Mantle Fielding, architect, 110 South Fourth street, has completed plans for alterations to a building at 54 N. Fourth street for Mr. F. J. Firth. The work consists of masonry, carpenter work, painting, plumbing, heating, fire escapes and elevator lift, etc. Estimates are being made in office of George F. Payne & Co., 401 South Juniper street, and other contractors.

Milligan & Webber, architects, 520 Walnut street, have completed plans for the rebuilding of 731-33 Arch street, for J. Baxter, owner. It will be of iron frame, and fancy brick front, stone trimmings, and 40 feet x 120 feet, six stories high, steam power and heat, electric work, plumbing, elevators and lifts, slag roof, boilers and engines and general comforts and improvements. Estimates are being made.

Isaac Pursell, architect, 119 South Fourth street, is making drawings for a bank building at Chester, Pa. These are preliminary, and if it be erected as designed, the material will be fancy brick, stone trimmings, two stories and a basement. Steam heat, electric work, grille work of iron and brass, wire screens, plumbing, tile and marble work. J. F. Black is the president of the bank, and the cost will be about \$30,000.

Arnold H. Moses, architect, 419 Walnut street, has made plans for twenty-four dwellings to be erected in West Philadelphia by William Price, owner and builder. These are of brick, stone trimmings, hot air heat, ranges and boilers, all the latest and best comforts and conveniences on interior. Mr. Moses is also engaged on plans for an alteration to a stone building, name of owner and location withheld for the present.

T. Frank Miller, architect, 1219 Arch street, is making plans for a fine two-story residence, to be erected at Ashbourne, Pa. It will be of stone; slate roof, hard wood interior, steam heat, electric work, wood mantle's and every modern comfort and convenience. Also plans for alterations to the factory of Charles Enu Johnson & Co., at Tenth and Lombard. Mr. Miller is engaged on other drawings for quite a number of other jobs which we shall note in future.

The prospectus of details for drawing plans competitive for the University of California are in the hands of A. J. Boyden, Secretary of the Philadelphia Chapter of Institute of Architects, 413 Walnut street, in this city. Mrs. Phoebe A. Hearst, widow of Senator Hearst, is at the head of the movement to erect the University of California, for which more than \$5,000,000 have been subscribed. Architects all over the United States will be asked to compete.

Rankin and Kellogg, architects, 1024 Walnut street, have completed plans for a house to be erected for Morris Hecksher, at Bryn Mawr, Pa.; also for a stable for the same owner, and bids are being taken by A. L. Fretz, of Cynwyd, Pa., and Wm. Gray, Rosemont, Pa. The house will be a large one, 55 feet x 70 feet, three stories, gray stone, slate and tile roofing, steam heat, hard woods on interior, mantels, tile work, leaded glass and plate, ranges, boilers, etc. The stable will be 40 feet x 60 feet, two stories high. Same material as house and fitted with all conveniences.

Willis G. Hale and H. E. Flower, architects, of this city, have made drawings and specifications for a large operation of dwellings to be erected at Overbrook Heights, Sixty-third street and Landsdowne avenue. In all, there will be one hundred and thirty-two houses, with yards in front, and spaces between the pairs, and will front on Jefferson, Gross, Sixty-third and Sixty-fourth streets. Stone coping around the fronts, slate and Spanish tile roofs, interiors in hard woods, stationary wardrobes and washstands, china closets, electric work, hot air heating. Florey & Bevan are the builders and contractors, and work will be started without delay. This site overlooks the entire city.

P. P. Elkinton, architect, 211 South Sixth street, Philadelphia, reports that the contract for the Lyric Theatre, at Fortieth & Lancaster avenue, has been awarded to Andrew Breslin, of Summit Hill, Pa. All sub-contracts must be submitted to, and are to pass the approval of the architect, P. P. Elkinton, 211 South Sixth street, Philadelphia. The contract price is \$96,000, and, with the cost of the ground and scenery, makes the enterprise cost \$150,000. The seating capacity of said theatre will be fifteen hundred. The theatre property is

owned by Charles Arthur, of Philadelphia, and is to be operated by a stock company. Under the terms of the contract the house will be open for business September 1, 1898. The said theatre is to be first class, and especially a family resort, entirely fire proof throughout, and is to be constructed on the best lines, with all of the facilities for the comfort of its patrons, and will be fitted with reception rooms, smoking rooms, libraries, returning rooms, etc., etc., and all in the most complete and modern manner. The architect of this building is also manager and supervising engineer of Larchmont Park and Land Development Company, of Camden county, New Jersey, twelve miles from Philadelphia, which is a modern amusement resort, especially devoted to cycling and athletic interests, and will be under the control of said architect and manager, where the stock of the company can be had on application as well as all particulars relating thereto.

## Building and Real Estate Notes.

Another set of plans are being prepared for alteration and addition to 38 South Broad street, "The Keg." These will consist of a new and higher front, with a one-story addition in the rear. Former plans, as well as the present ones, prepared by Joseph M. Huston, Provident Life Building.

Charles B. Prettyman, builder, Betz Building, will erect nine three-story houses of brownstone and brick, at Broad and Jackson streets. These are to have hot air or steam heating, electric work, marble and tile work, slate and tin roofing, plate and leaded glass, and all modern accommodations, etc.

F. A. Hartman, real estate broker, 4333 Germantown avenue, has bought for George Kelly a property at Front and Norris streets, to be altered into a business house. It will be made four stories high and fitted up for the instalment business, and include store fixtures, heat plant, electric work, etc.

H. B. Sire, proprietor of the Bijou Theatre, of New York City, intends to build a theatre at Broadway and Forty first street. The work will not be started before Spring months of this year, and pushed to completion by October. It is to be highly ornamental in design and fireproof throughout. Details later.

The Woman's Homeopathic Hospital, at Eighth and Spruce streets, has bought additional property on south side of Spruce, below Eighth street, 25 feet x 250 feet, at a cost of \$12,000, and the directors and committee in charge intend to erect a new building as soon as funds can be secured. No architect has been retained or contracts let. It will be of brick, stone and iron, and will have all modern conveniences.

### The New Figures of the *Ætna Insurance Company*.

The average mortal takes but little interest in figures. With the business man they have a wonderful influence, for, besides expressing the meaning of quantities and the solution of business problems, it takes but a few of them to emphasize strength, ability and security in a way more assertive than could be done through pages of attractive reading.

Figures really represent a boiling down of the whole question to a point which leaves room for little more than verification, which seldom follows unless their correctness is questioned. This leads us up to the new figures which were presented for the first time in our last issue in the advertisement of the *Ætna Insurance Company*, of Hartford, Conn., of which Mr. Edward J. Durban, 406 Walnut Street, Philadelphia, is the resident manager.

To start with, the cash capital of the *Ætna*, which was incorporated in 1819, is \$4,000,000.00. Its assets on January 1st, 1898, amounted to \$12,089,089.00. Its net surplus is \$4,433,719.36, and its surplus as to policy holders is \$5,433,719.36, and in the seventy-nine years of its existence it has paid losses amounting to \$81,125,621.50.

It is very evident, from the above figures, that the essence of security itself is associated with every policy of insurance issued by this company, and it would indeed be a far reaching disaster that would in the slightest manner impair the financial standing of this old and well tried friend of the people, whose mettle has been tested in so many instances since its organization that it is now regarded as invulnerable.

The company is making a specialty of per petual fire insurance, and this branch of its business is being pushed in this section by Mr. Durban with splendid results.

### The Statement of the Northern Saving Fund.

The statement of the Northern Saving Fund, Safe Deposit and Trust Company appears in this issue.

There is an evidence of unqualified strength in a list of assets which foot up a market value of \$3,846,183.15, and while the capital stock of this old company is only \$500,000.00, its surplus is \$350,000.00, or seventy per cent. of the capital stock.

This of course expresses an extraordinary degree of managerial capacity, as well as rare discrimination as to the character of the investment selected.

It must be understood that advantages of location have nothing to do with the success of the Northern Savings Fund, for, while it maintains all of its former prestige as a fiduciary institution, it is difficult to estimate how great its success might have been if it enjoyed a few of the many advantages daily derived from being located upon the downtown thoroughfares.

The assets of the Northern are exclusive of its trust funds and trust investments, as these are kept entirely separate.

Mr. W. Frederick Snyder is the president, and Horace B. Pearson, secretary and treasurer.

### The Equitable Trust.

The Equitable Trust Company, of which William F. Harity is president, and which began business on January 8, 1890, has just declared its thirteenth semi-annual dividend, amounting to \$1.50 per share (six per cent per annum), payable on February 1, 1898, free of all taxes.

The surplus and undivided profits of the company now amount to \$300,562.56, after deducting the dividend due February 1, 1898. On December 31 the total deposits with the company amounted to \$3,064,614.94, and the cash on hand and in banks amounted to \$1,072,623.96.

The following comparative statement, showing the increase of business, indicates the successful management of the company's affairs and the degree of confidence which the community has in the company:

Date	Total No. of Deposit Acts	Total Deposits	Bal. Fund and Und. Profits
Dec. 31, 1890.....	658	\$32,949.95	\$25,515.70
Dec. 31, 1891.....	980	946,150.59	68,458.59
Dec. 31, 1892.....	1292	1,345,719.47	85,280.10
Dec. 31, 1893.....	1517	1,525,013.25	135,770.74
Dec. 31, 1894.....	2023	2,112,968.23	169,316.56
Dec. 31, 1895.....	2197	2,483,268.19	214,291.00
Dec. 31, 1896.....	2486	2,414,047.26	277,463.86
Dec. 31, 1897.....	2961	3,064,614.94	300,562.56

### Removal of the McAllister Optical Company to 1113 Chestnut Street.

Skill and efficiency are worthy of commendation at all times. The everlasting question of expense, always associated with the services of an oculist, frequently deprives persons, whose vision is seriously affected, of the glasses needed to correct and improve the sight.

As the head of the McAllister Optical Company, Mr. C. Huber has gained an extended popularity through his knowledge of the sci-

ence of optics and his ability to make a perfect examination of the eye without the aid of an oculist. This enables his customers to secure the proper spectacles or eye-glasses at the actual retail price of glasses, without a charge for professional services.

The McAllister Optical Company has removed to 1113 Chestnut street.

### Building and Real Estate Notes.

John Duncan, contractor, 920 Walnut street below Market, is making general estimates on the alteration of building, 116 Dock street, for private parties. These will include brick and iron work as well as general interior.

Fire damaged the residence of Mrs. Hannah Horton, No. 130 Pelham road, Germantown, last week to the extent of \$2,000 on the building, and furniture about \$2,500, all of which will be replaced at once.

The Pennsylvania R. R. intends to erect a large fish market between the piers 14 and 16, South Wharves, 68 feet x 253 feet of floor surface also on pier 17 an extension for an oyster market. The work will be done by Printenhoff & Armstrong, contractors.

It is understood that the Wayne Cycling Club, of Wayne, Del. Co., Pa., is endeavoring to purchase a lot near the Baptist Church for the erection of a club house, and Mr. Silas Dick, a member, has the matter in charge, and A. J. Snyder, another member, who is an architect, has made preliminary plans for the project.

Stacy Reeves & Sons, contractor, 1611 Filbert street, will build the new stores of Strawbridge & Clothier, 817 to 823 Market street, for which Addison Hutton, architect, made the plans, and which have been fully noted in these columns. The front is to be of terra cotta and interior fireproof, fitted with electric work, etc.

William Murphy, contractor, 263 South Tenth street, is figuring on plans for a building for the Anhauser-Busch Brewing Company, of St. Louis, Mo., to be erected at Ninth and Girard avenue, in this city. It will be 120 feet x 100 feet, two stories high, brick and iron, and contain bottling department, stable, etc.

Andrew Breslin, contractor, of Summit Hill, will be the builder of the Lyric Theatre, at Fortieth street and Lancaster avenue, and the structure will cost \$66,000, with a seating capacity for 1500 persons. The owner is Mr. Charles Arthur. Interior will contain all modern conveniences and improvements for theatrical work. A full description of material, etc., has been given in these columns in previous issue.

It is altogether likely that early Spring of 1898 will find on boards of general contractors the drawings for the superstructure of the new U. S. Mint in this city. The foundation work, under supervision of Allen B. Rorke, is fast approaching completion, and as there is sufficient balance of cash ready to warrant a start upon the upper floors, the Supervising Architect of the Treasury Department will not be handicapped in that direction.

TRUSTS. TITLES. DEPOSITS.

Beautiful Sea Shells

Every one admires them. Since coming south I have received numerous inquiries from northern people for sea shells, and now I am prepared to answer yes, I can send you shells, for I have made quite a collection of lovely shells, both from our own coast, the coral reefs, and some beautiful ones from the West India Islands. I will mail a dozen or more different kinds, no two alike, to any one who sends a stamp for postage. Also send you a lovely piece of white branch coral.

Yours, MRS. F. A. WARNER,  
Jacksonville, Fla.

The property at the northeast corner Broad and South streets, 22 feet on Broad street, and 77 feet on South street, was sold January 4th, at auction, for \$50,000.

A. G. Colom, brick manufacturer, will rebuild his plant at Germantown, recently destroyed by fire, and will require entirely new machinery, driers, kilns, boilers, engines, etc.

In a few days, at least, the plans for the Capitol Building, at Harrisburg, Pa., will likely be ready for estimates, as indicated by this journal a short time ago. Mr. Cobb, the architect, is bending all his energies in this direction.

A. Raymond Raff, contractor, 1335 Thompson street, has drawings on estimating boards for alteration to the offices of H. F. Badmann & Co., at Fifth and Library streets. All modern conveniences will be introduced, heat, electric work and plumbing, etc.

Plans for the new office building at 1416-18 Chestnut street are being prepared by three firms of architects in this city. These are competitive and as soon as a decision has been reached by the representative of the Chicago syndicate of capitalists here we shall announce the same, and all material and general details. The selection will be made at an early day and work started in the Spring months.

J. L. Taylor, contractor, of Chester, Pa., is taking bids on plastering, papering, and painting, ranges, hot water boilers, etc., for a residence to be erected at Ninth and Barclay streets, for Mr. Abrams, of that place. Also on a house to be erected for Mr. Bokers, of Chester, Pa. It will be three stories high, stone and brick, electric work, hot-air heating, slate roof, plate glass, etc. In the same place J. Jackson & Son, 1006 Kewlin street, are receiving estimates on five dwellings to be erected at Chester, Pa., for Mrs. H. E. Greene. These are to be of brick and stone, three stories high, hot air heat, ranges, plate glass, electric work, hard-wood mantels, slate roof, tiling, and general conveniences on interior.

#### Through Pennsylvania.

*When any of the following are not post office towns they will be so designated.*

—At Eddystone, Delaware county, the public school building was damaged not long since to the extent of \$1,000.

—At Bingen, Northampton county, the Willow Glen hotel was destroyed by fire last week. The estimated loss is \$6000.

—At Norristown, Montgomery county, Lewis E. Sanbet has bought ground and will erect a hosiery factory to employ 250 hands.

—At Mount Carmel, Northumberland county, the Commercial Hotel, at Third and Oak streets, was destroyed by fire a few days since.

—At Tarentum, Allegheny county, fire destroyed the Presbyterian Church and the pastor's study last week. The estimated loss is about \$15,000.

—At Safe Harbor, Lancaster county, the saw mill, barn, and flouring mill belonging to Woodman Bros. was destroyed by fire last week, at a loss of \$15,000.

—At Fernwood, Delaware county, William Connors has been awarded the contract for the erection of six dwellings to occupy sites on Kelley street. The owner is Con. Ward.

—At Royersford, Montgomery county, ground has been leased by the Alpha Paint and Mineral Company, of Custer Station, whose plant was destroyed by fire; a number of new buildings will be erected.

—At Milesburg, Center county, recently, fire destroyed the town hall, a livery stable, two stores, a residence and a carriage factory. The estimated loss is \$20,000, on which there is an insurance of \$6000.

—At Sharon, Mercer county, it is probable that at an election to be held in March the question of water works will be submitted to the vote of the people. A. L. Vickers, recorder, can give additional information.

—At Marysville, Perry county, a company, to be known as the Marysville Electric Light, Heat and Power Company, has been incorporated with a capital of \$10,000. The incorporators are Henry E. Hess and Joseph U. Beers, of Marysville.

—At St. Clair, Schuylkill county, fire last week destroyed the store of M. A. Thomas D. Griffith, loss \$5,000; dwelling and drug store of H. B. Davis, loss \$5,000; dwelling and notion store of W. J. Warren, loss \$4,000; dwelling and store of J. W. McCarthy, loss \$5,000.

—At Boyertown, Berks county, at a recent meeting of the town council, it was decided to increase the indebtedness of the town to the amount of \$35,000. The money will be used to construct new water works. The restaurant and dwelling recently bought by H. E. Nuse will be converted into a hotel.

—At Carnegie, Allegheny county, a charter has been granted to the Carnegie, Oakdale, and McDonald Street Railway Company, the purpose being the construction of an electric railway from the present terminus of the road at West End, Pittsburgh, to McDonald. The capital is \$60,000. William J. Steen is president of the company.

—At Lancaster, Lancaster county, at a recent meeting of the board of directors of the Y. M. C. A., it was decided to begin the erection of the new building for the association about the first of April. The plans are being prepared by C. Emilen Urban, of Lancaster, and call for a handsome building, to be erected at a cost of about \$50,000.

—At Aspinwall, Allegheny county, W. R. Smith, clerk of council, has reported that the recent election resulted in favor of issuing the bonds to the amount of \$35,000. The proceeds to be used for the purchase of the water system of the Aspinwall Water Company, the Lighting Plant of the Aspinwall Electric Company, and the improvement of the same.

—At West Chester, Chester county, it is quite probable that work will be begun in a short time on the proposed trolley line between West Chester and Newtown Square. Nearly all of the owners of property along the route have given their consent. Those interested are Messrs. Frank Green, Davis Garrett, Mr. Ashbridge, Engineer Cooper, and others.

—At Tamaqua, Schuylkill county, the Philadelphia and Reading Railway Company, through its agent, Mr. Eiers, has bought eighty acres of ground about one mile from Tamaqua. A large force of men will be set to work to change the course of the Schuylkill river, removing the culm in that vicinity, and the construction of an immense park will be begun.

—At Pittsburg, it is reported that the contract for the erection of the new Liberty Market house, East End, has been awarded to George Hogg for \$130,000. James R. Mellon, President of the Board of Directors. Director E. M. Bigelow in his annual report has asked for \$334,000 for improving the streets and sewers, and \$189,000 for repaving, also \$620,000 for bridges.

—At Chester, Delaware county, a meeting will be held shortly to consider the subject of the erection of an addition to the present armory building. If this is done the proposed improvement will be of stone and brick to conform with the present building. Major Washbaugh, 506 Market street, and Major Campbell, Third and Market streets, are on the committee and can give information.

—At Reading, Berks county, it is stated that the Little Schuylkill, a branch of the Philadelphia and Reading Railroad in the coal region, will be double tracked between Dreherstown and Tamaqua and East Mahanoy tunnel, and subsequently from Port Clinton to Mahanoy City.

This will require the construction of about forty miles of railroad. It is also said that the question is being considered of tunneling Broad Mountain for a distance of four miles.

—At Media, Delaware county, at a special meeting of the borough council it was decided to allow the matter of borrowing money to construct a sewerage system and to increase the water supply to go to the vote of the people at the coming Spring election. A provision was made that the amount should not exceed \$45,000. The plans for a sewerage system have been made, the drainage to be into lower Ridley Creek. The estimated cost is \$38,000.

—At the last meeting of the Water Committee these recommendations were made: Additions to the present building of steam driven pump, with daily capacity of 800,000 gallons; one pump Corliss engine to operate the same of not less than seventy-five horse-power, additional boilers, stand pipe, etc., etc. The estimated cost of the improvements is \$12,000. E. W. Minster, ex-Prothonotary, can give information.

—At West Chester, Chester county, in a few weeks the plans for the proposed new insane asylum will be submitted to the county commissioners for approval, by the architects, Baker & Dallett, of Philadelphia, who are making them. Director J. Preston Thomas has returned from Baltimore and other places where he has been inspecting various asylums for points to be used in the construction and equipment of the proposed asylum. Bids will be asked for when the plans are ready.

#### Through New Jersey.

At Elizabeth, Union county, the ordinance providing for the construction of a sewer in Westminster avenue has passed second reading.

At Montclair, Essex county, the U. S. Printing Company will erect a brick addition to its present building, to cost about \$3,000. The plans have been prepared by Jesse H. Lockwood.

At Plainfield, Union county, Donald McInnes will erect a two-and-a-half-story frame dwelling and store at the northwest corner of Monroe and West Twenty-second street, to cost about \$3,000.

At Rahway, Union county, the trustees of Trinity M. E. Church have arranged for the erection of a two-and-a-half-story frame dwelling, to cost \$1,000. The plans have been prepared by William L. Ryno.

At Nutley, Essex county, a handsome two-and-a-half-story frame dwelling will be erected on Chestnut street, near Whitford avenue, by C. F. Badger, from plans prepared by Chas. B. Waterman, of Passaic, N. J. It will be finely finished and will cost about \$4,000.

At Newark, a proposition is under consideration to improve the water system, and it is said that in a short time recommendation will be made to the Board of Works by Commissioner Harrison Van Dyne and Engineer Morris R. Sherred for the purchase of a reservoir site and the construction of a large reservoir.

At Atlantic City, the Hotel Leland, at the ocean end of Massachusetts avenue, was damaged by fire to the extent of some thousands of dollars last week. Much of the furniture and carpets were ruined. The building is owned by Mrs. Mary Wootton, and leased during the Summer by Samuel Wagner & Son.

At Elizabeth, Union county, Elizabeth A. and Mary E. Whitaker will erect four two-and-a-half-story brick dwellings on Florida street. The cost will be about \$3,000. J. A. Oakley & Son have prepared the plans. The same architects have made plans for alterations to building owned by James Brokaw, to cost about \$3,500.

At Bridgeton, Cumberland county, at a recent meeting of City Council, the application of the Bridgeton & Millville Traction

Company for a franchise to extend its tracks to the city limits on South avenue was granted. Application will be made to the Fairfield Township Committee for a franchise to extend the track to Fairton.

At Bernardville, Somerset county, a two and a-half-story frame dwelling will be erected by Flora Howlett, of Basking Ridge, N. J.—Louis Obert will erect a two-and-a-half frame dwelling, to cost \$2,000, from plans prepared by A. R. Ritter, of Morristown, N. J.—F. MacKenzie will erect a two-and-a-half story frame dwelling, to cost about \$2,000.

At Atlantic City, the West Jersey Railroad Company is considering the question of the erection of a steel bridge to cross the thoroughfare to replace the present structure. It is the intention to have it double-tracked, to correspond in construction with the new track which is under construction between Absecon and Camden, on the Camden and Atlantic division of the road.

At Newark, J. O'Rourke & Sons have made the plans for the brick training stable and veterinary hospital for the Newark Fire Department.—Mrs. Mary L. Eagles will erect a two-and-a-half story frame dwelling, to cost \$3,500, from plans prepared by J. C. Eagles.—Henry Bride will erect a new store frame building, to be fitted up as a store and apartment house. It will cost about \$3,000.

At Passaic, Passaic county, John Szakaek will erect a brick building, to be fitted up as an apartment house. The cost will be about \$1,000.—Lavens Kent will erect five two-story brick dwellings, to cost \$7,500, also a two-and-a-half-story frame dwelling, on Lafayette avenue, to cost \$5,000. The plans have been prepared by Herman Fritz. It will be finely furnished and provided with all modern improvements.

At Cranford, Union county, H. B. Ham has prepared plans for a two-and-a-half-story frame dwelling, to be erected on Fairview Manor for Elsie Muckler. The estimated cost is \$3,000.

—J. A. Oakley & Son, East Broad street, Elizabeth, N. J., have prepared plans for a two-story frame shop and dwelling, to be erected for Hannah E. Randolph, of Morris avenue, Elizabeth, N. J. It will cost \$2,500. The same architects have made plans for the addition to the Chronicle building, now in course of erection.

At Asbury Park, Monmouth county, the congregation of the First Presbyterian Church has in consideration the purchase of a pipe organ, to cost about \$2,500. The committee is composed of the pastor, Rev. A. G. Bale, William E. Harrison and Harry Smock, of the Board of Trustees.—A. M. Cornelius and Mrs. C. A. Aumock have had plans drawn for a three-story brick building, to be fitted up as stores. It will occupy a site on the east side of TenBroeck's market. There will be stores, each provided with a plate glass front and fine interior fittings. The upper floors will be filled up as offices.

At Westfield, Union county, James O. Clark will erect a two-and-a-half-story frame dwelling, from plans prepared by O. S. Peale, No. 30 Broadway, N. Y. It will be well finished and will cost \$2,500.—Chas. Taylor has made plans for two two-and-a-half-story frame dwellings for Hiram L. Fink and James T. Uroo, respectively. They will be well finished, provided with modern comforts and conveniences, and will cost about \$3,500 each.—Miss Ida Fink will erect an attractive two-and-a-half-story frame dwelling on Mountain avenue. It will be finely furnished, provided with all modern improvements, and will cost about \$1,000.

At West Orange, Essex county, Mrs. Maria Harding Farr will have extensive alterations and additions made to her present dwelling on Mountain Ridge, from plans prepared by Joseph F. Gasner, care P. B. Fairchild Co., Orange, N. J.

At Patterson, Passaic county, a handsome dwelling will be erected by James Donnelly. It will be two and one-half stories, of frame, fine interior finish, sanitary plumbing, tile work, plain and ornamental glass, and all modern conveniences and improvements. The plans have been prepared by F. M. Wentworth. The estimated cost is \$12,000.—Gus av Blint will erect a frame building, to be fitted up as an apartment house. It will cost about \$4000.—W. T. Gutherson has prepared plans for a large addition to the mill of John Boyle & Sons. It will be three stories high, of brick and fitted up with the necessary fittings and will cost \$15,000.—J. H. Post has prepared plans for a brick addition to the silk mill of the Mellor Manufacturing Company. It will cost about \$4,000.—Henry Van Haeste will erect a dwelling to cost \$2000 from plans prepared by John Gerry.—Henry Gordon will make alterations and additions to the two-story store and apartment house at 21 West street from plans prepared by Chas. E. Sleight. These improvements will cost about \$2500.—James de Baum has prepared plans for a two-story and attic frame double dwelling to be erected on Governor street near Graham avenue for James A. Flannigan at a cost of about \$2500.—Samuel Magill will erect a dwelling and store to cost \$4000 from plans prepared by Gilbert Garrabrant.—J. H. Post has made plans for additions and interior alterations to the properties at 298 and 303 Main street, owned by F. C. Van Dyk. The estimated cost of the improvements is \$2,000.

#### Through Delaware.

At Newark, New Castle county, at a recent meeting of the school voters, it was decided to borrow \$5000 to erect an addition to the present building.

At Wilmington, Olivet Presbyterian Church was damaged to the extent of several hundred dollars by the bursting of a water pipe. The Wilmington Abattoir and Cold Storage Company will make improvements to cost about \$4000.

#### Through Maryland.

At Baltimore, Charles B. Burdett will erect fourteen two-story brick dwellings on the east side of Port street, between Preston and Hoffman streets. Arrangements have been made by William J. Clendinen to erect six two-story dwellings on Hoffman Place, between Ann and Register streets.—A. L. Wilson will erect six similar dwellings on the west side of Allen street, between Port avenue and Clement street.—J. W. Sindall will erect six two-story frame dwellings on Franklin Terrace, between Old York Road and York Road Pike.—A large building operation will soon begin consisting of the erection of fifty two-story dwellings on the east and west sides of Hampden avenue, between Twenty-sixth and Twenty-seventh streets. They will be of brick, well finished

and supplied with all modern conveniences. The owner is Frank L. Lewis.—A two-story brick stable will be erected by He man Lentz, at 1009 Booth street.—George A. Mueller has arranged for the erection of fifteen two-story brick dwellings at the southeast corner of Beas n and Richardson streets

#### Washington, D. C.

The House Committee on Appropriations has received a communication from the District Commissioners submitting additional estimates of appropriation. \$54,000 is asked for the Western High School now in course of erection—\$33,000 to be used on the erection; \$15,000 for equipment and \$6,000 for grading and paving. The Commissioners have also submitted their report on the proposed extension of the line of the Metropolitan Railroad from Ninth street and Florida avenue, and also from Eighteenth street extended and Columbia road.—The District Commissioners have submitted to the Secretary of the Treasury, the draft of a bill proposing the issuance by the District, of bonds to the amount of \$3,500,000. The proceeds to be used to provide a complete system of sewage disposal.—The Board of Trade Committee has prepared a bill relating to the extension of the plan of the city of Washington over the District of Columbia. In this bill provision is made for an issue of bonds to the amount of \$4,000,000.—The Treasury Department has awarded the contract for putting in electric wire conduits and wires for the new electric plant of the City Post Office to the Southern Electric Company of Baltimore, for \$20,650.—The Commissioners of the District in answer to a circular sent out September last, received five designs from three well known architects for the proposed bridge to cross Rock creek on the line of Connecticut avenue extended. The cost of design A, in granite, is estimated at \$1,059,300; in sandstone, \$903,000, in concrete, \$675,000. B, in granite, \$859,200; in concrete, \$725,192. D, in granite, \$574,765. The selection of one of these designs will be made in a short time and contracts awarded for the construction. Each competitor will receive a prize. The first will be \$800; the second, \$500, and the third, \$400.—It is reported that a magnificent hotel will be erected in Washington, similar to the Waldorf in New York.—A favorable report has been ordered on Senate bill, No. 918, to authorize the completion of the aqueduct tunnel, also the bill to allow the Glen Echo Railway Company to construct tracks in the District, 600 feet.—The congregation of the New York avenue Presbyterian Society is considering the erection of a new church, either on the site of the present building at the intersection of H street and New York avenue, or on a site farther to the north-west.—The Secretary of the Treasury has recommended to Congress the use of the reservation at the intersection of Ohio and Louisiana avenues, between Tenth and Twelfth streets, as a site for the proposed Hall of Records.—Robert Head has prepared plans for a dwelling to be erected in Cleveland Park. It will be two stories high, of wood and stone; balconies, bay windows and porches will be features. It will be finely finished on the interior, considerable tile work, plain and ornamental glass, electric lighting and all modern conveniences. The same architect has prepared plans for an addition to the Infants' Summer Home at Berwyn, Maryland. This improvement will be three stories high, 40 feet x 45 feet, and conveniently fitted up for the intended purpose.—I. S. Lee will erect a two-story frame dwelling at Douglass avenue and Benning road.—C. L. Harding has prepared plans for seven dwellings to be erected in Cook Park, Georgetown. They will be two stories high, of brick and stone, fine interior

finish and will be provided with modern conveniences and improvements. H. B. Blair has made arrangements for the erection of a three-story brick dwelling to occupy a site on Sixteenth street. It will be well finished and all modern comforts provided. It is understood that in a short time a bill will be introduced in Congress, on behalf of the Pennsylvania Railroad, to carry into effect the proposed abolishment of grade crossings in the city of Washington. A bill will be introduced later on behalf of the Baltimore and Ohio Railroad.—The lowest bid received for the proposed erection of an annex to the Peabody School building was that of Baldwin & Peake for \$25,409.

#### Sales at Auction.

SOLD AT THE PHILADELPHIA BOURSE ON TUESDAY, JANUARY 4, 1893

Northeast corner Broad and South streets, three-and-a-half story brick dwelling, lot 22 x 77 feet 3 inches, \$50,000

#### Wants.

At Columbus, Indiana, sealed proposals will be received until January 31 for the construction of about 14,000 square yards of asphalt pavement and 5,500 lined feet of cement curbing and gutter on Washington, Fourth and Fifth streets. W. H. Rights, city civil engineer, or J. W. Snivierup, city clerk, can give additional information.

At Cleveland, O., bids are wanted until February 2d for furnishing and delivering cast iron water pipe and special casting required during the year 1893, by the water works division of Department of Public Works, Geo. R. Warden, Director of Public Works, has the matter in charge.

At Jersey City, N. J., bids will be received until February 23d, for furnishing a new water supply of filtered water. The approximate estimate of water required is 20,000,000 gallons a day for the first year, and for the succeeding years an increase of 3 per cent. per annum. George T. Bouton, clerk of the Board of Street and Water Commissioners, can give additional information.

#### Miscellaneous.

At Vinton, Iowa, a new school building will be erected at a cost of \$20,000.

At Tarrytown, N. Y., the State Board of Health has approved plans for a sewerage system.

At Alexandria, Va., it is probable that King street will be repaved. The estimated cost is about \$23,000.

At Mystic, Conn., it is reported that an electric light plant will be erected. The Board of Trade is interested.

At Ames, Iowa, it is said that the North Western Railroad Company will erect a new depot to cost about \$30,000.

At Wallington, Conn., Davis & Brooks, of New Britain, Conn., have prepared plans for the proposed Masonic hospital.

At Houston, Texas, the International and Great Northern Railway Company will erect a handsome station to cost about \$300,000.

At New Orleans, La., at a recent meeting City Council passed an ordinance appropriating \$35,000 to be used in paving Canal street with asphalt.

At Cambridge, Mass., at a recent meeting of the Board of Aldermen, it was decided to appropriate \$150,000 for the erection of a new school building.

At Atlanta, Ga., in his annual report, Superintendent of Park Woodward recommended an additional battery of three boilers.

At Fort Washington, Md., proposals will be received until January 27th for the construction of one set of non-commissioned staff officers' quarters. Address Lawrence S. Miller, Quartermaster.

At Tomkinsville, N. Y., bids will be received until January 15th for the construction of the sea wall at the U. S. general lighthouse depot, Staten Island. Address Lieut. Colonel D. P. Heap, Corps of Engineers, U. S. A.

At Syracuse, N. Y., sealed proposals will be received until January 15 for a heat regulating system for the new school buildings in the Second, Fourth and Fourteenth wards. Address P. D. Conney, Clerk of Board of Education.

At Omaha, Neb., it is said that sealed proposals will be received until January 25th for the construction of two highway bridges on Twentieth street, in Kountze Park. Address A. P. Tukey, President Park Commissioners.

At Richmond, Va., proposals will be received until January 15th for furnishing five hundred are electric lights of not less than 1,200 candle power, for lighting the streets. Address William F. Knowles, superintendent of the gas works.

and an expenditure of about \$72,000 for new mains.

At Wallingford, Conn., plans prepared by Davis & Brooke, of New Britain, Conn., have been accepted for the new Masonic Hospital, which is to be erected.

At Houston, Texas, a bridge will be erected at Franklin street. It will be one hundred feet steel span on cylinder piers with asphalt wearing surface for floors.

At Memphis, Tenn., it is probable that the city will purchase the present water works and make a number of improvements or take steps toward the construction of new ones.

A Jacksonville, Fla., plans have been prepared by Leon Beaver for the new church, to be erected at Hogan and church streets, by the Union Congregational Society.

At Cincinnati, O., a bill will be introduced in the Legislature to provide for the issue of bonds to the amount of \$300,000, to construct the proposed viaduct over Queen City avenue.

At Cedarhurst, Polk county, Ga., it is said that Mr. George E. Benedict will fit up a forty barrel flour mill in the Spring, and that he will require considerable milling machinery.

At Lynchburg, Va., it is stated that plans are preparing for a city hall to contain all the offices in the city government. Address John J. Ryan, chairman commissioners on buildings.

At Madison, Wis., Perry & Clas have prepared plans for the proposed new intermediate prison at Green Bay. The plans have been approved by the State Board of Control and Governor Scofield.

At Kansas City, Mo., it is reported that local architects have been asked to submit plans before February 1st, for the construction of the proposed convention hall on Central street, near Twelfth.

At St. George, West Virginia, it is said that a new court house will be erected to cost about \$30,000. J. W. Campbell, commissioner, can give information. It is reported that plans are wanted for this structure.

At Dayton, Ohio, it is reported that a new Masonic Temple will be erected in the upper part of the city. H. R. Groneweg, of St. John's Lodge, No. 13, is chairman of the committee having the matter in charge.

At Brooklyn, N. Y., J. Graham Glover has prepared plans for the new Erasmus Hall High School, to be erected on Flatbush avenue, East Broadway and Grant street. The architect's address is 186 Remsen street, Brooklyn.

At Cleveland, Ohio, the Home Building Company will erect a six-story building on Prospect street for the Home Telephone Company. The estimated cost is \$100,000. D. R. Taylor, president; F. M. Stearns, secretary.

At Chicago, Ill., it is stated that N. S. Patton, architect for the Board of Education, has finished plans for a three-story school building to be erected on St. Lawrence avenue and Forty-ninth street at a cost of about \$90,000.

At Saginaw, Mich., the property owners of the West Side have presented a petition for the Court street bridge, and City Engineer Terry has been authorized to prepare plans for such a structure. The estimated cost is \$75,000.

At Toledo, O., it is reported that Fallis & Co. are preparing plans for the hospital and other buildings to be erected at the State Hospital. The Legislature has been asked to appropriate \$139,000 for the proposed improvements.

At Canton, O., the Stark Electric Railway Company has made application for a franchise through the city. The right of way has been secured from Alliance to Canton. The president of the company is R. R. Jacobs, of Pittsburgh, Pa.

At Bessemer City, Gaston county, N. C., the Bessemer City Cotton Mills Company will erect new buildings, and will want machinery

in the Spring. A 150 horse-power steam plant will be required. Mr. J. A. Smith is president of the company.

At Buffalo, N. Y., the contract for the erection of the new armory of the Seventy-fourth Regiment has been awarded to C. Berrieks Sons, of Buffalo, for \$335,585. The structure will be of Medina sand-stone and will be handsomely finished.

At Parkersburg, W. Va., considerable sewer works contemplated, including an extension of a sanitary sewer from the Fourth to the Fifth ward. The profile calls for 4940 feet of twelve-inch sewer, also manholes and light holes. The estimated cost is about \$3,500.

At Cleveland, O., the City Council has authorized the Director of Charities and Correction to advertise for proposals for furnishing and putting in place the plumbing, lighting, heating and ventilating fixtures for the Children's Hospital at the city infirmary.

At Buffalo, N. Y., it is stated that bids will be called for in a short time for the construction of the proposed new building for the Buffalo German Hospital. The structure will be three stories high, of brick, and will occupy a site on Jefferson street near Genesee street.

At Jacksonville, Florida, the Board of Public Works is considering the question of paving Main street, and the following estimates have been prepared by Mr. Prioleau, the city engineer: Brick, \$30,356.89; brick to first street, macadam to Eighth street, \$17,650.66; macadam double roadway, \$18,544.40; single roadway, \$13,260.80; Volusia shell, \$9,918.

At New York, Carrere & Hastings, 44 Broadway, have prepared sketches for a twelve-story building to be erected on Broadway near Twenty-third street.—Rossiter & Wright, 94 Liberty street, have prepared plans for a handsome residence to be erected at 105 East Thirty-fourth street for Charles P. Noyes, of 66 Broadway. It will be four stories high, of brick and Indiana limestone front, marble vestibule, considerable tile work, fine plumbing and electric fixtures, hard wood interior finish, electric lights, and all modern improvements. The estimated cost is \$40,000. The same architects have prepared plans for an attractive summer home, to be erected on Shelter Island for Charles Vane Poor, of Johns Hopkins University, Baltimore, Maryland. It will be two-and-a-half stories, frame construction, hard wood interior finish, handsome gas fixtures. No contracts let. The cost will be about \$9,000.—Alexander Walker, 892 West End avenue, will erect a seven-story building at the Boulevard and Ninety-fourth street, from plans prepared by George F. Pelham, 503 Fifth avenue. It will be of pressed brick with front of stone, hard wood interior finish, electric lights, steam heat, open plumbing, all modern improvements, including elevators. The cost will be about \$150,000.

Thorn & Wilson will prepare plans for ten five-story flats to be erected on the east side of West End avenue between Sixty-ninth and Seventieth streets. Thorn and Wilson's address is 111 Fifth avenue. The owner is Terence Farley's Sons, 253 Columbia avenue.

—Work has begun on the fine apartment house to be erected at the northwest corner of Seventy-third street and Boulevard for E. D. Stokes, Astoria Hotel, and for which John R. Heinechman drew the plans. This structure will be finely finished and provided with every known comfort and convenience. The estimated cost is said to be about \$300,000.

—Work has also begun for the new building for the Germania Bank, 215 Bowery. It will be six stories high, of brick, fine interior finish and all modern improvements. The estimated cost is \$200,000. The plans have been prepared by Robert Maynicke, of W. W. Graham, 1238 Madison avenue, will erect four handsome dwellings on the south side of Eighty-second street near Park avenue. They will be of brick, finely finished, and provided with all modern improvements. The estimated cost is \$108,000.

## Judgments

## PHILADELPHIA.

## ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have been assessed.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term, and S, for September Term.

S. F.—Scire Facias, to revive judgment. A star (\*) denotes judgment confessed or bond and warrant conditioned.

## Architect Notes.

The alteration and addition to the Mechanics Bank, 22 South Third street, have been given up until spring. The plans were made by James H. Windrim, architect, 1107 Walnut street, and noted previously in this journal.

Morgan Bunting, architect, Heed Building, 1215 Filbert street, has made plans for alteration of store building, at 34 Market street, for L. H. Parke & Co., 17 S. Front street, chiefly interior work, plastering, painting, cement work, etc.

P. P. Elkington, architect, 211 South Sixth street, is making plans for alterations to a building at Tenth and Spring Garden streets. The material used will be brick, stone trimmings, three stories high, and interior up-to-date conveniences.

Dougherty & Shaw, 317 Market street, are making plans for a store and residence to be erected at Ocean City, N. J. It is to be of frame and stone, three stories high. It will be furnished with all late improvements on interior, and cost about \$8,000.

J. W. Fritzinger, contractor, Roxborough, has the carpenter work for a residence to be erected by and for Mr. E. M. Hales, of the firm of Hales and Ballinger, architects, 1200 Chestnut street. It is understood the sub-contract system will govern the remainder of the work, which will be let by the owner himself.

The managing committee of the John Stewardson Memorial Scholarship announce that the second competition for a thousand dollar scholarship is to be held, and all drawings completed and handed in by March 26, 1898. Copies of requisites may be had of the trustees of the University of Pennsylvania, who act as trustees of the Memorial Fund.

Thomas Stephens, architect, Masonic Temple, Camden, N. J., is engaged on plans for a residence in that place for a party whose name is withheld. It will be two and-a-half stories high, built of stone and interior to contain all modern conveniences, etc. Mr. Stephens is also engaged on drawings for work which will be fully noted as it may develop.

David Knickerbocker Boyd, architect, Harrison Building, has completed plans for eighteen dwellings to be erected near Upsal, Germantown, for B. Dibert; and C. R. Kohl Bros., Odd Fellows' Temple, are taking estimates on the work. These are to be of stone and brick, with porches, three stories high and furnished with all late comforts and conveniences.

Harry Peale, architect, Harrison Building, 15th and Market streets, has awarded C. B. Parsons, of Atlantic City, N. J., the contract for the Casino, to be built at that place for Mr. William Parker. The structure is to be

of frame, one story high, 60x140 feet, electric work, plumbing, billiard and pool rooms, etc., provided for on interior. Mentioned previously.

J. Elvin Jackson, architect, 804 Walnut street, has completed plans for a three story building to be erected at 507-9 South Eighth street. It will be of Pompeian brick, stone trimmings, 38x100 feet in area, steam heat, electric work, plumbing and all modern improvements. Estimates are being made by Doyle & Doak, 133 South Fifteenth street, and other contractors.

Hazelhurst & Huckle, architects, Girard Building, are making plans for a large public bath house to be erected on Hedges street by the Bureau of Public Property. It will be stone and brick construction, 55 feet x 100 feet, one story high. Steam heat, electric work, engines, boilers, closets, urinals and shower bath, tile and slate roofing, galvanized iron and grill work.

Seymour Davis, architect, 907 Walnut street, will receive estimates until February 1, 1898, on the hospital building, to be erected at Allentown, Pa., previously noted. The structure will be 50 feet x 200 feet, three stories high, face brick and stone trimmings, steam heat, ventilating apparatus, electric work, speaking tubes, plumbing, painting, cement work, grill iron work, also galvanized iron, tile and slate work mantels, ranges and general conveniences, including elevator lift, etc.

The drawings for the new mansion, at Ashbourne, Pa., for Peter A. B. Widener, of this city, are now upon the boards of Contractors Doyle & Doak, 133 South Fifteenth street, and Charles McCall, 10 North Eleventh street, for estimate. These plans were noted fully in this journal some time ago, and a description of the building as it will appear when completed. Horace Trumbauer, architect, 310 Chestnut street, made all the drawings and will supervise the entire work of construction.

Plans are being prepared in the office of Furness & Evans, architects, Providence Life Building, for the new house of Allen Evans, at Haverford, Pa., his former one being destroyed recently by fire. The new one to be of stone, three stories high, slate roof, steam heat, electric work, finest of plumbing, enamelled bath tubs, plate and leaded glass, and all modern comforts and conveniences will be introduced.

## Building and Real Estate Notes.

Allen B. Rorke has received a contract for the work to be done for the University Club at 1510-12 Walnut street. The plans were prepared by H. W. Sellers, architect, Bourse Building, and have been fully noted in this journal.

Gallagher's old stone yard, at Thirty-fourth and Chestnut streets, is reported to have been

purchased by the University of Pennsylvania as a site for the new library and law school, a description of which has already been given in these columns.

The ground plan for the new Chester County Asylum for Insane has been completed by Baker and Dallett, 1604 Chestnut street, in this city, and the remainder of the detail drawings will be ready for estimate in the course of the next three weeks. The description of the work has been noted in full in previous issues of this journal.

Whilst the Board of City Trusts have been requested to erect an additional office building, at Twelfth and Chestnut streets, to the Stephen Girard building, the matter has not been, and is not likely to be, favorably entertained at this time. Mr. Joseph Caven, of the Board of Trusts, says it would be wholly impracticable at this time to consider the matter as proposed.

A new parish for Italian Catholics has just been announced by Archbishop Ryan, with the Rev. W. A. Ripetti as pastor in charge, and will include all the Catholic Italian population west of Eighth street. The active priests who will assist the pastor in chief will be Rev. Angelo Caruso, and Fra Bernadino, of the Order of St. Augustine. Father Ripetti announces that a new church will be erected as soon as a site has been secured.

The fountain to be erected in Fairmount Park under provision of will of the late Rebecca M. Smith, is to be located at once by Commissioners Thompson and Snowden, and the work started. Also recommendations have been made by the Fairmount Park Commission that two bridges be constructed at Thorp's and Allen's lanes, to cost about \$40,000, and the completion of the work on west side of the Schuylkill, for which \$50,000 will be needed. All of the above work will likely be put into execution during the coming season.

An urgent recommendation of Director of Public Works Thompson has been sent to Councils asking an appropriation of \$274,000 for repairs, additions, and alterations to the works of the Water Department. Among the items mentioned as absolutely necessary at an early day is a second pumping main between Queen lane reservoir and the pumping station, a coal shed and tunnel at the same place, also suction mains at this station. A number of pumping engines are also needed at the Roxborough and Belmont stations, to relieve those now being worked day and night. The director says an entirely new plant is needed at Belmont and a new engine house at same place. No appropriation for the above has yet been made, but it is likely to be considered at the next meeting of the finance committee of City Councils and action had by the general body at an early day.

JOHN N. GALLAGHER, Publisher.  
JOHN P. BRISBANE, City Editor.

PHILADELPHIA, WED'Y, JAN. 19, 1898.

### Annual Statement of the American Fire Insurance Company.

The eighty-eighth annual statement of the American Fire Insurance Company of this city appears in this issue.

The new figures express increased strength for this old and popular Philadelphia Company, and of course they also attest as to the careful management of those to whom its business affairs are intrusted.

A gain of \$149,724.26 in the assets, and that, too, in the face of a decrease in the estimated value of its office building, 709 and 310 Walnut street, amounting to \$25,000, indicates its prosperous condition.

In 1896 \$50,000 was charged off from the value of assets to meet probable depreciation of the office property. This determination to avoid fictitious values among the assets is worthy of commendation.

It will be seen that the company's bond and mortgage investments have increased \$80,839.64, while \$76,567.23 has been added to the surplus.

It is these wholesome examples of sterling worth that places our home institutions in the front rank of the safe and trustworthy companies of the land, and among them all there are none that are esteemed more highly or justly merit patronage and confidence more than the American Fire of this city.

### John Lucas & Co.'s Bull's Eye.

As a mark symbolizing success, whether in business or expert rifle shooting, the bull's eye epitomizes all that can be said in the way of earnest commendation.

Messrs. Lucas & Co., as paint manufacturers, have hit the bull's eye in so many instances in the successful production and marketing of specialties connected with the paint industry, that pages of space would hardly afford room enough to particularize.

In a broad gauge circular, which is issued with its calendars for 1898, it assures its customers and the buying public that it proposes to keep its old place in the front rank of the "pushing, let-your-light-shine" concerns, by helping its customers with attractive advertising matter in a line surpassing that of any other concern in the United States.

Of course, such an up-to-date concern can reasonably be expected to furnish everything in its line at a minute's notice; hence to enumerate the immensity and variety of its stock would prove much more difficult than to specifically state what it does not carry. The fact is, this concern expects a big trade in 1898, and is prepared accordingly.

### The John L. Gaumer Co.'s Calendar.

Much poetry, as well as sentiment, has been wasted on gates of the ideal kind, such as "Gates Ajar," the "Pearly Gates," etc., *ad nauseum*.

Our subject matter embraces an example of artistic iron work, elaborate in design, and of most exquisite finish.

This tangible, practical evidence of the skill of a Philadelphia architect, on the one hand, and a Philadelphia firm of iron workers, on the other, possesses so much merit as well as beauty, that the wildest enthusiast will be compelled hereafter to enlarge the scope of his word pictures in describing his ideal gates of sentiment, or get seriously left in more senses than one.

The John L. Gaumer Co., northwest corner of Eleventh and Race streets, is justly proud of the magnificent pair of gates which it constructed from the design prepared by Architect F. S. Newman, and which are now suspended across the gateway of the Fidelity Building, 112 and 114 North Broad street, this city.

These gates are made of wrought iron, electro-bronzed. They continue to attract general attention and have already had a marked influence in increasing the business of the concern. In fact, the John L. Gaumer Co. estimate their artistic beauty so highly that it has used their picture as an attractive feature of its calendar for 1898.

### The Mechanics Insurance Company's Statement.

There are so many good things in this old town, and so few that are very bad, that a bank failure once in awhile has little influence except among the losers. As a whole, there is no city on God's green earth where more care is exercised as to the management of its financial institutions than right here in this city of methodical ways.

If we take the financial end of our insurance companies—big and little—we find them toned up to a high pitch, with a new note added yearly to their financial scale.

The Mechanics Insurance Company of this city is a sturdy representative of this idea. Its figures this year are not only large, but they are largely better than those of last year.

The total amounts of the company represent a value equal to \$937,768.60. Its net

surplus is \$267,908.00, and its surplus to policy holders is \$517,908.00, while its capital is only \$250,000. A two for one ability to pay losses without impairing the capital is recommendation enough to any one in quest of security against fire losses. Of course, this handsome showing is the result of the excellent management of the level headed business men who make up its roll of officers and directors.

### Business Record of 1897.

Dun & Company's *Weekly Review* for the week ending January 8th says: "In failures 1897 was not only the best year since 1892, but, on the whole, the best ever definitely known. With 13,522 failures, in number 11.5 per cent. less than 1896, and \$182,531,771 defaulted liabilities, 34 per cent. less than in 1896, the year's banking failures counted for \$28,249,700, and the commercial failures were but 13,551, with liabilities of \$154,332,071, the average per failure being only \$11,559, the lowest ever known except in 1892. But even in that year the failures during the last half averaged liabilities of \$10,477 per failure, while in the last half of 1897 the average was only \$9,593.

"The returns by branches of business show that in fifteen out of twenty-eight classes the failures were lower than in any previous year of which there is record, with especially large decrease in the great number of unclassified manufacturing and trading failures. Moreover, the year showed remarkable decrease, as some other prosperous years have shown increase, comparing the second with the first half."

The shade trees along streets have, as a rule, had little chance of retaining their beauty or form if an electric railway went near them, for the linemen generally make short work of removing all limbs that interfere with the stringing of wires. On November 10th the Supreme Court of New Jersey rendered a decision, printed in full in the "Atlantic Reporter," which, if enforced, will check the vandalism of some of the railway employees in that State. The substance of the decision is as follows: An ordinance of the township of East Orange which provides that no one shall trim, cut, or break any tree on the public street or highway without first obtaining permission of the township committee or its agent, and imposing a penalty of twenty-five dollars for a violation of the ordinance, is held to be a valid and reasonable exercise of the police powers vested in a municipality by the statutes. These authorize the township committee to provide by ordinance for the regulation of the use of the streets, to direct the cultivation of shade trees along them, and to prohibit under penalties their injury or destruction. Permission granted by an ordinance or agreement to an electric railway company to operate its cars through a street is not a grant of the right of the township to the trees standing in the street, nor does it divest the properly constituted municipal authorities of the reasonable control over such trees as a part of the street, and a

## TRUSTS. TITLES. DEPOSITS.

# THE PLANT OR THE LAND TITLE AND TRUST COMPANY, 608 Chestnut Street,

Covers every foot of ground in Philadelphia, and is the only Plant containing an abstract of every Deed, Mortgage, and Sheriff's Sale of record in Philadelphia since 1682 located against each property described.

This Plant necessarily gives great additional protection to purchasers and mortgagees taking this Company's policy of Title Insurance, apart from the security of its One Million Dollars full paid capital.

## Beautiful Sea Shells

Every one admires them. Since coming south I have received numerous inquiries from northern people for sea shells, and now I am prepared to answer yes, I can send you shells, for I have made quite a collection of lovely shells, both from our own coast, the coral reefs, and some beautiful ones from the West India Islands. I will mail a dozen or more different kinds, no two alike, to any one who sends a stamp for postage. Also send you a lovely piece of white branch coral.

Yours, **MRS. F. A. WARNER,**

reasonable regulation or ordinance controlling the company in the use of such trees in the operation of the street railway will be upheld as an exercise of the police power of the township.

A CASE has been tried in New Haven which is perhaps of as much importance in other States as in Connecticut. It is known as the Waterbury sewerage case, and has reference to the running of the sewerage of towns into streams. Some time ago Mr. Clark M. Platt and others, of Waterbury, secured a temporary injunction forbidding the city of Waterbury enlarging its system of sewerage into the Naugatuck river. In the subsequent trial the city set up as a defense the antiquity of the system and legislative authority for the enlargement. To this defense the plaintiff demurred and Judge Roraback now sustains the demurrer, holding that the city should have condemned the plaintiff's land; that each day of the present system is a fresh offense, and that it is not modified by the fact that Waterbury has for many years sewered into the Naugatuck. The injunction continues. The decision is in line with recent findings of the State courts, all of them against sewerage into running streams by municipalities.

#### Architect Notes.

The contract for the ice manufacturing and boiler house, for William Helmgartner, at 1232 Frankford avenue, has been given to Glazer & Leitz, 1720 Waterloo street. It is to be 50x65 feet, three stories high, and has been noted previously in this journal.

Edwin F. Bertolotto, architect, 1215 Filbert street, has been taking estimates on a residence for Mr. Garrett A. Brownback, to be erected at Linfield, Pa. It will be stone, two stories and a half high, steam heat, electric work, and all the best modern improvements, etc.

#### Building and Real Estate Notes.

C. R. Kohl & Bros., S. E. corner Broad and Cherry, have received contract for a new residence for a Mr. McMurtrie, to be erected from plans made by Architect Lawrence Vischer Boyd at Pelham, Germantown, Philadelphia. Sub-contracts are to be let.

William L. Kimball, builder, will at once erect five three-story dwellings on Forty-third street, north of Walnut street. These are to be of fancy brick and stone fronts, hard wood interiors, and all the latest and best conveniences introduced.

Frank D. Williams, contractor, 1634 Susquehanna avenue, will erect eleven dwellings at Eighteenth and Venango streets. These are to be of face brick, stone trimmings, hot air heating, electric work, slag and tin roofing, ranges, and modern accommodations, etc.

Harry T. Saunders, contractor, 230 North Twenty-second street, will erect six dwellings at Lancaster avenue and Thompson street, for a private party as owner. They are to be of brick fronts and stone facings, 17 feet x 32 feet, three stories high and contain interior all the best and latest improvements, etc.

#### Through Pennsylvania.

When any of the following are not post office towns they will be so designated.

—At Southampton, Bucks county, James Hazzard will erect a building to be fitted up as a public hall.

—At Downingtown, Chester county, a company to be known as the Citizens' Electric Light Company has been organized with a capital of \$20,000, to light the borough.

—At Swathmore, Delaware county, Contractor S. E. Horner has begun work on the erection of three stone and frame dwellings.

—At Johnsville, Bucks county, it has been decided to erect a chapel. A number of subscriptions have been received for the purpose.

—At Berlin, Somerset county, W. Scott Matthews will probably construct an electric light plant, the town council having granted him the franchise.

—At Dubois, Clearfield county, in a short time the people will vote on the question of issuing bonds to the amount of \$31,000, the proceeds to be used to extend the water works system.

—At Drie Run, Chester county, it is said that a public hall will be erected in the near future. It will be of stone, well finished and equipped for the intended purpose. The estimated cost is \$3,000.

—At Millville, Columbia county, it is reported that an election will be held in February to vote on the question of issuing bonds to the amount of \$25,000. The proceeds will be used for the construction of sewers in Girty's run.

—At McKeesport, Allegheny county, it is stated that at a recent meeting of the property committee it was decided to ask architects to submit plans for a new city building to be erected on the Diamond at a cost of about \$50,000.

—At Braddock, Allegheny county, it is reported that bids will be called for about February 1st for the construction of a reservoir to hold about 12,000,000 gallons. W. Howat, Superintendent of Public Works, can give information.

—At North Clarendon, Warren county, the Tiona Refining Company will rebuild its plant, recently destroyed by fire. The main building will be 45 x 100 feet, in which will be installed a twenty-five ton ice plant and machinery for pressing oil.

—At Danville, Montour county, it is probable that steps will be taken in a short time toward the erection of an electric light plant. Bids for its construction will be called for as soon as the decision is made. George W. West, civil engineer, can give information.

—At Connellsville, Fayette county, the Youghiogheny Bridge Company has had plans prepared for the construction of a new bridge, at an estimated cost of \$80,000. City Councils at an estimated cost of \$80,000. City Councils has been asked for the right of way to make a landing on the Connellsville side.

—At Birchrunville, Chester county, the trustees of the public school have not decided to enlarge the present school building by the erection of an addition. It will be of brick, well finished on the interior and provided with modern conveniences. The estimated cost is \$2,000.

—At Reading, Berks county, the directors of the Reading Cold Storage Company have decided to erect another story to the present building. The contract has been awarded for the erection of an office building for the Reading car wheel works. The structure will be two stories high of brick, slate roof, etc.

—At Media, Delaware county, Horace R. Manley is making extensive alterations to his dwelling at Front and Olive streets. J. Cook McCallister and Garrett E. Smedley will erect dwellings on the Mathness tract on East State street. They will be finely furnished and supplied with all modern conveniences; work on them will begin early in the spring.

—At Lebanon, Lebanon county, George W. Hayes, city engineer, has been requested by the board of water and lighting engineers to obtain estimates as to the cost of a preliminary water supply survey from a point near High Bridge on the Schuylkill and Susquehanna Branch of the Philadelphia & Reading Railroad to Lebanon, a distance of about twenty-two miles.

—At Mount Carmel, Northumberland county, the Commercial Hotel, which was destroyed by fire not long since, will be rebuilt as soon as the insurance is adjusted. No plans have been prepared for the proposed structure, but it will be of brick and stone, partly fire-proof, well finished and provided with modern conveniences. The estimated cost is \$50,000. Mr. W. K. Weidensaul is the proprietor.

—At Allentown, Lehigh county, Shaffer & Millebush Bros. will erect thirteen dwellings. An extensive building operation will soon be under way by William F. Tager, who will erect ten brick dwellings which will occupy sites on Lawrence street and five on Florence street. A three-story store and office building will be erected at 617 Hamilton street by W. H. Gangewere for J. N. Marin. It will be well finished and supplied with modern conveniences.

—At Pitsburg, the plans of W. R. Proctor will probably be accepted for the new building for the West End Savings Bank. In a few weeks ground will be broken for the new passenger station for the Pitsburg and Lake Erie Road. The plans are now preparing according to the report of General Passenger Agent L. A. Robinson. McKee & Waughter, Singer Building, are making plans for a frame dwelling to be erected for Alexander McKee on the Fort Wayne road. L. S. Christy, care of McKee & Waughter, Singer Building, wants estimates on fire escapes for the McClure apartment house now under construction in Allegheny. Bids will be asked in a few weeks for the erection of the Thirteenth Ward public school building of Allegheny, for which Bartberger & East, Westinghouse Building, have prepared the plans. E. M. Butz & Co., Park Building, are now ready to receive estimates for the new Wilkinsburg school, for which they have prepared plans. Rose & Fisher, 316 Penn avenue, Pitsburg, have the contract for the two-story and attic brick dwelling to be erected on Homewood avenue for Mr. Harry Robbins, 837 Liberty avenue. It will be handsomely furnished and provided with all modern improvements. The estimated cost is \$20,000. J. E. May has begun work on two two-story and attic brick dwellings to cost \$5,000 each. A. Obitz & Son, Gerritt street, are the contractors for an attractive dwelling to be erected on Stanton avenue, for J. H. O'Donnell. The estimated cost is \$10,000. It will be provided with all modern comforts and conveniences. It is said that Fourth street will be paved with vitrified brick one block west and two blocks east of Broadway. An engineer is preparing specifications for an electric light plant for the Western Penitentiary, and as soon as they have been approved by the Board bids will be called for. David B. Oliver, chairman of the Board of Prison Directors, can give further information.

#### Through New Jersey.

At Cape May, Cape May county, the Shoreham Hotel has been bought by E. T. Hazzard.

Mrs. Losey has arranged for the erection of a double frame dwelling from plans prepared by J. J. Marsh.

At Weehawken, Hudson county, William Lanat, of Union, N. J., will erect a two-story and attic dwelling to cost \$5500.

At Camden, the members of Kaighn Avenue Methodist Church have decided to erect a new parsonage and are raising funds for the purpose.

At Nutley, Essex county, Davis Bros. will erect two frame stores and residences from plans prepared by W. A. Lambert, 99 Nassau street, New York City.

At Mount Holly, Burlington county, a syndicate has secured the option on the stock of the Mount Holly Street Railway Company and will probably convert it into a trolley line.

**H. E. SEALEY, Local Manager**

At Hasbrouck Heights, Bergen county, Thomas Walling, 144 Newell street, Brooklyn, N. Y., will erect twenty four two-and-a-half-story frame dwellings.

At Deal, Monmouth county, it is reported that a handsome cottage will be erected by F. H. Woolworth of 280 Broadway, New York city, and that as yet no architect has been selected.

At Arcola (not a P. O. town), Mr. Smith will erect a two-and-a-half story frame dwelling, 70 x 50 feet, also a stable, from plans prepared by W. A. Lambert, 99 Nassau street, New York City.

At West Hoboken, Hudson county, Martin Jensen, 335 Tenth avenue, New York city, will erect a three-story frame building to be fitted up as an apartment house, from plans prepared by Joseph Turk.

At Bernardsville, Somerset county, a two and a half story frame dwelling, to cost about \$6,000 will be erected for George Salisbury.

The plans have been prepared by W. S. Post, of 33 East Seventeenth street, New York city.

At Long Branch, Monmouth county, Mark Arnheim, 767 Broadway, New York, will erect a handsome residence to cost \$25,000 from plans prepared by Herts, Tallant & Newton, 481 Fifth avenue, New York City.

At Bayonne, Hudson county, Harris Kaplincky will erect two two-story frame dwellings to cost \$5000 from plans prepared by Armand Schule, of West Forty-first street. William C. Ryan will erect a two-story frame dwelling to cost \$2500.

At Camden, at a recent meeting of City Council, ordinances were passed granting franchises to the People's Gas Company, of Camden, to lay pipes, conduits, conductors, in the several streets, alleys, lanes and squares of the city; also to the South Jersey Light, Heat and Power Company to lay the necessary pipes for the use of the company in supplying light, heat, and power to the

citizens of Camden. The ordinances provide that each company shall furnish bonds and pay five per cent. of the gross receipts as license fees.

At Trenton, articles of incorporation have been filed for a brass foundry and machine shop, of Jersey City, with a capital of \$6,000,000. The incorporators are Adolph Zunn, William S. Laporte, Michael Gavin, Jr., of New York, Rudolph Gu man, of Greenville, N. J., and Francis P. McManus, of Jersey City.

At Englewood, Bergen county, F. M. Olyphant, 21 Cortlandt street, N. Y., will have a handsome dwelling erected from plans prepared by Lamb & Rich, of 35 Nassau street, New York city. It will be finely finished and supplied with all modern conveniences and improvements. The estimated cost is \$10,000.

At Atlantic City, on January 14, fire destroyed the large brick and frame building

at Connecticut and Baltic avenues, occupied by the Citizens Ice and Cold Storage Company and the Atlantic City Flour and Feed Store, Peter Ballingall, of Philadelphia, is president of both companies. The estimated loss is \$20,000.

At Atlantic City, the Chalfonte Hotel property situated at the foot of North Carolina avenue, has been bought by Edwa d C. Leeds, a brother of Harry W. Leeds, one of the owners of Haddon Hall, and Walter J. Buzby. Edward C. Leeds is well known in Camden and Woodbury as an insurance and real estate agent, and Mr. Buzby has been associated for many years with the well known grocery firm of Mitchell, Fletcher & Co., of Philadelphia. Extensive alterations and improvements will be made by the new owners, and the Chalfonte will be made one of the finest equipped hotels in Atlantic City.

At Newark, a handsome brick and stone residence will be erected by P. W. Vall, from plans prepared by Charles A. Gifford, 81 Union Square, New York City. Frederick J. Frelinghuysen will erect a three-story brick stable to contain three box stalls. The cost will be \$6,000. The plans have been prepared by H. Toler Booreman, 82 Nassau street, New York City. The Christian Missionary Alliance, of which Rev. A. B. Simpson, 692 Eighth avenue, New York City, is the head, will erect a two-and-a-half-story frame dwellings, and for which Mr. Leeming, 87 Nassau street, New York City, has prepared plans. The estimated cost of the operation is \$30,000.

At Orange, Essex county, John P. Dexheimer will erect two two-and-a-half-story frame dwellings to cost about \$4,500 each. They will be well finished and provided with all modern conveniences and improvements.

W. T. Gooch, 253 Broadway, will have an attractive dwelling erected in South Orange, from plans prepared by Harding Gooch, 253 Broadway, N. Y. Douglas Robinson, 55 Liberty street, New York city, will make extensive alterations and additions to his residence at West Orange, at a cost of about \$12,000. The first floor of the proposed addition, 52 x 36 feet, will be fitted up as a billiard room, and various other improvements will be made. The plans have been prepared by Trowbridge & Livingston, 237 Fourth avenue, New York city.

At Asbury Park, Monmouth county, Walter B. Pierson has finished the plans for the three-story addition to the Monmouth Trust Company's building. The plans call for a steel frame structure with offices on the third, fourth and fifth floors, and the sixth floor to be fitted up for the Monmouth Club, with billiard, smoking, and card rooms, a stage with orchestra and balcony, toilet conveniences, etc. Thompson & Kimble, of New York, are also making plans which will include elevator. The Ross Estate, owners of the pavilions and bathing privileges at the foot of Wesley Lake, have made contracts for the complete rearrangement of the hot-bath department. The rooms with bath tubs will be increased to eighty, the tubs to be of porcelain with modern attachments and fixtures. Two hundred new dressing rooms will be erected. J. M. Ross, of Ocean Grove, has the matter in charge. In a few days Mayor TenBroeck will appoint five trustees to determine at what time an election shall be held to appropriate money for a free library.

At Jersey City, Alexander R. Brown, of 508 West Thirty-fifth street, will erect a dwelling on Magnolia near Summit avenue, to cost about \$4,000. The plans have been prepared by C. F. A. Hall. The board of trustees of the Free Library, of which Dr. L. G. Gordon is president, has asked the board of finance to issue bonds to the amount of \$150,000, the proceeds to be used to erect the proposed library building, on a site on Jersey

avenue, from Montgomery to Mercer streets. John Foote will erect five two-story frame double dwellings, 20 x 38 feet, on Germania avenue and Berkeley place, to cost \$9,000, from plans prepared by Charles F. A. Hall. The same architect has made plans for nine dwellings and alterations to three dwellings, the whole to cost about \$40,000. The owner is P. A. Caddis. All of these dwellings will be handsomely finished, considerable tile work, sanitary plumbing, plain and ornamental glass and all modern conveniences. They will be erected at Magnolia avenue and Becot street.

#### Through Delaware.

At Wilmington, at the request of the Board of Trade, of which William Lawton is president, William F. Smalley is preparing a bill to be sent to the legislature, providing for the improvement of Christiana river; the city to appropriate two cents for every dollar appropriated by the government, but, under no circumstances, to pay more than \$100,000.

#### Through Maryland.

At Salisbury, Wicomico county, the city council is considering the question of paving Main street with brick.

At Hyattsville, Prince George county, Arthur Carr can give information regarding a resolution adopted not long since, favoring the expenditure of \$25,000 for the construction of a complete system of water works, with not less than 25,000 lineal feet of mains; a sewerage system will also be introduced.

At Middletown, Frederick county, a company, to be known as the Myersville Catoctin Electric Railway Company, has been formed to construct an electric line from Middletown to Myersville, a distance of five miles, at a cost of \$36,000. Cyrus F. Flock is president, George D. Thomas, secretary, and John T. Hildebrand, treasurer.

At New Windsor, Carroll county, it is stated that considerable improvements will be made to the water and electric plants, including the purchase of a twenty horsepower gasoline engine, 200 light dynamo, line shaft, connections to pump, wiring of streets for twenty-five incandescent lamps and with street hoods. Dielman & Co. can give information.

At Elkton, Cecil county, the county commissioners have decided to construct an iron bridge over Basin run. The Homestead Building and Loan Association of Cecil county has been incorporated by the following persons: William T. Warburton, C. H. Johnson, Colonel Isaac D. Davis, R. B. Frazer, R. C. Lewis, Dr. John H. Jamar and William S. Evans. The president of the company is Mr. Evans; Colonel Dairs, treasurer, and C. Hal Johnson, secretary. The capital stock is \$2,000,000.

At Baltimore, Mr. James Sloan has bought about 83 acres of ground at Brooklandville, for about \$9,500. Henry D. Eldman and Daniel Eldman have sold five acres of ground on Calvert avenue to John D. Eckert, for \$4,000. Mr. Frank L. Lewis will erect fifty dwellings on Handen avenue, between Twenty-sixth and Twenty-seventh streets. The Standard Oil Company will erect a two-story brick stable, also a one-story iron shop, on Winchester street, between Fulton avenue and Monroe street. A three-story brick building will be erected at the northwest corner of Gay and Front streets by Thomas J. Price.

#### Washington, D. C.

The Urgency Deficiency Bill has been reported to Congress, containing items as follows: \$175,000 for the completion of the post office build-

ing in the city of Washington; for completing western high school, \$83,000; equipment of same, \$15,000; for grading and laying out walk around western high school \$5,000; for repairs to Interior Department, \$2,000. A bill has been presented to the Senate to incorporate the Wesley Heights Railway Company. Matthew C. Butler, Henry D. Frye, James H. G. Martin, John F. Waggoner and William E. Burford are named as incorporators. It is said that W. J. Marsh and W. J. Peter have made plans for a five new building for the Evening Star Newspaper Co. The facade will be of white marble, fine interior finish and fixtures, steam heat, elevators, etc. The estimated cost is about \$300,000. A meeting was held not long since in the lecture room of the Foundry Methodist church, at which was discussed the question of the erection of a new building for the Methodist Home. It was the consensus of opinion that such a building should be erected as soon as possible. The following officers were chosen: Mrs. D. B. Street, president; Mrs. J. C. Tasker, secretary; Mrs. W. G. McDowell, corresponding secretary. Congressman Howell has introduced a bill to purchase a lot and erect a post office at Asbury Park, N. J. A bill has been introduced in the Senate for a permanent system of highways in the District of Columbia lying outside of the cities. William J. Palmer has prepared plans for three dwellings which will be erected at Thirteenth and Roanoke streets. They will be three stories high, of Roman brick and brown stone, hard wood interior finish, tiled vestibules, steam heat, and all modern improvements. The same architect has prepared plans for a row of four dwellings to be erected on Cedar street, between Eighteenth and Nineteenth streets. They will be similar to those prepared by the same architect and just described, save that the fronts will be of light stone and Roman brick. Seymour W. Tullock will erect two dwellings on Washington Heights from plans prepared by Edward Waltz. They will be three stories high, of light stone, with porches of the same, hard wood interior finish, considerable tile work in bath rooms and vestibules, hot air heating and all modern conveniences and improvements. P. H. Pickford has made arrangements for the erection of three two-story brick and stone dwellings to be erected on Eighth street, Northwest. They will be well finished and provided with modern conveniences. James F. Dennison has prepared plans for a two-story building to be erected for the Baptist Home on "N" street near Thirty-second street. It will be well finished and heated by hot water. The same architect has prepared plans for fifteen three-story press brick and brown stone dwellings, which will occupy sites in Eckington. They will be well finished and equipped with modern conveniences. Effie D. Leffingwell will also erect a dwelling in Eckington. It will be of frame.

### Wants.

#### Proposals Wanted.

Treasury Department, Office Supervising Architect, Washington, D. C., January 4th, 1898.—Sealed proposals will be received at this office until 2 o'clock, P. M., on the 27th day of January, 1898, and opened immediately thereafter, for all the labor and materials, and fixing in place complete the additions to the low temperature, hot water heating and ventilating apparatus, for the new extension of the U. S. Court House and Post Office building, at Little Rock, Ark., in accordance with the drawings and specification, copies of which may be had at this office or the office of the superintendent at Little Rock, Ark. Proposals must be enclosed in envelopes, sealed and marked "Proposal for the additions to the Heating and Ventilating Apparatus at the U. S. Court House and Post Office building at Little Rock, Ark.," and addressed to the Supervising Architect.

Treasury Department, Office Supervising Architect, Washington D. C., January 15th, 1898.—Sealed proposals will be received at this office until 2 o'clock, p. m., on the 31st day of January, 1898, and opened immediately thereafter, for all the labor and material required for the approaches to the U. S. Appraisers' Warehouse, New York, N. Y., in accordance with drawing and specification, copies of which may be had at this office or the office of the Superintendent at New York, N. Y. The right is reserved to reject any or all bids and to waive any defect or informality in any bid, should it be deemed in the interest of the Government to do so. Proposals must be enclosed in envelopes, sealed and marked "Proposal for Approaches to the U. S. Appraisers' Warehouse, New York, N. Y.," and addressed to the Supervising Architect.

At New London, Conn., proposals will be received until January 24th, for the erection of a police station. C. Donnelly, Dudley street, is the architect.

At Salem, O., bids will be received until February 2 for 1350 feet of eighteen inch sewer and 850 feet of eight inch sewer. The estimated cost is \$8000.

At Toledo, O., bids will be received until January 21th for the construction of cylindrical brick sewers in several streets. Address Lemuel P. Harris, city clerk.

At Jersey City, N. J., at a recent meeting of the Board of Freeholders a resolution was passed to advertise for bids for two arc dynamos. Mr. West is superintendent of the electric light plant. Mr. Harrison, chief engineer.

At Cincinnati, O., bids will be received until February 5th for the construction of a wrought iron or steel Pratt truss bridge over Eight Mile Creek on Eight Mile road. Eugene L. Lewis, county clerk, can give information.

At Indianapolis, Ind., bids will be received until February 2d for grading and paving with asphalt on Alabama street. M. A. Downing, Chairman Board of Public Works, has the matter in charge.

### Miscellaneous.

At Marietta, O., it is said that the government engineers have recommended the construction of a bridge of 800 feet span. Mr. Jutte, of Pittsburg, Pa., is interested.

At Niagara Falls, N. Y., it is reported that plans have been prepared by Charles W. Koehler, of Detroit, Mich., for a sanitarium to be erected at an estimated cost of about \$10,000.

At Torrington, Conn., the plans prepared by William H. Allen, of New Haven, have been accepted for the proposed new town hall. The estimated cost of the structure is \$80,000.

At Washington, D. C., sealed proposals will be received until February 8d, for widening P street bridge over Rock Creek. J. W. Ross, J. B. Wright, W. M. Black, commissioners.

At Toledo, O., sealed proposals will be received until January 31st, for constructing a cylindrical brick sewer five feet in diameter, along Ash street. Address Lemuel P. Harris, City Clerk.

At Cincinnati, O., proposals are wanted, until January 25th, for repairing and maintaining Eighth street for a period of five years. Address August Herrmann, President, Board of Administrators.

At Fort Washington, Md., proposals will be received until January 27th for the construction of one set of non-commissioned staff officers' quarters. Address Lawrence S. Miller, Quartermaster.

At Charlestown, West Virginia, the members of the Baptist congregation are considering the question of erecting a new church at Capitol and Washington streets. The estimated cost is \$20,000.

At Hillsdale, Mich., the board of supervisors of Hillsdale county has decided to submit to the vote of the people at the spring election the subject of the erection of a new court house to cost about \$45,000.

At Douglas, Ga., it is reported that the county authorities are considering the question of the erection of a brick court house as well as a jail. D. W. Gaskin, county clerk, can give additional information.

At Buffalo, N. Y., it is stated that the contract for the erection of the main buildings of the Pan-American Exposition have been awarded to Grace Hyde Company of New York and Chicago; the contract price is \$700,000.

At New Haven, Conn., it is reported that the New Haven Water Company has bought two hundred and fifty acres of ground, which will be used as a site for a large additional storage reservoir.

At Winchester, Mass., George Moffette, 34 School street, Boston, has prepared plans for a Sunday school class-room and library hall for his congregation of the First Congregational Society of Winchester.

At Montgomery, Ala., it is stated that there is a probability of new water works being constructed. The estimated cost of the proposed plant is \$100,000. Mr. Winfield, of Atlanta, Ga., furnished an estimate of the cost.

At Macon, Ga., the contract for the new pumping station for the Macon Gas Light and Water Co. has been awarded to J. N. Hazlehurst, civil engineer. The company will expend about \$100,000 on improvements.

At Elmore, O., the congregation of the Methodist Church, of which Rev. C. B. Holding is the pastor, will erect a parsonage. No plans have as yet been prepared. The building committee consists of Robert Fader, Jacob Teasing, D. P. Willett, D. Greyton and William Kinsling.

At Boston, Mass., the engineers of the Boston Terminal Company are preparing to let the contracts on the second section of the new South Union station. The contracts will cover the excavations and construction of the subway from Mt. Washington avenue to Federal street bridge.

At Bangor, Me., W. E. Mansur has prepared plans for an extensive addition to the Bangor House, of which H. C. Chapman & Son are the proprietors. The addition will be five stories, of brick and frame, with well furnished interior. The cost will be about \$16,000. Work will begin early in the Spring.

At Columbus, Ind., sealed proposals will be received until January 31st for the construction of about 14,000 square yards of asphalt pavement and 5500 lineal feet of cement curbing and gutter on Washington, Fourth and Fifth street. W. H. Rights, city civil engineer, or J. W. Sniverkrup, city clerk, can give additional information.

At Ann Arbor, Mich., the University of Michigan is having competitive plans prepared for a law library and also for remodeling the old building. The structure will be four stories high and finely finished and provided with all modern conveniences and improvements. The estimated cost is \$50,000. James H. Wade, secretary and steward, can give information.

At Jersey City, N. J., bids will be received until February 23d for furnishing a new water supply of filtered water. The approximate estimate of water required is 20,000,000 gallons a day for the first year, and for the succeeding years an increase of 3 per cent per annum. George T. Bouton, clerk of the Board of Street and Water Commissioners, can give additional information.

At Seymour, Wis., H. A. Foeller, of Greenbury, Wis., has prepared plans for a building to be fitted up for hotel purposes for George Falck, of Seymour. It will be of red brick and stone, iron roof and girders, skylights, plate and ornamental glass, electric lights, steam heat, fine bathroom and water closet fittings and modern conveniences. The estimated cost is \$10,000, and bids for the work will be received until February 1st.

At St. Louis, Mo., plans have been prepared by George Kingsley, 404 Schiller Building, Chicago, Ill., for a handsome structure to be fitted up for hotel purposes for the Gail Apartment Company, 105 North Eighth street St. Louis. The interior will be finely finished, considerable tile work, plate and art glass work, sanitary plumbing, electric lights, steam heat, elevators, and all modern conveniences. The estimated cost is about \$750,000.

At Chicago, Ill., plans have been prepared by Flower & Hays, 809 Atwood Building, for the Gooding Apartment House, which will be erected at Spaulding avenue and Madison street for W. S. Gooding & Company. It will be four stories high, of stone and brick, fine interior finish, and all modern improvements. It will contain forty-eight flats, and the estimated cost is \$75,000.—Wilson & Marshall, 218 La Salle street, have prepared plans for a four-story apartment house, to be erected at 3960 Ellis avenue, at a cost of \$38,000.—Fritz Foltz, 58 Wabash avenue, has prepared plans for a machine and erecting shop to be erected at Washenaw avenue and West Twelfth street for Fraser & Chalmers. It will have one traveling crane of 30 tons capacity and two of ten tons capacity, electric power and steam heat. Buildings will also be erected to contain shipping rooms, perforating rooms, tool and stock rooms. All to be of brick and well finished.

—Architect Henry Ives Cobb, Title and Trust Building, has stated that the specifications for the superstructure of the post office building, to be erected at Adams and Clark streets, have been prepared and will be ready for bids in a few weeks. The next contract will include steel frame fire proof floor and partitions and roof. —Richard Curran, contractor and builder, has had plans made for an apartment house, to be erected at Ellis avenue and sixty-second street. It will cost about \$40,000. —Ernest A. Mayo, Dexter Building, has prepared plans for a building to contain four streets and four flats of four or five rooms each. The estimated cost is \$10,000. —J. T. Bright is preparing plans for an apartment house to be erected on Drexel avenue, to cost about \$7,000. —J. F. Baxter, 85 Dearborn street, is making plans for a handsome store and apartment house to be erected on S. Halsted street near Sixty-first street, at a cost of about \$30,000.

At New York, another Brooklyn bridge has been proposed from the Battery to South Brooklyn, with a pier on Governor's Island. A bill has been introduced for its construction by Assemblyman Cain. The estimated cost is \$10,000,000. The East River Bridge Commission has approved the plans of Chief Engineer L. L. Buck, for the steel tower of the new structure, and bids will be opened in a few weeks. The cost of these towers will be between \$700,000 and \$800,000. —A company has been incorporated, to be known as the Tide Water Company, with offices at 23 West Twenty-sixth street, and it is said it will in future have charge of buildings erected by the Astor estate. John Jacob Astor is the president, Henry B. E. y, secretary and treasurer, and A. M. Napier general manager. Joseph Braunley is the superintendent. —A conference has been held between Chief Engineer Birdsell, Consulting Engineer Van Buren and Deputy Commissioner Moffett with a view to increasing Brooklyn's water supply, and a report was submitted, to be transmitted to the board of public improvements. The estimated cost of the work is \$2,300,000. —It is said that Messrs. Child & DeJoll, of 62 New street, have prepared plans for a building to be erected for the use of bicycles. It will be called a velodrome, and will be similar to that of Paris. The estimated cost is \$250,000. —Bids are being received for the new eight story hospital, to be erected on the north side of One Hundred and First street, east of Manhattan avenue, for the New York medical college and hospital for women, 213 West Fifty-fourth street. The plans were prepared by William B. Tutthill, 257 Fourth avenue, and the chairman of the building committee is Alfred H. Morris, 68 Broad street. —The Tide Water Building Company will make extensive alterations to the store at 552 to 555 Broadway, and owned by the Astor estate, at a cost of about \$40,000. Lord, Hewlett and Hall, 16 East Twenty-third street, drew the plans.

## Judgments

## PHILADELPHIA

## ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term, and S, for September Term.

S. F., —Scire Facias, to revive judgment. A star (\*) denotes judgment confessed or bond and warrant conditioned.

### *The Reading is Working Councils.*

The Philadelphia and Reading Railway Company is losing no time in its efforts to escape the payment of its share of the cost of the subway.

The first deal was an effort to induce City Councils to pass an ordinance providing for the purchase of the Schuylkill Navigation Company's property. This scheme failed, as it should have failed.

The company's representatives are now working Councils on new lines, the proposition being to lease the Navigation property for a term of ninety-nine years. This being equivalent to a sale, the advantageous features are, of course, in the interest of the Reading altogether.

The joint committees of Finance and Water of Councils are to meet this Wednesday evening, when President Harris and ex-Judge Campbell, general solicitor of the company, and others, will explain how valuable (?) the Navigation Company's mud holes along the Schuylkill are as an adjunct to the water supply of Philadelphia.

The fact is, there is nothing in the whole proposition, except an effort on the part of the Reading Railway Company to unload upon the city a useless property, which has absolutely nothing to commend it—first, because all of the benefits which could be derived, through either purchase or lease, are now enjoyed by the city; second, the city does not need the property, because, if the lives of its citizens are to be protected from typhoid fever and other diseases, its water supply must be obtained through some other source than the natural drainage of large cities such as the Schuylkill is known to be.

New York brings her water from Croton and other lakes, a distance of over forty miles. These lakes are far away from large cities, and are situated in a hilly, agricultural region.

The Reading Railway Company has been so thoroughly divorced from Philadelphia interests that her welfare now should be of very little concern to Philadelphians. Its management is in the hands of a New York syndicate known as a voting trust. The shares are mainly owned in New York, and many of the prominent positions which were once held by the citizens of this city and State are now filled by officials from other sections.

The Reading's relation to the city now is that of a common carrier only; its affairs are in the hands of shrewd men, who mean to leave no wire unpulled which will yield advantages to the road, regardless of the city's interests.

At the recent annual meeting of the Fire Insurance Patrol, the reports made by the officers gave some interesting figures and information, as follows: The number of fires was 2406, of which number 2196 were confined to the buildings in which the fire originated, while in 51 cases the fire extended to other properties. The total insurance was \$21,665,984, and the loss to the underwriters was \$2,402,369. The following officers were elected: President, George E. Wagner; secretary, Charles B. Hill; treasurer, James W. McAllister; directors, Atwood Smith, John L. Thomson, E. C. Irvin and Charles Platt, Jr.

### *The Continental Title and Trust Company.*

Offices have been secured in the new Girard Building on Twelfth street, above Chestnut, for the permanent quarters of the new Title and Trust Company, which has been organized under the above name.

On or about the 15th of February next it is expected that the doors will be thrown open for business.

At a meeting of the stockholders, T. M. Daly, Alexander Simpson, Jr., Sam'l Alcott, Edward R. Perkins, Patrick O'Neill, John Devlin, Jno. McGlinn, Chas. T. Quinn, Geo. W. Gibbons, Henry C. McDevitt, M. J. Mallon, Edward Trautner, Owen Kelly, Dr. Peter F. Moylan and A. C. Patterson were elected directors. T. M. Daly, Esq., attorney-at-law, 723 Walnut street, has been elected president of the new company, and Mr. Chas. Quinn, at present the paying teller of the Market Street National Bank, secretary and treasurer.

### *F. I. F.*

The Tileite Enamel and Paint Manufacturing Company, corner of North Third and Cambridge streets, this city, are the sole manufacturers of a composition termed F. I. F., that is pronounced by the leading architects, decorators and artists to be the best paint product that has yet been compounded—the very acme of paint composition. F. I. F. dries hard in ten minutes, producing a perfect ivory finish. One coat of F. I. F. is equal to four coats of the best lead paint. It

is adapted for painting wood, metal and plaster. F. I. F. has been subjected to every test possible, for one year, by experts, the verdict being that this product accomplishes everything in securing the object desired, viz.: an exceedingly hard coat, which dries quickly and with a dull ivory finish—producing on soft woods the same finish as is obtained by the old process on hard woods, viz.: filling, painting, rubbing and polishing. Works equally as well over old as on new work. Note especially—New work requires no filling, if finished with F. I. F. Requires no rubbing. Two coats are amply sufficient for any new work. F. I. F. is the most satisfactory steam pipe and radiator covering ever made. The Broad Street Station of the Pennsylvania Railroad, this city, is now being finished throughout with our celebrated F. I. F., wood, plaster and metal being treated alike. The magnificent finish and effect is pronounced by artists, decorators, architects, painters and the general public the most beautiful finish ever seen.

### *Architect Notes.*

E. C. Holman, architect, 1020 Chestnut street, is making plans for a dwelling to be erected at Friendville, Pa., for I. W. C. Ryland, of that place. It is to be of brick and frame, two-and-a-half stories high, steam or hot air heat, electric work and all modern comforts.

Albert H. Savary and William C. Scheetz, architects, have offices as associates in the profession at the Stephen Girard Building, and are now engaged on plans for a fine church building (competitive) and other drawings for work which will be noted as they progress.

Edwin F. Bertolotte, architect, Heed Building, 1215 Filbert street, has made plans for six fine dwellings to be erected in Norristown, Pa., for D. D. Dreslin. These are to be brick and stone, and all modern conveniences will be introduced. Contracts for material and labor let by the owner.

J. Lindley Johnson, architect, Harrison Building, Fifteenth and Market streets, will prepare plans for a clubhouse to be erected at Atlantic City, N. J., for the Country Club of that place. The matter has been put in the hands of Mr. Lippincott, of the latter place, and will be erected during the coming Spring. The plans call for a two-story frame building, heating, either steam or hot air, electric work, shower baths, billiard and pool rooms, as well as culinary department.

Architect J. P. Brenot, 101 Elm street, Oil City, Pa., has on the boards plans for a three-story building for Mr. Max Jacobs, of that place. It will be 19 x 75 feet, to be built of brick, with stone front. It will have hot-water heating, passenger elevator, and all modern improvements. It will cost about \$5,000. Also, same architect has plans for a parochial school house to be built at DuBois, Pa. It will have six rooms and will be built of brick, slate roof, and will cost \$6,000. Also plans for a small Catholic church to be built at Beach Tree, Pa. It will be frame, 35 x 70 feet, and will cost \$1,500.

## TRUSTS. TITLES. DEPOSITS.

## THE PLANT OF THE LAND TITLE AND TRUST COMPANY, 608 Chestnut Street,

Covers every foot of ground in Philadelphia, and is the only Plant containing an abstract of every Deed, Mortgage, and Sheriff's Sale of record in Philadelphia since 1682 located against each property described.

This Plant necessarily gives great additional protection to purchasers and mortgagees taking this Company's policy of Title Insurance, apart from the security of its One Million Dollars full paid capital.

## Beautiful Sea Shells

Every one admires them. Since coming south I have received numerous inquiries from northern people for sea shells, and now I am prepared to answer yes, I can send you shells, for I have made quite a collection of lovely shells, both from our own coast, the coral reefs, and some beautiful ones from the West India Islands. I will mail a dozen or more different kinds, no two alike, to any one who sends a stamp for postage. Also send you a lovely piece of white branch coral.

Yours, **MRS. F. A. WARNER,**  
Jacksonville, Fla.

### Wants.

At Elkton, Md., estimates are wanted for hose by the Singery fire company.

Architect J. P. Bunch, 101 Elm street, Oil City, Pa., wants information as to hot air furnaces and passenger elevators.

At Uniontown, Pa., it is said that estimates are wanted for four new nozzles for the fire department. The look-up and hose committee has the matter in charge.

At Pittsburg, Pa., Edward M. Bigelow, Director Department of Public Works, will receive bids until January 29th for the construction of a number of sewers.

At Summit, Miss., it is reported that proposals will be received until February 1st, for the construction of a complete system of water. Address Major I. B. Holden.

At South Bethlehem, Pa., the borough of South Bethlehem will receive proposals until February 7th, for one thousand feet of fire hose. E. W. Stirk, chairman fire committee.

At Mankato, Minn., proposals are wanted until February 2d, by the county board, for the construction of an iron bridge over the Little Cobb river, in Section 11, Beaford.

At Mount Kisco, N. Y., the Board of Water Commissioners will receive proposals until February 1, 1898, for the material and labor required for the construction of water works.

At Wheeling, W. Va., surveys have been finished for an electric railway to be constructed from Wheeling to Elm Grove. Bids for the same will be received until February 15th.

At Mobile, Ala., proposals will be received until February 12th for the construction of shore protection at Fort Morgan, Mobile Point, Alabama. Major William T. Rossel, United States Engineer.

At Jersey City, N. J., proposals will be received until February third for two are light dynamos, each of 125 are lamps, 2,000 candle power. Address Edward W. Woolley, clerk of Board of Freeholders.

At Chillicothe, Ohio, bids will be received until February 7th for heating and ventilating Jackson avenue school building. Address Valentine Rice, clerk of the Board of Education, 483 East Main street.

John Flynn, architect, 532 Walnut street, is engaged upon preliminary sketches for St. Francis La Sales School at Forty-seventh and Spruce streets. Nothing of definite character can be said at present in regard to size, material or general character of the building. We shall note the above when fully developed.

Harold Gregory, architect, 1208 Chestnut street, has made plans for a residence to be erected at Cynwyd, Pa., for A. K. Gregory. The drawings are on boards of E. R. Riggs, 338 South Thirteenth street, for estimate. The structure will be of frame and brick with slate roof, hard woods on interior, with best modern accommodations, etc.

J. F. Stuckert & Son, architects, 49 North Thirteenth street, has made plans for a fine frame house, to be erected at Langhorne, Pa., for M. Stuckert. The building will be fitted with all modern conveniences, including furnace heat, electric work and modern comforts, size 37 x 42 feet, three stories high. Estimates are to be made on the work at once.

Stearns & Castor, architects, Stephen Girard Building, Twelfth above Chestnut street, are engaged on plans for a house to be erected at Fox Chase for Mrs. L. G. Reib. It will be three stories high and furnished with all conveniences. Same architects have other work in prospect and preliminary sketches started which will be noted as it develops.

Robeson Lea Perot, arch tect, has prepared drawings, and is now receiving estimates for an extensive alteration to residence on School Lane, Germantown. This includes mill work, leaded and plate glass, plaster and stone work, and alterations to stairway. Owner's name withheld. Same architect is engaged on plans for a pair of handsome houses in Germantown, which will be noted later as work progresses.

Hales & Ballinger, architects, 1219 Chestnut street, are engaged on plans for a large warehouse building for Dorendore Bros., tallow merchants, who will erect it at 2324-26-28 Market street. The structure will be four stories high, brick, stone and iron, slow-burning construction on interior, and fitted with all modern conveniences, including electric work and elevator lift. The same firm of architects expect also during the coming week to place on contractors' boards and in their own office, plans for estimate upon the new M. E. Home for Aged Couple and Single Persons. It will take, when completed, the place of the present one, Thirteenth street and Lehigh avenue, and will be of brick, stone and iron construction, fire proof throughout, fitted with every comfort and convenience; steam heat, electric work, elevator lift, laundry, culinary department, cement flooring and artificial paving, etc.

One of the best and brightest annual exhibits of the T-Square Club, of this city, opened on Monday last, at the Academy of Fine Arts. Among the very noticeable features are sketches from all the large cities of this country and a fine representation of art in Europe. It will be remembered these are the production of scholars in architecture chiefly, and partake largely of that class of work, either ornamental or practical in design, and are worthy of much credit to their authors. The Philadelphia exhibitors include Percy Ash, John T. Bissegger, J. J. Brie, D. K. and L. V. Boyd, Spencer Roberts, Horace H. Burrell, Oscar M. Hickman, Cope & Stewardson, Francis H. Cruess, Nicola d'Ascenzo, Frank Miles Day & Bro., William Eyre, Jr., Field & Medary, Hales & Ballinger, William Charles Hays, Frank A. Hays, James P. Jamieson, Kennedy, Hays and Kelsey, Charles Z. Klauder, Adin B. Lacy, Charles R. Lee, Frederick R. Mann, Charles Molitor, Thomas Moore, Guernsey, Charles E. Oelshlager, Herbert P. Onyx, George Bispham

Page, Joseph J. Pierson, Jr., Wm. L. Price, Walter F. Price, Schermerhorn & Reinhold, Edgar V. Seeler, Lloyd Titus, Emil Clarke Tritton and Herbert C. Wise. The officers of the T-Square Club are: President, David Knickerbacker Boyd; vice-president, Edgar V. Seeler; secretary, George Bispham Price; treasurer, Horace H. Burrell; executive committee, David Knickerbacker Boyd, chairman; Edgar V. Seeler, George Page, Horace H. Burrell, Walter Cope, Louis C. Hickman, Charles Z. Klauder. Jury of Selection—David Knickerbacker Boyd, George Bispham Page, Horace H. Burrell, Charles Z. Klauder, Edgar V. Seeler, Bruce Price, New York; Louis H. Sullivan, Chicago; Victor Laloux, Paris; Walter Cope, Louis C. Hickman, C. Howard Walker, Boston; Ernest George, London; Albert Kelsey, London; Paul A. Davis, 3d, London. Hanging Committee—David Knickerbacker Boyd, George Bispham Page, Horace H. Burrell, Charles Z. Klauder, Walter Cope, Edgar V. Seeler, Louis C. Hickman. The exhibition will remain open until January 29.

#### Building and Real Estate Notes.

William C. Carman, contractor, has started to build three dwellings at Glenwood and Indiana avenues, brick and stone and best conveniences, etc.

James L. Stevenson, builder, has bought a piece of ground at Thirtieth and Cumberland street, and will likely improve the site during the coming building season.

McCartney & Ober, contractors, will at once begin the erection of a three-story brick and brownstone store and hall building, 28 x 68 feet, on Cambria west of D street. Previously noted.

T. C. Krewson, contractor, has been awarded a contract to build a mortuary crypt chapel under the altar of St. Clement's P. E. Church, at Twentieth and Cherry streets. Previously noted in this journal.

A. M. Greene and Robert Alexander, associated, will erect a large operation of houses at Morris and Rittenhouse streets, Germantown. All are to be of a high grade, stone and fire brick, porches in front and sides, interior to contain every modern comfort and convenience, etc.

Blaylock Flynn, hatters, Chestnut street, have taken an additional store under the Continental Hotel, and will make considerable alteration in both. This will consist of store fixtures, electric work, plumbing and heating work, decorative art, and all general accommodations, etc.

The Charles Hillman Ship and Engine Building Company, Beach and Warren streets, are to erect, at once, a boiler shop, one story high, 65 x 112 feet, also a blacksmith shop and small boiler house in addition, in all costing about \$12,000. Brick, iron and stone will be the chief material used.

An ordinance has been reported in Common Council from the survey committee recommending a bridge and pavilion on Delaware avenue at some point to be selected for a breathing spot in the warm summer months. No action has been taken as yet looking to an appropriation.

An ordinance will be offered in councils, at the next meeting, to allow the Loyal Legion, a military order, to create a museum of military relics in Independence Hall. Also several other bills for improvements of certain small parks. Another for \$50,000 to purchase a lot at Eleventh and Vine streets, for the proposed new police station for the Sixth District.

Andrew Gillson, 1147 South Fifteenth street, will erect eleven dwellings at Broad and Wolf streets, for himself, after plans made by Boyden & Taylor, architects, 413 Walnut street. These are to be brick, stone

trimmings and best modern comforts on interior. Same architects have made plans for an operation of forty houses to be erected in Kensington.

The Philadelphia & Reading Railroad Company has asked bids on foundations for their new ferry house and slips at foot of Chestnut street, Delaware river. Bids to be in by January 29th. The structure will be 160 feet front, and extend 233 feet into the river. An additional slip is to be erected for extra work, etc. This work has been noted in previous issues of this journal.

The councilman committee that visited Washington, D. C., last week, and the citizens delegation who accompanied them, have urged upon congress the importance of an appropriation of \$2,000,000 for improvements to League Island. Also an estimate has been made of amount necessary to deepen the river channel from the city to the Delaware Bay, so as to float safely the largest and deep laden vessels afloat.

Several school houses, patrol, fire and station houses are among the new structures proposed to be erected by the city, dependent however upon the successful passage of the Loan ordinance, now being considered by City Councils. Indeed, improvements amounting to millions of dollars, of a public character, are contemplated to flow from the benefits of the above fund, as it was for this purpose chiefly intended.

A visit of Mayor Warwick and a number of other city officials was made last week to the Municipal Hospital, for contagious diseases, and they have endorsed recommendations for considerable additions and improvements to be made, among which is a new heat and light plant. Of course this will necessitate action by Councils before anything of a practical nature can be accomplished.

With reference to the new Jefferson Hospital which is to be erected on Walnut street, rear of the present structure, there has been no definite action taken, no plans decided upon or contracts let. Enough has developed however to indicate active results in the course of a few weeks. Mr. Potter, the president, and the board of trustees are now giving considerable time to the details necessary before public mention can be made of them.

During the first week of February the plans for the new capitol building at Harrisburg will be placed on boards of contractors for estimate. These are quite elaborate as well as the specifications. It is indicated that the drawings are to be on exhibition in the Supreme Court room in Harrisburg, Pa. The work of construction has been largely advertised as to proposals throughout the State. A full description of the structure as it will appear when completed has been given in these columns in previous issues.

Among the prospective work for the coming season and for which plans are now in progress, especially large operations, is the office building on the site of the old Haseltine stores, Chestnut street above Broad, owned by a syndicate of Chicago capitalists. The drawings are competitive, and no selection made as yet. Also the sixteen-story structure to be reared at Broad and Chestnut streets, southeast corner, for which plans have been made by Seeler & Roberts, associate architects, Brown Bros. Building, Fourth and Chestnut streets, and which have been fully noted in these columns previously. These drawings are now on boards of Allen B. Rorke, Bourse Building, and J. W. Mercer, 208 South Seventh street, and others, for estimate. Plans for alterations and additions to 117 South Sixteenth street have been made for the owners of the above office structure, the Real Estate Trust Co., 1340 Chestnut street. The work will consist of masonry, cement work, electric and carpenter work, slag roof, heating system, speaking tubes, etc. Estimates are now being made

**H. E. SEALEY, Local Manager**

in the two contractors' offices named. Also the magnificent mansion at Ashbourne, Pa., for P. A. B. Widener, of this city, which will be started at an early day, under supervision of the architect, Mr. Horace Trumbaur, and a description of which appeared first in the architectural columns of this journal. From present indications it is likely that the long expected Jefferson Hospital additions will be reared facing upon Walnut street, and the details of which we shall give in a later issue, as noted elsewhere. The superstructure of the U. S. Mint, at Sixteenth and Spring Garden streets, will be another item for estimate during the building season, and which is most likely to follow that of the new capital edifice at Harrisburg.

**Through Pennsylvania.**

When any of the following are not post office towns they will be so designated.

At Bellefonte, Centre county, the depot of the Atlantic Refining Company was de-

stroyed by fire on January 18th, at a loss of \$20,000.

—At Charleroi, Washington county, a national bank has been chartered. The capital is \$75,000.

—At Ridley Park, Delaware county, John S. Pomeroy has made arrangements for the erection of four dwellings.

—At Bridgeville, Allegheny county, six buildings and a lumber yard were destroyed by fire a few days since at a loss of \$30,000.

—At Newport, Perry county, it is reported that a company has been formed to construct an electric light plant. J. S. Leebly is interested and can give information.

—At Somerfield, Somerset county, the store and dwelling of C. A. Frey, and the dwelling of W. A. Frey were destroyed by fire a few days since at a loss of \$6,000.

—At Allegheny, Allegheny county, an addition will be constructed to increase the capacity of the Charles street school build-

ing in the Tenth ward. The plans have been prepared by Topp & Craig, Bissell Block, Pittsburg, Pa.

—At Glenside, Montgomery county, the property owned by Widener & Elkins has been surveyed, and will be laid out in attractive building sites.

—At Salem, Snyder county, a large silk mill will be erected by W. Dunn and Wm. H. Mitchell. A number of Carlisle, Pa., capitalists are interested. The estimated cost is \$50,000.

—At Downingtown, Chester county, the directors of the recently incorporated Citizens' Electric Light Company are John T. Fox, James R. Downing, Dr. Edward Kerr and others.

—At Speers, Washington county, a company to be known as the Monongahela Valley Electric Company has been incorporated to furnish electric light to the borough. The directors are Robert T. Rossell, W. B. Carson and George B. Motheral, of Pittsburg.

—At Wilkesbarre, Luzerne county, the directors of the Wilkesbarre Deposit & Savings Bank have about decided to erect a new building on the site of the present building on Public Square.

—At Weatherly, Carbon county, on February 15th, an election will be held to vote on the question of issuing bonds to the amount of \$22,000, the proceeds to be used for the erection of a school building.

—At Fayette City, Fayette county, about the middle of February an election will be held to vote on the question of issuing bonds to the amount of \$12,000, the proceeds to be used in the construction of water works.

—At Walnutport, Northampton county, a few days since, fire destroyed the dwellings of Elias Kerns and John Roth, and the double dwelling of E. J. Walt. The estimated loss is about \$10,000.

—At West Chester, Chester county, the school directors will take steps at once to secure and fit up a room to relieve the pressure on the High School building, which is much overcrowded.

—At Harrisburg, it has been decided by the commission having in charge the erection of the capitol that white marble will be used for the exterior. The address of the architect is Henry Ives Cobb, 100 Washington street, Chicago, Ill.

—At Reading, Berks county, the three-story brick building, owned by J. George Zeigler, and occupied by the Star Machine Screw Company, and the stocking factory of Wm. R. DeHart, was destroyed by fire last week at a loss of about \$16,000.

—At Oakbourne, Chester county, it is said that three additional cottages will probably be erected at the colony farm of the Pennsylvania Hospital for epileptics. Hon. Plummer E. Jefferis erected the present building, and will likely get the contract for the proposed buildings.

—At McKeesport, Allegheny county, the property known as Jester Block was totally destroyed by fire last week. It was occupied by Jester's jewelry store and Bedell's gentlemen's furnishing store. The building was erected about ten years ago at a cost of \$100,000.

—At Ambler, Montgomery county, the Keesbey & Martison Company has decided to enlarge its plant by the erection of a building, 400 x 60 feet, and four stories high. It will occupy a site on Maple street adjoining the present building. The new building will be used for the manufacture of pipe covering.

—At North Wales, Montgomery county, a number of local capitalists have arranged for the erection of eight dwellings.—William Franks will erect a dwelling on East Montgomery avenue, and C. E. Beam will erect two dwellings on Third street.—A fund is being raised to erect a stone factory to be in charge of VanFleet & Nixon.

—At Clifton, Delaware county, the borough council of Clifton has decided to submit to the people at an election to be held February 15th the question of increasing the debt of the borough to the extent of \$17,500, of which \$12,500 will be used for the erection of a suitable hall for town purposes, and \$5,000 will be used for street improvements.

—At Sharon Hill, Delaware county, David Dalton has bought a lot on the north side of the Philadelphia, Wilmington & Baltimore Railroad on Sharon avenue, and will erect a handsome dwelling and store. The structure will be three stories high and 41 x 56 feet.

—The Sharon Hill Board of Council will have 250 feet of Sharon avenue, between Elmwood avenue and Jackson street, macadamized.

—At Chester, Delaware county, a meeting was held last week of the jury having in charge matters relating to the proposed county bridge over Chester creek at Ninth

street. The question of damages was discussed and a number of witnesses heard on that subject. J. Howard Cochran testified that the damages would be about \$10,000 to the property of the Eyre estate. Another meeting will be held on 31st of January.

—At Oxford, Chester county, W. H. Harrison has bought of J. M. C. Dickey a 1-1/2 fifty feet front on South Penn avenue, upon which the purchaser will erect a dwelling at once.—Mrs. E. D. Johnson, of Lower Oxford, has sold her property, consisting of a house and about five acres of ground to George Barnett, of Oxford, who will occupy the house and make a number of improvements, including the erection of new greenhouses.

—At Chester, Delaware county, the school board has about decided on the erection of a new school building, to be two or three stories high, well furnished and supplied with modern appliances.—A fund is being raised to be used in the erection of a new structure for the congregation of St. Paul's Episcopal Church, of which Rev. F. M. Taite is the rector. The proposed edifice will be of stone and brick with a seating capacity of about nine hundred. It will be finely finished, handsome church furniture and fixtures, and will cost about \$50,000. Mr. J. A. Campbell is treasurer of the committee having in charge the raising of the necessary money for the erection of the proposed structure, and the pastor is also a member of the committee.

—At York, York county, H. E. Yessler is preparing plans for a handsome dwelling to be erected for William Nors. It will be of brick and stone with fine interior finish of hard wood, steam heat, gas and electric light, considerable tile work in bathrooms and vestibules, hard wood floors, open grates, cabinet mantels, plate, leaded and ornamental glass, and all modern conveniences. The cost will be about \$5,000.

—The same architect is making plans for an attractive dwelling to be erected in a suburban site for the Misses Gable. It will be of frame, with porches, fine interior finish of hard wood, sanitary plumbing, considerable tile work, steam heat, gas and electric lights, and modern comforts. The estimated cost is about \$8,500.

—At Doe Run, Chester county, as previously mentioned, a building to be fitted up as a public hall will be erected. The proposed building will be erected by Pusey Buffington on the site of the Barton mill, destroyed by fire some time since. The basement will be equipped as a first-class creamery and the second floor will contain 30 x 65 feet, with stage, curtain, dressing rooms, toilet rooms and handsomely furnished. Ellis P. Wood is president of the stock company and Willis B. Palmer is the secretary. Frank Amos, Jacob Pierce, Morris G. Wood and William Pusey are interested in the project. The work will be pushed as rapidly as possible.

—At Greensburg, Westmoreland county, the plans prepared by Architect Kaufman, of Pittsburgh, for a new court house, have been approved by the Westmoreland Law Association, and are now in the hands of Judges Doty and McConnell, whose approval will be necessary before the plans are finally accepted. The only impediment will be the cost, as it is understood that the plans must not call for a building to cost more than has been appropriated. The estimated cost for a granite structure is \$800,000, while for a stone structure the estimated cost is \$265,000. The Grange Association have made some objections to the erection of a building at this time, but if the plans are approved by Judges Doty and McConnell, the work will be started as soon as possible.

—At Pittsburg, Captain James A. Henderson, G. W. C. Johnson, Jno. E. Shaw, and Samuel McElroy are interested in the erection of a large warehouse to be erected on Carson street for the Pittsburg Terminal Warehouse & Transfer Company. The structure will occupy a site of seven acres and the esti-

mated cost is \$1,000,000.—The Allegheny Valley Railroad Company will erect a new freight depot at Eighteenth and Pike streets. About seventy dwellings will be demolished to make room for this building.—A number of handsome dwellings will be erected in the Donnelly Place Plan on Fifth avenue from plans prepared by Ruban & Russell. They will be finely furnished and provided with all modern conveniences and improvements.—Long & Carroll, Hamilton Building, have prepared plans for six two-story and attic dwellings of brick which will be erected on Lytle street, Hazlewood. They will be well furnished and provided with all modern comforts.—At a recent meeting of the congregation of the Wilkinsburg Presbyterian church a committee was appointed, consisting of A. M. Duff and Charles Armstrong, to secure plans for the erection of a new church. The congregation recently bought a lot on Wallace avenue and Wood street which will be used as the site for the proposed new structure.—Charles Bickel, Methodist Building, will prepare plans for a five-story building to be erected for the American Mechanics on Carson street, between Eighteenth and Nineteenth streets. The same architects now have plans ready for bids for the building to be erected for Kauffman Brothers and which has been reported.

E. T. Shaffner, 72 Washington avenue, will erect a three-story frame dwelling also a two-story frame dwelling. The cost will be about \$4,000.—G. F. Frick will erect a two-story brick dwelling to cost about \$7,500. It will occupy a site on Baum street, will be handsomely furnished and provided with all modern conveniences. The contractor is George W. Kearns, 6229 Keely street.—Tapp & Craig, Bissell Building, are receiving bids for the erection of the tenth ward public school in Allegheny. Thomas Boyd, Westinghouse Building, is preparing plans for an attractive dwelling to be erected in the East End at a cost of \$15,000. It will be of brick, finely furnished and will be supplied with all modern conveniences.—E. J. Carlisle & Co., Lewis Building, are making plans for a three-story brick store and department house to be erected at Braddock, Pa.—S. F. Heckert, Stevenson Building, is preparing plans for extensive additions and alterations to the dwelling of Captain W. P. Herbert at Avalon, Pa.—G. W. Kellenburg, 1111 Penn avenue, will erect a four-story brick building at 1206 Penn avenue to cost about \$8,000. The contract for the erection has been let to S. L. Smith & Co., 1113 Franklin avenue, Station D. It will be well finished and supplied with modern conveniences.—The annual report of the county engineer, Charles Davis, recommends the appropriation of \$49,800 for fifteen new bridges to be constructed during the summer of 1898.—It is reported that F. C. Sauer has prepared plans for a handsome club house to be erected in Allegheny. The estimated cost is \$50,000. Charles Sherriff is chairman of the building committee.—The contract for fitting the Butler County Jail with new cells has been awarded to the Van Dorn Iron Works, of Cleveland, Ohio, for \$19,924.—F. J. Osterling, Telephone Building, has been authorized by the commissioners of Washington county to prepare plans for the proposed new court house building. It will be a handsome structure and will cost about \$425,000, including the furnishing. As soon as the plans are finished steps will be taken to begin the work as soon as possible.—The directors of the Lawrenceville Bank, at Thirty-fourth and Butler streets, will erect a new bank building in the near future.

#### Through New Jersey.

At Mount Holly, Burlington county, a syndicate has obtained control of the street railway and will probably convert it into a trolley line

### Miscellaneous.

At Columbus, O., it is said that the plans drawn by Architect Riebel have been approved by the Board of Education and will be used for the proposed new high school.

At Amherst, Mass., a bill has been introduced in the Legislature to appropriate \$28,000 for the erection of a veterinary laboratory and stable hospital at the Massachusetts Agricultural College.

At Deposit, New York, George T. Benton, business manager of the Webb Pearl Button Company, reports that the company will rebuild at once a main building, 80 x 90 feet, with an addition for boiler room and machine shop.

At Cassopolis, Mich., the supervisors of Cass county have decided to submit to the people the bonding of the county to the amount of \$40,000, the proceeds to be used for the erection of a new court house. The estimated cost is \$40,000.

At White Plains, New York, the Westchester County Board of Supervisors, at a recent meeting, adopted a resolution providing for the erection of a new building at the county almshouse, at East View. The estimated cost \$10,000.

### Wants.

At Gallatin, Mo., proposals will be received until February 10th, for the construction of water works and an electric light plant, all proposals to be sent to Hon. I. Mann, Mayor, and Mr. H. Y. Tarwater, city clerk.

At Glenville, O., proposals will be received until February 15th, for the construction of sewers, drains, manholes and flush tanks, comprising section 1, of sewer district No. 2. Z. W. Morris, village clerk, can give information.

At Paterson, Passaic county, the plant of the Atherton Machine Company was destroyed by fire last week. The estimated loss is \$10,000.

At Newark, the Brilliant Gas Light Company has been incorporated with a capital of \$500,000. The incorporators are George W. Brand, of New York; Adam E. Scha'z, of Mount Vernon, N. J., and Fritz A. Feldkamp, of Newark, N. J.

At Montclair, Essex county, the plans of Van Vleck & Goldsmith, of New York, have been accepted for the new building for the Y. M. C. A. The cost, including the site, will be about \$50,000. John R. Livermore is the chairman of the building committee.

At West Orange, Essex county, it is said that the West Orange Electric Light and Power Company, which has been incorporated by the same men who control the South Orange and Maplewood Trolley Company, has petitioned for a franchise for electric lighting purposes.

At Perth Amboy, Middlesex county, it is said that George W. Eggert, the superintendent of the city water works, has been authorized by the Board of Aldermen to prepare specifications for a compound condensing duplex pumping engine, with a daily capacity of 4,000,000 gallons; also to advertise for proposals to construct the same at the city's pumping station at Runyon, N. J.

At Atlantic city a movement has been started to secure better paving, and a committee of three has been authorized by city council to act in conjunction with an attorney in preparing State Legislation on the subject. Mayor Raymond has approved the plans and has recommended to the War Department the construction of a jetty over seven thousand feet long, to the north of the inlet. The estimated cost is \$500,000.—The Standard Oil Company will erect a large tank on the Higbee road, North of Baltic avenue.—It is reported that William Parker will erect a casino from plans prepared by Harry Peale, of Philadelphia, and that the contract has been awarded to G. B. Parsons. The structure to be one story, 60 x 140 feet, and to contain pool and billiard room, with other features.

#### Through Delaware.

At Lewes, Sussex county, the Lewes Board of Trade is considering the advisability of putting to the vote of the people the question of issuing bonds to the amount of \$40,000, the proceeds to be used for the construction of a plant to light the town and to construct water works.

#### Through Maryland.

At Frederick, Frederick county, a bill has been introduced in the Legislature to authorize the mayor and the aldermen of Frederick to issue bonds to the extent of \$85,000, the proceeds to be used to pay the cost of increasing the water supply of the city.

At Denton, Caroline county, a company has been formed for the purpose of constructing a railway from Denton to Cambridge, to connect with Queen Anne Railroad. The incorporators are H. T. Nuttle, of Andersonville; H. B. Messenger, of Federalburg; Emory S. Turpin, of Greensboro, and M. Bates Stephens, of Denton.

At Baltimore, arrangements have been made by Elizabeth Bettig for the erection of a two-story brick dwelling on the west side of Allen street, north of Fort avenue.—L. M. Reynolds will erect two three-story brick dwellings at 1304 and 1306 Madison avenue. They will be finished and provided with all modern conveniences and improvements.—Plans are under way for extensive alterations and additions to Loyola College, on North Calvert street. Six dwellings on Monument street, from Calvert street to Hargrove alley, will be torn down to make room for a handsome brick

building to connect with the present college building. The new structure will contain lecture rooms, recitation halls, gymnasium, laboratories and other conveniences. The interior will be finely finished and will be provided with modern comforts and improvements. The estimated cost is about \$75,000.—William V. Baker, Sr., will erect twelve three-story dwellings on Charles street, between Twenty-sixth and Twenty-seventh streets. They will be finished in an attractive manner and supplied with modern conveniences.—The sewerage committee of city council has reported in favor of a system with disposal by filtration. The first cost of the work will be \$5,840,000 and the final cost \$17,500,000.—It is said that the directors of the Eye, Ear and Throat Hospital have decided upon the erection of a new building. Mrs. R. M. Wylie is president; her address is 1 07 East Baltimore Street.

#### Washington, D. C.

The District Commissioners gave a hearing not long since to a delegation of citizens from the North Capitol and Eckington Citizens' Association on the question of the proposed extension of the Capitol Traction Railway from Seventh and "U" streets along Florida avenue to and around the Circle at North Capitol street and return. Mr. A. R. Server, chairman of the railway committee, had the matter in charge and advised the commissioners, setting forth the merits of the extension. The estimated cost is \$30,000.—Senator Kyle has presented a petition to the U. S. Senate calling attention to the unsanitary condition of the James creek canal, setting forth that its length is 7,920 feet and width 69 feet, containing 474,000 feet of surface, all of which is filth. The petition was referred to the committee on the District of Columbia.—Among the improvements provided for in the appropriations, is an item relating to Rock creek bridges as follows: Toward the construction of a steel bridge with stone foundations across Rock creek, on the line of Massachusetts avenue extended, \$50,000, and the total cost of said bridge complete under the contract hereby authorized to be not more than \$99,304; for Girls' Reform School, \$25,000; for additional buildings to cost not more than \$50,000 when completed; for one eight-room building and site Northeast, \$37,500; for rebuilding Lovejoy school building; \$30,000.—Mr. Crosby appeared before the House District committee a few days since to urge speedy action on the bill to amend the charter of the Eckington and Soldiers' Home Railway Company, as the company is desirous to have action taken in order that work may begin in equipping the road to run by electricity. Mr. Crosby stated that the proposed improvements would cost about a million and a half dollars.

—James G. Hill has prepared plans for a large office building which will be erected by the Columbian University, on the site of the old law building on Fifth street, between D and E streets, and fronting on Judiciary Square. It will be of steel construction, brick and stone, fireproof, as far as possible, considerable tile work, hard wood interior finish, best of plumbing, plate glass, steam heat, elevators and all modern improvements.—Mr. Charles C. Duncan has bought for \$18,100 the property on Ninth street, just south of E street, including two buildings. The property has a frontage of twenty-eight feet and a depth of sixty-one feet.—Mrs. Hearst has proposed to have a competition for plans for a group of buildings for the University of California to be erected at Berkeley, a town situated across the bay from San Francisco. It is proposed to spend \$50,000 on this contest, in which any architect can take part. Maps and photographs of the grounds in whole and in detail have been placed in the rooms of the Washington Chapter of the American Institute of Architects. As a result of the preliminary contest not less than ten names will be selected, each one of whom to receive not less than \$1,000. A sec-

ond contest will then be held of the same plans on an enlarged scale, and to the best four prizes in money will be given, the first prize to be \$8,000, and the other three \$4,000 each, and in addition traveling expenses to view the grounds will be paid.—The policy of the commissioners in inviting local architects to prepare the plans for school houses and engine houses, instead of having the plans drawn in the Building Inspectors' office, has met with considerable success. A number of buildings are in course of erection under the plan, including the school house at Eckington, by A. P. Clark; the Peabody annex, by W. J. Marsh, and engine house on Eighth, near D street, by T. B. Pyle.—Proposals are now being received for a school building on Marshall street by W. M. Poindexter, and for a school building at Twenty-fourth and F streets, Northwest, by Hornblower & Marshall.

Three attractive cottages will be erected at the northwest corner of Twelfth and Detroit streets, South Brookland, by Mr. E. Burgess, architect and builder.—The sacristy of St. Peter's church is to be enlarged according to plans prepared by Henry Simpson.—The improvement will be of Potomac blue stone and granite, 16x17 feet, and finely finished and refitted.—Ruth & Evans will erect five dwellings of brick and stone. They will be two stories high, well finished and provided with modern conveniences.—A store and flat building will be erected at 1913 Pennsylvania avenue, Northwest, by Pacificus Ord. It will be four stories high and will be of brick, the interior will be well finished; the first floor fitted up as a store and the remaining three floors attractively fitted up as apartments. All modern conveniences will be introduced.—E. B. Sherman will erect a frame dwelling at 3034 Prospect street. It will be two stories high, with stone and brick foundations and high pitch shingle room. The interior will be well finished and supplied with modern conveniences and improvements.

The ladies of the Third Christian Church are raising a fund to erect a church. The officers of the society for this purpose are president, Mrs. Neidomauski; vice president, Mrs. Smithson; secretary, Mrs. Nelson, and treasurer, Mrs. Hillman.—The contract for the electric light and power plant of the new city post office has been awarded to the Treasury Department to the McCay-Howard Engineering company, of Baltimore, for \$17,325. The contract calls for putting in four Buckeye tandem compound engines and four thrasher dynamos. The contract for wiring has also been let for \$20,650, making a total of \$38,175.—It is said that the Commissioners will shortly take steps to improve Twenty-seventh street, north of M street, in Georgetown.—Charles E. Tribby has bought two lots from Mary L. Cropley. They are located on N street, near Thirty-first street.—A. L. Lowe and Emily C. Matthews have also bought lots in Georgetown.

#### Sales at Auction.

SOLD AT THE PHILADELPHIA BOURSE ON WEDNESDAY, JANUARY 19, 1893

Bread street, No. 110, three-story and attic brick store and dwelling, lot 17 x 45 feet, \$1800  
South street, No. 835, three-story brick store and dwelling, lot 16 x 61.4 feet, \$2730

### Wants.

#### Proposals Wanted.

Treasury Department, Office Supervising Architect, Washington, D. C., January 15th, 1898.—Sealed proposals will be received at this office until 2 o'clock, p. m., on the 31st day of January, 1898, and opened immediately thereafter, for all the labor and material required for the approaches to the U. S. Appraisers' Warehouse, New York, N. Y., in accordance with drawing and specification, copies of which may be had at this office or the office of the Superintendent at New York, N. Y. The right is reserved to reject any or all bids and to waive any defect or informality in any bid, should it be deemed in the interest of the Government to do so. Proposals must be enclosed in envelopes, sealed and marked "Proposal for Approaches to the U. S. Appraisers' Warehouse, New York, N. Y.," and addressed to the Supervising Architect.

Treasury Department, Office Supervising Architect, Washington, D. C., January 22, 1898.—Sealed proposals will be received at this office until two o'clock P. M. on the 18th day of February, 1898, and opened immediately thereafter, for all the labor and materials required for the erection and completion (except heating apparatus) of the United States Post Office building at South Omaha, Nebraska, in accordance with the drawings and specification, copies of which may be had at this office or the office of the superintendent at South Omaha, Nebraska. The right is reserved to reject any or all bids and to waive any defect or informality in any bid should it be deemed in the interest of the Government to do so. Proposals must be enclosed in envelopes, sealed and marked "Proposal for the erection and completion of the United States Post Office at South Omaha, Nebraska," and addressed to the Supervising Architect.

At Lancaster, O., proposals will be received until February 1st, for the construction of a reservoir, furnishing and laying pipe and special castings, digging trenches, etc. Address Louis J. Snyder, secretary of the Board of Water Works.

At Indianola, Miss., the Board of Supervisors of Sunflower county want plans and specifications for the erection of a court house until February 7th. The cost of the building will be about \$20,000. W. P. Gresham, clerk, can give additional information.

At Cleveland, O., bids are wanted until February 2d for furnishing and delivering cast iron water pipe and special casting required during the year 1898, by the water works division of Department of Public Works. Geo. R. Warden, Director of Public Works, has the matter in charge.

At Hazleton, Pa., sealed proposals will be received on and after January 24th, until February 4, 1898, for laying 18,000 square yards, more or less, vitrified brick or block street paving on a concrete base, including 6000 cubic yards of excavation, the construction of ten inlets or catch basins and the setting of five hundred feet, more or less, of stone curbing, the work to be done in accordance with plans on file in the city engineer's office, and no bid will be accepted unless upon blanks furnished by the city engineer, whose office is at the corner of Poplar and Chestnut street. A. Brooks Cellar is city engineer.

### Judgments

#### PHILADELPHIA.

#### ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term, and S, for September Term.

S. F.—Scire Facias, to revive judgment.

A star (\*) denotes judgment confessed or bond and warrant conditioned.

\$5.00 PER YEAR.

## Architect Notes.

Wilson Bros., architects, Drexel Building, are making plans for alterations and large additions to the Point Breeze Gas Works, for the U. G. I. Co. These will include new buildings, etc.

J. Elvin Jackson, architect, 804 Walnut street, states that an assembly hall, 509 South Eighth street, for which he prepared plans, will not be erected at present. Perhaps the matter will be revived in the coming spring months.

As noted before in these columns Wilson R. Kerr, architect, has been taking bids, revised, for twenty houses, to be erected at Angora, West Philadelphia. They are to be of brick, stone facings and steps and best conveniences on interior.

S. C. Boyer, architect, 913 Walnut street, has completed plans for a stable at Cynwyd, Pa., for A. R. Jones, of this city. It will be built of stone 40x60 feet, two stories high, slate roof and interior supplied with general stable fixtures, etc.

Stearns & Castor, architects, Stephen Girard Building, Twelfth above Chestnut street, have been receiving figures on the house for Mrs. L. J. Rush, at Fox Chase. This work has been fully noted in a previous issue of this journal.

Architect William H. Free, 905, Lippincott Building, has plans and is taking estimates for sixty-four dwellings up-town for F. S. Zaue, builder and owner. Mr. Free has just removed his office from 1237 Arch street to the Lippincott Building.

H. D. Dagit, architect, 435 Chestnut street, has made plans for alterations to store building, 527 Chestnut street, for H. B. Granley. This consists of bulk windows, plate glass, plumbing, plastering, etc. Estimates are being made on the work.

Stacy Reeves & Sons, contractors, 1611 Filbert street, are taking bids on a residence for Edward Longstrech, at 1410 Spruce street. The plans are by Addison Hutton, architect, 400 Chestnut street, and have been fully noted in these columns previously.

Schermerhorn and Rheinhold, architects, 430 Walnut street, are taking bids on a stable for Theodore Campbell to be erected at Overbrook. It will be 20 x 40 feet, built of face brick and stone, slate roof, cement and pine flooring and all modern conveniences.

F. A. Barrows, architect, 40 North Sixth street, Reading, Pa., is ready for bids on six dwellings to be built at Sixth and Spruce streets. These are to have pressed brick, stone trimmings, and best interior comforts. Owner is F. P. O'Reilly, of Reading, Pa. Same architect has awarded a contract to Geo. Beard, of Reading, Pa., to erect a hat factory for John Hendel & Son, at 523 South

Fifth street, in that place. It will be of brick, iron and slow burning construction. It will also be in size 40 x 15 feet, two stories high and basement. A few sub-contracts remain open.

J. Cather Newsom, architect, 1001 Chestnut street, has made plans for a new church for the Church of God congregation at Germantown, Rev. W. N. Yates in charge. It will be of stone and brick, one story and basement, and fitted with general church furniture.

Plans have been made by Hazelhurst & Huckel, architects, for fifteen houses, to be erected at Fifteenth and Venango streets, for F. D. Williams, 163 Susquehanna avenue, and estimates are being made. These are to be brick and stone, and contain modern conveniences, etc.

Charles M. Robinson, architect, Altoona, Pa., states that his completed drawings for Grace Lutheran Church have been accepted and the contract will be let at an early day. It will cost about \$20,000 when completed, and has been fully noted in a previous issue of this journal.

J. T. Windrim, architect, 1107 Walnut street, has awarded Frank Souder, of Atlantic City, N. J., a contract to erect a pavilion at that place, for which Mr. Windrim prepared plans. It will measure 90 x 150 feet, two stories high and of frame construction for amusement purposes.

It is understood no architect has yet been selected to prepare plans for the proposed Alumni hall building to be erected on the campus of the Pennsylvania Military College at Chester, Pa. The structure will not be very large, probably two stories high, with basement. Full particulars will be given later.

The revised specifications upon the Peter A. R. Widener mansion, at Ashbourne, Pa., only contemplate change in material and a few minor points. All the original embellishment and decoration are substantially the same, and the contract is expected to be awarded at an early day. The estimates will receive consideration at once.

Hewitt Bros., architects, Bullitt Building, have now completed all the plans for the new society building to be erected at Woodland avenue and Thirty-sixth street, near the University of Pennsylvania. It is to be of brick and terra cotta, 50 x 60 feet, three stories high and basement, steam heat, electric work, hard wood work, slate roof, marble and tile work, pool and billiard rooms provided, bowling alleys etc.

An addition is to be erected to the nearly completed mansion of Anthony J. Drexel, at the corner of Eighteenth and Walnut streets, a ball room, handsomely fitted for reception, balls and parties. The plans are being made by Wilson Eyre, Jr., 927 Chest-

nut street, and who is about ready for estimates. This extension will be in keeping with the present house, and lighted during the day time with two large domes. All modern improvements and conveniences are to be introduced.

Mr. J. F. Stuckert & Son, architects, 49 North Thirteenth street, will soon complete plans for one of the finest, largest and best equipped factories in this country for Mr. Frederick Rumpf, textile manufacturer. It will be erected at Langhorne, Pa., and will be about 400 feet in length and three stories high, with a full basement. The structure will be equipped with steam power and heat, electric plant, speaking tubes, lavatories and closets, best system of plumbing and ventilation, as well as general conveniences. It is likely all the drawings will be ready for estimate at a very early day. This firm have in course of preparation considerable work for the season about to open.

## Building and Real Estate Notes

The Lam Building Company will at once make alteration to 1419 Chestnut street, which includes a new front, interior work and a brick back building 16 x 50 feet.

Allen B. Rorke, general contractor, has started the work upon the club house for the University Club, at Fifteenth and Walnut streets, which has been fully noted in a previous issue.

Joshua M. Holmes, builder and owner, has broken ground for 33 fine two-story houses on Myrtlewood avenue, south of Huntingdon street, two of which are to be fitted as stores on first floors. Fine faced brick and stone trimmings and material, with best modern accommodations on the interior.

E. T. Freeman & Co., the new auction firm, located at the southwest corner of Twelfth and Walnut streets, in the Freeman Building, held its first auction sale of real estate on Wednesday last. A large attendance greeted the beginners, and a number of properties were sold. See auction report.

Pemberton & Co. are about to start twelve dwellings of handsome design on Girard avenue, between Fifty-fifth and Fifty-sixth streets. These are to contain very unique interior work in open cross stairways, reception halls, and very handsome bay windows, hard wood finish, electric work, and, around the interior, porches.

The property owned by the West End Trust Company, at the southwest corner of Broad street and South Penn square, is to be vacated by July 1st, 1898, and this move may be taken as indicative of the prospect that a new office building will be put up by the owners. No architectural plans have been made or decided upon; no contracts let.

JOHN N. GALLAGHER, Publisher.  
JOHN F. BRISBANE, City Editor.

PHILADELPHIA, WED'Y, FEB. 2, 1898.

MR. WILLIAM H. CLARK, who has been the cashier of the Quaker City National Bank since its organization, has been elected one of its directors.

This is a worthy compliment to an estimable gentleman and a capable and reliable official of one of the most successful and carefully managed banks in the city.

A JUDGMENT in favor of the defendant has been given by Judge Wilson, in the Court of Common Pleas, against the city, to use of the Vulcanite Paving Company, for paving done in front of property owned by Thomas L. Beatty. The point at issue was a lien upon a lot of ground on the north side of Montgomery avenue. The contract was with the city, and included street paving on Montgomery avenue. The question was, did the six months' restriction of the lien law commence at the completion of the entire contract, or from the time of the completion of the paving in front of Beatty's property? A verdict had been given in favor of plaintiff, but decision as to legality of lien was reserved. The former verdict was consequently set aside, and the lien restriction, as to time, commences with the completion of work in front of the respondent's property.

### *The Fiftieth Annual Statement of the Penn Mutual.*

It is no reflection upon the astute and powerful characteristics of those whose wisdom and ability brought to a high degree of promise and success a business institution, to say that their successors have done even better.

Men are like the trees of the forest; youth and vigor are followed by decay and death. There, whether lost or won, is soon ended; and old age modestly yields to the unavoidable necessities of the hour.

The introduction of new men as the executive heads of the old Penn Mutual Life Insurance Company of this city has had a telling effect upon its business and financial affairs.

One year ago Mr. Harry F. West was elected president of this old and reliable insurance company, and Mr. George K. Johnson, its vice-president. As all men are measured by the results of their labor, it must be admitted, after a careful perusal of the company's fiftieth annual statement, that its figures establish beyond controversy the creditable fact, that their labors have yielded measure to overflowing, and far beyond any reasonable anticipation.

Eighteen hundred and ninety-seven was the biggest year in the history of the company; \$38,600,000 worth of new insurance business was written, which was a gain over the previous year of \$13,478,000. The mortality was exceptionally light, and the ratio of expenses, as a natural result of managerial skill, was low. There was added to the insurance reserve the enormous sum of \$2,408,249, while the surplus was increased \$865,000, or just \$1000 for every day in the year.

The gross assets of the company on January 1st amounted to \$32,218,031.25, and this feature has been so well cared for that, at the present time, the market value of the stock and bond investment is \$259,805.16 greater than the cost. The surplus on a 3½ and 4 per cent basis now amounts to \$3,944,876.60. This is certainly a remarkable showing, and the fact is established beyond controversy that the trustees made no mistake in the selection of the two principal officers of the institution.

### Building and Real Estate Notes.

R. C. Ballinger & Co., 218 N. Thirteenth street, are about to erect a shop for themselves at 1315 Reno street. It is to be 17 x 45 feet and two stories high.

Joseph W. Hunter, surveyor, has been authorized to survey a road across the country between Germantown and Willow Grove, proposed to be constructed by a syndicate.

E. Tracey Tobin, 906 Walnut street, is receiving estimates for the erection of twenty-six two-story six-room dwellings at Forty-third street and Woodland avenue, West Philadelphia.

Fred Fox, builder, will at once start excavations for an operation of 48 two-story houses, at Fifty-fourth street and Germantown avenue. These are to be of brick and stone trimmings and best comfort on interior.

Councils committee on police and prisons have approved an ordinance to purchase an adjoining lot to the present fire engine house in the Twenty-ninth ward. The matter will be now sent to councils for action.

During the past week estimates have been taken on a pair of semi-detached houses, to be erected on Tioga street, above Twenty-second, after plans by Edgar V. Seeler, architect, Brown Bros. Building, Fourth and Chestnut streets. These are to be 21 x 79

feet, three stories high, Pompeian brick and terra cotta, with porches, electric work, hard wood finish and modern comforts on interior.

A. & G. Bohem, Metal Cornice Works, Fifteenth and Federal streets, are furnishing the ridge roll, cornice and guttering for the North Penn Iron Company's car shed at Quakertown. Also all the galvanized iron work on two three-story dwellings for Thos. Gamon, at Forty-ninth and Elm avenue, and three-story dwelling for Wm. Hutchinson at Broad and Castle avenue, and dwelling at Fifty-ninth and Haverford avenue for Daniel Main.

At the ensuing election the people of the First and Twenty-seventh wards will be called on to vote upon the question of dividing the present wards. The former will be cut at Millin street, or McKean, as a majority may decide by ballot; and the latter half to be known as the Thirty-ninth ward. In the case of the division of the Twenty-seventh, the line will be a zig-zag course, and one part be known as the Fortieth ward and remainder as at present, the Twenty-seventh.

M. P. Wells & Co., Thirteenth and Walnut streets, are having preliminary plans made for a large office building, to be built near their present location, for W. S. Harvey, who will be the owner. If built, it will contain steam heat, electric work, elevators, slate roof, power for ventilation and heat, etc., and all modern conveniences. Same contractors are having plans prepared for estimates on a hall and stable to be erected near the central part of the city. It is to be of brick and stone, four stories high, 40 x 115 feet in area, electric light and bells, best of sanitary light and plumbing and modern improvements will be introduced.

Smith & Davis, southeast corner Thirty-first and Berks streets, report the following contracts received for cement work: Cellars, yards, pavements, curbs, etc., on 128 two-story dwellings, for Walter E. Steelman, on Corlies street, Stanley street, and Thirty-first street, between Huntington and Showaker streets. Also 176 two and three-story dwellings on Twenty-ninth street between Huntington and Oakdale streets, Hollywood and Myrtlewood streets, between Huntington and Oakdale streets, and east and west side of Thirtieth street, for Solomon Greenburg. Also 36 two-story dwellings on Girard avenue, Cambridge and Supple streets, between Fifty-fifth and Fifty-sixth streets, for Henry L. Weil.

Mr. G. Heide Norris and quite a number of other citizens are considering the proposition to erect a new opera house, to be an improvement upon our present Academy of Music, as it is claimed the latter has outlived its usefulness and should be replaced with a larger and better building conducted upon a more liberal scale. At present the effort is limited to the question in general and securing of names of those who will render financial aid. Up to this time the matter has received considerable support, indeed, more than was anticipated, and it is also currently reported that Messrs. Nixon and Zimmerman would become lessees for stated periods if an acceptable structure were erected upon an improved plan. The estimated cost of a proper building of this character would approximate about \$1,200,000.

## TRUSTS. TITLES. DEPOSITS.

## THE PLANT OF THE LAND TITLE AND TRUST COMPANY, 608 Chestnut Street,

Covers every foot of ground in Philadelphia, and is the only Plant containing an abstract of every Deed, Mortgage, and Sheriff's Sale of record in Philadelphia since 1682 located against each property described.

This Plant necessarily gives great additional protection to purchasers and mortgagees taking this Company's policy of Title Insurance, apart from the security of its One Million Dollars full paid capital.

### Beautiful Sea Shells

Every one admires them. Since coming south I have received numerous inquiries from northern people for sea shells, and now I am prepared to answer yes, I can send you shells, for I have made quite a collection of lovely shells, both from our own coast, the coral reefs, and some beautiful ones from the West India Islands. I will mail a dozen or more different kinds, no two alike, to any one who sends a stamp for postage. Also send you a lovely piece of white branch coral.

Yours, **MRS. P. A. WARNER,**  
Jacksonville, Fla.

## MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and gives a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about MURESCO for the asking.

Preliminary competitive plans are being made for a proposed apartment house to be erected at Fifteenth and Walnut streets. It is understood if the structure is erected it will be one of the finest yet built in this city.

W. C. Price, Jr., 14 South Broad street, is taking estimates on 24 dwellings he is to erect for himself in West Philadelphia. These are to be of brick, two stories high, hot air heat, electric bells, tin roofing, cement work, hard wood mantles, etc.

William A. Patterson, builder, 435 North Fifty-third street, will at once begin erecting 28 dwellings, two and three stories high, on Fifty-second street, north of Seneca. All to be of fine faced brick, stone trimmings and good conveniences, etc.

Secretary of the Navy Long has made a recommendation to congress to appropriate nearly \$1,000,000 for rebuilding the armory, boat house, power house, officers' quarters and electric plants, at Annapolis, Md., Naval Academy. No action has as yet been taken.

Jacob Myres & Sons, Juniper and Sansom streets, are estimating on a fine house to be erected at Merion, Pa. To be of stone and frame, three stories high and fitted with all the latest and best conveniences, including electric work, tile work, slate roof, hard wood interior, etc.

George Rhuland, builder, Germantown, intends to begin an operation of over 100 houses at Nineteenth, Twentieth, and Wingohocking streets, Germantown. All to be of fine faced brick, stone trimmings, light in color, galvanized cornice work, electric bell and all modern conveniences.

Mackin & Brown, contractors, are estimating on the alteration and addition to the southeast corner Thirty-fourth street and Princeton avenue. The addition will be of brick and stone, three stories high, hot air heat, electric work, tile and wood mantles leaded and plain glass, painting and papering and general accommodations will be introduced.

A new club has just been organized in this city by well known citizens who will lease what is known as Morrellton Inn, at Torresdale, on the Delaware river, east of Frankford. Those who are chiefly interested with the elective offices are John M. Mack, president; Col. Edward Morrell and Wm. M. Bunn, vice presidents; Thomas E. Coale, secretary; and E. N. Thomas, treasurer. No name has been as yet selected. Great improvements are to be made upon the house and grounds as well as steam and electric launches provided for amusement purposes. Other members of the

new club are: Ex-Speaker Henry F. Walton, David Martin, William J. Roney, Charles A. Porter, W. Bloddy Powell, architect of the Public Buildings Commission; Henry C. Forrest, G. M. Dorrance, Morris R. Stroud, E. E. Forrest, W. W. Hanna, Emerson Titus, Allan Sheldon, Mercer Baird, George D. Ali, Charles Leedom, William L. Martin, Select Councilman Edward W. Patton, Robert Foerderer, Edward Foerderer, F. G. Stewart, Joel De Victor, J. P. Edwards, P. E. Costello and John Myers.

#### Through Pennsylvania.

*When any of the following are not post office towns they will be so designated.*

—At Boyertown, Berks county, Frank Bickel has purchased a lot, 35 x 100 feet, and will improve the site by the erecting of a dwell ing.

—At Chester, Delaware county, the Penn Club will probably purchase the Appleby property on Fifth street and remodel it to suit the purposes of the club.

—At Rosendale, Lehigh county, the Bruner ville cement mill and storage house was destroyed by fire last week. The loss has been estimated at \$100,000, fully insured.

—At Washington, Washington county, the plans of Frederick J. Osterling have been accepted for the proposed new court house and jail. The estimated cost is \$425,000.

—At Sharon Hill, Delaware county, fifteen acres of the Bunting tract have been bought by Robert Scott & Co., of Philadelphia, who will cover two acres of the property with green houses.

—At Oxford, Chester county, W. H. Harrison has bought a fine building lot on Penn avenue from J. M. C. Dickey, and will improve the site by the erection of a handsome stone dwelling.

—At Kittanning, Armstrong county, the Rayburn Water Company has been incorporated with the following directors: R. A. Hileman, J. S. Smith and H. H. Weylman, all of Kittanning.

At Nazareth, Northampton county, it is reported that a syndicate will erect a large cement mill, to cost about \$200,000. It will be of brick and iron, finely equipped and will be ready to occupy about September 1st.

—At Scranton, Lackawanna county, Davy & Bros. have prepared plans for the proposed new edifice for St. Mark's Lutheran congrega-

tion, which will occupy a site at Fourteenth and Washburn streets. The pastor in charge is Rev. A. Ramer.

—At West Newton, Westmoreland county, a company has been incorporated to be known as the West Newton Water Company. The incorporators are S. F. Jones, William Jones, I. M. Logue and Elmer Ginter, of Bellevernon, and T. L. Daly, of Gibsonton.

—At Ivy Rock Station (not a postoffice town), three miles from Norristown, Montgomery county, the farm of the estate of Theodore Carey has been bought by Joseph Potter, of Pawtucket, R. L., who will erect a large mill for the manufacture of textile machinery; also a number of dwellings for employees.

—At West Chester, Chester county, it is reported that six dwellings, to cost about \$2,500 each, will be erected on Dean street. The Barclay Home Association has bought a tract of land on West Chestnut street from William H. Gibbons. Thomas C. Hogue will erect a three-story brick dwelling on North Walnut street; will be well finished and provided with all modern improvements and conveniences.

At Doylestown, Bucks county, Judge Yerkes has handed down an opinion regarding certain needed improvements at this almshouse. Among the changes recommended is the lighting of the building by gas or electricity. It is also suggested that the present building be remodeled, a new roof put on and other changes made.

—At York, York county, the tobacco warehouse of J. B. Hostetter & Co. was partly destroyed by fire a few days since at a loss of about \$27,000. It was fully insured. Work will soon be begun on the construction of the new reservoir by H. H. Birkinbine, of Wayne, Delaware county, Pa., who has the contract for the work. The capacity of the new reservoir will be 32,000,000 gallons.

—At Scranton, Lackawanna county, ground has been broken for the new building to be erected for St. Joseph's Foundling Home from plans prepared by Percival J. Morris. The structure will be three stories high, of brick, fine interior finish, and all modern conveniences. The estimated cost is \$35,000. Father McManus, of Green Ridge, Scranton, is president of the society. The brick used will be a buff.

At Reading, Berks county, a meeting was held on January 31st, by the members of the First Evangelical Church, to consider the question of the erection of a chapel in the north-eastern part of the city. The following committee has charge of the work: J. G. Mohn,

H. E. SEALEY, Local Manager

brick sewer in the Spring. Also an ordinance to appropriate \$100,000 for brick and asphalt paving to be put down during 1898. It is stated that the school board has asked for sufficient appropriation to erect three school buildings, the work to begin in the spring. —At Allegheny, Allegheny county, an election will be held, about the middle of February, to vote on the question of issuing bonds to the sum of \$25,000, the proceeds to be used for the erection of a new school building. The plans for the structure have been prepared by Barberger & East, and call for a handsome brick and stone structure, provided with fine school furniture and fittings and all modern conveniences.

—At Pittsburgh, the Board of Directors of the East End Charity Hospital has decided to erect a building to cost, including the ground, about \$180,000. No plans have been prepared for the structure or architect selected. —Barberger & East have made plans for the addition to the Thirteenth ward school building

of Allegheny. It will be two stories high, of Pompeian brick, and will contain eight large school rooms. All modern improvements will be provided. —The members of the Allegheny Council, No. 112, Jr. O. U. A. M., are having plans made for the erection of a hall on a site near East and First streets, Allegheny. The building will probably be erected by the Perry Trust Company, of which Charles Enrich is president as well as treasurer of the lodge. —F. C. Sauer and F. J. Osterling are engaged on plans for a large addition to the Woodville Insane Asylum. The estimated cost of the improvements is \$200,000, and work will begin somewhere in March or early in April. —David N. Gries, 5173 Penn avenue, has the contract for the erection of a two-story and attic brick dwelling which will be erected at Atlantic and Friendship avenues for C. R. Miller. It will be well finished and provided with all modern conveniences and improvements. The estimated cost is about \$8,500. —Geo. W. Kearns, 6929 Kelly street, has been awarded the

contract for two story and attic brick dwellings for Cairns & Becket, 105 Shady avenue. They will cost \$8,000 each.—Henry C. Ayers, Walnut street, will erect a two-story and attic brick and frame dwelling on Walnut street to cost about \$5,000. Crisman Bros., Bellfield avenue, are the contractors.—Thos. Boyd, Westinghouse Building, has completed plans for a handsome residence to be erected in the East End. It will cost about \$15,000.—F. C. Sauer, Hamilton Building, has finished the plans for a building to be fitted up as a hotel for N. Mangold and which will occupy a site on Frankstown avenue. The same architect has made plans for alterations and additions to the dwelling of A. W. Wood, near Turtle Creek.—F. J. Osterling, Telephone Building, has finished plans for a handsome dwelling to be erected for C. B. McLean, Esq.—L. A. Raisig, First National Bank Building, Wilkensburg (Pittsburg), has made plans for five three-story dwellings to be erected on Tioga street, Pittsburg, for Zollinger Bros.—The Smith heirs will erect a large building at Sixth and Liberty streets to cost \$1,000,000, from plans prepared by J. T. Steen, Jackson Building.—E. M. Butz & Co., Park Building, are preparing plans for a large pottery to be erected at Wellsville, Ohio, for the Wellsville Porcelain Company.—William Kennelly, 168 Pearl street, is having plans made for four brick dwellings to be erected on Linden avenue, near Beechwood boulevard. The estimated cost is \$18,000.—Henry Kiscadden, of Bellevue, will erect a frame dwelling from plans prepared by Edward Stotz, Chronicle Building.—Lincoln & Welch, 320 Fourth avenue, will erect a two-story and attic dwelling at Baum and Graham streets, to cost about \$9,000.—William Wright, Monticello street, has the contract for a two-story and attic brick dwelling to be erected for Catherine Graves, on Howe street, near Collins avenue. It will cost \$5,000.—It is reported that considerable sewer work will be done in the spring. The estimated cost is \$160,000. About four and a half miles will be pipe sewers, 15 to 24 inches, and about two miles will be brick and stone, from 3 feet to 6 feet 9 inches in diameter.—Work has begun on the one-story steel and brick market house, which will occupy a site at Baum street and Center avenue, in the Twentieth ward. The roof will be of iron, and the interior will be finely finished and adequately equipped for the intended purpose. The owner is the Liberty Market Company, and the contractor, George Hogg, of Bradnock, Pa. The cost will be about \$170,000.

#### Through New Jersey.

At Somerville, Somerset county, the Philadelphia Traction Company has been given the franchise to construct a trolley road through the town.

At Paterson, Passaic county, Edith M. Dickinson will erect six two and a half story frame dwellings, to cost \$9,000, from plans prepared by W. E. Dickinson.

At Bridgeton, Cumberland county, City Council has passed an ordinance granting permission to the Bridgeton & Millvale Traction Company to lay its tracks to Fairton.

At Washington, Warren county, the five-story building occupied by Shurtz & Richey, furniture dealers, was destroyed by fire last week. The estimated loss is \$10,000, fully covered by insurance.

At Crawford, Union county, Mr. Forster will erect an attractive frame dwelling, two-and-a-half stories, and handsomely finished, to cost \$7,000.—F. B. Ham has made plans for a storage house for H. Cook.

At Madison, Morris county, the Madison Land & Improvement Company, of which Merritt B. Lum is president, will erect a dwelling to cost \$3,000, for which Poole & Lum, 70 Fifth avenue, have drawn the plans.

At Glen Ridge, Essex county, Dr. Henry C. Harris will erect a dwelling from plans prepared by Walker & Morris, 57 New street, New York city. It will be well finished and provided with modern comforts and conveniences.

At Ventnor, Atlantic county, the four-story addition to the Carlsbrook Inn in course of erection was destroyed by the wind storm of last week. Thompson & Champion of Atlantic City were the contractors. A. O. Dayton is the owner.

At Bridgeton, Cumberland county, at a special meeting of the Board of Trade held last week, the question of a complete sewerage system was discussed and property owners are to be urged to sign petitions for such improvement. The cost of the work is \$100,000.

At Bayonne, Hudson county, council has passed an ordinance to construct a sewer in Thirty-first street.—August Schmidt has prepared plans for a two-story-and-attic frame dwelling, to be erected on Twenty-seventh street, for Yettie Kaplous, at a cost of about \$2500.

At Hackensack, Bergen county, R. M. Goodheart will erect a handsome dwelling to cost about \$7000 from plans prepared by W. A. Lambert, 99 Nassau street, New York city.—It is reported that the county board of freeholders will erect a new jail.—C. B. Waterman, Bank Building, Passaic N. J., has made plans for a frame dwelling, to be erected in Clinton place, at a cost of about \$6000. It will be well finished and provided with modern conveniences and improvements.

At East Orange, Essex county, plans have been prepared by Boring & Tilton, of New York, for a new school building to contain twelve divisions and which will occupy a site at Shepard and Central avenues. Irving Smith, 21 Maiden lane, New York city, will erect a two and a half story frame stable to cost \$4000 from plans prepared by R. E. Mosley, Produce Exchange, New York city. William H. Mott has prepared plans for a frame dwelling to cost \$2500, to be erected for Alma M. Mott.

At Bloomfield, Essex county, it is reported that a new public school building will be erected in a short time. In the Second ward a new school building to contain eight rooms will be erected. It will be so arranged that it can be enlarged to twelve or sixteen rooms. Thomas A. Oakes is president of the board of trustees and William A. Baldwin, district clerk. J. F. Capren, 764 Broad street, has made plans for extensive alterations and additions to the dwelling at Franklin and Montgomery streets. The cost will be \$8,000.

At Jersey City, it is stated that Mayor Hoos has signed the resolution of the finance board which provides for an issue of bonds to the amount of \$150,000, the proceeds to be used for the erection of the proposed public library.—Saint Peter's Roman Catholic Society, of which Father Harper has charge, has completed arrangements for the erection of a three-story brick and stone lyceum, school and hall, to cost about \$45,000. The structure will be 70 x 150 feet, finely finished and provided with all modern conveniences and appliances. The plans have been prepared by Herman Kreidler, 62 Broad street, New York city.

At Montclair, Essex county, R. M. North will erect a dwelling to cost \$5,000 from plans prepared by E. R. North. Charles D. Barry, 8 New street, New York city, will erect a framed dwelling. J. M. Hume will erect a dwelling from plans prepared by Child & De Gall, 62 New street, New York city. The estimated cost is \$7,000. T. Cecil Hughes has made plans for a dwelling to be erected for A. B. Howe to cost \$5500, and H. L. Yost has prepared plans for a dwelling for H. C. Hal-

lenbeck, to cost about \$6,000. A handsome frame colonial dwelling will be erected by Frank H. Presby, 25 West Twenty-third street, New York city, from plans prepared by L. R. Hazeltine, and leased by Ernest Flagg, 15 Broad street, New York. T. Cecil Hughes, Montclair, N. J., has prepared plans for three frame dwellings to be erected for Frank Crawford.

#### Through Maryland.

At Cumberland, Allegheny county, it is reported that John M. Burehard, of Mountsville, W. Va., and A. Flick, of Altoona, Pa., have authorized E. A. Richmond to secure right of way for an electric railway from Cumberland to Frostburg, Piedmont and Westernport. The work will begin about March 1st.

At Hagerstown, Washington county, it is reported that Charles E. Och, William Greisner and Joseph Bangartner, who are interested in a brewery at Latrobe, Pa., are looking for a site on which to erect a large brewery to cost about \$100,000.

#### Washington, D. C.

The board of commerce of Youngstown, Ohio, has sent to Washington a duly guaranteed proposal, giving the government, free of cost, the choice of two valuable sites for the proposed armour plate plant.—It is said that arrangements have been perfected to begin the erection of the second building for the American University some time next fall.

Preliminary plans have been prepared for a building to be known as the College of Languages, by W. M. Poindexter, of Washington, D. C., and for another structure, to be called the College of Government, by Henry Ives Cobb, of Chicago. The last named architect has also made a plan of the grounds with the different buildings in their proper position.

#### Lot Buyers.

At Coatesville, Pa., J. D. Scott has bought a lot on Sixth avenue, from H. G. Rambo. The price paid was \$1500.

At Keokuk Square, Pa., Mr. Reese Long has bought a lot from M. P. Barnard, on East Linden street. The price paid was \$450.

## Proposals Wanted.

Treasury Department, Office Supervising Architect, Washington, D. C., January 22, 1898.—Sealed proposals will be received at this office until two o'clock P. M. on the 18th day of February, 1898, and opened immediately thereafter, for all the labor and materials required for the erection and completion (except heating apparatus) of the United States Post Office building at South Omaha, Nebraska, in accordance with the drawings and specification, copies of which may be had at this office or the office of the superintendent at South Omaha, Nebraska. The right is reserved to reject any or all bids and to waive any defect or informality in any bid should it be deemed in the interest of the Government to do so. Proposals must be enclosed in envelopes, sealed and marked "Proposal for the erection and completion of the United States Post Office at South Omaha, Nebraska," and addressed to the Superintendent.

At Washington, D. C., Claude M. Johnson, director of Bureau of Engraving, will receive proposals until March 14th, to furnish dry colors, hardware, engravers' supplies, binders' supplies, typographic ink and lumber. Also sealed proposals until April 4th for textiles, plumbers' supplies, grocers sundries and rubber goods. Also sealed proposals until April 18th for chemicals, oils and paper.

## Wants.

At Bayonne, N. J., bids are wanted by the city clerk for the construction of a sewer in Avenue B.

At Erie, Pa., William Himrod, secretary of board of water works commissioners, will receive proposals until February 23d for an 8,000,000 gallon pumping engine.

At Newport News, Va., Mayor Walter A. Post can give information about the proposed water plant and the pumping engine with a capacity of 8,000,000 gallons per day.

At South Bethlehem, Pa., the borough of South Bethlehem will receive proposals until February 7th, for one thousand feet of fire hose. E. W. Stirk, chairman of fire committee.

At Denver, Col., the congregation of the Jewish Temple is considering the subject of the erection of a new temple at Sixteenth avenue and Pearl street to cost about \$26,000.

At Harrisburg, Pa., Amos H. Mylin, vice-president Capitol Building Commission, will receive bids until February 7th, for the general construction of a new capitol building.

At Wheeling, W. Va., surveys have been finished for an electric railway to be constructed from Wheeling to Elm Grove. Bids for the same will be received until February 15th.

At Fairmount, W. Va., an election will be held on March 12th to vote on the question of the erection of a new court house. The estimated cost of the proposed structure is \$140,000.

At Savannah, Ga., a tower will be erected to the county jail and estimates for the same will be received until February 10th by James W. McIntire, clerk of the board of county commissioners.

At Bradock, Pa., sealed proposals will be received until February 17th for the construction of reservoirs with a capacity of 12,000,000 gallons. The plans and specifications are at the office of William Howat, superintendent of public works.

At Hazleton, Pa., sealed proposals will be received on and after January 24th until February 4, 1898, for laying 18,000 square yards, more or less, vitrified brick or block street paving on a concrete base, including

6000 cubic yards of excavation, the construction of five hundred feet, more or less, of stone curbing, the work to be done in accordance with plans on file in the city engineer's office and no bid will be accepted unless upon blanks furnished by the city engineer, whose office is at the corner of Poplar and Chestnut streets. A. Brooks Celiux is city engineer.

## Judgments

## PHILADELPHIA.

## ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term, and S, for September Term.

S. F.—Scire Facias, to revive judgment. A star (\*) denotes judgment confessed or bond and warrant conditioned.

PHILADELPHIA, WEDNESDAY, FEBRUARY 9, 1898.

\$5.00 PER YEAR.

## Architect Notes.

Same contractor is taking estimates on another church to be erected at Sixth street and Germantown avenue. Also on a store for Ocean Grove, N. J.

Wm. Macaulay, architect, 1530 Chestnut street, is making plans for a house to be erected at Atlantic City, N. J. It is to be stone and frame, three stories high, and contain all modern improvements. The cost about \$5,000.

A. H. Moses, architect, 419 Walnut street, is making plans for a business building, at Twelfth and Walnut streets; the structure will be of brick, stone, iron, etc., four-stories high, and contain hot air heat, electric work, best plumbing, etc.

A. H. Bieler, architect, Builders' Exchange, Baltimore, Md., is engaged making plans for an African M. E. Church, to be built in that city. Stone, brick, and iron, slate roof, stained and plain glass, carpets, upholstery of seats, and all comforts will be introduced.

Robert Pitts, architect, 223 South Third street, is engaged on the plans for a house to be built in the suburbs of this city. It will be three stories high, fancy brick, stone trimmings, 18 x 55 feet, slate roof, hot air, all modern comforts and conveniences.

Jacoby and Weishamp, architects, Allentown, Pa., are at work on plans for a gymnasium building. It will be brick and terra-cotta work, 45 x 100 feet, and contain all late improvements. Same architects have other work in course of preparation which will be noted in future in these columns as details develop.

Dull & Peterson, architects, Walnut street above Eleventh, have completed all plans for Calvary M. E. Church to be erected at Forty-eighth street and Baltimore avenue. The material will be granite, slate roof; in basement will be located a social hall, kitchen and heating plant. Philip Arms, contractor, will build the edifice.

Emil Hartman, architect, 441 Chestnut street, has handed over the drawings for the brewery plant to be erected in Bethlehem, Pa., by Mr. Zeisser, of that town, and the owner is taking estimates on the work. It will be of brick, three-stories high, and fitted with all the interior trappings for the purpose named above. Previously noted in full in this journal.

Stearns & Castor, architects, Stephen Girard Building, are making plans for a bank building, to be erected in this city. It will be three stories, of stone, brick, and iron construction, fitted on interior with steam heat, electric work, iron grille work, vault screens of wire, and all general conveniences and safeguards. Other work upon boards which will be noted in the near future.

Wm. H. Free, architect, has taken a suite of offices in the Lippincott Building, Twelfth and Filbert streets, where his facilities are increased for the pursuit of his profession and where he will be glad to receive his clients and friends. Mr. Free is closing out plans for an operation for F. S. Zane, builder and owner, up-town, and expects the work to be started in a few days. Also drawings on boards for other work which will be announced at an early date.

Kennedy, Hayes & Kelsey, architects, removed their offices to 931 Chestnut street, where their increasing business demand have been supplied by enlarged rooms for drafting and estimating, also private offices. Another removal is that of Walter Smedley, architect, formerly at 435 Chestnut street, who has taken rooms in the Stephen Girard Building, at Twelfth and Girard streets. Mr. Smedley has on boards quite a list of projected work which will be noted as it develops.

All the plans made for the factory building of Samuel Woodhouse, at Frankford, have been completed and passed upon by the Board of Building Inspectors. These call for a three-story structure 78 x 32 feet and erected of brick slow burning construction and fitted with all late improvements, at Franklin and Unity streets. The drawings were made, as previously noted, by Frank R. Watson, architect, 1208 Chestnut street. Mr. Watson is at present in Europe upon business and pleasure combined, but will return in the early spring months to prepare drawings for quite a lot of work on hand.

H. E. Flower, architect, has made plans for three fine dwellings to be erected at Merion, Pa., and the Maguire Bros., 1432 South Penn Square, are taking estimates for the work. These are to be of fancy brick and pebble dash, three stories high, 40 x 60 feet in area, and contain hard wood finish, steam heat, electric work, plate and leaded glass, and best of plumbing, etc. Mr. Flower has also prepared plans for a warehouse, to be erected at Tenth street and Ridge avenue, for a private party. It will be of brick, iron and stone, five stories high, and fitted with elevator lifts, electric work, slag roof, cement work for flooring, and general conveniences.

Mantle Feilding, architect, 110 South Fourth street, has completed drawings for a residence for Robert B. Haines, on West School Lane, Germantown, and these are on boards of W. R. Dougherty, 1604 Sansom street and other contractors for estimate. It is to be face brick and stone, three stories high, Colonial in style, with handsome porte cochere, slate and shingle roof, plate and leaded glass, electric work, and general conveniences, etc. In the same contractor's office are figures being taken on alterations to the house of Miss A. B. Allison, of Germantown. Plans by Robeson L. Perot,

architect, and previously noted in these columns.

MacCollin & Fast, architects, 1001-3 Chestnut street, are busily engaged on the drawings for the new office to be erected upon the site of the Hazeltine building, destroyed more than a year ago by fire. Whilst all details cannot be given at present, it can be said that the structure to be reared after their plans will be one of the finest and most complete in this country. It will be seventeen or more stories high, of stone brick and terra cotta work and steel frame, furnished on interior with every late convenience and comfort, steam heat and power, electric work, special light and ventilation systems, also plumbing of the most approved kind. It is altogether likely estimates will be asked for at an early day, and the work prosecuted under the above named architects' supervision

## Building and Real Estate Notes.

An additional building is to be erected by the Atlantic Refining Company at Point Breeze. It will be 68 feet x 48 feet, one story high and used as a filter house for the oil works.

City Councils have been asked for \$60,000 to construct a plant and heat the insane department at Blockley Almshouse, and before the building, as improved, can be used, action must be had by the above named body.

Several architects in this city are now making preliminary sketches for a large apartment house to be erected at the southeast corner of Fifteenth and Walnut streets. It is likely a selection will be made soon, and work begun. Details later.

Timothy Gallagher and John S. Gorman are going to erect quite an operation at Fifty-sixth and Fifty-seventh streets, Woodland and Greenway avenues. These are to be of face brick and stone facings, and two and three stories high, fitted with all modern comforts, etc.

Macy, Henderson & Co., contractors, Heed Building, Filbert above Twelfth street, are making general estimates on the large shed covering to wharf of the Philadelphia & Reading R. R., on the Delaware river near Chestnut street. The work includes piling, driving, lumber, iron work, slag roof, glass work, etc.

A proposition is being considered by the Committee of Compulsory Education of the General Board of Education to erect in various sites schools for truant boys and girls who may come under the supervision of the truant officers appointed by authority of the recent law. No definite action can, however, be taken without an appropriation of money for that purpose.

PHILADELPHIA, WED'Y, FEB. 9, 1898.

### Change of Firm and Removal.

Mr. Chas. H. Fischer has assumed control of the piano business which for more than a quarter of a century has been under the management of his father, Mr. Wm. G. Fischer, and which has been located for a number of years at 1221 Chestnut street. On or about March 1st the business will be removed to 1710 Chestnut street. Bids are wanted for Muresealing the walls and ceiling of the new store, also for alterations to the hand elevator.

ON Tuesday, the 1st instant, the Master Builders' Exchange of this city conferred upon Mr. Charles H. Reeves an honor well earned and merited by reason of his active interest from the very birth of the organization to the present time. Not only has Mr. Reeves been an honored member, but has year after year been the safe and trustworthy keeper of the exchequer of this great association. Having been chosen president, Mr. Reeves comes to the discharge of his new duties with ripe experience as an executive officer and a profound knowledge of what is necessary to make this body of thinkers and workers a force in this community and maintain its high standing in the business world. As treasurer, Mr. William B. Irvine succeeds Mr. Reeves, and in his choice the Master Builders have been most successful, both in the selection and the honor conferred. Mr. Irvine has been during his life an active and well-known business man, and as City Treasurer some years ago made a commendable record as a financier. We congratulate the Master Builders in the choice thus made, and herewith append a complete list of officers for the present year and the committees named by President Reeves:

President, Charles H. Reeves; first vice-president, John Atkinson; second vice-

president, Peter Gray; third vice-president, John S. Stevens; secretary, William Harkness; treasurer, William B. Irvine; trustees, George Watson, Stacey Reeves and John S. Stevens. The new president has appointed the following committees:

Finance—Cyrus Borgner, George Watson and William Conway.

Legislation—John Atkinson, W. S. P. Shields and Charles G. Wetter.

Arbitration—A. G. Buvinger, James J. Ryan, Michael Magee, Jacob Myers and Charles H. Fowler.

Architects' Plans and Contracts—James Johnson, John S. Stevens, John Atkinson, Peter Gray and Charles G. Wetter.

Exhibition—Charles Gillingham, John S. Stevens, J. S. Thorn, A. A. Reeves and A. J. Slack.

Entertainment—W. S. P. Shields, R. C. Ballinger, William B. Carlisle, John N. Gill, A. B. Barber, Frank R. Whitesides, W. H. Boyd, J. Turley Allen and William J. Gray.

### Building and Real Estate Notes.

Robert Scott & Co., of this city, have bought fifteen acres at Sharon Hill, and will erect green houses that will cover more than two acres of the ground.

In our last issue we noticed the fact that a movement had been started by G. Heide Norris and others in this city looking to the erection of a new opera house upon improved plans and management. The matter is being pushed and sites looked at, among which the old Baldwin mansion, Chestnut below Twelfth street, has figured in speculation. Nothing definite has been done thus far beyond the prospective as noted.

Quite a number of improvements at Willow Grove Park are contemplated for the coming season. A large auditorium is projected to be built, holding and seating 2,500 persons. A new kitchen will be made on the first floor of the Casino, also a number of storm shelters in the grounds, swings are to be built for the patrons, and other minor work. None of the above have been contracted for as yet.

J. E. and A. I. Pennock, contractors, 305 Walnut street, will erect the new DeLancy school building southwest corner Pine and Carlisle streets. This work has been noted previously and described after plans by Geo. C. Mason, architect, Drexel Building. Owner is Henry Hobart Brown. The structure will cost about \$75,000, and is to be in area 51 x 132 feet. Seven stories high, brick, granite and terra cotta work, with all modern conveniences on interior.

As noted in this journal in a recent issue considerable heavy work will be done in the water department of this city, which has been found to be a compulsory matter by those in charge. Among the suggestions made are a new stack at the Belmont station, estimate thereof \$150,000. New intake pipes at Queen Lane Station, \$30,000, and additional boilers at Roxborough for which

\$220,000 is recommended. Speedy action will be urged upon councils.

Governor Hastings, through Attorney General McCormick, has asked for an injunction in the Dauphin County Court to restrain the Capitol Building Commission from awarding a contract to build the new Capitol structure. This action is based, as Mr. Hastings indicates, upon the intent of the act of assembly, which only contemplated a partial construction under the appropriation of \$550,000, at the recent session of the Legislature. The case is noted for hearing to begin to-day, and result will be announced in our next issue.

Doyle & Dusk, contractors, 133 South Fifteenth street, have been awarded the contract to erect the office building for the Real Estate Trust Company at the southeast corner of Broad and Chestnut streets. The structure will be seventeen stories high, of granite, brick and terra cotta work, steel skeleton, and the interior will be fitted with electric work, steam heat, tile and marble work, grille in iron and brass, plain and fancy glass, elevators and lifts, and all general conveniences, etc. A fuller description has been given in these columns previously.

On the 7th inst. fire destroyed a large block of buildings at Atlantic City, N. J., among which are as follows: Academy of Music, loss \$80,000; owned by Joseph Fralinger. Lapre's confectionery store, loss \$5,000. Gold Mine baths, loss \$4,000; owned by S. S. Mervine. Stewart McShea's household goods, stored over the Academy, loss \$2,000. Smith's rolling chair establishment, loss \$1,000. Thomas Newell's toy store, loss \$500. Keffer's candy store, loss \$500. Bryn Mawr Hotel, loss \$10,000. Vitascope building, loss \$500. Columbia phonograph parlors, loss, by water, \$500. Bacharach's furniture store, loss, on stock, \$1,000. A. L. Myers' photographic parlors, loss \$500.

Good prospects are announced from Washington for the appropriation of money for the erection of public buildings in Pennsylvania, for which bills have been already introduced, and among which the following are now before the House committee: By Mr. Hicks, Altoona, \$125,000; by C. W. Stone, Bradford, \$50,000; by Sturtevant, Meadville, \$23,000; Titusville, \$25,000; Corry, \$25,000; by Acheson, Washington, \$75,000; by Robbins, Greensburg, \$75,000; by Williams, Wilkesbarre, \$150,000; by Kulp, Shamokin, \$75,000. Another bill also with the committee, introduced by Congressman Ermentrout, appropriates \$3,000 for a clock for the Reading public building.

The new Capitol Commission met on the 7th inst. to open proposals for the construction of the new structure. At the suggestion of the commission all of the contractors submitted suggestions for modification of the original plan, with bids for the modified plans. The bids were as follows: McIlvaine, Unkever & Co., Pittsburg, \$1,667,000; with modifications, \$508,382; second modification, \$499,300. P. J. Carlin & Co., Brooklyn, N. Y., \$923,458; modified \$919,458; second modification, \$489,756. Edwin T. Williams, Scranton, \$1,022,908;

### Beautiful Sea Shells

Every one admires them. Since coming south I have received numerous inquiries from northern people for sea shells, and now I am prepared to answer yes, I can send you shells, for I have made quite a collection of lovely shells, both from our own coast, the coral reefs, and some beautiful ones from the West India Islands. I will mail a dozen or more different kinds, no two alike, to any one who sends a stamp for postage. Also send you a lovely piece of white branch coral.

Yours, **MRS. F. A. WARNER,**

## MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and gives a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about MURESCO for the asking.

with modifications, \$495,000; second modification, \$489,000. Henry Schuddehage, of this city, \$389,750; modification n, \$914,750. R. A. Malone, Lancaster, \$1,000,000. There were fifteen modifications, ranging from \$985,700 to \$542,182. Norcross Bros., New York, \$1,385,000; modified proposition, \$1,155,000. Allan B. Rorke, Philadelphia, \$1,100,000; modified proposition, \$525,000. William G. Ball and W. H. Jones, of this city, \$977,500; modified proposition, \$907,000; second modification, \$505,000; third modification, \$498,000; fourth modification, \$428,000. The contract will not be awarded until after the Court disposes of the injunction proceedings brought by the Attorney-General.

### Through Pennsylvania.

When any of the following are not post office towns they will be so designated.

—At North Wales, Montgomery county, the Baptist Church will be altered and improved.

—At Osborne, Mercer county, a charter has been granted to a company to be known as the Haysville Water Company.

—At Sellersville, Bucks county, the public school building will be enlarged from plans prepared by Architect Martin, of Doylestown, Pa.

—At Charleroi, Washington county, the Charleroi Brewing Company will erect a large plant from plans prepared by Oscar Byers, of Chicago, Ill.

—At Allentown, Lehigh county, the dwelling of Rev. P. P. Grey, a minister of the Methodist Episcopal Church, was destroyed by fire on February 4th.

—At Allegheny, Allegheny county, it is reported that plans are being prepared by E. M. Butz, of Pittsburg, for a large apartment house and hotel, to cost about \$1,000,000.

—At Jenkintown, Montgomery county, a lot at the corner of Greenwood avenue and Cedar street has been bought by the Independent Fire Company. The price paid was \$6000.

—At Oxford, Chester county, a building lot has been bought by Mr. Harry C. Thomas, who will erect an attractive dwelling on the site. The lot was bought from the estate of F. M. Dare.

—At Bradford, McKean county, an election will be held on February 15th to vote on the question of issuing bonds to the sum of \$25,000, the proceeds to be used for the erection of a school building.

—At Lancaster, Lancaster county, it is reported that the management of the Franklin and Marshall College is considering the question of the erection of a new building. The estimated cost is \$50,000.

—At Doylestown, Bucks county, a double brick dwelling will be erected at West State street and West st by W. W. Swartley. It will be of Pompeian brick, well finished and provided with modern comforts.

—At Oil City, Venango county, an election to be held in February a vote will be taken on the question of issuing bonds to the sum of \$15,000, the proceeds to be used in the construction of a new high school building.

—At Grove City, Mercer county, as the election has been declared illegal which voted \$15,000 for water works, the question will be voted on again at the February election. Plans for the work have been prepared by J. T. Witmer, engineer.

—At Scranton, Lackawanna county, a disastrous fire destroyed the building of the Y. M. C. A. The estimated loss to the association is \$250,000, and to the tenants of the stores on the ground floor about \$50,000. St. Luke's Episcopal Church was somewhat damaged by water.

—At Birdsboro, Berks county, Raymond Mohr has bought a lot and will erect a dwelling.

—At Norristown, Montgomery county, the Fairmount Yacht Club will erect a two-story club house at the foot of Chain street.

—At Boyertown, Berks county, a site has been selected for the proposed power house for the new trolley line to be constructed from Boyertown to Reading.

—At McKeesport, Allegheny county, a new municipal building will be erected. R. A. Hitchens, comptroller, received competitive drawings for such a structure on Feb. 9th.

—At Coatesville, Chester county, a dwelling to cost about \$5000 will be erected on Fifth street by H. G. Rambo. The Stephenson Hotel is being enlarged by a handsome addition.

—At Pottstown, Montgomery county, the Pottstown Cold Storage and Ice Company will soon begin work on the new building to replace the one destroyed by fire some time since. The capacity of the plant will be increased.

—At Bethlehem, Lehigh county, A. W. Leth, Post-office Building, South Bethlehem, has prepared plans for a handsome dwelling to be erected for A. J. Hoffman, of Bethlehem. It will be of brick and stone, fine interior finish and all modern conveniences. The estimated cost is \$8000.

—At Lebanon, Lebanon county, Roby & Ritcher have made plans for a dwelling for Asa A. Weimer, to be erected at Berwyn Park. It will be of frame, shingle roof, oak and cypress finish mantels, open grates, stained glass windows, gas and electric fixtures, hot water heating. The cost will be about \$8,000.

—At Lansdowne, Delaware county, a few days since a meeting was held in Lansdowne Hall by the Roman Catholics, and a parish was organized by Rev. Father Markel, former pastor of New Hope. It was decided to try to get a lot as soon as possible and erect a suitable place of worship.

—At Landsdale, Montgomery county, the plans of Mr. Conner have been approved, the School Board for a new eight room public school building to occupy a site on Green street, in the First ward. It will be handsomely finished, provided with modern furniture and conveniences, and will cost about \$15,000.

—At Washington, Washington county, it is about settled that an opera house will be erected on a site on North Main street. Those interested are W. D. Roberts, druggist; Robert Joshua and Richard Forrest. The proposed structure will be of brick, of fire proof construction, finely finished and equipped with a fine stage and all modern improvements. The dimensions will be about 90 x 75 feet.

—At Lima, Delaware county, the Board of Poor Directors, with the acquiescence of the County Commissioners, has about decided to erect a building at the County Home at Lima, for the treatment and care of the chronic and milder cases of insanity. A meeting will be held shortly by the Poor Directors, the County Commissioners and Captain Isaac Johnson, of the State Board of Charities, to take some definite action in the matter.

—At Allegheny, Allegheny county, a new building will be erected by the United Presbyterian Theological Seminary. Work will begin in the spring. The estimated cost is \$125,000. The new structure will be located on the site of the present building on North avenue.

—It is stated that arrangements have been made for the construction of a bridge from Geyer ave. to Shady ave., across Wood's Run avenue. It will be about 900 feet long and will cost about \$75,000.

—At Reading, Berks county, a few days since a congregational meeting was held by the First United Evangelical Society, and

the committee on sites recently appointed made a report and recommended the purchase of a site from a number which had been examined and submitted. A site in the northwestern part of the city will probably be chosen and work will be started at an early date on a chapel. Ground will be broken in the spring for the new church to be erected for St. Stephen's Reformed congregation from plans prepared by Architect Bolton, of Philadelphia. The structure will occupy the site at Ninth and Greenview streets, and will cost about \$25,000. George H. Felix has arranged for the erection of five two-story dwellings on South Ninth street, below Penn. The lower floors will be fitted up for store purposes. There is considerable talk of erecting a market house in East Reading in the Sixteenth ward.

—At Pittsburg, F. F. Bailey has broken ground for two attractive brick dwellings to be erected on Oakwood street, at a cost of \$5000 each. They will be finely finished and provided with all modern conveniences. S. Bossinger, of Susquehanna street, is the contractor. V. Wyss Thalmann, Bissell Block, is receiving estimates for a large brewery, for which he has completed plans.

—The Pennsylvania Railroad Company will erect a new station to take the place of the present structure, at Fourth avenue.

—A site has been bought by the directors of the City Deposit Bank of the East End, at Penn and Centre avenues. The present buildings on the site will be demolished to make room for a handsome new structure, which will cost about \$125,000. Work will begin about April 1st.

—The directors of the East End Charity Hospital are looking for a suitable site for a handsome new hospital to be supplied with all modern facilities, and which will cost about \$60,000.

—T. E. Cornelius, Schmitt Building, has made plans for a frame dwelling to be erected at Little Washington, for Mr. Streeter. J. A. Jacobs, Ferguson Building, has made plans for two brick dwellings to be erected at Hazlewood, for George Pritchard. F. H. Stolle, Black & Glouinger Building, has made plans for a three-story brick dwelling, to be erected at 1003 Maria street, for Samuel S. Amberson.

### Through New Jersey.

At Flemington, Hunterdon county, it is said that the question is under consideration of constructing a system of sewers.

—At Arlington, Hudson county, George E. Teets has prepared plans for a two-story frame dwelling, to cost \$2,500, for Teets & Mullison.

—At Hoboken, the Hoboken Land and Improvement Company will extend its piers at the foot of Fifth street, a distance of about one hundred and eighty feet.

—At Elizabeth, Union county, the congregation of the Central Baptist Society will erect a new church, to cost about \$40,000. The pastor in charge is Rev. Dr. Tomlinson.

—At Rutherford, Bergen county, Engine Company, No. 2, has under consideration a proposition for the erection of a new brick engine house. No plans have been prepared.

—At Summit, Union county, George V. Muchmore will erect a three-story brick, stone and terra cotta store and flats from plans prepared by George Bower & Son, of Morristown, N. J. J. H. Cady has prepared the plans for a three-story stone, brick and terra cotta building to be fitted up as store and apartments for E. L. Littell, at a cost of about \$12,000. The structure will be well finished and modern conveniences provided.

—At Lodi, Bergen county, Alex. Slingerland, of Passaic, N. J., has arranged for the erection of two two-story and a half frame dwellings to

cost \$3000 from plans prepared by C. Kevitt, also of Passaic.

At Brighton, Cumberland county, it is reported that Alexander Potter, engineer, 137 Broadway, New York city, has prepared plans for a sewerage system. The estimate cost is about \$100,000.

At Morris Plains, Morris county, owing to the overcrowded condition of the asylum for the insane, an effort will be made to secure an appropriation to complete the new wing of the present building.

At Plainfield, Union county, the handsome dwelling of Mr. A. Frost, was destroyed by fire last week. The estimated loss is \$15,000, on which there was an insurance of \$10,000. It will probably be rebuilt in a short time.

At East Orange, Essex county, the plans prepared by Boring & Tilton, of New York city, have been accepted for the new town hall. The estimated cost of the structure is \$25,000. Colonel Ryar Township, president, can give information.

At Morris Plains, Morris county, a handsome two-story brick stable 100 x 100 feet will be erected by Richard A. McCurdy, the president of the Mutual Insurance Company, 32 Nassau street, New York city. The plans have been prepared by R. P. Walsh, of Morristown, N. J., and call for a well finished structure fully equipped with all modern appliances for the intended purpose.

At Jersey City, Albert E. Pia has made plans for a two-story frame flat and store to cost \$3500 for Adam Spiegelberg, of Hoboken, N. J. — N. E. Smith & Son will make plans for a two-story frame double dwelling to cost \$3000. The same architects have prepared plans for three three-story double frame flats to cost about \$20,000, for Mr. Bissell, attorney-at-law. Also plans for a two-story frame dwelling for R. P. Smith to cost \$3000.

At Boonton, Morris county, Dr. J. L. Taylor will erect a handsome brick dwelling to cost about \$6000 from plans prepared by M. Houman, of Paterson, N. J. It will be finely

finished, considerable tile work, plain and ornamental glass, sanitary plumbing, etc. — A two-and-a-half-story frame dwelling will be erected on Rokaway avenue by Mrs. Frances H. Wood, of Brooklyn, N. Y., from plans prepared by N. C. Quackenbush, of Paterson, N. J. It will be well finished and will cost about \$2500.

At Newark, a resolution has been passed by common council to appropriate \$100,000 for street paving. — The Anheuser-Busch Brewing Company, of St. Louis, Mo., will erect six three-story brick and terra cotta stores and flats, to cost about \$100,000. — Ground has been broken for the new three-story brick and stone building for the Hebrew Orphan Asylum Association, of which Bernard Strauss is the president. The plans have been prepared by J. H. and W. C. Ely. The estimated cost is \$30,000.

At Weehawken, Hudson county, John and Kate Hartzen, 218 West Forty-third street, New York city, have arranged for the

erection of an attractive two-story frame dwelling, to occupy a site at the northwest corner of Boulevard and Fulton streets, from plans prepared by Philip H. Diemer, 128 Humboldt street, town of Union, N. J. The structure will be handsomely finished and provided with all modern conveniences and improvements. The estimated cost is \$11,000.

At Bayonne, Hudson county, Sarah Zeik will erect two two-story frame dwellings on George street. They will be well finished and will cost \$30,000.—Four two-story frame dwellings will be erected on West Twenty-first street by Max Ditznerstein from plans prepared by Armand Schule. They will cost about \$10,000 and will be well finished and provided with modern conveniences. The same architect has made plans for a frame dwelling to cost \$15,000, to be erected for Dennis M. and Eliza McGuire.

At Camden, steps have been taken by the commission of public instruction toward the erection of a high school, a resolution having been adopted providing for the appointing of a committee of three members from city council, with a view of securing legislation to authorize the creation of a loan for the sum of \$50,000, the money to be used for the erection of a building for high school purposes. Henry B. Wilson, president of the commission of public instruction, is much interested in the project, and appointed as a committee from the commission Messrs. Stevens, Jackson and Evans.

John Parker has prepared plans for a cracker bakery, to be erected by Longstreet, Morton & Walker, Matawan, N. J. It will be of brick and cost about \$7,000.—Thomas Cressy has prepared plans for a handsome residence, to be erected by John T. Ball, on Johnson avenue. It will be of frame, finely finished, tile, ornamental glass, fine plumbing, and fixtures, and all modern conveniences. The cost will be about \$15,000.—Mrs. Anna Botticher will erect two brick and stone dwellings, at Third and Mount Pleasant avenues. They will be attractively finished, and provided with modern conveniences. The plans have been prepared by Paul Botticher.—George W. Phillips will erect a two and a half story frame double building, 42 x 53 feet from plans prepared by Wynne & Sidney, 131 Ellison street, Paterson, N. J. It will be well finished, and will cost \$6,000.

At Atlantic City, the City Hall Commissioners, at a recent meeting, were instructed by city council to secure the Schaffer hotel property as a site for the proposed city building. The property includes an entire block and the purchase price was limited to \$175,000. The vote stood nine to five in favor of the proposition. The Pennsylvania railroad company has offered, in case the site is selected, to cede a strip of land facing the block, to the city, the railroad station being on the opposite side of the street. Council has also adopted a resolution favoring the removal of the county buildings from May's landing to some more convenient place for Atlantic City, as the latter city furnishes most of the business and pays at least two-thirds of the expense in maintaining them.

At Passaic, Passaic county, L. Levinson will erect a three-story brick store and flat to cost about \$5,000, from plans prepared by H. Rosensohn.—Prof. A. Hartkorn, Jr., will erect a two and a half story dwelling, to cost \$9,000, from plans prepared by Hyman Rosensohn. It will be finely finished, sanitary plumbing, tiling, plain and ornamental glass.—The same architect has made plans for five three-story brick buildings, to be fitted up as stores and for apartment purposes, for H. Marshaw. They will cost about \$16,000.—Also plans for a three-story brick store and flat to be erected for Abraham Kantar, at a cost of \$4,500.—F. A. Souel has completed arrangements for the erection

of a two-and-a-half story frame dwelling, to cost \$6,000. It will be attractively finished and provided with modern conveniences.—E. E. Turst has made plans for a frame dwelling to be erected for Frederick Hardifer. It will cost about \$2,500.—A. W. Burrows will erect two dwellings at Passaic Bridge. No plans made.

#### Through Delaware.

At Lewes, Sussex county, the Queen Anne Railway Company will erect a large pier to cost about \$125,000.

At New Castle, New Castle county, the levy court has appropriated \$25,000 for the Ferris Industrial school.

At Laurel, Sussex county, it is said that a large factory for canning purposes will be erected. Colonel Daniel J. Fooks has agreed to take one-third interest in the project and the town council has passed a resolution to exempt manufacturers from taxation for a period of ten years. The town council is in communication with the parties who propose to erect a canning factory.

At Wilmington, the board of education has under consideration the enlarging of the present high school building. The matter is in the hands of the new building and high school committees, and they will make a report on the subject at the next meeting of the board.—The works of the Pullman Palace Car Company were damaged to the extent of \$3000 last week.—It is said that the syndicate represented by Clark & Co., of Philadelphia, has completed arrangements for the purchase of the Wilmington City Railway Company.—John E. Healey will erect a two-story brick stable at Lombard and McCauley streets.

#### Through Maryland.

At Pocomoke City, Wicomico county, at a recent meeting the question was discussed of combining the proposed new water system with an electric light system.

At Rockville, Montgomery county, last week fire destroyed the dwelling and store of Edward Charlton, the dwelling of Oliver Ridgley, and the barber shop of Mr. Dwyer. The estimated loss is \$12,000.

At Cumberland, Allegheny county, it is said that the Cumberland and Pennsylvania Railroad Company will replace the present bridge over Will's Creek near the Narrows with a steel structure of modern design.

At Oakland, Garrett county, it is said that the citizens have sent a petition to the legislature asking for authority to issue bonds to the sum of \$25,000, the proceeds to be used for street improvements and electric lights.

At Ellicott City, Charles county, the question is under consideration of lighting the city with electricity. It is said if the city will agree to take light from the Catonsville Ice, Light and Power Company, the company will erect a plant at Ellicott City at once.

At Salisbury, Wicomico county, an order has been passed by the city council for a survey of main shed preparatory to making improvements by straightening and widening and otherwise improving the same, also an ordinance has been passed for paving Isabella and William streets.

#### Washington, D. C.

It is said that A. Goennen has prepared plans for an apartment house for Alonzo S. Bliss, to cost \$100,000, six stories, buff brick and Indiana lime stone, hot water heating, electric lights, modern conveniences.

—Nicholas G. Haller has made plans for an apartment house to be erected on M street, between Fourteenth and Fifteenth streets, and to cost about \$50,000. Pompeian brick, brown

stone trimmings, elevators, electric lights, etc. The Washington Market Company has made arrangements for extensive alterations to the central market to fit it up for the District National Guard. The estimated cost of the improvements is about \$22,000.—Messrs. Abner & Drury will erect a one-story brick and iron structure at 611 Twenty-fifth street, Northwest, to be used as a brewery storehouse, and will be 72 x 40 feet and well finished.—J. T. West will erect seven two-story dwellings at Thirteenth and Irving streets, of which six will be sixteen feet front, and one fifty-two by thirty-four feet deep. They will be well finished and provided with modern conveniences.

—The estate of the late Governor Swain of Maryland, near Leesburg, Va., has been sold to Rev. Richard H. Howell, rector of St. Margaret's Episcopal Church, Washington, D. C. The estate comprised about one thousand acres, and it is said to be the intention of the purchaser to make it his home for a part of the year.—Mr. Young, of Pennsylvania, has introduced a bill in the House to authorize the purchase of property on B street, between First and Second streets, Northwest, in square 574, and containing 134,363 square feet as a site for a building to be erected at a cost of \$600,000, to be used by the census office, Indian bureau and civil service commission, a bureau of architecture and for other government bureaus.

Mr. Curtis introduced a bill to authorize the Anacostia & Potomac Railroad Company to change the motive power on its main line from city to the underground electric system. The overhead trolley will be used in Anacostia, east of the Maryland bridge. A bill was also introduced providing for the acquisition by the United States of the land and water rights at the great falls of the Potomac. Senator Culum has given notice that he would propose to the District of Columbia an appropriation bill and amendment to pave with asphalt Whitney avenue, from Fourteenth street to Holmed avenue; Holmed avenue, from Whitney to Lydecker avenue; Lydecker avenue, from Holmed avenue to the east side of Thirteenth street, to cost \$19,000. The House committee of the District of Columbia has made a favorable report on the first resolution directing the Secretary of War to prepare and submit to Congress a project for the improvement of the Anacostia river and the reclamation of its flats from the line of the District to the mouth of the river. Representative Rixey, of Virginia, has made a request to the committee for a hearing on the bill to construct a memorial bridge across the Potomac.—The Baltimore Trust Company, which bought the bonds issued by the Metropolitan Railway Company, to secure money to equip that road with the underground electric system, has agreed to take the bonds to be issued by the proposed consolidated Eekington Company, which amount to \$1,500,000, and which will be used to equip the road with an electric system and to make necessary improvements and to complete the trolley line to Lakeland, Maryland.

—It is about settled that the naval appropriation bill now being framed will contain a item to appropriate \$33,000 for a government powder factory.—General Wilson, Chief of Engineers, has appointed a board of engineer officers consisting of Lieutenant Colonel Amos Stickney, Major T. H. Handbury, Captain F. V. Abbot and Lieutenant Charles Keller to consider and to report on plans for the proposed bridge to cross the Mississippi river between St. Louis, Mo., and St. Clair county, Illinois.—Senator Penrose has introduced a bill asking for an appropriation of \$3,000, for a clock for the tower of the public building at Reading.

### Miscellaneous.

At Boston, Mass., at a recent meeting of the school committee, it was decided to ask the Legislature for \$1,000,000 for new school buildings.

At Watervliet, N. Y., an election will be held on February 23 to vote on the question

of issuing bonds in the sum of \$53,000, the proceeds to be used to erect additional school buildings.

At Georgetown, Texas, it is reported that the Southwestern University is considering the erection of a new college building. The estimated cost is \$50,000. Dr. F. B. Siner, financial agent, can give additional information.

At Norwood, O., it is reported that the citizens will be asked to vote at the Spring election on the question of appropriating \$20,000 to increase the capacity of the electric light plant.

At Evanston, Ill., the management of the Northwestern University will erect a new building to cost about \$65,000. D. H. Burnham & Co., 1142 Rookery Building, Chicago, Ill., have prepared the plans.

At Columbus, Ohio, work will begin shortly on the proposed high school to be known as the East High School. Bids for its erection will be received until February 21st by C. E. Morris, chairman of committee on buildings, Board of Education.

At San Diego, Cal., Hebbard & Gilt have prepared plans which have been accepted for the proposed normal school building to cost about \$100,000. W. R. Guy, president of the board of trustees, State Normal School, can give additional information.

At Hanover, New Hampshire, it is reported that Lamb & Rich, of New York City, 35 Nassau street, have prepared plans for the physical laboratory addition to Dartmouth College. The estimated cost is \$75,000. The same architects have finished plans for Moore Hall which will cost about \$30,000.

40,128

### Proposals Wanted.

Treasury Department, Office of Supervising Architect, Washington, D. C., February 2, 1898.—Sealed proposals will be received at this office until 2 o'clock, P. M., on the 24th day of February, 1898, and opened immediately thereafter, for furnishing all the labor and materials and erecting, complete, two hydraulic passenger elevators, one hydraulic mail lift and one hydraulic ash lift, including pumps, tanks, piping, cars, platform, etc., for the U. S. court house, custom house and post office building at Omaha, Nebraska, in accordance with the drawings and specification, copies of which may be had at this office, or at the office of the superintendent at Omaha, Nebraska. The right is reserved to reject any or all bids, and to waive any defect or informality in any bid should it be deemed in the interest of the Government to do so. Proposals must be enclosed in envelopes, sealed and marked, "Proposals for Two Hydraulic Passenger Elevators, One Hydraulic Mail Lift and One Hydraulic Ash Lift for the U. S. Court House, Custom House and Post Office Building at Omaha, Nebraska," and addressed to the Supervising Architect.

### Wants.

At Allegheny, Pa., it is reported that the water committee has authorized the Director of the Department of Public Works to advertise for bids for 36-inch stop gate water valves for a new main to be laid to relieve the Howard street pumping station.

At Wilkesburg, Pa., the board of school directors will receive sealed proposals until February 10, 1898, for the erection of an addition and other improvements to the Third ward public school building at Pitt and Mc Nair streets. The plans at the office of E. M. Butz & Co., Park Building, Pittsburgh, Pa. Bids to be sent to the office of the secretary of the board room, 97 Park Building, Pittsburgh.

At Philadelphia, 1428 Arch street, Depot Quarter Master's Department, Colonel John V. Furey, Deputy Quartermaster General, U. S. A., will receive sealed proposals in tri-

plicate, until March 4th, 1898, for furnishing vitrified china dishes, glass tumblers, butcher knives, carving sets, chopping bowls, dippers, dish pans, meat cutters, blades for meat saws, table forks and knives, solid steel and silver plated.

### Judgments.

#### PHILADELPHIA.

#### ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term, and S, for September Term.

S. F.—Sole Repleas, to revive judgment.

A star (\*) denotes judgment confessed or bond and warrant conditioned.

## Architect Notes.

J. T. Windrim, architect, 1107 Walnut street, has made plans for alteration to the lower or first story of the Stephen Girard Building. Closets, tile work, and other detail work will be introduced.

Kean & Mead, architects, 1420 Chestnut street, have made plans for nine houses, to be erected on Geawan street and Germantown avenue. Face brick, stone trimmings, hot-air heating, electric work, baths, ranges, etc.

Baker & Dallett, architects, 1604 Chestnut street, are about completing the plans for the Insane Department of Chester County Almshouse, which has been noted previously in full. Estimates will be the next move upon the boards.

H. Conner, architect, Lansdale, Pa., is making plans for a school house to be erected at that place. It will be of brick and stone, slate roof, electric work, plate glass, and interior furnished with all the latest school fixtures, etc.

David Kueckerbacker Boyd, architect, Harrison Building, Fifteenth and Market streets, has made drawings for alteration and addition to a house at Lansdowne, Pa. These contemplate brick and stone work, and every modern convenience, etc.

Harry Peale, architect, Harrison building, Fifteenth and Market streets, has made plans for an operation of twenty houses to be erected in Germantown. These are to be of brick and stone, and contain every modern comfort and convenience.

As indicated by this journal some weeks since, contractors in general are estimating on the M. E. Home, to be built at Belmont and Edgerly avenues, in this city, from plans by Hales & Ballinger, architects, Twelfth and Chestnut streets, and these have been fully described in these columns.

Albert W. Dilks, architect, 1001 Chestnut street, has made complete plans for extensive alterations to residence of Robert Steen, 3413 Hamilton street, and contractors are estimating on the work, which includes considerable interior as well as exterior, hot air heat, electric work, plate and leaded glass and general improvements, etc.

Under revised plans Charles W. Bolton, architect, Witherspoon Building, has been taking bids on St. Stephen's Church, at Reading, Pa. This work has been noted previously. The new specification calls for a stone and brick structure, one story and basement, steam heat, electric work, stained and plate glass, upholstering, carpets, pews, etc.

Estimates have been figured upon during the past week for construction of the handsome bank building to be erected at Chester, Pa., after plans by Isaac Pursell, architect, 119 South Fourth street. It will be one story

high, with handsome circular dome roof, and the material will be stone, brick and iron, vaults, electric work and all general improvements.

Thomas P. Lonsdale, architect, Manhattan Life building, Fourth and Walnut streets, has made plans for a store and dwelling at Mt. Airy, near the city. It will be of faced brick, stone trimmings, 20x100 feet, three stories high, interior contain hot air heat, plate and leaded glass, hard wood finish and all general comforts and conveniences. Estimates have been offered during the week.

Francis A. Gugert, architect, Wayne, Delaware County, Pa., has furnished plans for a residence to be erected at St. Davids for Mrs. S. A. Gallagher, of that place. The structure will be stone first story, frame the other two, slate roof and finished on interior with hard woods, electric work, steam heat and general comforts. Estimates are being made in office of John R. Wiggins, 1220 Filbert street, and other contractors.

E. F. Durang, architect, Twelfth and Chestnut streets, has made plans for a parish school for St. Columbia's Roman Catholic Church, at Twenty-third street and Lehigh avenue. It will be three stories high and basement, 70 x 140 feet, and fitted with steam heat, electric work, plumbing, and slate roof, school furniture, etc. All the most recent improvements will be introduced. Cost about \$50,000.

Robeson Lea Perot, architect, 619 Philadelphia Bourse, has prepared plans, and estimates are now being made for extensive alterations to store building on Chestnut street, this city. These will include iron construction and expanded metal work, painting, plastering, mill work, stairways, plate and leaded glass work. The same architect has awarded contract for alterations to residence on School lane, Germantown, to John C. Lightfoot, contractor. Previously noted. Also other work on boards which will be noted later.

In the office of J. F. Stuckert & Son, architects, 49 North Thirteenth street, estimates are being made on the great factory building for Frederick Rumpf, at Langhorne, Pa., which was first noted in this journal some weeks ago and fully described. Also in same office estimates on another factory to be erected at Norristown, Pa. The Langhorne factory will be of stone entirely as to walls, whilst the latter one will be of brick and stone, both slow-burning construction on interior, each fitted with all modern conveniences, etc.

Stearns & Castor, architects, Stephen Girard building, Twelfth, above Chestnut street, have completed plans for the new Allegheny Avenue Baptist Church, and have orders to forward its construction. The structure will be of Holmesburg granite, one story and basement, slate roof, interior will be highly

ornamented, fitted with electric light, steam heat, hard wood seating and upholstering; basement will be fitted for Sabbath school, also primary department, with a kitchen and supper room, etc. Estimates will be invited at an early day. Other work in course of preparation in the same office which will be noted soon.

## Building and Real Estate Notes.

Daniel Knauer, contractor, of Atlantic City, N. J., will make considerable alteration and addition to the Berkley Hotel at that place. Previously noted.

Renwick Moffet, builder, has bought twenty-eight lots of ground on Zeralda street, southwest of Wayne, and will likely improve the same during the coming spring season.

Bud P. Evans, contractor, has started interior alteration to the Baptist Church, Wister and Wakefield streets, Germantown. This includes new windows, new rooms, and stripping the walls, etc. Previously noted.

David Fulton, builder and owner, will at once erect twenty-one dwellings on Frazier street, north of Market. These are 15 x 38 feet, two stories high, press brick, stone facings, and modern improvements on interior.

E. Tracy Tobin, builder, 906 Walnut street, will build an operation of houses at Forty-third street and Woodland avenue. There is to be twenty-six dwellings in all, of face brick, stone trimmings and best conveniences.

W. A. Margarum, builder, Westmoreland and Fifth streets, is taking bids on materials and fixtures for thirteen houses, to be erected in that locality for Mr. J. Kehoe. These are to be of brick and stone with all modern comforts.

W. W. Rea's Sons, contractors, 1815 Francis street, have the contract to erect the factory for the Carbon Dioxide and Magnesia Co., at Twenty-ninth street and Montgomery avenue. Previously noted in full in these columns. Architect Edwin Stewart made the plans.

In order to give this city a standing in courts of law in this country and in France articles of incorporation have been applied for in Court of Common Pleas by the Mayor, Charles F. Warwick; Colonel Edward De V. Morrell, William Pepper, W. W. Frazier, John H. Converse, Daniel Baugh, Justus C. Strawbridge, F. A. B. Widener, William L. Elkins, W. W. Foulkrod, George C. Thomas, Samuel Dickinson, and J. Levering Jones. This is done to carry out the purposes of the will of the late Dr. Thomas W. Evans, who died in Paris in 1897, leaving several millions of dollars to found and build a museum and dental college in this city, as a memorial to himself. Litigation is looked for over the will, hence the action above taken.

PHILADELPHIA, WED'Y, FEB. 16, 1898.

#### *The Devil or the Deep Sea, Which?*

The worthy citizens of this very old and respectable city have now a delightful opportunity to fully appreciate the full meaning of the above and extremely appropriate epigram.

A water supply loaded with disease and death on the one hand, and a horde of selfish schemers seeking to enrich themselves on the other.

It is stated publicly that after election the proper ordinance is to be presented before Councils for the leasing of the water works, and that it will surely go through.

The success of this scheme will make the Schuylkill water as bad as it is a costly luxury, without the shadow of a chance that its quality will be improved in the slightest degree.

The second scheme is fattered by a fair share of "eminent respectability," and is in the interest of the Philadelphia and Reading Railway Company, which seeks to unload upon the city a useless franchise of fragmentary relics known as the Schuylkill Navigation Company as a proper adjunct to the present germ-breeding outlet for the sewers and cess-pools of Reading, Norristown and other large communities, from which our water is taken.

The third scheme is a filtration plant of extensive proportions and magnificent possibilities as a money maker for those who are to manage it as a part of Philadelphia politics.

Of course, every sensible person knows that the promoters of these various schemes care very little about the welfare of the people. Their sole bent is money-making, and the most of them care very little as to how they make it.

Filtration as an idea is very likely to be favored by a large number of people; but will

it fill the bill? Will it be made a permanent and economical method? How much will a suitable filtration plant, covering at least one hundred and fifty acres, cost for construction, and what will be the yearly expense to keep it up to a proper state of efficiency, the way public improvements are constructed and managed in Philadelphia?

How far will the millions of dollars which must be spent to construct the plant go towards the construction of a proper aqueduct to a point where water free from contaminating influences can be obtained in sufficient quantities?

The future water supply is a problem too serious to be trifled with, and councilmanic juggling won't do.

We can part with our gas works without winching, but when the lives of our citizens are jeopardized the question of cost is nothing, and the right thing must be done without fear or favor.

What is needed is safety, surety and permanency. Half-way measures or experiments should not be considered.

No sum that can be anticipated as the cost of water works even as far north as the Water Gap can equal the loss of population, business and lives which will surely follow an incorrect solution of our water problem.

The time has arrived for our citizens to settle their own affairs in a manly way, and the water question involves too many serious considerations, both public and private, to permit trifling.

Soluble poisons cannot be eliminated from water by filtration. The druggist filters his tinctures and extracts, but their potency is not impaired.

Present evils will increase with the population inhabiting the cities along the Schuylkill, and no scheme which will not reach beyond such contamination should be entertained.

#### *Building and Real Estate Notes*

The question of an injunction against the Commissioners at Harrisburg, Pa., awarding a contract for the new Capitol Building, having been decided against such a procedure, the matter now goes to the Supreme Court of Pennsylvania for review and final adjudication.

Globe Artificial Stone Paving Company, 1125 Betz Building, Jno. F. Galbraith, proprietor, has been awarded the contract for all cement work on thirty-five dwellings at Ninth and Clearfield streets for Mr. Jno. Loughran. Mr. Galbraith has recently removed his office from Room 1112 to Room 1125, Betz Building.

J. E. & A. L. Pennock, contractors, 305 Walnut street, are estimating upon the Columbia Law Office Building, to be erected in Washington, D. C. It will be of stone, brick and iron construction and contain all modern improvements, including elevators, electric work, steam heat, lavatories, closets, slate and tile work, grille work, iron and brass, etc.

The Committee on Property, Board of Education, have decided to urge an appropriation

by councils to purchase lots for school houses at Thirty-first street and Lehigh avenue; also one at Fifteenth and Ontario streets, and a third, 3407 Mather street. It is altogether likely that this action will be endorsed by both branches when the general appropriation is made.

The Star Theatre, on Eighth above Race street, is about to undergo a general alteration on the interior and in future figure as a dime museum. Plans are being prepared, and will call for an additional gallery and exhibition rooms, as well as other minor work. It is likely the work will be started at once. B. F. Hafner is the proprietor, whose address is at the amusement place, as above noted.

A meeting of the Roxborough County Club was held in that place on the 7th instant and a resolution passed to purchase a site and erect a fine club-house. Officers of the organization are: President, Wilbur F. Hamilton; First Vice-President, Edmund H. Morris; Second Vice-President, Richard H. Patton; Secretary, Robert M. Yahn; Financial Secretary, Frank A. Lackey; Treasurer, J. Thompson Littlewood.

Geo. F. Payne & Co., contractors, 401 South Juniper street, have been given the contract to erect the mansion of Peter A. B. Widener at Ashbourn. A full description of this work at first appeared in these columns December 29, 1897, from the drawings by the architect, Horace Trumbauer, 310 Chestnut street. It is to be of stone, brick and steel frame construction, absolutely fireproof throughout. Also a handsome stable, 80 x 115 feet, two stories high, and of same material as the residence. Some of the minor contracts are as yet reserved for future consideration.

The apartment house to be erected at Fifteenth and Walnut streets, and noted previously in this journal, is to be owned and controlled by the Tyler estate and other stockholders, among whom are Thomas B. Wanamaker, Geo. W. Elkins, P. A. B. Widener, Barclay Warburton and others. Competitive plans are being made by architects, and a selection will be announced at an early day. It will be nine stories high, stone, brick and terra cotta work, steel frame; it will be fitted with all modern comforts and improvements, including elevators and lift, electric plant, steam heat, etc. Fuller details later.

Among the proposed improvements for Fairmount Park the coming season will be \$50,000 for the East Park river drive, to complete the work begun in 1897. Also additional work upon the west side of Schuylkill river as far as the lower deck of the Callowhill street bridge, the work only to be a roadway of cinder this year and allow the same to settle during the present year and further improved by the surface in 1899. It is also recommended that Rittenhouse drive be improved to the extent of \$10,000, this being the main driveway from Germantown, Mt. Airy, Chestnut Hill. Mr. Thayer has also suggested the rebuilding of several bridges, one at Livzy's lane and a stone one at Allen's lane; also an appropriation of

## Beautiful Sea Shells

Every one admires them. Since coming south I have received numerous inquiries from northern people for sea shells, and now I am prepared to answer yes, I can send you shells, for I have made quite a collection of lovely shells, both from our own coast, the coral reefs, and some beautiful ones from the West India Islands. I will mail a dozen or more different kinds, no two alike, to any one who sends a stamp for postage. Also send you a lovely piece of white branch coral.

Yours, **MRS. P. A. WARNER,**  
Jacksonville, Fla.

## MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and gives a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about MURESCO for the asking.

## BENJAMIN MOORE & CO.,

256-262 Water St., Brooklyn, New York.

\$25,000 for dredging the river in the Park limits and \$10,000 for continuation of river wall north of Columbia avenue bridge and a bicycle sidewalk along Mt. Prospect drive to cost about \$10,000. All the above suggestions of the Chief Engineer, Thayer, were adopted by the Commissioners at their last meeting.

Professor Arthur Tomlinson, of Swarthmore College, near Philadelphia, is asking estimates upon plans for a new dormitory to be erected on the grounds at that place.

E. A. Waddy & Co., 1108 Betz Building, Philadelphia, have been awarded the contract to furnish the mill work to restore the building 813 Chestnut street, for the Commonwealth Title Insurance and Trust Company.

Funds are being raised by public-spirited citizens to erect a Health Protective Hospital in same location yet to be selected. A board of directors were elected at a special meeting on the 10th instant as follows: Judge William N. Ashman, president; George M. Edlin, Edwin Rosenthal, M. D.; Alba B. Johnson, Edwin E. Graham, M. D.; Mrs. Harriet N. Panoost, and Mrs. John S. Scribner. For two years: Mrs. Olive Pond-Amies, George M. Gould, M. D.; Robert Alexander, Mrs. E. J. Bartol, Frederick P. Henry, M. D. For three years: Eleanor Jones, M. D.; Mary E. Allen, M. D.; Mrs. Mary E. Mumford, J. Rodman Paul, and John S. Scribner. The following resolution was adopted: "The Health Protective Hospital, having been duly incorporated, the officers and board of directors have been appointed and liberal contributions have been received, and money raised for the purpose, it has been deemed important to appeal at once to the public for more funds that the hospital may be realized and made available without delay. The great number of cases of contagious diseases from which Philadelphia suffered during the past winter emphasizes the imperative need of a comfortable hospital to receive such sufferers and where they may be attended by any licensed physician whom they may select. Contributions are earnestly asked and will be received by the treasurer, Dr. J. Madison Taylor, 1504 Pine street, or Mrs. John S. Scribner, chairman of the Finance Committee."

#### Through Pennsylvania.

☞ When any of the following are not post office towns they will be so designated.

—At New Castle, Lawrence county, the congregation of the First United Presbyterian Society has about decided to erect a new church.

—At Reading, Berks county, A. F. Smith has finished plans for the six story building to be erected at Fourth and Penn streets for B. and J. Saylor.

—At Seavick, Allegheny county, Mr. Cornelius will erect a hotel from plans prepared by his brother, T. E. Cornelius, Schmidt Building, Pittsburgh, Pa.

—At Mount Carmel, Northumberland county, fire destroyed the Mount Carmel House not long since. The loss on the building and furniture is estimated at about \$22,100.

—At Oxford, Chester county, work will begin in a short time on a new engine house for the Union Fire Company. It will be two stories high of brick and stone. The estimated cost is \$3,000.

—At Reading, Berks county, A. J. Smith has made plans for a six-story iron and stone building, to be fitted up for business purposes by B. & J. Saylor. The estimated cost is \$13,000.

—At Sharpsville, Mercer county, water bonds to the amount of \$23,000 have been sold to W. J. Hays & Sons, of Cleveland. Work

on the contemplated improvements will begin about March 1.

—At York, York county, it is said that the York Water Company has under consideration a proposition to increase its capital stock from \$500,000 to \$750,000, the money to be used in the construction of a new reservoir.

—At Dover, Morris county, William H. Baker will erect a three-story brick building to be fitted up for hotel purposes. It will occupy a site on Blackwell street. The plans have been prepared by G. W. Bower & Son, of Morristown, N. J.

—At Braddock, Allegheny county, work will begin soon on the construction of the proposed reservoir, for which bids will be received until February 17 by William Howatt, Superintendent of Public Works. It will have a capacity of 12,000,000 gallons.

—At Connellsville, Fayette county, it is stated that a movement has been inaugurated to establish a pumping station on the Yough river, above Indian Creek, to pump water from the river into a natural reservoir to supply Connellsville and New Haven.

—At Lancaster, Lancaster county, it is said that the board of directors of the Lancaster Electric Light, Heat and Power Company will establish a commercial electric plant. W. F. Beyer is the president of the company, and George B. Willson, secretary.

—At Coplay, Lehigh county, a charter has been applied for by the Spring Creek Water Company, which proposes to supply water to the borough of Coplay. The incorporators are P. S. Page, E. H. Laubach, E. J. Grover, P. N. Remmel and M. E. McDonald.

—At Butler, Butler county, a handsome frame colonial dwelling will be erected by Mr. J. D. Marshall. It will be finely finished and provided with all modern improvements. The plans have been prepared by F. H. De Arment, Penn Building, Pittsburgh, Pa.

—At Downingtown, Chester county, it is reported that James Pyle, of West Chester, has been chosen as consulting engineer to assist in planning and erecting the new plant of the Citizens' Electric Light Company. Dr. E. Kerr is one of the directors, and can give additional information.

—At Mahanoy City, Schuylkill county, it is said that the school board has decided to erect a new school building to contain twelve rooms and to cost about \$35,000. It will be handsomely finished and provided with modern conveniences and improvements. It will be of steel and iron construction.

—At Cochranstown, Bradford county, fire destroyed not long since the Brown block owned by A. T. Brown; loss, \$6,000. Smith & Moore's store; loss, \$7,000. Howard Burger's photographic establishment; loss, \$3,000. Dwelling of Dr. H. K. Brittain; loss, \$3,500. Dwelling of Dr. Roberts; loss, \$1,500.

—At Homestead, Allegheny county, it is probable that a new national bank will be established. The capital stock will be \$50,000, and Charles K. Smith, of Latrobe, Pa., will be cashier. Among those interested is J. D. Stahl, of Greensburg, Westmoreland county, Pa., besides a number of prominent people of Homestead.

—At Conshohocken, Montgomery county, H. F. Murray, Fayette street, will soon break ground for an office building and stable. It will be of gray stone and brick and will have steam or hot air heating, electric lights, cement and pine flooring, carriage loft, fine stable fitting and office fixtures, plate glass mirrors and sanitary plumbing. The cost will be about \$15,000.

—At Rochester, Beaver county, a company has been organized to be known as the Douglass & Whisler Brick Company, with a capital of \$25,000. Dr. W. C. Simpson, of New

Brighton, Pa., is the president; James R. Douglass, of Rochester, vice-president; Abner Whisler, secretary, and James Douglass, Sr., treasurer and superintendent. The company has bought a large tract of land at Vanport, Pa., and will erect a plant with a daily capacity of 40,000 bricks. Building, paving and mill brick will be manufactured.

—At Westchester, Chester county, the contract for the erection of St. Paul Baptist Church has been awarded to Plummer E. Jefferis. The new structure will be 40 x 45 feet, well finished, and will cost about \$3,500. Mr. Jefferis will, in a short time, begin the erection of brick dwellings to occupy sites on New street. They will be handsomely finished, provided with modern improvements and will cost about \$3,500 each. Eight brick dwellings will be erected on Lacy street by Muzanti Bros. The Republican office on East Market street, will be enlarged by the erection of an addition in the rear. It will be well finished, will be three stories high, and cost about \$3,000.

—At Pittsburg, the bids for the erection of the Kaufman Building will close on February 17th, at the office of the architect, Charles Bickel, Methodist Building. The estimated cost of the structure is \$200,000. Plans have been prepared by J. E. Allison, Publication Building, for a new building for the Citizens' National Bank of East Liverpool, Ohio. The structure will be three stories high, of brick, stone and terra cotta, and will be provided with handsome fittings, tile work and all modern conveniences. E. J. Carlisle & Co., Lewis Building, are making plans for three two story and attic brick dwellings, to be erected in Hazlewood for Mr. Rankin. They will be well finished. The same architects have prepared plans for extensive alterations and additions to the famous store building of Katz & Goldsmith at Braddock, Pa. The Epping Carpenter Pump Co., Forty-third street and Allegheny Valley Railroad, will erect a block of five iron brick and stone buildings, to cost about \$100,000. Samuel Diescher, Hamilton Building, is receiving estimates for the work.

Sketches have been submitted by a number of local architects for a new bank building which is to be erected by the directors of the City Deposit Bank, Penn avenue, East End, and a selection will be made within a few weeks. The building committee is composed of I. R. Paul, David Blair and Hugh F. Murphy. The proposed building will be one-story high, of granite and frame, interior finish of marble and bronze. The congregation of the Wilkinsburg Presbyterian Society will erect a new church. The building committee is composed of A. M. Duff and Charles Armstrong. Ground has been broken for the handsome dwelling to be erected by Mr. Cunningham in the East End, from plans made by Thomas Boyd, Westinghouse Building. At a recent meeting of the directors of the Union Trust Company it was decided to erect a handsome granite, steel-frame building. C. M. B. Barberger, Westinghouse Building, will prepare the plans for the new Teuth ward school building. J. M. McKnight, 240 Fourth avenue, is secretary of the building committee of the First United Presbyterian Church, which will erect a handsome new building to cost about \$100,000. Plans are now under consideration. Mr. J. H. Elder will erect three finely finished dwellings on Murray Hill avenue, near Fifth avenue, from plans prepared by Architect McKee. At a recent meeting of the stockholders of the American Axe and Tool Company, the matter of selecting a site for the new plant was left to the executive committee. It is thought the committee will decide to erect the buildings at the new town of Westmore, on the Monongahela river, near Charleroi, Pa. Long & Carroll, Hamilton Building, have prepared plans for two frame stores and flats for C. W. Taylor, of Taylor & Bullock, Liberty street, which will be erected on Eighth avenue,

bids February 19 on the Fraternal Hall to be erected at McKee's Rocks.—The same architect will prepare plans for the Guskus Orphanage to be erected on Perryville avenue.

—James M. Corby, 606 Mulberry street, will erect five two-story and attic brick dwellings on Oakwood street. They will be handsomely finished, plain and ornamental glass, tile work, sanitary plumbing. The cost will be \$4,000 each.

### Through New Jersey.

At Trenton, bonds are being sold to raise money to construct a reservoir.

At Vineland, Cumberland county, in a short time it is proposed to submit to the vote of the people the subject of the purchase of the water works.

At Belleville, Essex county, Charles Ortholf will make alteration and addition to his present dwelling, from plans prepared by Ten Eyck & Grant.

At Atlantic City, at a recent public meeting a resolution was passed recommending new paving for Arctic, Pacific and Atlantic avenues.

At Millburn, Essex county, Frederica Purson will erect an attractive frame dwelling to cost about \$5,000, from plans drawn by Jay W. Dow, of Wyoming, N. J.

At Westfield, Union county, Hiram L. Funk will erect a two and a half-story frame dwelling to cost \$5,000. The plans have been drawn by Charles Kaylor.

At Camden, the plans of Thos. Stephens have been accepted for the four-story addition to the present Y. M. C. A. building at Federal street and Broadway.

At Avalon, Cape May county, Mr. D. A. Cobb, superintendent at Weston & Wells Braided Wire Company, 1106 Noble street, Philadelphia, will erect an attractive cottage to cost about \$3,500.

At Kensington, Somerset county, George Washburn will erect a two and a half-story

frame dwelling to cost about \$3,000 from plans prepared by A. C. Longyear, 126 Liberty street, New York City.

At Lambertville, Hunterdon county, the school board is considering the question of the construction of a new high school building. John Hoagland is chairman of the committee and can give information.

At Chatham, Morris county, Clara M. Wolfe will erect a two-story frame club house, to cost \$5,000, from plans prepared by Poole & Lunn, 70 Fifth avenue, New York City. It will be handsomely finished and provided with modern conveniences.

At Rahway, Union county, City Council has been requested by the Board of Trade to issue bonds to the extent of \$25,000 for improvements to the water plant. Among the proposed changes will be a new filter to cost about \$14,000, and other improvements.

At Hoboken, Hudson county, sketches have been prepared by Fall & Maxson for a one-story brick extension to the rear of City Hall. The estimated cost is \$30,000. The Legislature will be asked to permit the city to issue the necessary bonds to pay for the work.

At Rahway, Union county, Nicholas Mooney will erect a two and a half-story frame dwelling on Jaques avenue, from plans prepared by William L. Ryno. It will be handsomely finished and provided with modern conveniences. The estimated cost is \$8,000.—H. L. Lamphar will erect a two and a half-story frame dwelling at Pierce and Main streets.—The Second Baptist (colored) congregation will erect a frame dwelling to be used as a parsonage. The estimated cost is \$2,000.

At Elizabeth, Union county, the estate of Elizabeth M. Miller has begun work on a handsome dwelling to be erected at Broad and Pearl streets, from plans prepared by W. E. Clum. It will be of stone, finely finished on interior and provided with all modern conveniences. The estimated cost is \$9,000. The same architect has made plans for a two-story brick and stone store and apartment house to be erected at a cost of about \$4,000. It will be well finished, modern improvements, etc.

At Haledon, Passaic county, it is said that a company has been organized to be known as the High Mountain Water Company, with the purpose of supplying water from high mountain and neighborhood. It is proposed to lay pipe through Haledon and subsequently extend the system. A large reservoir for the storage of water will be constructed. The incorporators of the company are William Buchanan, Sr., William Buchanan, Jr., and William H. Belcher. The capital stock is \$50,000.

At Bloomfield, Essex county, it is said that the Orange Water Company has offered to sell its plant to the Township of Bloomfield at a price to be agreed on by arbitrators. The plant consists of hydrants and water mains, and in case of purchase it would be necessary to locate a water supply or to arrange for one with the East Jersey company. The estimated cost of the erection of a pumping station is \$14,000.

—The Bloomfield Cadets, of which Howard Thomas is captain, will erect a one and two-story frame armory, to cost about \$5,000. The plans have been prepared by R. T. Camp, 114 Nassau street, New York City.

At Jersey City, N. J., at a recent meeting the Board of Freehold adopted a resolution instructing Chief Engineer Edlow W. Harrison to prepare maps and estimates of cost to acquire certain lands required for the proposed new Western Boulevard.—Leopold Cramer will erect a two-story frame dwelling to cost \$2500, from plans prepared by J. A. Resch.—R. W. Sailer has made plans for a large four-story brick canning factory, to be erected at 39, 41 and 43 Essex street, for the A. L. Causse Manufacturing Company, of 104 Hudson street, New York City. It will cost about \$20,000, and will be equipped with

modern facilities.—J. A. Resch has made plans for a three-story flat to cost \$6,500, to be erected for Leopold Cramer. The same architect has prepared plans for five three-story frame flats, to be erected in Van Nostrand Place for August Dore. They will cost about \$18,000. Blair & Quail have made plans for a three-story frame double flat to be erected for Robert Ruddeck, at a cost of about \$7,000.

At Passaic, Passaic county, Dr. Alfred A. Pedrick will erect two three-story brick and stone flats on Bloomfield avenue, near Grove Terrace, from plans prepared by Wynne & Sidney, 131 Ellison street, Paterson, N. J. These structures will be attractively furnished, tile work, plain and art glass, sanitary plumbing, modern conveniences. The estimated cost is \$15,000. The same architects have made plans for a two-story brick stable, 22x50 feet, to be erected for Dr. Pedrick also. It will be well finished and provided with the latest improvements. Also plans by the same architects for Dr. Pedrick, for a two and a half-story frame dwelling, 22x48 feet, to be erected on Grove Terrace, at a cost of about \$4500. It will be handsomely finished and provided with all modern conveniences.—Moreland Bros. have prepared plans for a dwelling to be erected on Lexington avenue for Mrs. Johanna Moreland. The estimated cost is \$5,000. The same architects have made plans for a frame dwelling, also for Mrs. Moreland, to be erected on Sixth street. It will be well finished and will cost about \$3500.—Matthew Geene has made plans for a dwelling to be erected for Kate Geene to cost \$3,000.

At Paterson, Passaic county, Charles McNeil will engage in an extensive building operation, including the erection of five attractive two and a half-story frame dwellings, to cost about \$3,000 each. Mr. McNeil is of Little Falls, N. J.—A 4-story brick factory will be erected by Nathan Barner, on Dale avenue, between Grand and Ward avenues. It will be 50 x 277 feet. The plans have been drawn by J. H. Post, Paterson National Bank Building.—Charles B. Sleigh has prepared plans for a two and a half-story brick and stone double dwelling, 44 x 53 feet, handsomely finished and well provided with modern comforts and conveniences.—The same architect has made plans for a similar residence to be erected for Thomas S. Wilson, on Twelfth-sixth street. The estimated cost is \$6,000.—Charles Palmer will erect a two and a half-story brick building, which will be fitted up as flats, from plans by Mr. Post.—Wynne & Sydney have made plans for a flat to be erected for Edward L. McEwen.—The same architects have made plans for alteration to a 2-story frame school building into a store, to cost \$3500.

At Newark, it is probable that steps will be taken by a syndicate to erect a large building for hotel purposes. Harding & Gooch, 253 Broadway, New York City, have prepared preliminary plans for such a structure. These plans call for an eight-story brick and stone structure, 35x150 feet, to be handsomely finished and provided with all modern conveniences and improvements.—The Anheuser-Busch Brewing Company, of St. Louis, Mo., will make extensive alterations and improvements to its plant at Newark from plans prepared by A. D. Heyne. Among the changes will be alterations to the bar-room, new plumbing and the introduction of a new steam-heating plant. The estimated cost of the work is about \$10,000.—The Homestead Building Company will make improvements to the three-story residence, 301 Aqueduct street, from plans by M. P. Roche. The cost will be about \$4,000.—H. B. Williams will erect a frame dwelling from plans prepared by A. H. Thomas, Caldwell, N. J. It will cost about \$3,000.—Sarah R. Mead will erect a frame dwelling from plans prepared by Theodore Mead.—The Essex Brewing Co. will erect a brick and stone beer storage house, to cost about \$15,000. The plans have been prepared

by F. Wunder, 99 Broadway, Brooklyn, N. Y.

—Henry Muller will erect an attractive frame dwelling, 30x60 feet, to cost about \$3,000, from plans prepared by W. K. Schoenig. The same architect has made plans for three frame stores and dwellings to cost \$7,000, for Mr. Sidler; also plans for three brick stores and flats for Henry Schreimuller. The estimated cost is \$7,000.—E. A. Worth is preparing plans for extensive alterations and additions to the sanitary system of the Essex County Insane Asylum, at Newark. The same architect has made plans for a frame and stone dwelling to be erected in Van Ness Place for Benedict Prieth. The estimated cost is \$7,500. It will be handsomely finished and provided with modern improvements and comforts.—C. F. Rehman has made plans for a two-story frame dwelling to be erected for George Landgraf, at a cost of \$4,000.—Morris Rachlin will erect a four-story brick and stone building, which will be fitted up as a store, bakery and flats. It will be well finished and provided with modern improvements, and will cost about \$5,000.—Dr. Emanuel J. Hope will remodel his dwelling, No. 955 Broad street, and will erect a stable in the rear.

### Through Maryland,

At Pocomoke City, Wicomico county, at a recent meeting it was decided that the mayor and city council be instructed to draft a bill to present to the legislature asking for authority to issue bonds to the amount of \$40,000, the proceeds to be used in the construction of water works, a sewage system and an electric light plant.

A Williamsport, Washington county, a committee has been appointed, consisting of P. L. Lemen, James Findlay, Jno. L. Motter, John H. Hoffman and N. Emmett Cullen, to present a bill to the legislature to authorize the town to issue bonds to the amount of \$30,000, the proceeds to be used in the construction of an electric light plant and water works.

At Baltimore, ground has been broken by Henry G. Livingston for a building operation consisting of 16 three-story brick dwellings, to occupy the north side of Newington ave., between Bolton and Callow avenues.—A two-story frame dwelling will be erected by Miss Annie Livingston at 440 Hickory street.—R. B. Keyser will make improvements to the building at the northeast corner of Liberty and Lombard streets, and a three-story brick dwelling will be erected by Mrs. Maria A. Kernde, at 304 North Gay street.—It is reported that plans have been prepared by George Archer for a new structure to be erected by the Board of Trustees of Johns Hopkins University.—The committee appointed by Governor Lowndes to consider the erection of improvements to the House of Correction has sent in a report with plans by J. Evans Sperry. These plans have been approved, and the legislation will be asked for an appropriation of \$300,000 for the work. Thomas J. Shroyok is chairman of the committee.—A resolution has been passed by city council requesting that the legislature pass an act by which the citizens may vote on the question of negotiating a loan, the money to be used for the construction of sewers. The estimated cost of the work is \$3,000,000.—Arrangements have been made by Alice R. Johnson for the erection of sixteen three-story brick dwellings on North avenue, between Seventh and Eighth streets. They will be well finished and provided with all modern conveniences and improvements.

### Through Delaware.

At Wilmington, ground will be broken about March 1 for the new school building of the Sacred Heart Church. It will occupy a site at Tenth and Monroe streets and bids

will be asked for at once. The structure will contain a number of finely finished school rooms and assembly room, etc. The estimated cost is \$12,000.

### Washington, D. C.

A block of twenty-six dwellings will be erected on "F" street by William I. McClure and work on this operation will begin at once. The plans have been prepared by Nicholas T. Haller. Each dwelling will contain eight rooms and bath, will be two stories high, of brick, tiled vestibules and bath rooms, furnace heat, modern improvements. The estimated cost is \$117,000.—The same architect has finished plans for a handsome residence for Mr. McClure to occupy a site at Thirteenth and "H" streets. It will be three stories high, of buff brick and stone, with handsome stone porch in front, fine interior finish, tiled bath rooms, cabinet mantles, open grates, electric fixtures, furnace heat, modern conveniences.—R. W. Walker & Son will erect five dwellings on "Q" street, between Twenty-second and Twenty-third streets. They will be of red stone and Pompeian brick, hard wood interior finish, hot water heating, modern conveniences.—The same firm have under way five dwellings on North Capitol street. The two operations will cost about \$45,000.—F. A. Hall will erect a two-story brick dwelling at 3233 "Q" street.—J. C. Williams will erect

two brick dwellings at 644 and 646 Eleventh street.—A bill has been introduced in the Virginia Legislature to incorporate the Washington Terminal Company with a capital of \$2,500,000. One of the purposes of the company is to bring the railroad tracks of the Pennsylvania Railroad Company into the city by a depressed and elevated system in accordance with plans which have been agreed to by the Pennsylvania Railroad Company and the District Commissioners. It is said that the station on Sixth street will be enlarged and improved. The District Commissioners have under consideration the construction of a number of sewers.—It is reported that D. F. Schneider is preparing plans for a large building to be built up for hotel purposes, to be of steel construction, handsomely finished, electric lights, elevators, steam heat, etc.

### Proposals Wanted.

Treasury Department, Office of Supervising Architect, Washington, D. C., February 2, 1898.—Sealed proposals will be re-

ceived at this office until 2 o'clock, P. M., on the 24th day of February, 1898, and opened immediately thereafter, for furnishing all the labor and materials and erecting, complete, two hydraulic passenger elevators, one hydraulic mail lift and one hydraulic ash lift, including pumps, tanks, pipes, valves, platform, etc., for the U. S. court house, custom house and post office building at Omaha, Nebraska, in accordance with the drawings and specification, copies of which may be had at this office, or at the office of the superintendent at Omaha, Nebraska. The right is reserved to reject any or all bids, and to waive any defect or informality in any bid should it be deemed in the interest of the Government to do so. Proposals must be enclosed in envelopes, sealed and marked, "Proposals for Two Hydraulic Passenger Elevators, One Hydraulic Mail Lift and One Hydraulic Ash Lift for the U. S. Court House, Custom House and Post Office Building at Omaha, Nebraska," and addressed to the Supervising Architect.

40,167.  
Treasury Department, Office of the Supervising Architect, Washington, D. C., February 10, 1898.—Sealed proposals will be received at this office until 2 o'clock P. M. on the eighth day of March, 1898, and opened immediately thereafter, for furnishing all the labor and materials and fixing in place complete the boiler plant, low-pressure, exhaust steam-heating, mechanical, ventilating, apparatus, cold and hot water supply system, etc., and fire pump required for the United States Post Office, Court House and Custom House building at Milwaukee, Wisconsin, in accordance with the drawings and specifications, copies of which may be had at this office or the office of the Superintendent at Milwaukee, Wisconsin. The right is reserved to reject any or all bids, and to waive any defect or informality in any bid, should it be deemed in the interest of the Government to do so. Proposals must be enclosed in envelopes, sealed and marked, "Proposal for Boiler Plant, Etc., Cold and Hot Water Supply, Etc., System for the United States Post Office, Court House and Custom House Building at Milwaukee, Wis.," and addressed to the Supervising Architect.

### Wants.

At Savannah, Ga, bids will be received until February 21 for the erection of Castle Hall for the K. of P. Hall Association. Address the building committee.

At Clinton, N. J., correspondence is wanted from contractors, for the construction of a trolley line, about two and one half miles long. Address Lock Box 146, Clinton, N. J.

At Allentown, Pa., bids are wanted by the Board of Trustees of Allentown Hospital, for the erection of the main hospital building. Address J. A. Singmaster, president.

At Erie, Pa., William Himrod, secretary of board of water works commissioners, will receive proposals until February 23rd for an 8,000,000 gallon pumping engine.

At Boston, Mass., bids will be received, until February 15th, for the construction of the sea wall, on Dorchester avenue, extension. William Jackson, city engineer.

At Nashville, Ga., it is said that bids will be received until March 21st for the erection of a new court house. F. M. Shaw is chairman of the committee and can give information.

At Grand Haven, Mich., bids will be received until March 8 for the erection of a county jail. Separate bids are wanted for hot-water heating. Address F. J. Fox, chairman of committee.

At Geneseo, N. Y., bids will be received until March 10th for the erection of a new court house for Livingston county. Address

Newton B. Gorham, clerk of board of county supervisors.

At Elizabeth, N. J., bids will be received until March 1st for constructing 2,575 feet of 24 and 20 inch, and 200 feet of 12 inch pipe sewers. Address N. K. Thompson, Street Commissioner.

At West Bend, Wis., bids will be received until February 23 for the erection of an insane asylum. John Charles, Menominee, Wis., architect; S. F. Mayer, chairman building committee.

At Binghamton, N. Y., bids will be received until February 19th for electric wiring, steam heating and ventilating for a laundry building, at the State hospital. J. B. Stanbrough is president of the board of managers.

At Allegheny, Pa., bids will be received until February 17 for the erection of an electric light plant for the Western Penitentiary of Pennsylvania. Specification may be seen at the prison. Address Edward S. Wright, warden.

At Cleveland, Ohio, bids will be received, until February 26th, 1898, for the construction of an eighteen-room school-building, on Wade Park avenue, to include heating, ventilating, etc. Address H. G. Sargent, school director.

At Wheeling, West Va., the Eagle Glass-house will be greatly improved by the erection of a new building, from plans prepared by Joseph Lemer. The cost of the building will be \$15,000, and bids for its erection will be received until February 19th.

At Atlantic City, N. J., sealed proposals will be received until March 2d for constructing a gravel road in Atlantic county, from Egg Harbor City to May's Landing. Address Joseph H. Borton, director of board of chosen freeholders of Atlantic county, N. J.

At Washington, D. C., Edwin Stewart, Paymaster General, U. S. N., Bureau of Supplies and Accounts, Navy Department, will receive bids until March 1st for furnishing at the Navy Yard, Mare Island, Cal., a quantity of cement, lead pipe, wrought iron pipe, valves, etc.

At Washington, D. C., Claude M. Johnson, Director of Bureau of Engraving, will receive proposals until March 14th, to furnish dry colors, hardware, engravers' supplies, binders' supplies, typographic ink and lumber. Also sealed proposals until April 4th for textiles, plumbers' supplies, grocers sundries and rubber goods. Also sealed proposals until April 18th for chemicals, oils and paper.

At Philadelphia, 1493 Arch street, Depot Quarter Master's Department, Colonel John V. Furey, Deputy Quartermaster General, U. S. A., will receive sealed proposals in triplicate until March 4th, 1898, for furnishing vitrified china dishes, glass tumblers, butcher knives, carving sets, chopping bowls, dippers, dish pans, meat cutters, blades for meat saws, table forks and knives, solid steel and silver plated.

Lieutenant-Colonel John V. Furey, Deputy Q. M. General, U. S. A., will receive proposals at the Depot, Q. M. Department, 1493 Arch street, Philadelphia, until February 28 for furnishing the following articles: Aquiletes and shoulder knots, blankets, bed sheets, iron bedsteads, woven wire bunk bottoms, corn brooms, scrubbing brushes, fly and suspender buttons, forage caps, fur caps, barrick chairs, drums, camp lining flannel, buckskin gaiters, muskrat gaiters, Berlin gloves, gold lace, campaign hats, cork helmets, helmet cords and bands, corset jeans, black lasting, gilling line, manilla line, mattresses, music stands, Arctic overshoes, rubber ponchos, pillows, petroleum paper, cotton rope, wool stockings, trumpets, twine, tent poles and undershirts.

### Miscellaneous.

At Buffalo, N. Y., it is reported that plans prepared by A. A. Post, Mooney Brisbane

Building, have been accepted for the new church, to be erected by the St. Theresa's congregation, on Seneca and Canova streets. The estimated cost is about \$85,000.

At Ithaca, Michigan, the Presbyterian Congregation will erect a new church, to cost about \$20,000.

At El Paso, Texas, plans are being prepared for a new city hall, to be erected opposite the court house.

At Taunton, Mass., S. L. Smith has prepared plans for an addition to the High School building, to cost about \$40,000.

At Norwalk, Conn., a new town hall will be erected to cost about \$50,000. The plans have been prepared by A. A. Beers.

At Birmingham, Ala., it is reported that an English syndicate has decided to erect an immense steel plant near Birmingham to cost about \$1,000,000.

At Newport, R. I., the plans prepared by Architect Withers will probably be accepted for the proposed new eight-room school building, to occupy a site on Van Zandt avenue.

At Knoxville, Tenn., it is said that the Eastern Hospital will be enlarged by an addition to cost about \$25,000. The plans have been prepared by Adams & Beardon, of Chattanooga, Tenn.

At Richmond, Virginia, it is reported that plans have been prepared by J. H. Coxhead, of Buffalo, N. Y., for six buildings for the Virginia Union University at Richmond, and bids for the work will be received at once. The estimated cost of the new buildings is \$500,000. The plans may be seen at the office of the architect or at the headquarters of the American Baptist Home Missionary Society in New York City, or at the Hotel Jefferson in Richmond.

### Judgments

#### PHILADELPHIA.

#### ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term, and S, for September Term.

S. F.—Soire Facias, to revive judgment.

A star (\*) denotes judgment confessed or bond and warrant conditioned.

DEVOTED TO REAL ESTATE, BUILDING, ARCHITECTURAL AND INSURANCE INTERESTS

[ENTERED AT THE PHILADELPHIA POST-OFFICE AS SECOND CLASS MATTER.]

VOL. XIII.—No. 8. PHILADELPHIA, WEDNESDAY, FEBRUARY 23, 1898. \$5.00 PER YEAR.

## Architect Notes.

Henry Dagit, architect, 435 Chestnut street, has awarded the contract for alterations and additions to store at Seventh and Chestnut streets to J. F. Molloy, 1112 Betz Building.

W. H. Decker, architect, Betz Building, has made plans for alteration and addition to the house of J. E. Loneragan, at 865 North Fortieth street. All modern work and improvements will be introduced.

David Woelpper, Jr., architect, 1432 South Penn Square, has made plans for a fine residence in Germantown for Mrs. Lelia D. Dantzenbacher. The house is to be of stone, three stories high, and measure 31 x 43 feet in area. Interior will contain every modern convenience.

Mr. Thomas P. Twibill, the well known real estate operator and builder, expects to soon begin erecting a high grade lot of dwellings in this city. Mr. Twibill has offices in the Betz Building, and has in past years conducted successfully some of the finest paying operations in this vicinity.

Stearns & Castor, architects, Stephen Girard Building, Twelfth, above Chestnut street, have started plans for a factory building at Twelfth and Washington avenue. It will be made five stories high, brick, iron and stone for material, steam power and heat, electric work, elevator lifts, etc.

A. B. Lacey, architect, 1320 Chestnut street, has made plans for a residence to be erected in this city, location withheld for the present, also the owner's name. It is to be of stone and fancy brick, with galvanized cornice, three stories high, and interior will contain all the latest conveniences, etc.

D. H. Burnham & Company, architects, of Chicago, Ill., are making plans for a large passenger station for the Pennsylvania Railroad, to be erected at Pittsburgh, Pa. It will be of iron frame, truss roof, brick and stone masonry, and contain steam power and heat, electric work and all general improvements. Noted later.

P. P. Elkinton, architect, 211 South Sixth street, is engaged on drawings for a number of buildings to be erected at Clementon, N. J., for the Larchmont Park and Improvement Company, W. G. Daniels, president. The above will consist of hotel, restaurant, stands, bicycle tracks, tennis courts, an artificial lake, pavilions, baths. No contracts let.

Charles Balderston, architect, 144 South Fourth street, has completed plans for a manufactory to be erected at 1019 Race street for Morris Dannebaum, of Eighth and Arch streets. The structure will be of brick, stone and iron; seven stories high and basement, steam heat and power, electric work, elevators and lifts, plate glass, cement flooring, etc.

Olmstead & Olmstead, architects, 19 Liberty street, New York, have made and submitted plans for further improvement of the Bryn Mawr College, Montgomery county, Pa. A new library is being considered by the academic committee; also a social hall and addition to the gymnasium. Nothing of a definite character has been done beyond consideration of plans, etc.

Plans have been made for a church to be erected at Howard and Tioga streets, by Architect Charles Douglass, 1313 South Nineteenth street. The structure will be 32 x 60 feet, stone and brick, two and a half stories high; steam heat and general church fittings will be introduced. Estimates are being made in office of John R. Wiggins, 1215 Filbert street.

Isaac Pursell, architect, 119 South Fourth street, has completed plans for a Presbyterian church, to be erected at Cape May, N. J. The structure is to be one-story high, stone, slate roof, plate and leaded glass windows, steam heat, electric work and general church furniture. Estimates are being made on the work by general contractors and architects. Heating is reserved from general contract.

Edwin Bertolotte, architect, 1213 Filbert street, has completed plans for a three-story mill building, to be erected at Norristown, for Lewis Laube, of that place. The building will be of brick, slag roof; steam heat and power, electric work and general modern improvements introduced on interior. Estimates are being made in the offices of general contractors. Previously noted in architectural column.

Angus S. Wade, architect, 1326-28 Chestnut street, has made plans for the business store building, 116 Market street, for Conrad Schwoerer, the owner. The structure will be of brick, iron and stone work, 15 x 60 feet and four stories high; hot air heat, electric work, plumbing and gas fitting and all general accommodations will be introduced. Estimates are now being made on the drawings in offices of general contractors.

Thomas Bennett, architect, 923 Locust street, has in course of preparation plans for an apartment house to be erected by a syndicate in the central part of this city. The structure will be of fireproof material, ten stories high and granite front, with brick sides and rear, electric work, elevators, steam heat, iron and brass grille work, marble tile, mosaic and slate work, cement flooring and artificial pavements, etc. Cost will be about \$201,000.

Cope & Stewardson, architects, 320-324 Walnut street, have on hand plans for a fine summer residence for Col. E. De V. Morrell, at Bar Harbor, Maine. It is to be of stone and frame, three stories high, and fitted with all the latest and best conveniences, including steam heat, electric work, plumbing,

etc. A handsome ball-room, parlors, reception room, etc. Same firm will make the drawings for the Newport, R. I., work, noted elsewhere in these columns.

Mr. Charles S. Hirst, of 923 North Broad street, will erect several fine dwellings at Swarthmore, Delaware county, Pa., early in the spring. These are to contain all modern conveniences. Yarnall & Goforth, 14 South Broad street, are the architects. Same architects have made drawings for a residence at Merion, Pa., for Mr. Jas. Maguire. It will be three stories high, of gray local stone and fancy brick, hot air heat, electric work, hard wood interior finish and all modern conveniences, etc.

Baker & Dallett, architects, 1604 Chestnut street, have been retained to prepare plans for the new apartment house to be erected at Fifteenth and Walnut streets, and which has been noted before in this journal. It is to be nine stories high, stone, brick and terra cotta work, steel skeleton, interior furnished in the most approved manner with elegant marble, tile and mosaic work, elevators, electric work, cement flooring in basement, and on exterior artificial pavement, leaded and plate glass, and a culinary department with all improvements introduced.

Hazelhurst & Huckel, architects, Girard Building, Broad and Chestnut streets, have finished plans for a large bank building, to be erected at Wilkesbarre, Pa., for the Wilkesbarre Safe and Deposit Bank, of that place. The structure will be two and a half stories and basement and material of stone, brick, terra cotta and iron; fitted on interior with vaults off fittings, steam heat, electric work, marble, mosaic and tile flooring, ornamentation in papier mache and painting, etc., plate and leaded ornamental windows and doors, iron grille work, quite extensive granite and cement work, plumbing and drainage system and all modern improvements and conveniences. Estimates are now being made on the work in the offices of John R. Wiggins, 1220 Filbert street, and other contractors. Noted previously in this journal.

## Building and Real Estate Notes.

John F. Starr, Jr., of Camden, N. J., has had plans made for a factory 65 x 100 feet, to be erected in that city, at Delaware avenue and Cooper street. It is to be fitted with steam power, electric lights and general machinery for manufacture of textile goods by Benj. F. Boyer & Sons.

Roydhouse, Arey & Co., contractors, have begun operations on the new three story machine shops for the Baldwin Locomotive Works, on Pennsylvania avenue, between Broad street and Fifteenth. The structure will be of brick, stone and iron, and has been fully noted previously in these columns.

### Some Suggestive Figures.

From the Buffalo (N. Y.) Express.

In connection with the Immigration bill, which has passed the Senate, and is soon to come up in the House, *The Express* has compiled from the eleventh census the following table. The first column shows the percentage of native white illiterates over ten years of age in the several States; the second column shows the total percentage of white illiterates over ten years of age, and the third column shows the percentage of foreign-born population:

	Native White Illit.	Total Illit. Foreign
Massachusetts.....	0.8	6.1 29.35
Nevada.....	0.8	4.2 32.14
Connecticut.....	1.0	5.1 24.60
South Dakota.....	1.2	4.1 27.69
Washington.....	1.3	3.1 25.76
Wyoming.....	1.3	3.0 24.57
Nebraska.....	1.3	2.8 19.13
Minnesota.....	1.4	5.9 35.90
New Hampshire.....	1.5	6.8 19.21
Montana.....	1.6	4.1 32.61
California.....	1.7	4.5 30.32
District of Columbia.....	1.7	2.7 8.15
New York.....	1.8	5.4 26.19
Iowa.....	1.8	3.5 16.95
North Dakota.....	1.8	5.8 44.38
Oregon.....	1.8	3.0 18.27
Idaho.....	1.9	3.5 20.69
Kansas.....	2.0	2.9 10.36
Wisconsin.....	2.1	6.6 30.78
Utah.....	2.3	5.1 25.32
Rhode Island.....	2.3	9.6 30.77
Maine.....	2.5	5.4 11.91
Michigan.....	2.5	5.7 35.97
New Jersey.....	2.7	5.7 22.77
Illinois.....	3.1	4.9 22.01
Vermont.....	3.2	6.7 13.26
Oklahoma.....	3.4	3.5 4.43
Pennsylvania.....	3.5	6.4 10.68
Ohio.....	3.5	4.7 12.31
Colorado.....	3.8	4.8 20.38
Indiana.....	5.3	5.8 6.67
Maryland.....	5.9	7.0 9.05
Delaware.....	6.2	7.4 7.81
Missouri.....	6.8	7.1 8.77
Arizona.....	7.9	21.1 31.32
Texas.....	8.3	10.8 6.84
Florida.....	11.3	11.3 5.86

Mississippi.....	11.9	.62
West Virginia.....	12.9	1.30
Virginia.....	14.0	1.11
Kentucky.....	16.1	3.19
Georgia.....	16.5	.66
Arkansas.....	16.6	1.26
Tennessee.....	18.0	1.78
South Carolina.....	18.1	1.75
Alabama.....	18.4	.98
Louisiana.....	20.3	4.45
North Carolina.....	23.1	.23
New Mexico.....	42.2	7.33

Negroes, Chinese and Indians have been left out of the table. Negroes might well be considered if the educational problem alone were being studied, since they are natives and citizens; but in looking upon the immigration question from the educational viewpoint it is best to confine the statistics to white men, since white illiterates are the ones whose entry into this country it is proposed to prohibit. The arrangement of the table, it will be noticed, is in the order of least percentage of native white illiteracy.

The most palpable fact shown by the table is that foreign immigration is not responsible for nearly so much of the illiteracy in this country as is generally supposed by those who have not investigated the subject. In a number of States foreign immigration has actually lowered the percentage of white illiteracy, instead of increasing it.

But to us the most significant fact is that the highest percentages of illiteracy are invariably found in the States which have received least foreign immigration. If it is said that the long existence of negro slavery in the South is sufficient explanation of the white illiteracy there, without considering the matter of foreign immigrants, what is to be said about the State of Indiana? Indiana never was under the blight of slavery. It is a populous, rich and enterprising Northern State, yet its percentage of white illiteracy is the highest of any Northern State except the pocket borough of Delaware, and its percentage of foreign-born citizens is the lowest. Also, what is to be said of Maryland, Missouri and Texas? These were slave States. They were subjected to the same blighting social influences before the war as were Virginia, Kentucky, and North Carolina. Yet they show the lowest percentages of illiteracy, both native and total, of any Southern State, and the highest percentages of foreign-born population.

But, says the restrictionist, we do not complain of educated immigrants. They will be as welcome under our new law as now; we are merely going to shut out the ignorant. That answer might suffice if the percentages of total illiteracy were considered alone, but not when we consider, also, the percentages of native white illiteracy. It is patent that native illiteracy is not to be reduced by merely shutting out ignorant foreigners. It is shown by the table that in States such as New York, Massachusetts, Minnesota, the Dakotas, Connecticut, Michigan and Wisconsin, where ignorant and educated foreigners alike have settled in greatest numbers, the percentage of native illiteracy has been reduced lowest. At some future time we purpose to publish a table of the comparative wealth of the States, which we think will suggest some explanation of this puzzle.

### Building and Real Estate Notes

Frank B. Jaquett, real estate broker, has removed his office from 328 S. Eighth street to 735 Walnut street.

J. W. Kline, contractor, will at once erect a factory at 1615 Stiles street for Abronski Bros. It will be 16 feet x 56 feet, and furnished with all conveniences, etc.

William Steele & Sons, 506 Walnut street, have had on boards plans for alteration of stores at 116 Market street and 1112 Walnut street, for estimate during the past week.

E. S. Radley, builder, will at once begin erecting nine houses at Fifteenth and Tioga streets. All to be of fine faced brick, stone trimmings and interior work of the most approved kind.

Fire did great damage to 2731-35 North Sixth street, occupied by B. Frank & Son, carriage builders, on the 17th inst. It is to be repaired at once. \$2000 is the estimate of injury to the structure.

Harry T. Saunders, builder and contractor, has begun erecting four stores and dwellings, 16 x 50 feet each, brick and stone trimmings, with all comforts and conveniences, etc. Location is at 4900 to 4908 Lancaster avenue.

Fire destroyed, on the 16th inst., the large freight department of the Philadelphia & Reading Railway at Front and Noble streets, in this city. The loss is heavy, but the structure will be rebuilt at once upon an improved plan.

John Loughran, builder and owner, will again start operations by erecting twenty-seven two-story houses, brick and brown-stone trimmings on west side of Ninth street, north of Clearfield street. Work to start at once.

William Patterson, builder, is about to begin an operation of thirty houses, 16 x 60 feet, three stories high, on west side of Fifty-second street, below Westminster avenue. The e will be of Pompeian brick, stone facings and modern conveniences on the interior.

Frank C. McCooley, 1345 Arch street, is taking estimates on thirty-six houses, to be built at Eighteenth and Venango streets, for local owners. These are to be of brick, stone facings, and the usual interior comforts and conveniences.

Thomas G. Hunter, contractor, will at once begin an operation of sixty-four dwellings for E. P. Hunter, on north and south sides of Naudain street, west of Forty-seventh and on the north side of South street, between Forty-seventh and Forty-eighth. All to be of brick, with stone facings and best comforts on interior.

Allen B. Rorke, general contractor, Bourse Building, in this city, has been awarded contracts for Public Building work as follows for 1898 by the Building Commissioners: Stone, copper, iron, bronze, carpenter and mill work, furnishings and shades, hydraulic elevators carpets, plastering, etc. Also on Mackit blocks, tiling, etc. For cement the Vulcanite Portland Company received the award.

A union of St. Lukes and Epiphany Protestant Episcopal congregations is about to take place, after which it is intended to erect an enlarged and handsome church building upon a site yet to be selected. No definite action in the building matter has been taken as to plans or contracts. Seventy-five thousand has been set aside for the immediate necessities of the building fund; this, of course, is taken from the joint general treasury. Rev. Thos. A. Tidball, D. D., will be continued as rector, Rev. Leverett Bradley as assistant.

## TRUSTS. TITLES. DEPOSITS.

## THE PLANT OF THE LAND TITLE AND TRUST COMPANY, 608 Chestnut Street,

Covers every foot of ground in Philadelphia, and is the only Plant containing an abstract of every Deed, Mortgage, and Sheriff's Sale of record in Philadelphia since 1682 located against each property described.

This Plant necessarily gives great additional protection to purchasers and mortgagees taking this Company's policy of Title Insurance, apart from the security of its One Million Dollars full paid capital.

### Beautiful Sea Shells

Every one admires them. Since coming south I have received numerous inquiries from northern people for sea shells, and now I am prepared to answer yes, I can send you shells, for I have made quite a collection of lovely shells, both from our own coast, the coral reefs, and some beautiful ones from the West India Islands. I will mail a dozen or more different kinds, no two alike, to any one who sends a stamp for postage. Also send you a lovely piece of white branch coral.

Yours, **MRS. F. A. WARNER,**  
Jacksonville, Fla.

call for "Brown Bros.' Seamless Drawn Copper Range Boiler" and you will get the best house range boiler obtainable. Do not add the words "or equal," for they have no equal. There are neither rivets to loosen nor brazed seams; hence no leaks. Thoroughly tinned on inside and guaranteed to stand a working pressure of 150 pounds. Extra heavy guaranteed to 200 pounds. Guaranteed not to collapse.

BOOKLET FOR THE ASKING.

## RANDOLPH & CLOWES,

Sole Manufacturers,  
Box 46.      Waterbury, Conn.

## MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and gives a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about MURESCO for the asking.

**BENJAMIN MOORE & CO.,**  
256-262 Water St., Brooklyn, New York.

Proposals are asked by the board of Port Wardens, Joel Cook, president, until March 7th, for dredging bulkheads not belonging to the city and where sewers empty into rivers. Information can be had of details at warden's office.

Builder Charles J. Heckler, 1540 Lehigh avenue, will build, after estimates are all in, twelve dwellings at Twenty-first street and Stella avenue. These are to be of brick and stone fronts, with general comforts and conveniences on the interior.

Stacey Reeves & Sons, the well known contractors, 1611 Filbert street, have the contract for the residence to be erected at 1412 Spruce street for A. E. Longstreth, after plans by Addison Hutton, architect, and which have been fully noted in this journal.

Colonel Edward Morrell, of this city, is having plans prepared for remodelling what has been known as the Acosta Place, at Newport, R. I. Col. Morrell will, after the present lease of the O'Donnell Villa, at the same place, expires, add it to the above, and construct a handsome establishment for his future summer residence.

### Through Pennsylvania.

*When any of the following are not post office towns they will be so designated.*

—At Oakbourne, Chester county, four handsome cottages will be erected by Plummer Jefferies.

—At Allegheny, Allegheny county, bonds will issued to the amount of \$27,000 for the erection of a new high school.

—At Oil City, Venango county, it has been decided to issue bonds to the amount of \$45,000 for a new high school.

—At Lansdale, Montgomery county, Isaac D. Van Fossen has bought ground on Main street and will erect two dwellings.

—At Boyertown, Berks county, it is probable that bonds will be issued to the extent of \$35,000 for the construction of a water plant.

—At Mahanoy City, Schuylkill county, at a recent election, it was decided to issue bonds to the sum of \$80,000 for street improvements.

—At Bradford, McKean county, it has been favorably voted on to issue bonds to the sum of \$25,000 for the erection of a new school building.

—At Bedford, Bedford county, at a recent election, it was decided to issue bonds to the sum of \$6,500, the proceeds to be used in the construction of a reservoir.

—At Perkasia, Bucks county, a company has been formed to erect an electric light plant. The neighboring villages will also be lighted by the same company.

—At Swarthmore, Delaware county, Chas. F. Emery will erect a dwelling on Park avenue. The contract has been awarded to William North, of Glenolden.

—At Sharon Hill, Delaware county, J. F. Winner will erect two stores and a dwelling at Sharon and Elmwood avenues. Also a separate dwelling.

—At Norristown, Montgomery county, it is said that the contract for the electric light plant has been awarded to the Falkenau Engineering Company, of Philadelphia, for \$41,000.

—At Pottsville, Westmoreland county, council has decided to issue bonds to the sum of \$17,000 for sewer and street improvements. W. J. Stewart is president of council, and can give information.

—At Worcester, Montgomery county, the Worcester Farmer's Club has bought a site, 100 x 200 feet, and will erect a hall. About

\$2000 has been subscribed toward the building.

—At Round Top, Tioga county, Henry Buck has bought of S. E. Brisner several acres of ground in Conewago township, and will soon begin the erection of a dwelling and a barn.

—At Mill Hall, Clinton county, a fire brick plant will be erected in the spring by the Clinton County Fire Brick Company, in which Mr. Moore Fredericks, of Lock Haven, Pa., is interested.

—At Secane, Delaware county, the dwelling on Oakland avenue, owned by Mr. James H. Davis, the lumber merchant, of Philadelphia, was destroyed by fire last week. The estimated loss is about \$10,000.

—At McKeesport, Allegheny county, the contract for the construction of an electrical road from McKeesport to West Newton is said to have been awarded to Cochran & Connell, of Water street, Pittsburg, for \$200,000.

—At Greensburg, Westmoreland county, the contract for the construction of a storage reservoir, with a capacity of 200,000 gallons, and 6800 feet of 6-inch main has been awarded to Robert Duncan and William Duquid.

—At Bradford, McKean county, the school board will soon take steps for the erection of a new school building, the present facilities being limited. No plans have been accepted. The cost of the proposed building is about \$18,000.

—At Mosgrove, Armstrong county, it is said that the Buffalo, Rochester and Pittsburgh Railroad extension is an assured fact, and that the bridge to cross the Allegheny River will be built at Mosgrove at the mouth of Pine creek.

—At Scottdale, Westmoreland county, the congregation of the First Presbyterian Church will erect a new edifice, to cost about \$20,000. A lot has been purchased from Z. Brinker, at the southeast corner of Chestnut and Mulberry streets, as a site for the proposed structure.

—At Harrisburg, the Directors of the City Hospital have had turned over to them \$5000 from the estate of Mrs. Sarah Halse, to be used in the construction of an operating room at one end of the present building. It will be one story high, of brick, and will be provided with all modern facilities.

—At Coatesville, Chester county, a piece of ground on Third Avenue has been bought by Joseph Beale, who will improve the site by the erection of a number of three-story brick dwellings. The lot has a frontage of 165 feet on Third avenue.—H. G. Rambo will erect several handsome brick dwellings in a short time.

—At Mahanoy City, Schuylkill county, it is said that the plans prepared by Thomas Parris have been accepted for the proposed new school building which will be erected at a cost of about \$18,500. It will occupy a site on Centre street and will be finely finished and provided with modern school furniture and improvements.

—At Bryn Mawr, Montgomery county, at a recent meeting held at the college, the plans of Olmstead & Olmstead were discussed for the ultimate development of the college grounds. The committee also talked over plans for securing the necessary fund for new library building; also for a building to contain a hall for social purposes.

—At Allentown, Lehigh county, the Young Men's Temperance Society will erect a club house on Ridge avenue, to cost about \$3500. There will be an assembly room and a gymnasium. Plans have been prepared for a chapel to be erected.—Jacob & Weishampel have prepared plans for a seven-story

office building, to be erected at Fifth and Hamilton streets for F. A. R. Baldwin.

—At Lancaster, Lancaster county, the Y. M. C. A. will erect a handsome building for the uses of the organization. It will be three stories high, with a finished basement of brick and stone, fine interior finish and all modern improvements. A large gymnasium will occupy the basement and there will be well-equipped reading rooms, parlor, reception rooms. The estimated cost is \$150,000. It is said that no architect has yet been selected.

—At Reading, Berks county, plans have been prepared by Frederick A. Barrows, No. 40 North sixth street, for six dwellings to be erected for Mr. Landi. The estimate cost is \$20,000.—Muhlenburg Bros., 511 Pine street, have prepared plans for a warehouse to be erected for Bright & Lerch, at a cost of \$10,000.—Work will soon begin on the new church for St. Stephen's congregation, for which plans have been made by Charles Bolton, of Philadelphia. The cost will be \$25,000.—W. A. Fink, 426 Franklin street, has made plans for a factory for Geo. Zeigler. It will be of brick, have steam heat, freight elevator, and will cost about \$4000; also, plans for a building for business and dwelling purposes for Benz Bros.; steam heat; to cost about \$400.

—At Pittsburg, S. F. Heckert, Stevenson Building, has prepared plans for a brick dwelling for J. R. Brown, to be erected in the East End; also plans for extensive alterations and additions to St. Michael's Church, South Side; also plans for a Sister's house for St. Augustine, to be erected in Lawrenceville. Plans are in preparation by E. J. Carlsle & Co., Lewis Building, for a handsome brick dwelling to be erected for A. Zahn, at Crafton. The owner will receive estimates. The same architects are receiving plans for three two-story and attic brick dwellings, to be erected at Hazlewood for Mr. Rankin. V. Wyss Thallman, Bissell Building, will receive bids until March 10th, for the erection of the First National Brewery, in Allegheny.

—On February 18th three business houses were destroyed by fire, involving a loss of about \$200,000. The buildings destroyed were 215 Penn avenue, occupied by the National Wall Paper Company; 513, the nine story building occupied by H. Childs & Co., and 511 Penn avenue, occupied by M. Oppenheimer. The loss is divided as follows: National Wall Paper Company, \$100,000; J. F. Haney & Co., retail wall paper dealers, \$15,000; T. A. Gillespie, \$30,000; H. Childs & Co., \$100,000; M. Oppenheimer & Co., \$15,000.—Work will soon begin on the new passenger station to be erected at Liberty avenue, Washington street and Seventh avenue, for which plans have been prepared by D. H. Burnham & Co., 1142, The Rookery, Chicago, Ill. It will be handsomely finished and provided with all modern conveniences.

### Through New Jersey.

At Burlington, Burlington county, a committee of common council has been appointed to secure plans for a sewerage system.

At Perth Amboy, Middlesex county, the plant of the Marcy Stove Works was destroyed by fire last week. The estimated loss is \$15,000.

At Guttenberg, Hudson county, the Franklin Club will erect a two-story frame club house, 50 x 60 feet, from plans prepared by R. C. Dixon, 146 Bergenline avenue, Union Hill, N. J.

At Newark, William Ullmer, 31 Belvidere street, Brooklyn, N. Y., will erect a three-story brick structure, to be fitted up as apartments from plans prepared by Jeremiah O'Rourke & Sons.

H. E. SEALEY, Local Manager

At Paterson, Passaic county, Preston B. Seaman will erect a two-and-a-half-story frame dwelling, 28 x 40 feet, from plans prepared by Henry C. Pittman, 3 Union Square, New York City. The estimated cost is about \$5000.

At West Hoboken, Hudson county, an ordinance providing for sewers in three streets has passed its final reading, and Sebastian Maulback has been selected as the engineer on the proposed improvement.

At Middletown, Monmouth county, C. C. Bennett has arranged for the erection of a two-story frame dwelling, 48 x 37 feet, to cost about \$4000. The plans have been prepared by W. B. Bigelow, 7 West Thirtieth street, New York City.

At Long Branch, Monmouth county, Charles Slang will erect a frame dwelling, to cost about \$6000. It will be well finished, fine plumbing, tile work, etc. The plans have been prepared by Werner & Windolph, 84 Liberty street, New York City.

At Cape May Court House, Cape May county, ex-Sheriff Charles E. Nicholas, a few days since, finished the sale of 2157 building lots at Anglesea, seized as the property of the late John T. Ryon. Most of the lots were sold to Leverett Newcomb, of Vineland, N. J.

At Union, Union county, Captain Sayles will erect four frame dwellings, to cost about \$2600 each, from plans prepared by R. C. Dixon, 145 Bergenline avenue, Union Hill, N. J. The same architect has prepared plans for a three-story brick apartment house and stores, to cost \$5000, to be erected at Union Hill.

At West Hoboken, Hudson county, St. Joseph's Roman Catholic congregation, of which Rev. Father Hasel is the pastor, will erect a new brick building, 130 x 65 feet, from plans prepared by A. Kloster, 214 E. Twenty-sixth street, New York City.—A three-story frame dwelling will be erected at a cost of \$4500 from plans prepared by George W. Van Arx, 841 Fallside avenue, Jersey City,

At Atlantic City, at a recent meeting of council, the paving bill was read and approved, and is now in the hands of Senator Hoffman to be introduced in the Legislature. It provides that a commission be appointed to supervise the paving, and the bond limit is \$800,000.

At Lakewood, Ocean county, W. W. Tompkins, 46 Exchange place, N. Y., will erect a two-and-a-half-story brick and stucco dwelling, to cost about \$7500, from plans prepared by Melville & Tucker, 48 Exchange place, New York city. It will be finely finished and provided with modern conveniences.

At Elizabeth, Union county, it is stated that city council has granted South Orange township the privilege of connecting with the Alina street sewer, the township to pay \$80,000 for the privilege.—Eugene Reilly has prepared plans for a two-story frame dwelling for Frederick Brondesser. It will be well finished and will cost about \$3000.

The bicyclists of Millville and Tuckahoe are making an effort to raise the necessary money with which to construct a bicycle path from Hunters Mills to Cumberland, N. J., and by so doing reduce the distance to Atlantic City, Ocean City, Beasley's Point and some other places. The proposed road will shorten the present distance nineteen miles. The estimated cost is about \$400.

At Hoboken, Hudson county, Mr. Bellin has arranged for the erection of a four-story building of frame, to be fitted up for stores and apartments, at a cost of \$8000. The plans have been prepared by John A. Hilpert. The same architect has prepared plans for a dwelling for Mr. Martin to occupy a site on Madison street. —William Forbes & Co. will erect a two-story brick addition to their present machine shop, to cost about \$400. The plans have been prepared by Fall & Maxson.

At Cranford, Union county, the contract for the erection of the school, at Springfield avenue and Holly street, has been awarded by the board of health to Peter Goselin's Sons, of New York City, for \$31,576, and the contractor for the primary school, to be erected on Lincoln avenue, has been awarded to Diedrich Kreil, of Cranford, for \$3437. —An application for a franchise to locate a telephone exchange at Cranford has been made to the township committee by the New York and New Jersey Telephone Company.

At Asbury Park, the board of trade held a meeting not long since to consider the question of making Asbury Park a winter as well as a summer resort. It was agreed that the first step in that direction should be the erection of a suitable hotel building, adequately equipped with hot and cold baths, sun parlors, etc. —The property owners on West Fifth avenue are taking steps to have that street lighted by electricity. —Council is considering the erection of a machine shop and the purchase of tools. The estimated cost of the machinery is \$1236.

At Bayonne, Hudson county, H. C. Colville will erect a three-story frame building for apartments and offices from plans prepared by F. F. Martinez. The estimated cost is \$1500. The same architect has made plans for a two-story frame dwelling to be erected for A. T. Gill, at a cost of about \$4000. Also plans by the same architect for a two-story frame dwelling for George H. Bonneau, to cost \$3000. —Armand Schule has prepared plans for a frame dwelling for Thomas Herbert. It will be well finished, provided with modern conveniences, and will cost \$3800. Also plans for a two-story frame store and dwelling for John Mahon, to cost \$3500. Also plans for a saloon and dwelling for \$3000.

At Orange, Essex county, Dr. Thomas Fitch will make extensive alterations and additions to his present dwelling from plans prepared by L. C. Patton. The cost will be about \$5000.

At East Orange, the congregation of the First Reformed Society, of which Rev. Dr. Bishop has charge, will erect a stone addition to the present church building, to be used as a Sunday school room. The plans have been prepared by E. Condit. The estimated cost is about \$10,000. —Mooney Brothers will erect a one-story brick store and shop, 21 x 72 feet, to cost \$3000. —Henry A. Hickok will erect a frame dwelling, to cost \$3500, from plans prepared by Charles Ackerman, with J. H. Lindsey, 746 Broad street, Newark, N. J. —Augustus H. Fritz will erect a frame stable, also a frame dwelling, to cost about \$3500, from plans prepared by Charles J. Van Winkle, Passaic, New Jersey.

At Jersey City, Thomas Keough will erect a two-and-a-half-story frame dwelling, to cost \$4000, from plans prepared by Emil Guhe. It will be well finished, considerable tile work, sanitary plumbing and modern conveniences. —George W. Van Arx has prepared plans for a two-story frame dwelling,

to cost \$3000, to occupy a site on Grace street. The same architect has made plans for a two-and-a-half-story frame dwelling to be erected on Pavonia avenue, at a cost of \$4500. —John Brownell will erect three attractive frame dwellings from plans prepared by P. O'Brien. They will be well finished, supplied with modern conveniences, and will cost about \$2000 each. —Theodore Hope will erect a two-story frame apartment house, on Ogden avenue, to cost about \$12,000, from plans prepared by A. Beyer, of Hoboken. It will be well finished on the interior and supplied with the usual conveniences. —Geo. S. Fellows has made plans for a frame dwelling to be erected by the Catherine Cass estate. It will cost about \$2500.

#### Through Delaware.

At Wilmington, at a recent meeting of the minority stockholders of the Wilmington City Railway Company, H. P. Scott reported that he had had a conference with Clark & Co., and that it was proposed to reorganize the Chester and Wilmington systems into one and to issue bonds and stock of the new company. It is proposed to erect a new power house, to cost about \$100,000. President Clark has also said that a connecting link will be constructed between the Chester and Wilmington lines.

#### Through Maryland,

At Boonsboro, Washington county, the subject of the construction of water works is under consideration. H. G. Frederick, of Millersburg, Pa., is interested.

At Ocean City, Worcester county, a new charter is wanted and authority to issue bonds to the sum of \$35,000, the proceeds to be used for a water plant and a sewerage system.

At Cumberland, Allegheny county, the Cumberland & Penn. Railway Company has had plans prepared for a new steel bridge, to replace the present bridge across Mill's Creek. Mr. Hamilton is the superintendent.

At Annapolis, Anne Arundel county, a charter has been granted to the Washington, Annapolis & Chesapeake Railway Company, to construct a railway from Washington, Annapolis and Plum Point. The incorporators are Henry H. Brodgen, James Bell and others.

At Baltimore, a three-story brick dwelling will be erected by Abraham Spear, on Park avenue, between Wilson and McMechen streets. —Two two-story frame dwellings will be erected by Mary F. Cadwalader, on Augusta avenue, near Valrak street, and four two-story brick dwellings will be erected on Spring street, between Townsend and Lanvale streets. —William H. Kilborn will erect eleven two-story brick dwellings on Stockholm street, near Glyndon avenue. —Work has begun on an extensive building operation, to consist of the erection of twenty-two two-story brick dwellings, to be erected by George W. Pritchett, on Glyndon avenue, between Stockholm and Carey streets. —Arrangements have been made by E. K. Bryan to erect ten two-story brick dwellings on the north side of Lanvale street, between Monroe and Fulton avenue. —It is said that Dr. H. A. Kelly, 1418 Eutaw Place, has had Wyatt & Nolting prepare plans for a country home which will be erected near Belmar, Harford county, Maryland. The structure will be of the English renaissance architecture, finely finished and provided with all modern conveniences and improvements.

The residents of Roland Park are considering the subject of extensive improvements to the water works, including the placing of an electric pump in the engine house. —At a recent meeting of the managers of the Western Maryland Railroad Company, held at Hillen Station, it was decided to construct a cross line to run between Hagerstown and a point on the Baltimore and Cumberland Valley Railroad north of Waynesboro. The president of the company is John M. Hood. —It is stated that the congregation of the Sharp Street A. M. E. Society will erect a new church building at Rulling and Dolphin streets. The estimated cost is \$40,000. Ordinances aggregating the sum of \$550,000 in appropriations, are under consideration by city council, the money to be used for street improvements. —James A. Griffen has begun work on a large building operation, consisting of the erection of thirty-four two-story dwellings, to occupy the ground on the west side of Covington street, the east side of Henry street, and the north side of Randall street.

#### Washington, D. C.

Mr. Gorman has introduced an appropriation bill authorizing condemnation of land for the extension of New Hampshire avenue, from the intersection of Whitney and Sherman avenues to the west line of Brightwood avenue at its intersection at Rock Creek road, and for the purpose an appropriation of \$50,000. Mr. Skinner has introduced a bill in the House providing for the establishment of a national training school for women. —The proposal of Thomas S. Fisher & Co. to sell to the District Lots 10 and 11, Square 175 for \$1.25 a square foot, has been accepted by the District Commissioners. —It is stated that work will begin shortly on a handsome new church for the Third Presbyterian congregation, to be of stone and brick, gallery, fine church furniture and all modern conveniences and improvements. —The New York Avenue Presbyterian congregation will also erect a fine new building, two stories high, of stone, granite and brick, finished basement, steam heat, electric light, fine plumbing and fixtures, slate roof, bells, organ, handsome church furniture. The estimated cost is about \$80,000. —Senator Quay has introduced a bill in the Senate providing for the purchase of a site and the erection of a suitable residence for the President. The site favored is the square of ground just beyond the old boundary of the city proper, Florida avenue, and between Thirteenth and Fourteenth streets, Northwest. The bill limits the cost of the land to \$1,500,000. —Mr. McMillan has given notice of an amendment to the District of Columbia appropriation bill appropriating \$150,000 for the purchase of a site and the erection of a building thereon, to be used as a manual training school for white pupils of the District of Columbia, also appropriating \$100,000 for the purchase of a site and the erection thereon of a building to be used as a manual training school for colored children. Mr. McMillan also gave notice of an amendment to provide for the lighting of Fourteenth street, from Florida to Whitney avenues, with electricity. A resolution was also presented by Mr. McMillan, directing that the District Commissioners furnish a list of apartment houses containing more than twenty-five rooms each, with a statement of facilities for escape in case of fire. An amendment was also proposed to appropriate \$75,000 for completing, grading, regulating and paving Kramer street, between Tenth and Seventh streets. —The District Commissioners have summoned a jury of twelve to appraise the damages which may result in opening a street, from east to west, through the square bounded by Twenty-first and Twenty-second and N and O streets, Northwest. Under the law such streets must be not less than forty and not more than sixty feet wide. The new street will be known as Newport Place, and it is understood that Appleton P. Clark, Jr., has prepared plans for a number of handsome dwellings to occupy a

site in the new street as soon as the street improvements are made. There is also a plan under way to extend Jefferson street. —Work has been begun on an addition to the residence of Judge James, at 1824 Massachusetts avenue. The addition will have a frontage of twenty feet and be as high as the main building. The plans have been prepared by Samuel Norris. —Mr. Appleton Clark is also preparing plans for a large apartment house to be erected on Twentieth street, between M and N streets, the site of the old brewery buildings, which will be removed for the new structure. It will be eight stories high, with finely finished basement. The materials will be brick, terra cotta and cement and will be fireproof. The front will be of stone ornamented with terra cotta. A large rotunda will be a feature of the first floor, two stories high, from which will lead a handsome stair case, elevators, offices, etc. There will also be public parlors, ball room, billiard hall, bowling alley, Turkish baths, barber shop, private dining rooms, banquet hall, etc. In the basement will be boiler rooms, engines and dynamos, ice plant, filters to purify the water. The structure will be 165 x 141 feet. The interior finish will be of various kinds of hard wood, mosaic floors, marble wainscoting, bronze work, fine plumbing, electric work, steam heating and all modern improvements. The same architect has made plans for a dwelling to be erected for Mr. Horace Dodge, on B street, between First and Second streets. The structure will be

83 x 60 feet, and the material will be brick and brown stone, with large porches in front and the rear. The interior will be handsomely finished and supplied with all modern conveniences and improvements. The roof will be of Spanish tiles. The same architect has just finished plans for a stable and carriage house for the Government printing office, for Mr. C. A. Snow, the owner of the old Capitol Base Ball Park. It will be 110 feet and will be well finished with granolithic floor and drainage on the Downey system. It will contain harness room, carriage elevator and all modern equipments. —Speiden & Speiden have made plans for three dwellings to be erected on Q street. They will be of brick with trimmings of light stone. —L. A. Barr will erect three dwellings on Kenesaw street. —Browning & Bates, 316 Pennsylvania avenue, will erect a store building of four stories, of brick and stone; large show windows and fine fixtures. —E. A. Atchison will erect four dwellings at 616-622 L street, Southeast. They will be well finished and provided with modern conveniences. —Work has begun on remodeling the Central Market Building for the use of the District National Guard. —The District Commissioners have informed Senator McMillan, chairman of the Senate District Committee, that they are in favor of the proposed appropriation of \$50,000 for the construction of a steel bridge, with stone foundations, across Rock Creek at Massachusetts avenue.

#### Proposals Wanted.

Treasury Department, Office of the Supervising Architect, Washington, D. C., February 10, 1893.—Sealed proposals will be received at this office until 2 o'clock P. M. on the eighth day of March, 1893, and opened immediately thereafter, for furnishing all the labor and materials and fixing in place complete the boiler plant, low-pressure, exhaust steam-heating, mechanical, ventilating, apparatus, cold and hot water supply system, etc., and fire pump required for the United States Post Office, Court House and Custom House building at Milwaukee, Wisconsin, in accordance with the drawings and specifications, copies of which may be had at this office or the office of the Superintendent at Milwaukee, Wisconsin. The right is reserved to reject any or all bids, and to waive any defect or informality in any bid, should it be deemed in the interest of the Government to do so. Proposals must be enclosed in envelopes, sealed and marked, "Proposal for Boiler Plant, Etc., Cold and Hot Water Supply, Etc., System for the United States Post Office, Court House and Custom House Building at Milwaukee, Wis.," and addressed to the Supervising Architect.

#### Wants.

At Eddystone, Pa., bids will be received at once for the construction of a sewer on Eleventh street. Address Joseph Miller, chairman of committee.

At Cumberland, Maryland, Mr. Hamilton, superintendent of the Cumberland & Penn Railroad Company, will receive bids shortly for a steel bridge to cross Wills Creek.

At Nashville, Ga., it is said that bids will be received until March 21st for the erection of a new court house. F. M. Shaw is chairman of the committee and can give information.

At Grand Haven, Mich., bids will be received until March 8 for the erection of a county jail. Separate bids are wanted for hot-water heating. Address F. J. Fox, chairman of committee.

At Erie, Pa., sealed proposals will be received until February 24th for the construction of the sewers in Eighteenth street, a distance of 3.25 feet. Address, Benjamin E. Briggs, City Engineer.

At Geneseo, N. Y., bids will be received until March 10th for the erection of a new court house for Livingston county. Address Newton B. Gorham, clerk of board of county supervisors.

At Wilkesbarre, Pa., sealed proposals will be received until March 14th for the construction of an embankment dam, with a masonry core wall at Gardner's Creek. Address, The Spring Brook Water Supply Company, No. 18 North Main street.

At Allegheny, Pa., it is stated that Postmaster L. R. Stayton has been authorized to advertise for bids for the construction of a tunnel to lead from Ohio street into the cellar of the postoffice building for the purpose of running in electric light wires.

At Atlantic City, N. J., sealed proposals will be received until March 2d for constructing

a gravel road in Atlantic county, from Egg Harbor City to May's Landing. Address Joseph H. Borton, director of board of chosen freeholders of Atlantic county, N. J.

At Washington, D. C., Edwin Stewart, Paymaster General, U. S. N., Bureau of Supplies and Accounts, Navy Department, will receive bids until March 1st for furnishing at the Navy Yard, Mare Island, Cal., a quantity of cement, lead pipe, wrought iron pipe, valves, etc.

At Philadelphia, 1423 Arch street, Depot Quarter Master's Department, Colonel John V. Furey, Deputy Quartermaster General, U. S. A., will receive sealed proposals in triplicate until March 4th, 1893, for furnishing verified china dishes, glass tumblers, butcher knives, carving sets, chopping bowls, dippers, dish pans, meat cutters, blades for meat saws, table forks and knives, solid steel and silver plated.

At Washington, D. C., Claude M. Johnson, Director of Bureau of Engraving, will receive proposals until March 14th, to furnish dry colors, hardware, engravers' supplies, binders' supplies, typographic ink and lumber. Also sealed proposals until April 4th for textiles, plumbers' supplies, grocers sundries and rubber goods. Also sealed proposals until April 15th for chemicals, oils and paper.

Lieutenant-Colonel John V. Furey, Deputy Q. M. General, U. S. A., will receive proposals at the Depot, Q. M. Department, 1428 Arch street, Philadelphia, until February 28 for furnishing the following articles: Aguilettes and shoulder knots, blankets, bed sheets, iron bedsteads, woven wire bunk bottoms, corn brooms, scrubbing brushes, fly and suspender buttons, forage caps, fur caps, barrack chairs, drums, cape lining flannel, buckskin gauntlets, muskrat gauntlets, Berlin gloves, gold lace, campaign hats, cork helmets, helmet cords and bands, corset jeans, black listing, gilling line, manilla line, mattresses, music stands, Arctic overshoes, rubber ponchos, pillows, petroleum paper, cotton rope, wool stockings, trumpets, twine, tent poles and undergarments.

#### Miscellaneous.

At Buckhannon, West Virginia, plans have been submitted for a new court house for Upshur county, to cost \$75,000.

At Tampa, Fla., the contract for the erection of the new cathedral has been awarded to S. S. Leonard, of Jacksonville, Fla., for \$100,600.

At Corinna, Mich., on April 4th, an election will be held to vote on the question of issuing bonds to erect a new court house to cost about \$40,000.

At Morgantown, West Virginia, an election will be held early in March to vote on the question of issuing bonds to the amount of \$100,000, the proceeds to be used in the erection of a new court house.

At Clarksville, Georgia, a new fire-proof court house will be constructed from plans prepared by Golucke & Stewart, of 24 Whitehall street, Atlanta, Ga. Bids for its construction will be received until March 1st.

At Cleveland, Ohio, a handsome school building will be erected on Wade Park avenue. It will contain eighteen divisions, and bids for its erection will be received by H. G. Sargent, Director, until February 26th.

At Alexandria, La., it is said that a company has been formed to erect a large building to be fitted up for hotel purposes. The estimated cost is about \$30,000, and J. W. Alexander is secretary of the company.

At Cleveland, O., Mr. Pratt, the engineer of the park board, is preparing plans for a stone bridge with steel girders, to be constructed at the entrance of Edgewater park at Waverly avenue.

At Far Rockaway, Long Island, N. Y., the West End Hotel, the largest hotel in the

place, was destroyed by fire last week, with seven adjoining cottages. The estimated loss is \$100,000. The owner is Charles Hank, of New York City.

At Worcester, Mass., it is stated that the contract will be let in a few days for the new court house, for which plans have been prepared by Andrews, Jacques & Rantoul, of Boston, Mass. The estimated cost is about \$300,000.

At Newport, Rhode Island, land has been purchased by Potter Palmer, of Chicago, Ill., and it is said that he will erect on the site a magnificent summer home, to cost with improvements to the ground about \$2,000,000.

At Schenectady, N. Y., it is reported that a committee of supervisors has been appointed to take in charge the matter of the erection of a new jail, to occupy the site of the present structure on Union street. No plans have been prepared.

At Aitkens, Ga., it is stated that bids will be received in a short time for the erection of a fine normal school building. The plans have been prepared by Bruce & Morgan, of Atlanta, Ga. The estimated cost is about \$50,000.

At Chelsea, Mass., there is considerable talk on the subject of the erection of a building for the purposes of the Y. M. C. A., and \$10,000 has been offered toward a fund of \$50,000 which will be required to put up the kind of building proposed. Hon. George H. Carter is president of the association and can give further information.

At St. Louis, Mo., plans have been prepared by E. A. Manny, 804 N. Eighth street, for an office building to be erected by the Linman Realty Co., 114 N. Eighth street. It will be of buff brick with trimmings of terra cotta, tile or slate roof, mosaic floors, marble work, steam heat and all modern conveniences. The estimated cost is \$85,000.

At Worcester, Mass., on Friday, February 18th, fire destroyed the Bijou Theatre, of which Julius E. Offner was the manager. The building was owned by George H. Batcheller, of Providence, R. I. The estimated loss is \$60,000.—The trustees of St. Vincent's Hospital have recommended the erection of a hospital and surgery, the latter to include a boiler room and laundry. The cost will be about \$60,000.

At Chicago, Ill., plans have been prepared by H. H. Burnham & Co., 1142 The Rookery for alterations and improvements to the Union Depot, at Canal and Adams streets. The estimated cost is \$50,000. The same architects have finished plans for a handsome passenger station to be erected at Liberty avenue, Washington street and Seventh avenue Pittsburg, Pa.—Wm. A. Suite will erect a three-story apartment house, from plans prepared by M. Spitzer, 100 Washington street, Chicago. The estimated cost is about \$30,000.

At Springfield, Mass., F. R. Richmond has prepared plans for a building to be erected for the Grand Army, E. K. Wilcox Post. These plans provide for a building two stories high, with a finished basement, buff brick stone and terra cotta trimmings. The structure will be handsomely finished, and will contain several parlors, a well equipped assembly room, with stage, etc., kitchens, toilet rooms, library, boiler room, etc. The estimated cost is about \$20,000.—A petition has been presented to the legisla-

ture asking for the construction of a new bridge across the Connecticut river to West Springfield.—The Faith Church Congregation, of which Rev. S. E. Meserve is the pastor, is considering the erection of a new church building.—W. S. Sadler has had plans prepared by Carroll H. Pratt, 23 Elm street for a handsome dwelling to occupy a site on Magnolia terrace, corner Spruceland avenue. The cost will be \$9,000. It will be finely finished, all modern improvements.

At Buffalo, N. Y., R. Dunbar & Sons, of the Eagle Iron Works, of Buffalo, are preparing the plans for the proposed large grain elevator to take the place of the Sturges Elevator destroyed by fire last October. The new structure will be of steel and will be three times larger than the old elevator, having a capacity of 1,050,000 bushels. The cost will be about \$300,000. Bids for the work will be called for in a short time. The officers of the Buffalo Co. which will erect the structure are Edward Michael, of Buffalo, President; F. A. Bell, Vice-president; John Bedford, of Buffalo, Secretary and Treasurer. The general manager is George S. Gatchell, of Buffalo.—A large industrial plant will be located at Depew, a suburb of Buffalo, by the Depew Manufacturing Company, which will make mowing machines, reapers, binders, etc. The incorporators are C. H. Hughes, John Carlsenssen, W. Seward Webb, H. Walter Webb, J. A. Spoor and Jno. C. Cobb. The capital stock is \$1,000,000.

At New York, plans have been prepared by Hill & Turner, 44 Broadway, for a ten-story building, to be fitted up for hotel purposes, and to occupy a site somewhere between Fourteenth and Forty-second streets, for a company now forming, in which Charles D. Kellogg, of 105 East Twenty-second street, is interested. The company will be known as the Woman's Hotel Company, and the capital will be \$1,000,000.—It is proposed to erect one or more hotels, the one now contemplated having an estimated cost of \$500,000.—Henry J. S. Hall will erect a residence on Riverside drive near Seventy-seventh street. It will be five stories high, of limestone and brick, tile roof, all the latest conveniences and will cost about \$75,000. The plans have been prepared by Hertz & Gallant, 481 Fifth avenue. Mr. Hall is a member of the firm of Hall & Ruckle, 215 Washington street.—Boring & Tilton, 57 Broadway, have prepared plans for a five story brick and stone apartment house, to be erected at 214 and 216 West Sixteenth street.—J. Brandt has made plans for two five-story brick dwellings to be erected on 103d street for Robertson & Grant, 312 West Twenty-fifth street. They will be attractive ly finished and provided with all modern improvements and conveniences.

### Judgments

#### PHILADELPHIA.

#### ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term, and S, for September Term.

S. F.—Sei Fe Facias, to revive judgment.

A star (\*) denotes judgment confessed or bond and warrant conditioned.

## Architect Notes.

Totten & Rogers, architects, have taken offices at 933 Chestnut street, in this city. These gentlemen were formerly of Washington, D. C. They are engaged on drawings for several operations which will be noted later.

Schermerhorn & Rheinhold, architects, 430 Walnut street, have made preliminary plans for a suburban residence for J. H. McKee, M. D., of this city. It is to be of local stone, three stories high and contain on interior all the latest comforts and conveniences, etc.

Benjamin Grindley, architect, Pawtucket, R. I., has made plans for a cotton mill to be erected at Norristown, Pa., for a stock company. It is to be of brick, iron and stone, 100 x 210 feet, and fitted with steam heat and power, electric work, and general appliances, etc.

Thomas Stephen, architect, Masonic Temple, Camden, N. J., has plans completed for a factory to be built at Delaware and Cooper streets, Camden. It will be of iron, brick and stone, four stories high, 50 x 150 feet, and supplied on interior with all necessary power, heat and light, elevator lift, etc.

Charles M. Burns, architect, 717 Walnut street, has made plans for a three-story parish building, 30 x 90 feet, for the P. E. Church of the Annunciation, at Twelfth and Diamond streets. The structure will be of brick and stone with all the most modern comforts on interior. Estimates being taken on the work.

Yarnall & Goforth, architects, 14 S. Broad street, have on boards plans for a house to be erected at Glen Summit, Pa. It will be 40 x 75 feet, stone and frame, fitted with steam heat, electric work, hard wood finish, tile work and best of conveniences, etc. Same architects are busy on other work which will be noted in future.

J. Cather Newsum, architect, 1001 Chestnut street, has on the boards plans for a hotel building to be erected at Longport, near Atlantic City, N. J., for H. B. Phillips, of the latter place. It will be brick and frame, 40 x 85 feet, three stories high, fitted with steam heat, electric work, and general hotel conveniences.

Keen & Mead, architects, Crozier Building, are making plans for a residence to be built by and for W. T. B. Roberts, 401 Bourse Building, at Germantown. It will be of stone and pebble dashed slate roof, steam heat, electric work, tiling, hard-wood interior finish, radiators, plate and leaded glass, and best of home comforts.

Mantle Fielding, architect, 110 South Fourth street, has completed plans for a country house for Robert E. Strawbridge, to be erected at Bryn Mawr, Pa. It will be

three stories, frame and brick, and pebble dash work, shingle roof, and contain steam heat, stained and plate glass, wood mantels, hard-wood finish, tile work and best plumbing. Estimates are being made in office of W. R. Dougherty, 1604 Sansom street, and other contractors.

Stearns & Castor, architects, Stephen Girard Building, have completed plans for nine houses to be erected at Fifteenth and Tioga streets. They are to be 17 x 60 feet, three stories high, of fine faced brick and stone trimmings, and best interior work. Same architects have made all the plans for alteration and addition to Messrs Pack & Sons, at Twelfth street and Washington avenue. Also plans on boards for several other fine pieces of work to be started at an early day, and which will be noted soon in these columns.

T. Frank Miller, architect, 1219 Arch street, has completed plans for a fine three story dwelling to be erected on Old York Road and Oak Lane for Gustave Alber. The structure will be of Holmesburg granite, green slate roof, plate glass windows and doors, steam heat, electric work, finest of plumbing, inlaid wood floors, tile work, and cement floor in cellar. All modern conveniences will be introduced. Mr. Miller has other work in progress which will be noted at an early day.

Robeson Lea Perot, architect, No. 619, Philadelphia Bourse, has prepared drawings and will be ready to receive estimates in a few days for the proposed new rectory building at the corner of Twenty-third street and Washington Boulevard, Wilmington, Del., for St. John's Protestant Episcopal Church, of that city. This building will be about 36 x 41 feet, three stories, and will have hot air heat, combination gas and electric lighting, hard wood, plate glass and leaded glass, best plumbing, shingle roof, etc. Same architect has awarded contract for alterations to 1217 Chestnut street, Philadelphia, to William J. Gruhler, contractor; previously noted. Also plans on boards for several buildings which will be noted as work progresses.

## Building and Real Estate Notes

Improvements of an extensive character are to be made to the Philadelphia Cricket Club house at Chestnut Hill. The plans have been made by John Owen architect, whose address is not given. The plans contemplate a brick and frame structure, 22x30 feet, two stories high; also, an extension of the carriage shed 21x100 feet.

A bill is now before Congress asking for \$350,000 appropriation for new buildings for the exposition to take place in this city in 1899. The above will be considered as an amendment to the Sundry Civil Appropria-

tion bill and offered by Senator Penrose. Also, \$500,000 will be asked for the improvement of the Delaware river.

Lewis Havens, contractor, Girard Building, has on boards for estimate plans for two new buildings for the U. G. I. Company, at the Twenty-fifth Ward Gas Works. One of these will be 82 x 180 feet, and the other 44 x 118 feet, both to be of brick, stone and iron. In same office estimates are being made on an addition to residence at Narberth, Pa., for H. S. Hopper. Also for a large corrugated iron shed at Twenty-third and Hamilton streets.

As indicated in our previous issue, the union of St. Luke's and Epiphany P. E. congregations has been consummated and hereafter will be known as St. Luke's of the Epiphany, and for the present located in the old church on Thirteenth, south of Locust street. Some considerable alterations will be made in the structure at present and eventually a new one built upon a site to be selected. The joint wealth of the two churches will be about \$700,000. Rev. Mr. Ledball will be rector in charge and Rev. Leverett Bradley assistant.

J. D. Harris, 1022 Arch street, is taking bids for all labor and material required to complete eighty-six two story houses at sixteenth and Pine streets, and fifty-eight three-story houses to be built at Wayne and Pulaski avenues. All contractors are required to furnish a satisfactory Trust Company bond for 50 per cent. of their contract, and will receive a trust company bond, guaranteeing their payments. Payments will be made in cash and first mortgages only; no trade will be given, or trade prices for labor and material considered.

Charles McCaul, contractor, 10 North Eleventh street, has several large contracts recently awarded and on which he will begin at once. Among them are the new Reading Railroad depot at foot of Chestnut street and Delaware river, which has been fully noted in these columns; also, a branch telephone station for the Bell Telephone Company at Preston and Filbert streets. It will be 32x67 feet, two stories high, colonial style, granite trimmings. The structure will be fitted same as others recently constructed by the same builder in other parts of this city. Mr. McCaul at the same time starts a similar building for the same owners at Frankford avenue, Paul and Unity streets, with like material; also, alterations and additions to the store of Sharpless Bros., Eighth and Chestnut streets, which will include repairs of recent fire, new elevators, new entrances and stairways, etc.; also, additions to the Pennsylvania Gas Light Company, at Twentieth and Market streets. Additions will be made to the Bell Telephone Company building at Trenton, N. J., and other minor work.

JOHN N. GALLAGHER, Publisher.  
JOHN F. BRISBANE, City Editor.

PHILADELPHIA, WED'Y, MCH. 2, 1898.

MR. P. H. FAIRLAMB, President of the P. H. Fairlamb Co., dealers in cements, etc., died on Thursday last. Mr. Fairlamb had been ill for several months. He was a prominent Mason and well known in lodge circles. The funeral took place on Monday last.

THE friends of Mr. William R. Nicholson, President of the Land, Title & Trust Company, will be gratified to learn that both himself and wife, who were on the train which met with an accident at Waycross, Ga., escaped without injury. Mr. and Mrs. Nicholson were returning from a trip through Florida.

It is stated that after the Schuylkill Valley water bill is settled that an ordinance will be submitted to Councils transferring the fire department to a private corporation, with the view of placing it beyond the control of politicians.

The Board of Fire Underwriters, it is stated, not only favor the proposition, but is ready to father it.

A similar proposition is to follow, with a view of taking the police department out of politics, but no intimation has been given as to whether this is to be done through legislation or through a lease to a private corporation to police the city for a stipulated sum yearly.

[FROM THE "JOURNAL OF FINANCE," NEW YORK, FEBRUARY 24, 1898.]

### The Mortgage Loans at 4 Per Cent.

The announcement that the Emigrant Industrial Savings Bank in Manhattan had decided to reduce the interest rate on real estate mortgage loans from  $4\frac{1}{2}$  to 4 per cent. has created a good deal of interest among financial men because of its probable effect on other savings banks as well as trust companies in Greater New York, as well as the mortgage loan field at large. The Emigrant

Savings Bank, according to their statement issued January 1 last, has total assets amounting to \$57,579,824.81. Of this \$27,895,205 was loaned on real estate, and other large items were: \$5,435,000 United States bonds, \$4,559,600 City of New York bonds and \$5,138,500 in Brooklyn bonds. The rate of interest paid depositors is  $3\frac{1}{2}$  per cent.

The action of the Emigrant Savings Bank cannot fail to prove an important factor in a general reduction of interest on real estate loans. Mr. James McMahon, the president of the bank, sums up the situation and the conditions leading to the reduction as follows:

"We have found in the last two years on the part of our borrowers on real estate a disposition to ask for a reduction in the rate of interest. The rate charged by us had always been a uniform one for such loans. In many cases it happened that loans were taken from the bank and placed with other city savings banks because of the fact that we declined to reduce the rate to 4 per cent. Our borrowers have long had the assurance from the board that when the time arrived that would permit us in justice to our depositors to reduce the rate of interest to 4 per cent. we should then do so.

"We believe that the time has now been reached when this may be done. For some years to come I am disposed to think that 4 per cent. will perhaps be regarded as a fair rate upon mortgage loans. Large trust and insurance companies of our city are at the present time loaning freely at this rate upon mortgages of the gilt-edged sort.

"It is my opinion that the time for a reduction in the interest rate upon mortgage loans is close at hand. We are here prepared to meet it by reducing also the dividend to depositors from 4 to  $3\frac{1}{2}$  per cent. There is a superabundance of money now in New York, and it is likely to continue.

"Reduction of the interest rate to borrowers will tend in the direction of encouraging the making of improvements in real estate.

"The fact is that all other securities outside of real estate which the banking laws of the State permit savings banks to invest in are to-day placed in such a position that the best income to be realized on investments in them is but a fraction over 3 per cent. I include in that category United States, State and municipal bonds. Government bonds to-day pay but an interest of  $2\frac{1}{2}$  and State bonds less than 3 per cent., while municipal bonds range from 3 to 3.5 per cent."

The effect of this new departure, says "Bond and Mortgage" in its February number, will be felt from ocean to ocean, as the Emigrant Savings Bank of New York is one of the strongest and most influential institutions of its kind in the world. The farmer of the West, heretofore accustomed to paying 6@8 per cent. interest on his mortgage, will find that cheap money has already come, and come to stay.

### Building and Real Estate Notes.

In the Sundry Civil Appropriation bill before Congress at present Delaware Bay im-

provements are provided for to the amount of \$800,000. This will give varied employment to artisans and others.

Harry T. Saunders, contractor and builder, 230 North Twenty-second street, is receiving a few bids on houses in West Philadelphia, such as gas fixtures, ranges, glass, hardware, mantels and the electric bells, etc.

John C. Gallagher, builder, will at once begin erecting 17 dwellings, two-story, on west side of Seventeenth street, south of Wolf, all to be of press brick, stone trimmings and modern conveniences.

E. A. Waddy & Co., 1108 Betz Building, Philadelphia, have the contract to furnish the millwork for a veterinary experimental building to be erected at Thirty-seventh and Pine streets for the Commonwealth of Pennsylvania.

J. J. Allen, 835 North Forty-fifth street, is taking bids on 30 dwellings to be erected at Germantown for private owner, after plans by Harry Poole, architect, Harrison Building, Fifteenth and Market streets. Previously noted in these columns.

Dr. John V. Shoemaker has bought Nos. 1416-1418 South Penn Square, and intends to improve the site by erecting a new structure at an early day, the character of which or kind has not yet been determined by the purchaser. No plans have been prepared.

Jacob Myers & Sons, contractors, Sansom and Juniper streets, have started work upon the brick veterinary hospital, on east side of Thirty-sixth street, near Pine. It is to be 28x74 feet, one story high brick and stone material. C. F. Osborne, of Boston, made the plans.

M. P. Wells & Co., contractors, Thirteenth and Walnut streets, are estimating on a stable for J. J. Martin, to be erected at Forty-sixth and Chester avenue. The building will be two stories high, 28x70 feet, of stone and brick, slate roof, and it will contain modern conveniences.

Bumgart & Jackson, architects, 1345 Arch street, have completed plans for an operation of houses, 32 in number, to be erected in West Philadelphia by a local party. Brick, with stone trimmings, will be the material. Interior have hot-air heat, gas lighting, hardwood mantels, baths, ranges, etc.

### Through Pennsylvania.

¶ When any of the following are not post office towns they will be so designated.

—At Haverford, Delaware county, the dwelling occupied by Colonel E. Bowen, on Haverford road, near Haverford station, was destroyed by fire last week. The building was owned by W. A. Fisher. The loss was about \$3,500.

—At Willow Grove, Montgomery county, work will soon begin on the hotel which is to be erected for the accommodation of summer guests. The structure will be handsomely finished and will contain 150 rooms. There will be billiard rooms, barber shop, drug store, pool rooms and bicycle rooms in the basement. All modern conveniences will be introduced.

## Beautiful Sea Shells

Every one admires them. Since coming south I have received numerous inquiries from northern people for sea shells, and now I am prepared to answer yes, I can send you shells, for I have made quite a collection of lovely shells, both from our own coast, the coral reefs, and some beautiful ones from the West India Islands. I will mail a dozen or more different kinds, no two alike, to any one who sends a stamp for postage. Also send you a lovely piece of white branch coral.

Yours, **MRS. F. A. WARNER,**  
Jacksonville, Fla.

## MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and gives a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about MURESCO for the asking.

—At Lebanon, Lebanon county, select council has passed ordinances providing for water mains on several streets.

—At Berwyn, Chester county, H. P. Gallagher has bought a building site from I. J. Still and will erect a dwelling.

—At Souderton, Montgomery county, D. W. Kratz has bought ground from Jonas J. Brandt and will erect a large brick dwelling.

—At Doylestown, Bucks county, at a recent meeting of the borough council it was decided to extend Broad street from State to Ashland street.

—At Irwin, Westmoreland county, it is probable that a sewerage system will be constructed the present year and a number of streets paved.

—At Quakertown, Bucks county, it has been decided by the court that the Traction Company must bridge the railroad track to obviate any grade crossing.

—At Tarentum, Allegheny county, at a recent election it was decided to issue bonds in the sum of \$40,000, to be used in grading and paving, and \$10,000 for sewer construction.

—At Olyphant, Lackawanna county, J. A. Hull will erect a dwelling from plans prepared by John A. Duckworth, Coal Exchange Building, Scranton, Pa. It will cost about \$4,500.

—At Williamsburg, Blair county, the pumping facilities of the water works are to be increased and an electric light plant constructed. A. F. Shotts, the mayor, can give information.

—At Emaus, Lehigh county, it is said that council has granted the privilege to construct an electric road through Emaus to the Allentown and Emaus Electric Street Railway Company.

—At Allentown, George Leh will erect six brick dwellings on Poplar street. The contract has been let to Arner & Hoffmann for the erection of two brick dwellings on Franklin street.

—At Ligonier, Westmoreland county, the congregation of the Lutheran Church will erect a new edifice on the site of the present structure. Rev. A. L. Bartholomew is the pastor.

—At Schwenksville, Montgomery county, Charles S. Witman has bought a building lot and will erect a dwelling. It is reported that ten or a dozen dwellings will be erected in the Spring.

—At Bedford, Bedford county, in a short time bonds will be issued to the amount of \$16,500 for improvements to the water works.

George Points, attorney for council, can give information.

—At Scranton, Lackawanna county, an ordinance has been introduced in councils providing for the paving of Providence road and North Main street. The estimated cost is about \$100,000.

—At Allentown, Lehigh county, the Leisnering Land and Improvement Company will construct a reservoir on Lincoln Heights at Whitehall, to supply Siegfried's, Stenton and Newport with water.

—At Avoca, Luzerne county, it is stated that the contract for installing the electric light plant, has been awarded to Shepherd & Rush, of Wilkesbarre, and the contract for the power house to S. K. Wilson, of Pittston.

—At New Kensington, Westmoreland county, the capital stock of the German plate glass works has been subscribed, and in a short time work will begin on the main building. It will be of brick and will cost about \$175,000.

—At Carbondale, Lackawanna county, the dwelling of Mr. Peck will be improved by the erection of an addition from plans prepared by T. J. Lacey & Son, Traders' National Bank, Scranton, Pa. Steam heat will be introduced.

—At Bethlehem, Lehigh county, town council is said to have passed an ordinance permitting the Easton, Palmer and Bethlehem Electric Railway Company to lay its tracks on New street. T. A. H. Hay, of East Easton, is interested.

—At Hellertown, Northampton county, it is reported that at a recent election the question was decided in the affirmative to issue bonds to the amount of \$50,000, the proceeds to be used for a new water supply. F. F. Allen can give information.

—At Charleroi, Washington county, the board of education will send a petition to the Washington county courts for permission to hold a special election to vote on the question of issuing bonds to the amount of \$25,000, the proceeds to be used for the erection of new school buildings.

—At Swarthmore, Delaware county, Franklin L. Knight & Co. have been awarded the contract for a three-story local stone, frame and pebble dash dormitory for Swarthmore College. The cost will be about \$10,000. The same contractors will erect about forty dwellings on ground situated near Bala Station.

—At Pottsville, Schuylkill county, G. A. Allen will erect a large building to be fitted up for hotel purposes. It will occupy a site at

Centre and Mahantoga streets, and will be six stories high, of brick and iron, fine interior finish and all modern improvements. The estimated cost is \$72,000. No architect selected.

—At Dunmore, Lackawanna county, John W. Fowler will erect a handsome dwelling from plans prepared by John A. Duckworth, Coal Exchange Building, Scranton, Pa. It will be handsomely finished, plain and leaded glass, fine plumbing and fixtures, hot water heating and all modern conveniences. The estimated cost is \$10,000.

—At Washington, Washington county, it is stated that the county commissioners will begin work on the new county court house in a few months. The borough will issue bonds to the sum of \$60,000, the amount to be used for street and sewer work. George W. Jenkins, C. E., county surveyor, can give additional information.

—At Lansdowne, Delaware county, a large number of dwellings, thirty in all, will be erected on the John White tract, near Pottsville Station. Thomas F. Deegan has bought a lot on Greenwood avenue and will erect a handsome residence. Miss Kate Maroon, of Philadelphia, has bought two lots on Greenwood avenue, and William Crozier has bought one lot on the same avenue.

—At Coatesville, Chester county, B. P. Cooper has bought ground from W. R. Jackson and will erect a number of dwellings. The price paid for the ground was \$1500.—It is reported that a syndicate will erect a row of dwellings on Third avenue.—Work will begin shortly on a new engine house for the Brandywine Fire Company. It will occupy a site on Third avenue and will cost \$4500.—Work is progressing on a handsome dwelling for W. K. Harris, and J. L. Christy has begun work on a dwelling on Chestnut street.

—At Scranton, John A. Duckworth, Coal Exchange Building, has prepared plans for school building No. 3. It will be of red brick, with trimmings of stone, shingle roof, hot blast heating, slate lavatory and will contain twelve finely finished rooms. The estimated cost is about \$40,000.—Edward H. Davis, Commonwealth Building, has prepared plans for a handsome dwelling for J. J. Williams, of Green Ridge City. It will be of Indiana limestone, the roof, fine stained glass and plate glass windows, steam heat, tile work, hard wood and all modern improvements. The estimated cost is \$50,000.—The same architect has prepared plans for a large building to be fitted up for business purposes for J. W. Guernsey, of Washington avenue. It will have

Agents for Hartford City Window and Picture Glass.

The largest stock of PLATE GLASS that has ever been carried in this market will be found constantly on hand, also a well assorted stock of FRENCH AND AMERICAN WINDOW AND PICTURE GLASS, and CHANCES' FIGURED ROLLED GLASS. A complete Beveling and Silvering Plant on the premises.

H. E. SEALEY, Local Manager

a front of Indiana limestone, fine interior finish and fixtures, electric lights, steam heat, etc. The estimated cost is \$35,000.—Robert McKenna, of Madison avenue, will erect a dwelling, to cost \$8,000, from plans by E. S. Worden, Board of Trade Building. It will have slate roof, steam heat, etc.

—At Reading, Berks county, William F. Remppis & Co. have been awarded the contract for a movable steel cage to be placed in the main room of the court house, and which will be used to keep prisoners in while court is in session.—St. Mary's Polish Roman Catholic congregation has decided to erect a new church at Twelfth and Spruce streets. No plans have been adopted. The estimated cost of the proposed structure is about \$15,000.—Work will begin at once on the new edifice for St. Stephen's Reformed Church at Ninth and Greenwich streets. There will be a large auditorium with a seating capacity of 800, and a Sunday-school room to seat 700. There will also be a large assembly room in the basement,

with concrete floor. All modern improvements will be supplied. The estimated cost is \$25,000.—It is reported that the O'Reilly Building will soon pass into the hands of the Metropolitan Electric Light Company, who will tear down the present structure and erect a fine building on the site, thoroughly equipped with all modern conveniences.—Architects have submitted plans for extensive improvements to the Berks county court house. A wing on the north side has been suggested. The estimated cost of the proposed changes is \$5000.—Ground has been broken on Ninth street, between Penn and Cherry streets, for a building to be filled up as stores and apartments. There will be five stores, with handsome plate glass fronts and fixtures. The apartments will be provided with all conveniences for dwelling purposes. The owners are George H. Felix and Mrs. Catharine P. Obert.—At a recent meeting of the Board of Public Works of City Council, Councilman Rhoda asked for favorable consideration of the ordinance providing for

the paving of Bingaman street, from the river to Eighth street, from Bingaman to Penn street, and South Fifth street, from Pine to the foot of the street. Select Councilman Biting has asked for the paving of South Third street.—The building committee of Zion United Brethren congregation, Ninth street below Penn street, has awarded the contract for the erection of the proposed new church building to William H. Rummel and Henry H. De Long. The estimated cost is about \$10,000. The structure will be well finished, handsome church furniture, and modern conveniences and improvements.

—At Pittsburgh, a number of local architects are at work on plans for the proposed auditorium to be erected by the Western Pennsylvania Exposition Society. At a recent meeting of the board of directors there was considerable discussion as to the site of the new structure, it being the opinion of some that the site proposed, that between the main building and machinery hall, might be too small on which

to erect a building to accommodate six or eight thousand persons. The site may be changed to one west of the main building, where there will be more space. A special meeting of the board will be called as soon as the plans are ready. G. J. Fitzpatrick is one of the members of the board.—J. F. Steen, Jackson building, has finished the plans for the building to be erected at Sixth street and Liberty avenue. It will be of slow-burning construction. L. A. Raisig, First National Bank, Wilkinsburg (Pittsburg), has prepared plans for three eight-room dwellings to be erected on Ross avenue for Mrs. Jane Swift. They will be well finished and provided with modern conveniences.—The same architect has made plans for a three-story brick store and dwelling to be erected on Larimer avenue for A. Knox of Frankstown avenue. The estimated cost is about \$8,000.—J. E. Obitz, McCance building, has prepared plans for an attractive brick dwelling for Joseph Louterman. It will be finely finished, tile work, plain and ornamental glass and will cost about \$7,000. Also plans for two buff brick dwellings to be erected for George McKee at a cost of about \$8,000 each. Also plans for an attractive dwelling to be erected for Mrs. Anna Rodgers.—Architect Thomas Boyd, Westinghouse Building, has finished the plans for a handsome dwelling to be erected on Graham street. It will be handsomely finished and provided with all modern conveniences and improvements. The owner is S. W. Cunningham, and the architect will receive bids for the construction until March 5th. The estimated cost is \$15,000.—Charles Bickel, Publication Building, will prepare plans for a three-story office building to be erected at Fifty-first and the Allegheny Valley R. R. for the Crescent Steel Works.—Five two-story and mansard brick dwellings will be erected on Lytle street, by A. Knobb, of Knoxville, Pa. They will cost about \$11,000.—Joseph Anglin, Park Building, is preparing plans for an addition to the Gusty Orphanage on Ferryville avenue, Allegheny.—Long & Carroll, Hamilton Building, are preparing plans for a handsome brick dwelling to be erected at Greensburg, Pa., for E. B. McCormick. The same architects have made plans for two brick dwellings to be erected for the McKenna estate on Penn avenue, near Twelfth street. Also plans for a frame dwelling to be erected at Avalon, Pa., for Mr. Clark, and plans for alterations to the dwelling of Charles McKibben, on Atwood street.—F. C. Bauer, Hamilton Building, has made plans for a dwelling to be erected on South Dallas avenue for W. T. Humphrey. The architect will close bids on this dwelling on March 4th. The same architect has prepared bids for a dwelling to be erected at Hay's Station, for John Werner.—Rutan & Russell, Tradesmen's Building, are preparing plans for rebuilding the residence of Henry Davis, at Sewickley, Pa. It will be handsomely finished, provided with all the latest improvements, and will cost about \$10,000.—The residents of Mount Olivet have taken steps toward the erection of a new school building, and a meeting will be held at once at which a committee will be appointed to select a site for the proposed structure. It will contain eight well-finished rooms, and the estimated cost is \$12,000. It is expected to begin work as soon as possible in order that it may be ready for occupancy by September.—Chancey Hodgdon, Renshaw Building, is preparing plans for a large greenhouse, to be erected at Sewickley, Pa.—The estate of Eliza J. Aiken will erect five brick dwellings at Ellsworth and Aiken avenues, from plans prepared by George Orth & Brother, Stevenson Building. Work will begin at once.—John Carley will erect two two-story brick dwellings on Peeble street, Wilkinsburg, from plans prepared by E. B. Mulligan, Wilkinsburg (Pittsburg). The bids for these will be received until Saturday, March 5th.—J. E. Allison, Publication Building, will soon complete the plans for the National Bank, of East

Liverpool, O.—A. K. Miller, Lewis Building, has prepared plans for a brick dwelling to be erected in the East End, for F. M. Bethell, on Kirkland street. Bids are now being received for this dwelling. The same architect has prepared plans for a handsome dwelling to be erected at Turtle Creek, Pa., for Mr. Castle.—J. M. Artside will erect a two-story and attic dwelling at 564 Margaret street. It will be well finished and will cost \$3500.—The contract for the Kaufman Building has been let by Architect Bickel to the G. A. Fuller Company, of Chicago, Ill. The contract calls for the completion of the structure by September, 1898.—The contract for the erection of the Tenth Ward public school has been let to S. Hastings & Son, by Architects Topp & Craig.—William M. Lee, No. 10 Niagara street, wants estimates for eight slate mantels, also designs for the same.—It is reported that the council of East Pittsburg has granted a franchise to the North Braddock Street Railway Company for a railway across Bessemer terrace to the Westinghouse Electric Company's works. E. B. Kimberly is president and F. E. Proctor, secretary.—Work has begun on remodeling the Dime Savings Bank, 581 Smithfield street. William Kerr Sons are the builders. The cost will be about \$8000.

### Through New Jersey.

At Atlantic City, the Academy of Music, recently destroyed by fire, will be rebuilt on a larger scale and fully equipped for amusement purposes.

At Secaucus, Hudson county, Frederick W. Sina will erect a two-story frame dwelling from plans prepared by Herman Hahn. It will be well finished and will cost about \$2,000.

At Sea Bright, Monmouth county, Mrs. Creighton Wethers will erect a two-story frame dwelling from plans prepared by Creighton Wethers, 22 Bellevue avenue, Newport, R. I.

At Ocean City, Cape May county, the franchises held by Ezra B. Lake, comprising water, sewerage and electric light systems, have been sold to the Ocean City association for \$165,000.

At Lambertville, Hunterdon county, the board of education has adopted a resolution asking city council to issue bonds to the amount of \$35,000, the proceeds to be used for the erection of a new high school.

At Bernardsville, Somerset county, a handsome country residence will be erected by Clarence B. Mitchell, 195 Broadway, N. Y. Mr. Mitchell is now in Europe, but expects to return home about April 1st and will then select an architect.

At Passaic, Passaic county, Henry Muhs will erect a two-story frame cold storage depot, 80x40 feet.—The Paterson Street Railway Company will erect a brick car barn, 90x260 feet. M. A. McAdoo, Main and Van Houten streets, Paterson, N. J., owner.

At Camden, a company has been incorporated to be known as the Triumph Light, Heat and Power Company. The capital is \$200,000. The incorporators are R. Linwood Martin, Robert B. Kee, of Philadelphia, and Alfred J. Lucas, of Gibbstown, N. J., and others.

At West Hoboken, Hudson county, Charles Schultz, of the Town of Union, N. J., will erect two two-story frame dwellings, to cost each \$5,000. The plans have been prepared by John R. Benson. They will be attractively finished and all modern conveniences will be provided.

At Somerville, Somerset county, P. C. Van Nuy, Somerville, and Prudential building, Newark, N. J., has prepared plans for a two and one-half story frame double dwelling to be erected for J. J. Schaefer, of Raritan, N. J., for \$3,000. The same architect has prepared plans for a similar dwelling to be erected for R. J. Southwick.

At Jersey City, William A. Tilton has prepared plans for a frame stable for William B. Jenkins. The cost will be about \$3,500.—Charles W. Randall has prepared plans for a three-story frame double building, to cost \$4,500, which will be fixed up as stores and flats for the owner, Adam Spangenberg.—J. A. Resch has prepared plans for a two-story dwelling, to be erected on Bayview avenue, for Mrs. Mary Steltman.

At Bayonne, Hudson county, Mrs. Ida Smith will erect a frame dwelling, to cost \$3,000, from plans prepared by A. C. Longyear, 126 Liberty street, New York City.—A. Schuda has prepared plans for four two-story frame dwellings to be erected on West Twentieth street, between Avenue A and Boulevard, for Sarnet Tucker. The estimated cost is about \$3,000.—It is stated that a bill has been passed authorizing the issue of bonds to the extent of \$100,000 for school purposes.

At Newark, Robert Kuebler will erect a two and one-half story frame dwelling to cost \$4,000 from plans drawn by himself. It will be attractively finished and provided with modern conveniences.—Joseph M. Banks will erect a dwelling on Milford avenue to cost \$3,000.—Herman C. Schneider has drawn the plans and will erect a two and one-half story frame dwelling, to cost \$3,000, on South Eleventh street.—O. J. Berger has prepared plans for a frame double store and dwelling for E. Beyer, and which will occupy the site Nos. 142-144 Ferry street.

At Paterson, Passaic county, F. W. Wentworth has prepared plans for two structures to be fitted up as flats for Louis A. Piaget.—John H. Post has made plans for extensive alterations to the store of E. Rhodes' Sons, at Main and Van Houten streets. The estimated cost is about \$2,500.—Henry Beckman has prepared plans for a three-story brick and stone building, to occupy a site on Straight street, for Maria and Antonio Grosso. It will be fitted up as a store and for apartments, and will cost \$6,000.—Benjamin Gounauer will erect two two-and-one-half story frame dwellings, to cost \$4,000, from plans prepared by Charles E. Sleight.—M. Honman has prepared plans for a handsome two-and-one-half story frame dwelling, to be erected on Twelfth avenue, for William H. Fletcher. It will be finely finished, considerable tile work, plate and ornamental glass, sanitary plumbing and all modern conveniences. The estimated cost is about \$10,000.

At East Orange, Essex county, Charles W. Brower, of Newark, will erect an attractive dwelling on North Seventeenth street, between William street and Park avenue, from plans prepared by J. C. Eagles, with W. A. Lambert, 99 Nassau street, New York City. It will be handsomely finished and provided with all modern conveniences and improvements.—Mrs. Rose McComb, of Brooklyn, N. Y., will erect a dwelling to cost \$3500 on Eighteenth street, from plans prepared by Ten Eyck & Grant, Belleville, New Jersey.—Watson Whittlesey has arranged for the erection of a dwelling at the southwest corner of Central avenue and Watson street, from plans prepared by Herman Fritz, of Passaic, N. J. Mr. Whittlesey's address is West Orange, N. J.—Frederick R. Hasselman, Decker Building, Orange, N. J., has prepared plans for a handsome dwelling to be erected for Dr. Metford Runyon, on Prospect street. It will be of frame, two stories high, fine interior finish, tile work, plate and ornamental glass, sanitary plumbing and all modern conveniences and improvements. The estimated cost is \$7,000. A similar dwelling to cost \$7,000 will be erected by Byron K. Baker, of 181 Broadway, N. Y., who will also draw the plans.

and will subsequently be introduced in the legislature, to authorize the commissioners to borrow \$25,000 for repairing the old Georgetown turnpike, from Rockville to Washington City.

At Baltimore, George C. Haskell has prepared plans for the erection of four three-story buildings to be fitted up for stores. They will occupy sites on the east side of Charles street, near Mt. Royal avenue. Mr. James Reaney, Jr., has the contract and has begun work. The Epiphany Apostolic College, of which the Rev. John R. Slater is president, will soon be removed from Highland Park, near Walbrook, to a site near Lock Earn, Baltimore County, Maryland. Six new buildings will be erected upon the tract, which comprises about 480 acres. These buildings will be of stone, handsomely finished on the interior, all modern improvements, including steam heat, electric lights, etc.—W. S. G. Williams has sold to William B. Ehlen, through D. Sterling Gettings, a tract of ground on the New Liberty Gwynn Oak road, in Baltimore county. A number of attractive dwellings will be erected at an early day on the property. Quite an extensive building operation has been begun by J. Arthur, consisting of the erection of sixteen three-story brick dwellings on Augusta avenue. They will be well finished and supplied with modern conveniences and improvements.—John F. Armiger will erect seven two-story brick dwellings at the southeast corner of Preston street and Milton avenue.—Henry D. Harlan and Robert H. Smith, of the

building committee of the new court house, will receive proposals until April 1st for the construction and installation of the boiler plant, heating and ventilating apparatus, water supply system, fire pumps, etc., for the new court house for Baltimore City.—A large building operation will be begun at once by J. B. Brandon, who will erect thirty-two two-story brick dwellings on the east and west sides of Clarkson street, between Heath and Barney streets. A similar operation has been begun by Charles A. Lipp, consisting of the erection of twenty-two two-story dwellings on the north and south sides of Riggs avenue, between Monroe and Woodley streets.—A. H. Biedler has about finished the plans for the new church for the Sharp Street Methodist Episcopal congregation, at Etting and Dolphin streets.—Henry Brauns is preparing plans for the new power house to be erected on North avenue for the Consolidated Railway Company. It will be 44x216 feet, of stone, and well equipped for the intended purpose.—Charles Schneider has bought of Charles C. Stieff the lot adjoining his residence, and will improve the site by the erection of a large three story building to be fitted up as a summer and a winter garden, with roof garden, bowling alley, etc.—An ordinance has been passed providing for an appropriation of \$48,000 for the construction of a sewer in Bruce alley.

1625-1635 N. Fifth Street.

system, have ordered the following work: To lay cement sidewalk north side of Roanoke street, between 11th and 18th streets, northwest, estimated cost \$720; south side Roanoke street, in front of lots 34, 35, 36 and 37, block 27, Columbia Heights, sub division, cost \$182; in Providence street, Brookland, between Wallace (10), and Duncan (12),

abutting block 11, estimated cost \$570; in both sides of Providence street. Brookland, between Duncan (12) and Burns (13) in front of Blocks 20 and 21, estimated cost, \$1,650; in south side of C street, northwest, between 11th and 12th streets, in front of square 324, estimated cost \$550. That new curb be set and cement sidewalk laid as follows: In the north side of Bacon street, between 14th and 15th streets, in front of block 38, Columbian College sub-division, north part, estimated cost \$1,314; in Heckman street, south side, between 1st and 2d streets, southeast, abutting lot 138, square 736, estimated cost, \$175; in south side of G street northeast, between 14th and 15th streets, in front of square 1050, estimated cost, \$1,300. That curb be set as follows: On both sides of 17th street, between Grant and Park streets, Ingleside sub-division, estimated cost, \$154; also on both sides of Grant street, from 16th street to first alley west of 17th street, in Ingleside sub-division, estimated cost, \$97. Lay cement sidewalk as follows: In both sides of M street northwest, between 32d and 33d streets, in front of squares 1186, 1200, 1206 and 1207, estimated cost, \$2,600. That curb be reset and cement sidewalk laid as follows: In both sides of 12th street northwest, between N and O streets, abutting lots K, G, 19 and S, 19.58 feet of lot 15, square 280, and south 64 feet of lot 2, square 313, estimated cost \$220. That alleys be paved as follows with vitrified or asphalt: Alley in block 40, Columbian College, subdivision, north part, estimated cost, \$1,400; alley in block 4, Trinidad, estimated cost, \$3,200; alley, square 512, abutting lots 32, 33, 34, 35, 36, 37, 38, 39, 90, 91, 92, 93, 94, 95, 78, 79, 80, 81, 82, 83, part of 6 and part of 8, estimated cost, \$900; alley in block 45, University Heights, estimated cost, \$3,280; alley in square 691, estimated cost, \$1,150; alley, square 342, estimated cost, \$4,300. —The Washington Jockey Club will erect additional stables at the Benning Race Track on a site known as the Bronx tract, containing about six acres, and leased by Mr. August Belmont on behalf of the club for a period of ten years with the privilege of buying. —A fine building lot has been purchased by President Whitman of Columbian University. It adjoins the residence of Mr. J. B. Wilmer on Wyoming avenue and is 45x165 feet. The new owner has arranged for the erection of a handsome residence in the near future. —George S. Cooper has prepared plans for a handsome structure to be fitted up as an apartment house. It will occupy a site on Fourteenth street, between Wallack and "U" streets northwest. It will be four stories high, 60x80 feet, of dark Roman brick, laid in red mortar, and trimmings of Indiana limestone and copper. The entrance will be through covered porches, supported by heavy columns, surmounted by handsomely carved capitals, and roofs of Spanish tiles; each apartment will have an iron balcony, with fine railings, and the roof of the structure will have a parapet finish. There will be twelve suits of apartments, each containing five rooms and a bath. The most of the interior finish will be in ivory white; the bathrooms will have the floors and wainscoting, fine plumbing and fixtures throughout. Mosaic tile will be used in the floors of the lobby and halls, and the finish will be in quartered oak, with fine staircase of the same; cabinet mantels, plate and ornamental glass, steam heat, electric lights and all modern improvements. The estimated cost is \$30,000. —Arthur L. Bryant will erect a small apartment house at 18 "Q" street northwest. It will be 20x70 feet, two stories high, and well finished; plans also by Mr. Cooper. —The same architect has also made plans for a row of eight dwellings to occupy ground on the north side of "U" street, between Fourteenth and Fifteenth streets. Each will be three stories high, will contain ten rooms and finely appointed bath-room,

with tiled floors and walls. The interior finish will be in ivory white and other colors to suit the decorations, cabinet mantels. The exterior will be of Roman brick, Indiana limestone trimmings, slate roofs, balconies, copper work, brick and stone porches. The builder will be John H. Nolan. —Quite an extensive building operation will begin at once consisting of the erection of twenty-six two-story dwellings, facing Garfield Park, between Second and Third streets. They will be two stories high, of brick, well finished and provided with all modern conveniences and improvements. The owner is W. J. McClure. —Frank L. Harvey has been awarded the contract for the erection of the office building to be put up for the Columbian University on the site of the old law building on Fifth street facing Judiciary square. Mr. Harvey's bid was \$75,000, which does not include the cost of putting in elevators or heating apparatus. The entire cost will be about \$100,000. The proposed structure will be seven stories high, of steel, brick and stone, handsome interior finish and all modern conveniences and improvements. Work will begin at once on this structure. —Work has begun on the erection of ten dwellings at Kalorama and Twentieth streets, Washington Heights. They will be erected in pairs, well finished and provided with modern conveniences. —It is said that some action will be taken by the Maryland State authorities looking to the improvement of the various country roads leading into Washington. The county commissioners of Montgomery county have acquired the ownership of the Rockville pike and it is said to be their intention to ask authority to issue bonds for its improvement. The mayor and city council of Laurel, Maryland, are also considering the advisability of macadamizing the Baltimore and Washington turnpike, and the construction of a bicycle path between Baltimore and Washington. The Senate District Committee has ordered to be reported favorably the amendment appropriating \$50,000 for the commencement of the Massachusetts avenue bridge. Also \$16,600 for the improvement of Sixteenth street; \$10,000 for grading and regulating Kenesaw avenue and Park road, and \$10,000 for paving Kenesaw avenue.

#### Lot Buyers.

At West Chester, Maurice Durnall has bought a lot on East Minor street for \$400.

#### Building Permits.

O is the abbreviation for owner.

C for contractor.

#### Wants.

At Nashville, Ga., it is said that bids will be received until March 21st for the erection of a new court house. F. M. Shaw is chairman of the committee and can give information.

At Grand Haven, Mich., bids will be received until March 8th for the erection of a county jail. Separate bids are wanted for hot-water heating. Address F. J. Fox, chairman of committee.

At Genesee, N. Y., bids will be received until March 10th, for the erection of a new court house for Livingston county. Address Newton B. Gorham, clerk of board of county supervisors.

At Wilkesbarre, Pa., sealed proposals will be received until March 14th for the construction of an embankment dam, with a masonry core wall at Gardner's creek. Address, The Spring Brook Water Supply Company, No. 18 North Main street.

At Boston, Mass., the Boston Elevated Company has offered a special prize of \$1000 to architects for the best study of an elevated railway station. A number of stations will be erected. John T. Burnett, clerk of the corporation, may be addressed for particulars.

At Washington, D. C., Treasurer's office, United States Soldiers' Home, E. F. Ladd, secretary and treasurer, will receive proposals until March 14, 1898, for Summer clothing, consisting of straw hats, dark blue trousers, unlined blouses, cotton shirts, Canton flannel drawers, low-cut shoes, Harvard ties, cotton and woolen stockings, cotton sheets, cotton pillow cases and hand towels.

At Washington, D. C., Claude M. Johnson, Director of Bureau of Engraving, will receive proposals until March 14th, to furnish dry colors, hardware, engravers' supplies, binders' supplies, typographic ink and lumber. Also sealed proposals until April 4th for textiles, plumbers' supplies, grocers sundries and rubber goods. Also sealed proposals until April 18th for chemicals, oils and paper.

At Philadelphia, 1428 Arch street, Depot Quarter Master's Department, Colonel John V. Furey, Deputy Quartermaster General, U. S. A., will receive sealed proposals in triplicate until March 4th, 1898, for furnishing vitrified china dishes, glass tumblers, butcher knives, carving sets, chopping bowls, dippers, dish

pans, meat cutters, blades for meat saws, table forks and knives, solid steel and silver plated.

At Baltimore, Md., office of the court house commission, Henry D. Harlan and Robert H. Smith, sub-committee of the building committee, will receive sealed proposals until April 1, 1898, for the construction and installation of the boiler plant, heating and ventilating apparatus, water supply system, fire pump, etc., for the new court house for Baltimore City. Copies of the drawings and specifications may be seen at the office of the inspector of buildings, City Hall; at the office of the architects, 4 East Lexington street, or at the Builders' Exchange.

### Miscellaneous.

At Louisville, Ky., the American Tobacco Company's plant was destroyed by fire last week. The estimated loss is about \$200,000.

At Springfield, Mass., the supervisors of highways and bridges are considering the subject of paving Main street with vitrified brick or asphalt. It is proposed to remove the present paving of granite block and substitute brick or asphalt. The estimated cost is about \$35,000. The congregation of the Third Universalist Society will erect a new edifice. Rev. Charles Conklin is the pastor. E. C. Barr has bought the property at Main and Vernon streets for \$84,000. It is said the new owner will demolish the buildings on the site and erect a modern structure for business purposes.

At Worcester, Mass., the legislative committee on public charitable institutions has reported an appropriation of \$29,000 for the Worcester Lunatic Asylum. Of this sum \$11,000 will be used for a new boiler and for enlarging the boiler house, and \$18,000 for a new kitchen. It is said that R. C. Taylor, of Worcester, the owner of the Bijou Theatre, recently destroyed by fire, will rebuild the structure at an early day. The estimated loss was about \$60,000. Considerable alterations will be made to the Church of Christ in the spring. The plans for the changes have been approved. Rev. Roland A. Nichols, 12 Woodland street, is one of the members of the building committee, and can give information. It is said that a Boston syndicate is considering the purchase of the Worcester agricultural grounds for \$225,000. This sale would put on the market some fine residence property.

A Columbus, O., the congregation of the Roman Catholic Church of St. John the Baptist will erect a new church building to cost about \$50,000. It will be of brick, terra cotta and stone, slate roof, copper cornices, steam heat, fine interior finish and church fixtures. The plans have been prepared by W. H. Ginther, of Akron, O. Rev. Alexander Castellini is the pastor. The same architect has made plans for a fine church to cost \$75,000 to be erected by the Roman Catholic congregation of St. John the Evangelist, of which Rev. Welsinger is pastor, at Columbus. It will be handsomely finished, slate roof, copper cornices, steam heat, etc.—A. J. Solomon, North High street, has made plans for a dwelling for John Evans. It will cost about \$3,000.—F. W. Elliott, Wheeler Building, has prepared plans for a dwelling for the W. T. Mills estate, to cost \$5,000.

### Judgments

#### PHILADELPHIA.

#### ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M,

for March Term; J, for June Term, and S, for September Term.

S. F.—Scire Facias, to revive judgment. A star (\*) denotes judgment confessed or bond and warrant conditioned.

# THE PHILADELPHIA Real Estate Record AND BUILDERS' GUIDE.

DEVOTED TO REAL ESTATE, BUILDING, ARCHITECTURAL AND INSURANCE INTERESTS

[ENTERED AT THE PHILADELPHIA POST-OFFICE AS SECOND CLASS MATTER.]

VOL. XIII.—No. 10.

PHILADELPHIA, WEDNESDAY, MARCH 9, 1898.

\$5.00 PER YEAR.

## Architect Notes.

Plans are in the office of the Lighthouse Engineer, Room 20, Post Office building, in this city, for estimates until March 23, 1898, for a residence, to be erected at Maurice Range Light Station.

Morgan Bunting, architect, formerly of the Head Building, has leased and fitted up a fine suite of offices in the new Crozier Building, 1429 Chestnut street, where he will be glad to meet friends and clients.

Stearns & Castor, architects, Stephen Girard Building, have completed the plans, previously noted in these columns, for nine three-story houses to be erected at Fifteenth and Tioga streets. Owner's name not given.

Milligan & Webber, architects, 520 Walnut street, have on boards plans for a chapel, to be erected at Fox Chase, near this city. It is to be of local stone and granite, 60x75 feet. Definite details will be noted later, when plans and specifications have been agreed upon.

Savery & Scheetz, architects, Stephen Girard Building, are making plans for alteration and addition to a house in Germantown. Included in general details are stonework and brick, hot air heat, electric wiring, plumbing and general conveniences introduced.

A. H. Moses, architect, 419 Walnut street, is making plans for alteration to a store and residence at Frankford avenue and Jefferson street. Included will be hot air, cement work, tile work, plumbing and glass work, as well as general details for comfort and modern improvements.

Dull & Peterson, architects, 1110 Walnut street, are making plans for a residence at Germantown, for local owners. It will be of stone and brick, three stories high, slate roof and interior in hard wood finish and every modern comfort; electric work, plate and leaded glass, baths, tile work, etc.

Isaac Purcell, architect, 119 South Fourth, and the Chester National Bank directors have given the contract for their new structure to William Provost, of that place. As before noted, it is to be a stone, iron and brick construction, steam heat, electric work, vaults, and general bank fixtures.

Bids are being received by James H. Windrim, architect, 1107 Walnut street, for fitting up the office of City Trust Directors, in the Stephen Girard Building, Twelfth above Chestnut street. These include shelving and office fitting entirely, as well as furniture.

Charles M. Burns, architect, 717 Walnut street, has placed on boards the plans for the three-story parish building of the P. E. Church of the Annunciation, at Twelfth and Diamond streets. Estimates now being made on the work, which has been fully noted previously.

E. S. Paxson, architect, 729 Walnut street, is engaged on plans for four very fine houses, to be erected in West Philadelphia. These are to be of brick and stone, two-stories high, with a basement, and finished in best style and modern conveniences, etc.

Westray Ladd, architect, Franklin Building, Twelfth and Walnut streets, has made plans for a stable to be erected at 2026 to 2034 Dillman street. It is to be brick and stone, two stories, and contain all modern improvements. Mr. Ladd is engaged on other work, which we shall note in future.

William Macauley, architect, 1530 Chestnut street, has plans on boards for a large operation of dwellings at Fiftieth street and Baltimore avenue. All are to be three-stories high, face brick, stone trimmings, hot air furnaces, ranges, and general home comforts introduced. Owner's name withheld for the present.

Hazelhurst & Huckel, architects, Girard Building, have made plans for a bath house, to be erected in the Twenty-third ward. The structure will be of frame, terra cotta and brick work. Slate roof, fitted with closets on interior, and concrete bottom to pool. Estimates are being made on work, and all to be in by March 11, 1898.

Robert A. Pitts, architect, 223 South Third street, is taking bids at his office on forty-eight houses, to be erected at Forty-eighth street and Baltimore avenue, for a private owner. These are all to be of face brick, stone trimmings, three-stories high, 17x55 feet, slate roofs, leaded and plate glass, and best interior accommodations.

Charles M. Robinson, architect, 1910 West Chestnut street, Altoona, Pa., is engaged on plans for an almshouse and insane department for Elk county, Pa., to be erected at Ridgeway, Pa. It is too early to give full details, but it will be of brick and stone, two and three stories high and replete with all comforts and general conveniences for the purposes. Noticed more fully later.

D. A. Woelpper, architect, 1432 South Penn square, is making plans for ten houses, to be erected at Forty-ninth and Westminster avenue, for local owners. These are to be of dark red press brick, brownstone trimmings, galvanized iron cornice, hard woods on interior, ranges, heaters, tile work and best general conveniences, etc.

Architect E. Allen Wilson, 402, Bourse Building, has completed plans for fifty-four two-story houses to be erected at Fifty-third and Jefferson streets, for William F. Morris, builder. Mr. Wilson is also engaged on plans for two large stores and five three-story houses at Cayuga street and Germantown avenue, for J. B. Vanderslice. He has also furnished plans for fifteen large houses at Adams road and Penn street, Frankford, for Edward Laib.

Cope & Stewardson, architects, 320-4 Walnut street, have made plans for a gymnasium for the House of Refuge, at Glen Mills, Delaware county, Pa. The structure will be of brick, with Indiana limestone trimmings, 188x128 feet, one story high, slate roof, heated by steam, and furnished in best manner in the office. Estimates are being made in the office of the Messrs. Pennock, 305 Walnut street, as well as other contractors.

George Lovatt, architect, 424 Walnut street, has made plans for a new additional school building for the Sacred Heart R. C. Church in this city. The structure is to be two-stories high, it will be of red brick, with stone trimmings, and fitted on interior with a billiard and amusement room also cloak-rooms for four school rooms on first floor; the second will contain school and entertainment rooms as well. Estimates are being made and the contract will be awarded at an early day.

After competition, the plans of Messrs. Rankin & Kellogg, architects, 1024 Walnut street, this city, have been selected by James K. Taylor, Supervising Architect, Treasury Department, for the new government building, to be erected at Third and Arch streets, Camden, N. J. The structure will be two-stories high, in the Renaissance style of architecture, white marble, and have a frontage of 85x105 feet deep. The first floor will contain the customs office, internal revenue, post-office and other minor offices; the second will be fitted for court purposes, district attorney for that district, etc. The basement will contain steam heat plant and rooms for postal employees, etc. The building will be fire-proof throughout; tile and mosaic work, gas and electric work, plate and leaded glass, and best of sanitary plumbing, slate and cement work, artificial flooring and paving, etc. Work may be started during the coming spring months.

H. J. Hardenburg, architect, 10 West Twenty-second street, New York City, has finished plans for an extensive addition to the "Hotel Raleigh," at Washington, D. C. The new building will be practically eleven stories high; brick, stone, terra cotta and iron being the material. The interior will be fitted with elevators, lifts, electric plant, iron and brass grille work, marble, slate, tile and mosaic work. Cement floors and artificial pavements, plumbing of the most approved system, and every convenience of general hotel comfort will be introduced. Estimates are being made in the office of J. E. and A. L. Pennock, contractors, 305 Walnut street. In same office are drawings for the proposed addition to the Union League Club, on Sansom street. These are by Addison Hutton, architect, and contemplate a fine verandah and yard for summer purposes, also a wheel room under the club's main building for bicycles.

## DAVIS & HARVEY'S New Real Estate Auction Rooms

Davis & Harvey's first sale of Real Estate at auction,  
in their own auction room, Land Title Building, S. W.  
corner Broad and Chestnut streets, will take place on  
Monday next, March 14th, at 12 o'clock, noon.

This is an innovation in the real estate auction busi-  
ness which merits more than a passing notice, for it  
represents progression of a high order. For the first time  
the whole city is selected in which to hold an auction  
sale of real estate; besides which these rooms are to  
be made headquarters at which buyers and lookers may  
be enabled to keep track, through frequent visits, of what  
is offered both at private and public sale.

PHILADELPHIA, WED'Y, MCH. 9 1898.

### Isaac A. Sheppard.

After a long and useful life there passed away, on the 6th inst., one of Philadelphia's foremost and leading citizens, in the person of Isaac A. Sheppard. A peculiar trait in the character of Mr. Sheppard was that his life was not a selfish one in any sense, but filled with consideration for the welfare of not only those who were connected in business pursuits with him, but his ambition to benefit humanity at large was felt throughout the community in which he lived and created one of the leading industries of this country, and established for himself the well earned name of a public benefactor. Few men's lives have been filled with such varied public service as that of the deceased: an active and useful citizen, an ardent church worker, a valued member of the House of Representatives of Pennsylvania, and Speaker *pro tem.* of that body twice in succession; a director of several successful financial institutions in this city; also for many years served as President of the Board of Education, in which capacity he left a name which will ever prove an enduring monument to his memory. Mr. Sheppard was also prominently identified with several societies, among which were the Masons and Odd Fellows, the latter of which he served as Past Grand Master, and the former as Past Master. His church work was co-equal with his life, and in all these private and public duties he rose to the highest standard of usefulness and illustrated, in a marked degree, what may be accomplished by perseverance and integrity.

The sale of the Wistar properties at auction by Messrs. Barnes & Lofland, at the Bourse, on March 1st, excited considerable interest. The audience was the largest seen at a sale of real estate for some time.

The Wistar mansion, 1426 Chestnut street, brought \$375,000. The lot is 50 feet on Chestnut by 232 feet to Sansom street,

Nos. 232, 234 and 236 Juniper street, and 231 and 233 Lybrandt street, consisting of three-story brick dwellings, sold for \$14,750.

Northeast corner Dean and Canby streets, two and one-half story brick dwelling, \$3,100. Three-story brick store and dwelling, 431 Vine street, \$3,100. Three-story brick dwelling, 1109 Wistar street, \$2,050. Three-story brick dwelling, 1111 Wistar street, \$2,000. Three-story brick dwelling, 1113 Wistar, \$2,425. Three-story brick dwelling, 1010 Wallace, \$4,600.

The farm tracts, representing large acreage, were bought by parties who contemplate their division into parcels suitable for large building operations. The prices are considered fair, inasmuch as each tract involved a large amount of purchase money. The prices are as follows: No. 2, Oaklands, a farm of 33 acres and 74 perches, on Hartshorn and Oxford roads, Twenty-third ward, \$2,350 per acre. No. 3, A farm of 56 acres and 120 perches, fronting on Oxford road, Twenty-third ward, \$2,100 per acre. No. 4, Lot north-west corner Broad and Green streets 100 feet 8½ inches on Broad, 395.8 on Green and 100 feet 8 inches on Fifteenth street, \$125,000.

No. 5, Lot northwest corner Fifteenth and Mount Vernon streets 201.5 on Fifteenth street, 120.61 on Mount Vernon street, 171.21 on Wallace street, \$57,000.

No. 6, Lot southeast corner Ridge avenue and Mount Vernon streets, 125 feet 10½ inches on Ridge avenue, 144 feet 2½ inches on Mount Vernon street, \$18,000.

No. 17, Lot east side of Fifth street, 30 feet 2 inches south of Reed street, First ward, 40x189.7x11.2x190 feet, irregular, \$5,900.

No. 18, Lot on west side of Fifth street, 19 feet south of Reed street, First ward, 63x17 feetx3x32 feetx60x49 feet, \$8,900.

No. 19, Lot 336 South Third street, Third ward, 20x94 feet, also ground rent issuing from the same of \$100 per year, both sold for \$2,200.

The properties at Atlantic City sold as follows: 407 Pacific avenue, two and one-half story frame, lot 150x32½ feet, \$6,500. On Rhode Island avenue, 300 feet north of Pacific avenue, two and one-half story frame, lot 150x60 feet, \$10,000. On Massachusetts avenue, 50 feet north of Pacific avenue, two-story and mansard frame, lot 150x5 feet, \$10,250.

Hotel property known as the "White House" with adjoining lot, on Massachusetts avenue, 150 feet north from Pacific avenue, also with two-story frame cottage and stable, entire plot being 200x300 feet, \$17,000.

### The City's Revenue.

The city's revenue from all sources for the month of February, as per the report of Receiver of Taxes Boney, amounted to \$1,037,854.96, distributed as follows: City tax, \$536,115.04; State tax, \$115,377.80; search fees, \$495.40; poll tax, \$5.00; city tax, delinquent, \$146,700.08; State tax, delinquent, \$2,180.88; water rents, \$212,472.86; search fees, \$389.25; highways, \$1,468.25; surveys, \$5,858.82; ven dors, \$3,730.00; markets, \$973.00; wharves and landings, \$1,262.50; city property, \$177.75; fire-

escapes, \$30.00; fire, \$446.60; boiler inspection, \$1,513.15; electrical, \$5,087.00; building inspectors, \$1,951.55; amusement, \$650.00; petroleum, \$105.00; sales and fines, \$710.05; lodging house licenses, \$180.00; total, \$1,037,854.96.

### Architect Notes.

Furness, Evans & Co., architects, Provident Life Building, Fourth and Chestnut streets, will make the plans for the re-building of the stables of A. J. Cassatt, at Berwyn, Pa. These will likely call for material of the same kind as the former structure, stone and brick.

### Building and Real Estate Notes.

Davis & Harvey have removed the real estate department of their auction business to the Land and Title Building, Broad and Chestnut streets.

The J. G. Brill Car Company have started the erection of a packing shop on Woodland avenue and Sixtieth street. It will be 86x145 feet and one-story high.

The residence of John W. Allison, 2018 North Broad street, was badly damaged by fire on the 3d inst. Interior especially will need remodeling and refitting.

The Woman's Hospital Association at Preston and Parrish streets, have bought a lot 60x120 of C. M. Wright, and intend to erect a building after they have secured sufficient funds.

George Watson & Sons, contractors, will erect a four-story bus ness building, at 1716 Chestnut street, for Charles F. Wall, to be 20 x 145 feet, stone and terra cotta, and best improvements on interior.

Edward Laib, builder, will start an operation of houses on Adams, Franklin and Penn streets, Frankford. The e are to be thirteen in number, and two stories high; brick and stone, modern convenience on interior.

W. A. Patterson builder, will at once begin to erect twenty-eight houses, three stories high, on Fifty-second street, south of Westminster avenue. All to be of brick and stone, with best interior work and conveniences.

Maconaghy Brothers have begun operations for the spring months with eight two-story houses on Arch, west of Fifty-sixth street. Fancy brick fronts, stone trimmings and neat modern improvements in interior.

G. Jason Waters, who will manage the new apartment house to be erected at the southeast corner of Fifteenth and Walnut streets, has taken title to the site. The consideration was nominal, subject to a ground rent of \$8,000.

During the past week fire has been destroying quite a number of suburban structures of note, among which were the stock stables of A. J. Cassatt, at Berwyn, Pa., also the summer hotel known as Thatcher's Inn, at Darby, and the summer hotel at Fernwood, Delaware county. From present information it is likely the above buildings will be rebuilt at once, or as soon as the insurances can be adjusted.

## TRUSTS. TITLES. DEPOSITS.

## THE PLANT OR THE LAND TITLE AND TRUST COMPANY, 608 Chestnut Street,

Covers every foot of ground in Philadelphia, and is the only Plant containing an abstract of every Deed, Mortgage, and Sheriff's Sale of record in Philadelphia since 1682 located against each property described.

This Plant necessarily gives great additional protection to purchasers and mortgagees taking this Company's policy of Title Insurance, apart from the security of its One Million Dollars full paid capital.

### Beautiful Sea Shells

Every one admires them. Since coming south I have received numerous inquiries from northern people for sea shells, and now I am prepared to answer yes, I can send you shells, for I have made quite a collection of lovely shells, both from our own coast, the coral reefs, and some beautiful ones from the West India Islands. I will mail a dozen or more different kinds, no two alike, to any one who sends a stamp for postage. Also send you a lovely piece of white branch coral.

Yours, **MRS. F. A. WARNER,**  
Jacksonville, Fla.

Box 46. Waterbury, Conn.

## MURESCO!

It is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effect of kalsomine, without the flashing, with none of its disadvantages. It does not rub off against the clothing; will not crack nor peel. It will kill suction, and gives a smooth, soft, even coat over an old plastered wall that has been patched. It comes in fifteen artistic colors and white.

You may have a color card and full information about MURESCO for the asking.

**BENJAMIN MOORE & CO.,**

256-262 Water St., Brooklyn, New York.

Wright & Prentzell, contractors, will at once erect twenty-two dwellings, 15 x 54 feet, on south side of Aldrie street, between York road and Thirteenth street, all to be of press brick, stone trimmings, and best conveniences on interior.

Louis Paul, contractor and builder, will at once begin the erection of four dwellings at Twenty-sixth and Gordon streets, and at Twenty-sixth and Arizona streets. All to be of press brick, stone steps and facings and best improvements.

William Gleason, contractor, has started to make alterations to the grain elevator at the southeast corner of Twentieth street and Pennsylvania avenue. This is made necessary by the construction of the subway for the P. and R. Railway.

William R. Dougherty, contractor, 1604 Sansom street, has started work on alteration in the S. S. White Building, southeast corner Twelfth and Chestnut streets. These consist of offices for the use of the firm, which are to be of a handsome design and best materials.

Mr. William Weightman has taken title to the Presbyterian publication property, 1334 36 Chestnut street, 44 x 235 feet, and it is understood intends in the near future to improve all his holdings in that vicinity by erecting a large office and general business building.

Philip Anns, contractor, Bourse Building, has been given a contract to erect the store and amusement building at Asbury Park, N. J., for a New York syndicate. It is to be of brick and frame, steam heat, plate and leaded glass and fitted for summer sports. Previously noted.

Mackin & Brown, contractors, 147 North Seventh street, are taking estimates on an additional building at Tenth and Cherry streets, for Henry Tellow, perfumery manufacturer. The plans contemplate four stories, slow burning construction, slag roof, steam heat, electric work, speaking tubes, etc.

The bill for increasing the debt of our sister city, Camden, N. J., having now become a law by the signature of Governor Voorhes, of that State, improvements of an extensive character are intended to be put in operation. These contemplate chiefly newly paved streets, etc., asphalt and other material being used.

The United Firemen's Insurance Company has re-elected Robert B. Beath, president; Joseph L. Cavey, vice-president; Dennis J. Sweeney, secretary; William G. Wible, assistant secretary; William R. Gardy, surveyor. The company, under the careful direction of Colonel Beath, is meeting with decided success.

George Watson & Sons, contractors, 907 Marshall street, have a contract to erect a very fine stable for Mr. George W. Childs Drexel, at 1630-2 Chancellor street; the plans being private, call for a face brick and stone building 20x60 feet, two stories high, steam heat, electric light, stable fittings of the most approved kind, carriage lift, etc.

Dooley Brothers are erecting, or about to erect, fifty dwellings at Fifty-second and Westminster avenue. All to be of fancy buff brick and stone trimmings, with best modern conveniences on interior, and cost of whole will be about \$170,000. There will be heaters, ranges, gas fixtures, plumbing, tin roofing, electric work, papering and plastering.

Thomas Bennett, 923 Locust street, is working on plans for four houses to be erected in Germantown, for local parties. These are to be brick and stone, three stories high, 17x65 feet, and the interiors to contain hard wood finish and all general conveniences. Same architect has drawings for a large operation of houses in West Philadelphia, to be of fancy brick, stone trimmings, and the most approved conveniences. Estimates are in order for the work.

Buck & Gallagher, northwest corner Ninth and Wolf streets, have the contract for furnishing the Indiana limestone and boiler work on new ice machine and boiler house for Mr. William A. Heingartner, at 1232 Frankford avenue; also brownstone work on twelve three-story dwellings for Mr. Walter B. Scott, at Forty-fifth and Locust streets, and 176 two and three-story dwellings at Twenty-ninth and Huntingdon streets, for Mr. Sol. Greenberg.

The contract for the addition to the Swarthmore Grammar School, at Swarthmore, Pa., has been given to Franklin L. Knight & Co., contractors, Fidelity Building, Broad above Arch street. This work has been fully noted in previous issue of this journal. Same contractors are engaged on a large operation of dwellings at Bala. These are of the regular suburban kind of homes, and constructed with various materials, stone brick, and terra cotta work, interiors in hard woods, steam and hot-air heat, electric work, plate and leaded glass, etc.

Thomas G. Hunter, Tenth and Chestnut streets, is taking estimates on an operation of houses, to be erected at Forty-seventh and Spruce streets, for Mr. E. P. Hunter, of this city. These are to be of face brick, stone trimmings, galvanized cornice, tin roofing, and measure 20x65 feet; three-stories high, hot air furnaces and ranges combination fixtures, electric work, tile and marble work, etc. Also on forty dwellings, to be erected on Naudain street, West Philadelphia, which are to be of practically the same material as the above.

The Philadelphia and Reading R. R. Company intend constructing at Pier 11 Port Richmond, in this city, one of the most extensive wharves along the river front. It will be 770 feet in length and 60 feet wide, and fitted with all modern conveniences for the handling of coal and freight. The company have also asked for proposals on an extension of the large elevator at Ann street. It will be enlarged, 117x128 feet, and in both wings 101 feet wide. Its general capacity will be doubled for shipment of grain.

Some time ago we noted the purchase by a syndicate of Philadelphians, of ground in the suburbs of West Philadelphia, extending from Sixty-third to Sixty-fourth street and from Lansdowne avenue to Jefferson street, from the Haverford College corporation. Active operations are about to start in building, grading, and draining, by Florey & Bevan, the well known builders, 14 South Broad street. The houses are to be in pairs and individual, all having fine plots of ground on either side. They are to be of stone and fancy brick to a great extent, best materials for exterior and interior are subject to order by purchasers, before the building may be started. In all 132 dwellings will be built and will be heated by steam, hot water or hot air, gas grates also, electric work, hard wood mantels, china closets, best system of plumbing, ranges and every general convenience introduced.

### Through Pennsylvania.

When any of the following are not post office towns they will be so designated.

—At Boyertown, Berks county, the congregation of the Lutheran Church will erect a parsonage.

—At Bernville, Berks county, F. P. Platt, of Washington, D. C., has bought a lot 60 x 230 feet, and will erect a fine cottage.

—At Carbondale, Lackawanna county, it is reported that the Crystal Lake Water Company has bought Brownell's swamp, and will construct a large storage reservoir on the site.

—At New Castle, Lawrence county, the bill providing for the erection of a government building has passed the Senate.

—At Mount Olivet, Allegheny county, it is probable that a new eight-room school building will be erected at a cost of about \$1200.

—At Tarentum, Allegheny county, at a recent election it was decided by vote to issue bonds in the sum of \$15,000, the proceeds to be used for sewer construction.

—At Ephrata, Berks county, work will begin in a short time on a large addition to the Ephrata silk mill. It will be four stories high, 95 x 44 feet, and well-finished and equipped.

—At Kutztown, Berks county, the Kutztown Foundry Machine Company will double the capacity of its plant by the erection of a large building which will be fitted up as a foundry.

—At Bellevue, Allegheny county, an election will be held in a short time to vote on the question of issuing bonds to the amount of \$40,000, to be used in the construction of a sewerage system.

At Harrisburg, it is said that a sand filtration plant will be constructed at the State Hospital for the Insane. It is estimated that the proposed plant will filter 400,000 gallons of water daily.

—At Christiansa, Lancaster county, the mill and grain warehouse of B. F. Wallers was destroyed by fire last week. The estimated loss is \$15,000, on which there is an insurance of \$11,000.

—At Woodville, Allegheny county, it is stated that the plans prepared by F. J. Osterling, of Pittsburgh, Pa., have been accepted for the proposed new County Insane Asylum which is to be erected at a cost of about \$200,000.

—At Fernwood, Delaware county, a fire occurred at the Mansion House a few days since, and R. M. Newhard's drug store and Fernwood Hall were burned to the ground. Mr. P. T. Jeffers can give information. The loss was about \$20,000.

At Lebanon, Lebanon county, the city council is considering the question of putting in considerable water pipe in the spring in order to improve the distributing system. J. D. Kerr is clerk of the water board and George W. Hays city engineer.

—At Media, Delaware county, the water committee of Media borough is considering the question of making a number of improvements to the water works, including increased pumping capacity, a filtration plant and a stand pipe. The estimated cost of these and other improvements is \$20,000.

—At Gettysburg, Adams county, the congregation of St. Francis Xavier's Roman Catholic Church has had plans prepared for a new edifice. It will be of brick and stone, slate roof, fine interior finish, plumbing, hardwood furniture, handsome fixtures, electric lighting, stained glass windows, fine altar, water closets, wash stands, steam heat and all modern conveniences and improvements. The pastor in charge is Rev. H. S. Christ.

—At Chester, Delaware county, the Penn Club has bought the Applesby mansion on East Fifth street, and will fit it up and remodel it to suit the uses of the club. An architect will draw plans for the proposed improvements, which will include billiard room, parlor, reception and reading room, a large assembly hall. All modern conveniences will be introduced. The price paid for the property was \$9,000. William A. Irving, Geo. M. Banting and Wm. W. MacFarlane was the purchasing committee.

—At Phoenixville, Chester county, arrangements have been completed by which a large silk mill will be erected for Johnson, Cowdin

**H. E. SEALEY,** Local Manager

—At Reading, Berks county, W. A. Griesmer will erect four two-story brick dwellings on the west side of Pear street, between Buttenwood and the Lebanon Valley railroad. —Benz Bros. will erect a three-story brick building on the south side of Ninth street between Burg avenue and Muhlenberg street; also a two-story brick stable in the rear of 258 South Ninth street. —E. W. Landis will erect six two-story dwellings on North Third street, between Douglas and Windsor streets. —Mrs. W. Bischof will erect a handsome building at 343 and 345 Penn street. It will be three-story, of brick, and the lower part will be fitted up as stores, the upper part for dwelling purposes.

—At Chester, Delaware county, it is reported that the Chester Traction Company has begun surveys for the proposed trolley connection between Wilmington and Marcus Hook. —The erection of the proposed Chester County Asylum for the Insane will be delayed three months longer, owing to the

fact that the State Board of Charities will not approve the plans and specifications of the proposed building unless they call for a fire proof building. As they will cost more than expected the county commissioners have decided to submit the proposition for such a building to the Grand Jury before bids are called for. It is thought the Grand Jury will sanction the plans.

### Through New Jersey.

At Perth Amboy, Middlesex county, the Marcy Store Works, which were recently destroyed by fire, will be rebuilt at once. The address of the company is 74 Beekman street, New York City.

At Paterson, Passaic county, W. E. Dickerson has prepared plans for a two-story frame dwelling to be erected for Julia Dickerson, 146 East Twenty-first street.

At Westfield, Union county, G. B. Webb will erect a two and one-half story frame dwelling.

ling 84 x 45 feet, to cost about \$4000. The plans have been prepared by Francis H. Bent, 94 Liberty street, New York City.

At Ocean City, Cape May county, a company to be known as the People's Water Company has been incorporated with a capital of \$100,000. The incorporators are George Pfeiffer, Jr., Samuel C. Smith, William H. Boardman and others.

At Trenton, a charter has been granted to the Ewing Passenger Railway Company to construct an electric road in Ewing township, a suburb of Trenton. The incorporators are Henry C. Moore, Judge Robert S. Woodruff and others of Trenton.

At Valhalla, Essex county, it is said that at the recent election it was decided to bond the town for \$70,000, of which \$40,000 will be used toward securing a water plant, and the rest for the privilege of connecting with the proposed South Orange trunk sewer system.

At Mount Holly, Burlington county, a petition has been presented to the Board of Freeholders by Samuel W. Belden, of Bordertown, for the right of way through Burlington county for the Monmouth Traction Company. A hearing will be had on the subject on April 5, 1938.

At Trenton, a company to be known as the San Juan Bautista Water Co., of Juan Bautista, Tabasco, Mexico, has been incorporated at Trenton, with a capital of \$200,000. The incorporators are Lemuel E. Miller, James E. Taylor and John Halpin, of Cape May City, New Jersey.

At Bayonne, Hudson county, the mayor and council have requested that the C. R. R. Co. build a bridge at East Thirteenth street. Superintendent Olhusen has promised to recommend the same. The estimated cost is about \$9000. Emmett Smith, City Engineer, can give information.

At Newark, the C. Peegenspan Brewing Company will erect a 4-story brick stock house 92 x 53 feet, from plans prepared by Hooper & Co.—Magdalena Jester will erect a two and a half story frame dwelling from plans prepared by William K. Schoeing.—William E. Lehman has prepared plans for a stable to cost \$2000, to be erected for Max Maier.

At Camden, Governor Voorhees has signed the bill which permits bonds to be issued for street improvements. Council will hold a meeting on Thursday, March 10, when proposals for the issue of bonds to the amount of \$200,000 will be opened. It will be followed as soon as possible by bids for the paving, and it is thought that work can begin about April.

At Maplewood, Essex county, Charles Brantigan, Central Market, Newark, has arranged for the erection of a two and a half story frame building to be erected at Springfield avenue and Valley street, and which will be fitted up as a road house. It will be handsomely finished and provided with all modern conveniences, and will cost about \$10,000. William E. Lehman, Prudential Building, Newark, has prepared the plans.

At Jersey City, Charles Bosies will erect a two-story frame dwelling, to cost \$7,500.—C. M. McAllister, 49 Nassau street, New York City, will erect a two-story frame dwelling, to cost about \$3000. The plans have been prepared by Albert Pia.—Plans have been submitted to the Board of Water Works by Acting Chief Engineer Van Keuren for the Manhattan avenue sewer. The estimated cost is about \$10,000.

At Hasbrouck Heights, Bergen county, Thomas Aitken will erect a store and dwelling to cost \$3000.—Edwin M. Anson, 257 Broadway, New York City, will erect a two-story frame store and dwelling, 40 x 50 feet, and A. B. Morrison, 257 Broadway, New York City, will erect a two and a half story frame dwelling to cost \$5000. It will be finely finished, considerable tile work and all modern conveniences and improvements. The architect for these dwellings is A. B. Morrison, 257 Broadway, New York City.

### Through Delaware.

At Seaford, Sussex county, a shirt factory will be erected.

At Wilmington, at a recent meeting of the Board of Trade, the bill sent to the Legislature authorizing City Council to borrow \$100,000 for harbor improvements was approved. The Board will also take steps toward the improvement of the roads in Newcastle county, the first object being to get a good road between Wilmington and Newcastle. A committee was appointed to draft a bill to be presented to the Legislature providing for putting short term prisoners to work on the roads in the county. President Lawton appointed the committee.—The Wonderland Theatre was destroyed by fire last week. The building was owned by George S. Alernon and was fully insured.—The Wilmington & Chester Traction Company has been incorporated to construct and operate a trolley line between Chester, Pa., and Wilmington, Del. The capital is \$2,000,000. The incorporators are Henry C. Moore, President of the Trenton Passenger Railway Company, of Trenton, N. J.; Henry A. McCarthy, of Ridley Park, Pa.; Clarence Sell, of Darby, Pa., and others.

### Through Maryland.

At Cumberland, the West Virginia Central Railroad Company will begin at once the construction of an overhead iron bridge, 160 feet long and twenty-eight feet wide, at the intersection of Johnson, Cumberland and Market streets.

At Baltimore, work has begun on a large building operation consisting of the erection of twenty-two two-story brick dwellings on the north side of Lafayette street and the north side of Prospect street near Bloomingdale Road, by M. D. Selba.—Another operation has been begun by C. B. Burdette, who will erect eighteen two-story dwellings on Mountford avenue between Lanvale street and Lafayette avenue.—Charles E. Green will erect a two-story stable in the rear of 1921 Montrose street.—Marion H. Ould will erect two three-story brick dwellings at 1444 and 1446 East Baltimore street.—George C. Goldman will erect seven two-story brick dwellings on the west side of Covington street between Fort avenue and Wehage street.—Eight three-story brick dwellings will be erected by Marion H. Murray on Shirley avenue, between Pimlico Road and Green Spring avenue.—Edward C. Pritchell has bought a lot, 75 x 245 feet, at the northeast corner of Lanvale street and Mountford avenue for \$6,000.—Annie A. Lewis has bought a lot at the corner of Walbrook avenue and Eleventh street for \$7,000. It is 50 x 150 feet.—Charles W. and John J. Hurst have sold eight lots on Barclay street, near Thirteenth street, to Mr. Samana Crothers, of Philadelphia.—The Walbrook Villa Company, of which Mr. John Kuper is the president, is erecting eight attractive dwellings of brick and stone on Roslyn avenue and Garrison Boulevard, Walbrook. Each house will have fourteen rooms and all modern conveniences and improvements will be introduced. They will cost about \$7,000 each.—A large operation has begun consisting of the erection of thirty-two two-story brick dwellings on both sides of Clarkson street, between Heath and Barney streets, by J. P. Brandon.—Charles A. Lipp will erect twenty-two similar dwellings on Riggs avenue.—At Denton, Caroline county, more than \$25,000 has been subscribed for the proposed new bank to be established, and it is thought that in a short time the other \$25,000 will be forthcoming. A new building will be erected for its use from plans prepared by Joseph H. Bernard.—At Oakland, Garrett county, a bill has

been passed by the senate permitting council to issue bonds to purchase and operate an electric light plant.—At Laurel, Prince George county, the bill authorizing the mayor and city council to contract for water has been passed.—At Frostburg, Allegheny county, the bill has been passed authorizing the town to issue additional bonds to complete the water works.—At Smithsburg, Washington county, it is reported that surveys are about to be made by M. M. Dubell, civil engineer, for water works.—At Williamsport, Washington county, the subject of water works will not be put to vote, but the town will likely be supplied by a private company for the purpose.—A bill has been passed by both branches of council asking the sewerage commission to make additional investigation regarding the disposal of sewage without polluting the Chesapeake Bay.—It is stated that city council has passed an ordinance providing for an appropriation of \$25,000 to erect a building for the hook and ladder company.—A two-story hospital building will be erected at Bayview Asylum, of which J. E. Dorsey is purveyor. Quite an extensive building operation has just begun, consisting of the erection of thirteen two-story brick dwellings on Monroe street, at the northwest corner of Eagle street. They will be well finished and provided with modern conveniences.

### Washington, D. C.

Work will soon begin on the large fireproof addition to be erected for the Hotel Raleigh, for the Columbia Hotel Company. It will be eleven stories high, granite foundation, gray brick front, fine interior finish and all modern conveniences. J. E. and A. L. Pennock, of Philadelphia, have the work in charge.—The district commissioners and the Baltimore and Ohio Railroad have reached a conclusion in regard to the doing away of grade crossings. The agreement calls for one set of tracks inside the city bounds, to accomplish which the Washington branch tracks are diverted at the Montello station just beyond the Ivy City station, and carried through the old Ivy City race tracks grounds, parallel with New York avenue extended, to Eckington, where they will join the tracks of the Metropolitan branch, and thence to the terminal. The site of the terminal has not as yet been definitely settled. All the tracks within the city will be elevated, the streets passing under them. The arches over the cross streets will be of masonry whenever practicable, and when the span is too great, steel will be used, tiled in with ballast. The elevation of the tracks out Delaware avenue will be by means of a solid viaduct, with masonry retaining walls. The streets north of Florida avenue will be carried over the tracks by means of substantial and handsome bridges. It is understood that some of the land over which the tracks will pass has been purchased.—Surveyors in the employ of the district government are at work on twenty-seventh street preparing for the extension of that thoroughfare. It is said the street will be widened before being improved.—A new roadway will be laid on the M street bridge at an estimated cost of \$900.—The House has passed the district reappropriation bill, including the changes made by the Senate committee, some of which are as follows: Opening of North Capitol street and First street through the land of the heirs of David Moore, who, having waived all claim to award, the district agrees to improve said streets by grading the same the entire width thereof, lay water mains, granite curb, granolithic sidewalks and sewers.—An item was also introduced by the Senate committee giving \$42,100 for necessary repairs to school houses and changes in plumbing. Also \$1,000 for furniture for Nurses' Home, and \$7,900 for a building for colored inmates

of the alms house; \$2,500 for temporary home for ex-union soldiers, and \$500 for furniture, bedding, crockery and cooking utensils for the same; repairs and furniture for Columbia Hospital for Women and Lying-in Asylum, \$2,000. In addition to the streets to be paved, as provided in the bill, the Senate committee added the following: For repaving P street, from Rock Creek to Twenty ninth street, \$11,500; paving the west side of North Capitol street, between P and Q streets, \$3,000, completing asphalt pavement of Twelfth street, from East Capitol street to B street North east, \$4,000; for paving Tennessee avenue, from East Capitol street to B street North east \$7,000. The following provision was also made for the construction of country roads: For establishing the grade and improving Michigan avenue to a width of 100 feet from the southerly boundary of the Soldiers' Home grounds, \$5,000; paving Sixteenth street extended from the south side of Florida avenue to the north side of Morris street, \$15,000; improvement of Connecticut avenue west of Rock creek, \$10,000; continuing the improvement of the road extending from Broad Branch road to Chevy Chase Circle \$5,000; grading and graveling Flint street, Brightwood Park, \$4,000; grading and graveling Albemarle street and opening same, by purchase or condemnation, to Grant road, continuing improvement, \$9,000; paving Sixth street from Florida avenue to Spruce street, Le Droit Park, \$2,500; grading and regulating Kenesaw avenue and Park road from Sixteenth street extended to Klinge Ford road, continuing improvement, \$5,000; improving Benning road from Fifteenth street east to Benning, \$10,000; grading and regulating Illinois avenue, \$2,500; grading and paving Kenyon street between Thirteenth and Fourteenth streets, \$3,000. — The district commissioners have ordered that the proposal of James C. McGuire for widening P street bridge over Rock creek be accepted.

—A charter has been granted to the Washington, Annapolis and Chesapeake Railway company. The incorporators are Henry J. Brogren, James B. Belt and others. —Bids will be received by the district commissioners until March 10th for the erection of an eight room school house on Marshall street, Mount Pleasant. —Paul J. Pelz has prepared plans for a handsome dwelling to be erected for Mrs. Joseph Beale, on Massachusetts avenue, between Twentieth and Twenty-first streets. The lot has a frontage of 61 feet on Massachusetts avenue and an average depth of 158 feet. The proposed residence will be handsome and finished finely; all modern conveniences and improvements will be introduced. —Henry Ives Cobb, of Chicago, Ill., has prepared plans for two attractive dwellings to be erected for Arthur Cowsill on the west side of Columbia road, between California and Wyoming avenues and known as Wyoming Terrace. They will be of a style known as the Venetian gothic, of light-colored dressed stone, with bay windows supported by stone corbels, and the mullions, piers and arches in the front will be modeled and cut into cathedral style. Plate glass will be used in the windows, and the interior finish will be of hard wood. The basement will contain heating apparatus, storerooms, etc. A spacious hall will be provided for with open fireplace, stationary washstands and large plate mirrors, considerable tile work and all modern conveniences. —A. B. Mullett & Co. have prepared plans for a frame dwelling to be erected by N. Lindsey, Braddock Heights. It will be two stories high, 41x42, hardwood interior finish, tiled bath room, wood mantels, electric fixtures, steam heat, porches, etc. —William A. Kemmel will erect three dwellings from plans prepared by William J. Palmer. They will be of light brick and Ludiana limestone, tiled bath rooms, steam heat, hardwood interior finish and all modern conveniences. —D. B. Groff will erect a row

of three two-story dwellings on North Capitol street from plans prepared by J. Germuller.

#### Wants.

At Nashville, Ga., it is said that bids will be received until March 21st for the erection of a new court house. F. M. Shaw is chairman of the committee and can give information.

At Geneseo, N. Y., bids will be received until March 10th for the erection of a new court house for Livingston county. Address Newton B. Gorham, clerk of board of county supervisors.

At Wilkesbarre, Pa., sealed proposals will be received until March 14th for the construction of an embankment dam, with a masonry core wall at Gardner's creek. Address The Springbrook Water Supply Company, No. 18 North Main street.

At Reading, Pa., sealed proposals will be received by Council's Committee on Finance at the office of City Clerk Hammer, until March 15th, for the purchase in whole or in part of 100,000 coupon bonds, which are to be issued for street paving.

At Boston, Mass., the Boston Elevated Company has offered a special prize of \$1,000 to architects for the best study of an elevated railway station. A number of stations will be erected. John T. Burnett, clerk of the corporation, may be addressed for particulars.

At Washington, D. C., Claude M. Johnson, Director of Bureau of Engraving, will receive proposals until March 14th to furnish dry colors, hardware, engravers' supplies, binders' supplies, typographic ink and lumber. Also sealed proposals until April 18th for chemicals, oils and paper.

At Washington, D. C., Treasurer's Office, United States soldiers' Home, E. F. Ladd, secretary and treasurer, will receive proposals until March 14, 1898, for summer clothing, consisting of straw hats, dark blue trousers, unlined blouses, cotton shirts, Canton flannel drawers, low cut shoes, Harvard ties, cotton and woolen stockings, cotton sheets, cotton pillow cases and hand towels.

William H. Lambert, President Department of Charities and Corrections, will receive proposals at Room 335, City Hall, Philadelphia, until Tuesday, March 16th, for the months of April, May and June, freight to be paid: Schedule C, hardware; Schedule D, fittings; Schedule E, hard white ash egg coal, gas coal; Schedule F, brushes; Schedule H, lumber; Schedule I, paints and glass;

Schedule L, groceries, soaps, tobacco; Schedule M, flour and feed; Schedule N, boots, notions, stockings; Schedule S, adamant plaster; Schedule T, rope, etc.; Schedule U, window shades, nursery supplies, hoisting engines, gas tank, refrigerator, etc.

### Miscellaneous.

At Norfolk, Va., the Chesapeake and Ohio Railway Company is considering the erection of a new depot.

At Kinston, N. C., the Kinston Knitting Mill Company will establish a plant to cost about \$80,000.

At Durham, N. C., it is reported that a cotton mill will be erected by Julian S. Carr, the millionaire.

At Raleigh, North Carolina, the Institution of the Deaf, Blind and Dumb will erect a new auditorium, and bids for the same will be received until March 14, by John E. Ray, principal.

At St. Louis, Mo., it is stated that the Secretary of War has accepted the plans for a new bridge between St. Louis and East St. Louis. The structure will be divided into four spans, of which the St. Louis section will be 700 feet in the clear, the two in the middle 500 feet each, and the east side shore span 400 feet.

### Judgments

#### PHILADELPHIA.

#### ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term, and S, for September Term.

S, F.—Scire Facias, to revive judgment.

A star (\*) denotes judgment confessed or bond and warrant conditioned.

**Summary.**

FOR WEEK ENDING MARCH 5, 1898.

Number of Transfers . . . . .	28
Amount " . . . . .	\$1,363,041.00
Cash consideration . . . . .	1,162,341.00
Mortgage consideration . . . . .	760,700.00
Ground rent consideration . . . . .	24,112.80
Which, on a 6 per cent. basis,	
amounts to . . . . .	401,880.00
Sales at auction . . . . .	968,900.00
Mortgage incumbrance on same . . . . .	28
Ground rent incumbrance on same . . . . .	non

A tract of 30 acres in 34th Ward, in whole or part. Owners will make advances to builders. Apply

Broad and Chestnut Sts.

A hand emerges from a sleeve, holding several tiles. The tiles are labeled with various uses for the product:

- TILEITE for English Asbestos PAINTS
- TILEITE for Safe Proofs FIRE PROOF PAINTS
- TILEITE for DECORATIVE ENAMEL PAINTS for WOOD PLASTER and METAL
- TILEITE for BAKERS' BICYCLE ENAMELS BATH
- TILEITE for STAIRS, Gas, Paving, Cement, Scaff, Road, Mixed PAINTS

There must be merit in an article which steadily gains in popularity, after-being tested by the public so many years.

Specified and Recommended by the  
Leading Architects of America

## Tileite Enamel and Paint Manufacturing Co.

Philadelphia, Pa., U. S. A.

DOES THIS  
INTEREST YOU?

29 lots, Jefferson street, East of 53d street.  
 22 lots, Lindenwood street, South of Jefferson street.  
 65 lots, Aberdeen street, North of Jefferson street.  
 9 lots, 53d street, South of Jefferson street.  
 35 lots, 53d street, North of Jefferson street.  
 8 lots, Parkside avenue, East of 53d street.

**All Desirable. Prices Low. Easy Terms.**

Lot, 20th and Berks streets, 72 x 215, great place for large business building. Has residence and stable on premises.

Also, twelve acres at 28th street and Allegheny avenue, both sides of street. Bargain.

At Manheim and Green streets, the most central spot in Germantown, there are several very desirable fronts on Green, Manheim and Knox streets; both sides Hansberry, Seymour and Marion streets. Fine location for building operation. Sure to sell. Fine old shade, etc.

Also three corner lots, Penn street, east of Germantown avenue and one square from Reading Railroad. Very desirable. Will divide.

Also at Walnut Lane, near the station, 44 x 161 suitable for cottages or business purposes.

For any information regarding any of these properties, which will be sold on easy terms, apply to

WM. T. B. ROBERTS.

VOL. XIII.—No. 11.

PHILADELPHIA, WEDNESDAY, MARCH 16, 1898.

\$5.00 PER YEAR.

## Architect Notes.

Harry Peale, Jr., architect, Harrison Building, is making plans for a residence at Cape May, N. J., for Dr. C. H. S. Littleton, of this city. It is to be of frame and brick, two stories high, slate roof, electric work, hot air heating, ranges, plumbing, plate and leaded glass and general conveniences.

Thomas Bennett, architect, 923 Locust street, has made plans for four houses to be erected on Tulpehocken street and Germantown avenue, by Charles O. Mershon, 921 Arch street. These are to be of brick, 17 x 68 feet, three stories high, and fitted with out with modern improvements.

Fr d. Osterling, architect, Telephone Building, Pittsburg, Pa., has made plans and specifications for an insane asylum to be erected at Woodville, Pa., for Allegheny county commissioners. It will be one of the best equipped and finest institutions in the State, and cost close to \$400,000. Details later.

Plans have been completed by James H. Windrim, architect, 1107 Walnut street, for alteration and fitting up of the north apartment Stephen Girard Office Building for occupation by the City Trust. The work will include office furnishing and interior partitions, flooring, etc. Estimates are being made on the work.

Dull & Peterson, architects, 1110 Walnut street, are making plans for a hotel to be erected at Atlantic City for a resident of that place (name not given). It will be 90 x 100 feet, three stories high, of brick and frame, tin roof, electric work, best plumbing, heat undecided as yet, all minor improvements and comforts will be introduced.

Richard Loos, architect, 12th floor of the Fidelity Building, Broad above Arch street, is taking bids on the church to be erected at Glenolden, Pa., and which we noted some time since in these columns. It is to be 60 x 90 feet, one story, stone, slate, and tin roofing, electric work, hot-air heat and general comforts and conveniences, etc.

Walter E. Steelman, builder, is to continue a operation started some time ago, by erecting twenty-six two-story dwellings on east side of Stanley street, north of Huntingdon. These are to be of same material as the former ones, press brick, stone steps and sills, interior to have plate glass, ranges, hot air furnaces, and all modern conveniences.

A. C. Clark, architect, 605 F street, N. W., Washington, D. C., is engaged on plans for an apartment house to be erected at Twentieth and M street in that city for Charles Heinrich, Esq. It will be of steel frame, stone and terra cotta and contain steam heat, electric work, plain and leaded glass, tile roof, and all modern conveniences, etc. The cost will be about \$200,000.

Edwin F. Bertolette, architect, Heed Building, Filbert, above Twelfth, has completed plans for a three-story hosiery mill for H. A. Romberger, 2230 North Eighteenth street, this city, to be erected at Middletown, Pa. A boiler house and cold storage shed will be attached and the mill fitted with entirely new machinery, offices, toilet rooms, etc. Estimates are now being taken on the work.

The plans for the big Florey and Bevan operation of 132 dwellings on ground bounded by Sixty-third street to Sixty-fourth street, Jefferson street to Lansdowne avenue, were made by Schermerhorn & Reinhold, architects, 430 Walnut street, as also the drawing for an office building to be erected upon the site, to be of frame and one story high. A full description of this operation appeared in our last issue. The same architects are engaged on plans for several other fine suburban homes to be built at Overbrook, Pa., details of which will be given later.

Morgan Bunting, architect, Crozier Building, Chestnut street above Broad, has made plans for alteration and addition to the premises, 414-16 S. Twentieth street, for William Hall, owner. These consist of altering the building, and interior will include carpenter work, plastering and rough casting, cement work, metal work, masonry and minor details. Estimates are being made in office of John R. Wiggins, 1220 Filbert street. Also in same office are the plans for the 23d ward bath house, upon which bids are being made and which have been noted previously. This work includes brick work, fancy and plain slate and tin roofing, cement work, concrete work and plumbing, etc.

Joseph Anschutz, architect, Board of Education, is engaged on plans for a new school house to be erected at Sixteenth and Cayuga streets. It will be three stories high, of brick, stone and iron construction, and 123 x 225 x 165 feet in area, to be heated by steam, electric work, best system of ventilation, cement flooring in basement; also to be fitted with blackboards and general school furniture, including all modern improvements, etc. It is expected the plans will be opened for estimate at once and bids advertised for. In making the appropriations for the year for schools, enough was not given to erect three entirely new structures, so that it is likely one in the Twenty-eighth and another in the Thirty-eighth sections will receive each a partial consideration of the \$150,000 set aside for purposes of new schools.

F. L. Hoover & Son, contractors, 7 3 Jayne street have the plans on boards for estimate on rebuilding the lately burned stables of J. G. Cassatt, at Berwyn, Pa. These will be erected upon the old lines and material of brick, stone and frame; interior will contain all latest stable improvements. Plans by

Furness, Evans & Company, architects, Provident Life Building, Fourth and Chestnut streets.

John D. Allen, architect, 1017 Chestnut street, is engaged on plans for a hotel to be erected in New York City, for a stock company of capitalists. It can be stated that it will be an up-to-date hostelry, fire-proof in construction and replete with all modern improvements. Mr. Allen says it is entirely too early for either sub-contractors' estimates or consideration of material. When arrangements are completed a fuller description of the structure will be given. Same architect will make plans for some alteration and refitting the Chestnut Street Theatre for Nixon & Zimmerman, proprietor. The work will include a reception room and waiting room, decoration, plumbing, closets, toilets, marble work, plate glass, painting and other minor details.

Henry E. Creiger, architect, 1107-14 Dearborn street, Chicago, Ill., also with offices at 201 Clarendon street, Boston, Mass., is preparing plans for a large apartment house to be erected at the northwest corner of Broad and Jefferson streets for a syndicate formed of capitalists of this and other nearby cities, and known as the Pennsylvania Construction Company. The lot is 100 x 200 feet, and runs back to Carle street, and the structure will cover the entire area and be ten stories high, Italian Renaissance architecture, two handsome main entrances being on Broad and Jefferson streets, and handsomely carved and polished shafts supporting the arched tops. These and the two first-stories will likely be of granite, remainder of terra cotta and brick work. The top story will be ornamented with very handsomely carved Cariatide figures, and a summer garden will be arranged upon the roof, and known as a palm garden. The entire interior will be fitted up in marble, mosaic, and tile work, whilst three passenger elevators and one large freight lift will run from the basement to top floors, encased in iron and brass grille work of a beautiful design. Considerable cement work will be used and artificial paving done; the heating will be by steam and a special system of electric work from plant in basement adopted; the rooms will be arranged en suite, with special baths and accommodations, etc. There will be much hard wood finish in mahogany, oak and cherry work, upon the first floor, also a musicians' gallery arranged at main entrance to the dining room. The cost, including ground, will be close to \$1,000,000, and the entire structure will be absolutely fire-proof, being constructed upon the steel skeleton principle. The building must be completed by September 1st, 1899. It is expected the architect will be ready in a few weeks for estimates on the work of construction.

## A Word About MIRRORS

Nothing adds so much beauty to a home as  
a few handsome mirrors.

Men appreciate this fact as well as women.  
Do you know that our best customers for richly  
framed mirrors are men?

To be sure, many are purchased as pleasure-  
giving surprises. But the tone, the beauty, the  
service is all there, no matter who buys them.

## DAVIS & HARVEY'S New Real Estate Auction Rooms

Is an innovation in the real estate auction busi-  
ness which merits more than a passing notice, for it  
represents progression of a high order. For the first time  
the most central as well as the most expensive location  
in the whole city is selected in which to hold an auction  
sale of real estate; besides which these rooms are to  
be made headquarters at which buyers and lookers may  
be enabled to keep track, through frequent visits, of what  
is offered both at private and public sale.

JOHN N. GALLAGHER, Publisher.  
JOHN F. BRISBANE, City Editor.

PHILADELPHIA, WED'Y, MCH. 16, 1898.

Two valuable acquisitions have been added to the Equitable Trust Company, of this city: that of Robert T. Williams, Esq., a member of the Philadelphia bar, as Assistant Title Officer, and W. H. Harrison, Esq., of the Delaware county bar, as Real Estate Settlement Officer. The growing business of this well-managed institution in no sense is allowed to lag for the want of talented aid, each department being kept abreast of the times and fully up in detail work. No waiting is the motto of the Equitable Trust Company.

### Architect Notes.

Paul P. Elkinton, architect, 211 S. Sixth street, has made plans for a one-story and basement addition to the office building, 211 S. Sixth street, for Mr. A. A. Hirst, the owner. It will be of brick entirely.

Frank R. Watson, architect, 1208 Chestnut street, is completing plans for a lyceum building, at Frankford, for Mr. Allen, the owner. It will be of brick and stone, fitted with steam heat, electric work, toilet rooms, plate and stained glass, etc. Seating for about one thousand persons and scenery and stage fittings will be introduced.

### Building and Real Estate Notes.

Jacob Myers & Sons, contractors, Juniper and Fansom streets, are making estimates on a dwelling, to be erected at Sharon Hill, Pa., for Thomas Hoy, of this city.

Geo M. Stewart, contractor, 230 Diamond street, secured the contract for the erection of the bath house at Frankford. Previously noted in these columns.

Wm. H. Gruhler, contractor, of Germantown, has been awarded a contract to build the house at Bryn Mawr for Robt. E. Strawberry, which has been noted previously in these columns.

Machin & Brown, contractors, have started work on an addition to the laboratory of Henry Tetlow, perfumer, at Tenth and Cherry streets. Previously noted in full.

Thackara S. Taft, builder, will start an operation of 20 dwellings on south side of Thayer street, east of Third. Press brick, stone trimmings, ranges, hot air furnaces and best interior accommodation.

The factory of H. W. Johns & Co., manufacturers of steam pipe packing at Twenty-third and Hamilton streets, was destroyed by fire on the 9th inst. The losses are covered by insurance and the structure will be rebuilt at once.

Louis Paul, builder, will at once begin an operation of 10 two-story houses on south side of Arazonia street, east of Twenty-sixth street. These are to be of pressed brick, stone trimmings and best modern comforts on interior.

F. S. Hoover & Son, 709 Jayne street, are making estimate on alteration to a stable for William L. Elkins, Jr., at Ashbourne, Pa.; plans by Horace Trumbaur, architect, 310 Chestnut street. Included will be mostly interior work.

William McCoach, 1611 Sansom street, is taking estimates on ten houses to be erected at Forty-ninth street and Springfield avenue. These are to be of brick and stone, three stories high, hot air heating, plate glass, best plumbing and modern comforts.

Macey, Henderson & Co., contractors, will at once begin building an observation tower at Woodside Park. Previously noted. Also by same contractors a church at Wyncote, Pa., and alterations to northeast corner of Twenty-sixth street and Columbia avenue.

Joseph Bird, contractor, 1029 Race street, is making estimates on alteration to a residence of Mr. Strodick on Washington lane, Germantown. The work includes hot-air heat, electric work, gas fixtures, hardware, tiling, slate roofing, plate glass work, painting, papering, etc.

The contract for the immense factory building at Langhorne, Pa., for Frederic R mpf, of this city, will likely be awarded during the current week. A full description has already been given in these columns from the plans by John F. Stuckert & Son, architects, 49 N. Thirteenth street.

The Cold Storage Warehouse Company, at Front and Noble streets, are having the preliminary plans made by J. V. Edmundson for an intended addition to their plant. It will be 65 x 145 feet, eight stories high, of brick, stone and steel, with all the appointments in detail for such a building.

Bowman S. Sterling, builder, 318 Market street, will at once start the erection of thirty-two dwellings, two-story, on west side of Thirtieth street, between Huntingdon and Cumberland streets, all to be of press brick, stone trimmings, plate glass, ranges, hot air heaters, plumbing, bath and gas, etc.

Geo. D. Liddell, contractor, 165 Franklin street, Germantown, has asked bids on a residence to be built in that place for Mr. Charles Thackerer. It will stand at Quincey and Car-

pentor streets, and will be 30 x 58 feet, hot air furnace, electric work, slate roof, best plumbing, plate and leaded glass, hard finish, etc.

Charles McCaul, contractor, 10 North Eleventh street, is making plans for a power house to be erected by the Allison Manufacturing Company, at Thirty-second and Walnut streets. It will be of brick, stone and iron, two stories high, 55 x 40 feet in area and equipped with all improved machinery, electric work, etc.

Estimates are now being made on plans made by Wilson Bros., architects, Drexel Building, for a large building at Point Breeze Gas Works, for the United Gas and Improvement Company. The structure will be one-story, of iron, stone and brick, tin roof. Plans on exhibition in offices of A. B. Rorke and other general contractors.

Geo. F. Payne & Co., contractors, have just started work upon the new buildings previously noted, at the Twenty-fifth Ward Gas Works, Richmond and Toga streets. These are to be 86 x 182 feet and 45 x 120 feet each, brick, stone and iron work as material. The former is to be used as a purifying house and latter as a scrub house.

James L. Stevenson, builder, Thirtieth street and Ridge avenue, has begun excavation for 96 dwellings on west side of Twenty-ninth street, from Cumberland to Huntingdon street, and on east and west sides of Norwood between the above streets, all to be of press and fancy brick, stone facings and the best modern conveniences on interior.

Bids are being taken in the office of Stacey, Reeves & Sons, contractors, 1611 Pilburt street, for a passenger station on the Reading railway at Comertown station, Bucks county, Pa. It is to be of granite, one story high, slate roof, and three-story tower at one end. It will be 32 x 64 feet and fitted with waiting rooms, offices, gas, hot water heat and general conveniences.

William Steele & Sons, contractors, 506 Walnut street, will at once erect the two-story back building at 1112 Walnut street, previously noted. It will be 42 x 92 feet, red brick, stone facings, fitted up in interior for business purposes. Same contractors will make an addition to a factory at Paletothorpe and Somerset streets, and are taking estimates for a factory to be erected at Middletown, Pa., for H. A. Romberger. Previously noted.

Fairmount Park Commissioners met on the 9th inst. and directed Chief Engineer Vodge to advertise in daily papers for bids on extending the river wall on west bank of the Schuylkill river, for which \$10,000 stands appropriated. Also considered and approved a request of the Vesper Boat Club to improve and extend their club house, provided the work be done under supervision of Chief Engineer Vodge. \$50,000 is to be expended in widening and extending the East river drive, which will be advertised for at once by direction of the committee.

The two additional properties on Broad street south of the proposed new office building, southeast corner of Broad and Chestnut streets, has been secured by the Real Estate

## Beautiful Sea Shells

Every one admires them. Since coming south I have received numerous inquiries from northern people for sea shells, and now I am prepared to answer yes, I can send you shells, for I have made quite a collection of lovely shells, both from our own coast, the coral reefs, and some beautiful ones from the West India Islands. I will mail a dozen or more different kinds, no two alike, to any one who sends a stamp for postage. Also send you a lovely piece of white branch coral.

Yours, **MRS. F. A. WARNER,**

Trust Company, and will be added to their new site, thus extending to the Chambers Presbyterian church, at Broad and Sansom streets. Seeler & Roberts, the architects, will at once enlarge their plans in accordance. The addition erected on the Hallowell property, 35 x 80 feet, will be erected in strict conformity with designs already noted in these columns for the seventeen-story office building now in course of erection.

The Master Plumbers' Association, of this city, met at the Master Builders' Exchange on the 11th inst., and elected delegates for State and National conventions of 1898 as follows: Convention of the Pennsylvania State Association of Master Plumbers, to be held at Pittsburg on Tuesday next: G. Wallace Smith, M. F. Elliott, George F. Ueber, A. M. Hicks, J. E. Evanson, S. Louis Barnes, L. J. Sommers, G. Drummond, J. V. Reagan, S. H. Ritch, J. S. Gaghan, S. W. Barnes, W. H. Doyle, S. B. Fleming, W. L. Owens, M. Thompson. The following members were also elected delegates to the sixteenth annual Convention of the National Association of Master Plumbers, meeting in San Antonio, Texas, April 13, 14 and 15: S. Louis Barnes, J. E. Evanson, E. H. Mackay, R. Drummond, George F. Huber, S. B. Fleming, W. McCoach, W. L. Owens, L. J. Sommers, A. M. Hicks, D. R. Burns, A. G. Bond, M. Thompson, J. F. Furlow, M. F. Elliott, E. P. Brown.

Secretary of War Alger sent to the House a report on the project for improvement of the Schuylkill river about Philadelphia, from its mouth to the head of navigation at Walnut street bridge, by dredging and rock removal. The cost of the total work contemplated is estimated at \$3,153,000. By sections, the estimated cost is: Lower section, from outside the bar at the mouth to Penrose Ferry bridge (to secure channel 400 feet wide and 26 deep at mean lower water), \$433,000; middle section (from that bridge to Gibson Point Channel 320 to 400 feet wide and 26 deep exclusive of work already provided by city), \$1,140,000; upper section (Gibson Point to Walnut street bridge, to secure channel 320 to 400 feet wide and 22 deep, exclusive of city work, \$1,580,000. The department recommends improving the lower and middle sections, but not the upper.

The refusal of the Supreme Court to issue an injunction against the new Capitol Building Commission restraining the members from awarding a contract on the ground that the building at present contemplated will be incomplete and not fire proof, is the general subject of gossip in State administration circles, and the opinion is expressed that nothing now stands in the way of the commission from awarding the contract. None of the commission is home at present. Governor Hastings is in California, Auditor-General Mylin is in Lancaster, Senator McCarrell is in Florida, Speaker Boyer is in Philadelphia, and State Treasurer Haywood is in Atlantic City, his health having broken down. It is said that there will be a readvertising for bids, as the commission finds that all of the bidders who offered proposals are above the price contemplated and their modified bids were not the subject of competition. A meeting of the commission will be held next week, when some definite action will be taken.

Improved streets and roads are to be made by the city authorities upon streets and in wards as follows, at an early day, or as soon as contracts can be awarded: First ward—Stone House lane, from Third street to the Pennsylvania Railroad. Twenty-first ward—Shawmont avenue, from Ridge avenue to the River Road. Twenty-second ward—Hawes street, from Lincklin pike to Chevy street; Taber road from the Kensington and Oxford pike to Tacony creek; Wis-shickon avenue, from Rittenhouse street to Allen's lane. Twenty-fourth ward—Conshohocken avenue,

from Monument road to Windemere avenue. Twenty-seventh ward—Sixty-third st., from the bridge over the Philadelphia, Wilmington and Baltimore Railroad to Elmwood avenue; Fifty-fourth street, from Market street to Baltimore avenue. Thirty-third ward—To resurface the present macadamized surfaces in Rising Sun lane, from Germantown avenue to Fifth street; Venango street, from Hutchinson to Tenth street. Thirty-fifth ward—Hagerman and Knorr, Tacony and Couley streets, Wissinoming; Academy road, from the present macadam as far as will permit; Byberry road, as far as will permit; Dunk's Ferry road, from Gravel pike to Poquessing creek; Decatur street, from Vanduyke to Tulip avenues; Tulip, from Decatur to Rhawn street.

### Through Pennsylvania.

When any of the following are not post office towns they will be so designated.

—At Marcus Hook, Delaware county, Contractor John B. Heacock has broken ground for two dwellings on North street.

—At Yeadon, Delaware county, work has been started on the erection of six dwellings by James J. Camac, of Philadelphia.

—At Norristown, Montgomery county, Magle's lively stable and adjoining block were destroyed by fire last week. The estimated loss is \$124,000.

—At Media, Delaware county, it is reported that council has under consideration a number of improvements to the water works. The estimated cost is \$20,000.

—At McKee's Rocks, Allegheny county, the congregation of St. Francis de Sales church are arranging for the erection of a new edifice, to cost about \$35,000. It will occupy a site on Charlier's avenue.

—At Harrisburg, it has been decided by the directors of the Y. M. C. A. to erect a building for the use of the association. The estimated cost is about \$50,000. James A. Stranahan is president of the organization.

—At Easton, Northampton county, the trustees of Lafayette College have decided to rebuild Pardee Hall, which was recently destroyed by fire, and also to erect a chemical laboratory at a cost of about \$25,000.

—At Denison, Westmoreland county, the Denison Water Company, of which Murray Forbes is the treasurer, has had plans prepared by J. H. Harlow, of Wilkesburg, Pa., for a sand bed filter. Work will begin as soon as possible.

—At Lebanon, Lebanon county, the congregation of Salem Evangelical Lutheran Church has approved plans for a new chapel, which will be erected at a cost of about \$17,000; and, also, for improvements to the present building, to cost \$700.

—At Shamokin, Northumberland county, it is said that a survey has been completed for an extension of the Shamokin & Mount Carmel Street Railway Company from Mount Carmel to Locust Gap. W. P. Marr is superintendent of the road.

—At Swarthmore, Delaware county, the College Tract Residence Company of Swarthmore has arranged for the erection of ten or twelve handsome dwellings, to be erected the present season. Some of these dwellings will be built to order, and others to be sold.

—At Fernwood, Delaware county, Clifford Yost, of Philadelphia, has begun work on a dwelling to occupy a site on Bonsall avenue.

—J. W. Hoopes has started the erection of a dwelling on the same avenue.—Thomas Janson has the contract for the erection of a new green house for James Deaves.

—At Schuylkill Haven, Schuylkill county, a charter has been granted to the Schuylkill Haven & Orwigsburg Electric Railway Com-

pany to construct a railway from Schuylkill Haven to Orwigsburg, a distance of about six miles. The capital is \$60,000. R. S. Clymer, Woodbury, N. J., is the president.

—At Lansdowne, Delaware county, the insurance company has settled the claim of A. J. Drexel for the burning of his dwelling at the corner of Garret road and Lansdowne avenue. The amount paid was \$21,000.—It is said that twenty double dwellings will be erected on the White tract, to be sold and for rental.

—At Wilkesbarre, Luzerne county, competitive plans have been submitted by a number of local architects for a new school building to be erected on South Main street by the public school commission. It will be of brick and stone, will contain ten rooms and will be provided with all modern conveniences.

—At Lebanon, Lebanon county, the contract to furnish machinery and materials and to perform the necessary labor to procure an additional water supply of 1,000,000 gallons has been awarded to Hallock & Kinney, of Wheeling, W. Va., for \$21,550. George W. Hayes is city engineer, and can give information.

—At Bangor, Northampton county, the directors of the First National Bank have decided to erect a handsome new building. It will be one-story and basement, 50 x 75 feet, of brick, iron and stone, all modern conveniences, handsome fixtures. No architect has been selected. Mr. A. M. Paff, of Bangor, is the cashier.

—At Hummelstown, Dauphin county, it is probable that a shirt factory will be established through the efforts of the Board of Trade. Mr. Harry Funk has made a liberal proposition to dispose of his present knitting factory, engine and fixtures to the projectors of the shirt factory, as he desires to erect much larger works to accommodate his increasing business.

—At Allegheny, Allegheny county, the converting of River and South avenues into boulevards is under consideration. The estimated cost of the improvement is for South avenue, asphalt, \$24,240; River avenue, Legioner block, \$28,250. Edward S. Wright, warden of the Western Penitentiary, has awarded the contracts for engines, generators, switchboards and storage batteries. All the other bids for material were not approved by the board, and the materials required will be bought in open market.

—At Rockledge, Montgomery county, work will begin in a short time on a handsome new church to be erected by the congregation of the Holy Nativity at Rockledge, just over the county line from Fox Chase. The plans have been prepared by Milligan & Webber and call for a structure 80 x 130 feet, of Holmesburg granite. There will be a tower at one corner and a chapel will be connected with the main edifice by a large carriage porch with an open portico. The interior will be finished in marble, with floors of mosaic and oak pews. Large marble columns will be a feature of the interior and the redwoods will be of the same material; gas and electricity will be provided and handsome memorial windows will be put in. The estimated cost is \$50,000. The following are the officers: Charles C. Klein, accounting warden; William P. Knott, Harry Bothwell, Ludovic C. Cleeman, W. Allen Stockton, Jno. M. Rue, F. Pierce Buckley and Jules A. Kerle.

—At Harrisburg, D. R. Miller & Co., 219 Market street, have prepared plans for a telephone office building to cost about \$10,000. It will be three stories, of brick, hard-wood interior finish, steam heat, electric lights, lavatory, etc.—Foose & South, Second street, have prepared plans for a dwelling to cost \$10,000. It will be of stone, handsomely finished, and provided with all conveniences. The same architects have made plans for K. Sludbaker for a dwelling to cost \$3000. Also plans for remodelling the store front of the

### Nathaniel E. Janney

608 CHESTNUT STREET

OFFERS FOR SALE VACANT GROUND, VIZ.:

AT 63d AND LANCASTER AVENUE, OVERBROOK STATION, Four and one-third acres of high land, close to station. Ripe for improvement. Trolley passes both ways.

SIXTY-FOURTH AND NINE STREETS, 2 large lots, each 490 x 225 feet, ripe for improvement. Trolley now running brings houses there in active demand.

20TH STREET, OPPOSITE THE PARK, lot suitable for two houses, all on ground rent; no money required.

NEAR FRANKFORD JUNCTION, PENNA. R. R. (N. Y. Division), a nicely located tract of about seven acres, for factory and dwellings.

ON SCHUYLKILL RIVER (near its mouth), a tract of about 45 acres, deep water front, valuable for manufacturing plant.

NEAR CHESTNUT HILL (in Montg. Co., Pa.), a tract of about 50 acres of finely situated land.

ON P. W. AND G. R. R., 17 MILES FROM BROAD STREET STATION, a nice farm of about 26 acres, with excellent buildings and in excellent order.

S. E. COR. 49th AND MARKET STREETS, lot 130 x 214 feet; cellars walked up, ready for building operations. Cars pass both ways.

Nathaniel E. Janney, 608 Chestnut St.

Breitingher Building. Also plans for a dwelling for C. A. Disbrow, to cost about \$5000. Also plans for extensive alterations and additions to the nursery building of the Tressler Orphans' Home at Loysville, Pa. The estimated cost of the improvements is \$10,000.

George H. Grove, 213 Walnut street, has made plans for a dwelling for Frank Koenig to cost \$3500.

W. O. Weaver & Son, Third and Market streets, have prepared plans for a Methodist church to be erected at Waynesboro, at a cost of \$18,000. It will be of buff brick, handsome interior finish and furniture, modern conveniences and improvements.

At Reading, Berks county, it is probable that operations will begin in a short time on the Reading & Temple Electric Railway, in order that the road may be finished by early Summer. A number of capitalists are interested in the project, and it is said that the right of way has been obtained from most of the owners of land over which the line will pass. The route selected begins on the other side of the Fifth street bridge, and passes through the farms of Messrs. Spangler, Jacob Hahn, Daniel S. Becker, Henry Bernhart,

FIRE-PROOF CONSTRUCTION.

Madeira Brothers, Henry Gass, Daniel H. Ivy, Charles Boyer and others. The route is about five miles long and will be in a straight line from Reading to Temple. It is also proposed to lay out a suburban town along the route, and to construct an 80-foot road to be macadamized, with tracks in the centre and driveways on either side, and on the side of the driveways building lots will be laid out. It is the intention not to allow any business places along the route, but to reserve the lots for dwellings only. Messrs. O'Reilly and Deysher are counsel for the projectors of the road. Work has begun on the new mill for the Reading Iron Company on South street. It is proposed to rebuild the plant and to equip it with the most improved gas furnaces. The officers of St. James Lutheran Church, at a recent meeting with the insurance adjusters, settled the loss caused by fire. The total loss reached \$3000, of which \$1000 was on the organ, the damage to that instrument being more than at first supposed. Repairs to the church will be made at once.

At Pittsburg, Frederick Sauer has prepared plans for a handsome three-story brick and shingle dwelling to be erected at Hays Station, Pa., for John Werner. As soon as the appropriation ordinance is signed by Mayor Ford, Director E. M. Bigelow will begin the work of remodeling city hall. Among the improvements will be the placing of two new elevators, for which plans have been made and bids will be asked for them in a few days. New desk and chairs will also be required and an electric light plant will be put in. Bids will be received until March 19th for the erection of the proposed synagogue by the congregation Cates of Wisdom, Townsend st, Pittsburg. Bids must be accompanied by a bond of \$10,000 from a trustworthy trust company. The plans have been prepared by John O'Connor, Hastings and Reynold street, East End, Pittsburg. The members of the First Pentecostal congregation, of which Rev. J. H. Norris is the pastor, will shortly have plans prepared for a church to cost from \$15,000 to \$25,000. W. Arthur Thomas is preparing plans for a ten-room brick dwelling to be erected at McKeesport, Pa., for John Dunlay. The owner will receive bids for the construction. The Carnegie Steel Company is having plans prepared for a structural iron

plant to be erected at Homestead, Pa., at a cost of about \$1,000,000. T. C. McKee, Singer Building, has made plans for a handsome colonial dwelling to be erected for Mrs. Mary B. Stubber, at Linden avenue and Reynold street. C. M. Bartberger, Westinghouse Building, has prepared plans for a brick school building to be erected at Wilmerding, Pa.; also plans for a parish house for St. Luke's Episcopal congregation on Pearl street. The estimated cost is \$10,000, and improvements to cost about \$5000 will be made to the church building from plans by the same architect. City Architect H. S. Bair is preparing plans for a new brick engine house to be erected in the Twentieth ward. The plans will be ready for bids about April 1st. Vrydagh & Wolfe, 68 Federal street, Allegheny, are preparing plans for extensive alterations and additions to the Smith Building, at Lacock and Federal streets, Allegheny. McBride & Cole, 427 Fifth avenue, have prepared plans for an operation consisting of eight brick dwellings to be erected on Rural avenue for Mrs. T. C. McGehee, of 5614 Rural avenue. The cost of the operation will be about \$10,000. F. C. Sauer, Hamilton Building, has prepared plans for six brick dwellings to be erected on Bates avenue, Oakland. The plans prepared by the same architect for a West End Saving Bank are ready for bids. Work will begin at once on the erection of St. Anthony Convent, on Thirty-seventh street, for which plans have been prepared by S. F. Heckert, Stevenson Building. E. J. Carlisle & Co., Lewis Building, have made plans for a brick dwelling to be erected at McKeesport, Pa., for Joseph Roth. F. H. Stoltz, Black & Baird Building, has prepared plans for a two-story and attic brick dwelling to be erected on Ellsworth avenue, Bellevue, for Charles W. Lash. The cost will be about \$40,000. T. E. Cornelius, Schmidt Building, has prepared plans for a frame dwelling for W. J. Dithridge, Coraopolis, Pa. Shaw & Bailey, 21 Sixth avenue, have prepared plans for a ten-room brick dwelling to be erected at Bellevue for Mr. Dilly, Esq., Western avenue, Allegheny, Pa. Rose & Fisher, of Pennsylvania avenue, Allegheny, have been awarded the contract for the erection of the Shady-side Presbyterian church, for which plans were drawn by Struthers & Hannah. The estimated cost is \$60,000. Wm. Kerr Sons, 512 Smith-

field street, have begun work on the handsome dwelling to be erected by W. E. Wetherston, at a cost of about \$11,000.—It is stated that a twenty-four inch main will be laid on Gardner street and six eight and ten-inch mains on numerous other streets. The cost of repairing numerous streets during the year is estimated at \$231,000.—It is reported that the contract for the erection of the Carnegie Free Library, on Wabash avenue and Neptune street, has been awarded to H. L. Kreusler for \$25,000. W. N. Frew is chairman of the board of trustees.—The plans of Thomas Boyd have been accepted for the handsome church building to be erected by the congregation of the First United Presbyterian Society, on Fifth avenue. It will be finely finished, fine furniture and fixtures and all modern conveniences. The estimated cost is \$50,000. A. M. Brown is president of the board of trustees.

At Fernwood, Delaware county, it is reported that the Mansion House, recently destroyed by fire, will be rebuilt as soon as possible. Donnelly & Kennelly have erected a temporary structure on the lot adjoining the Mansion until the hotel is rebuilt.

#### Through New Jersey.

At Hirdsboro, Berks county, the large feed warehouse of John Goheen was destroyed by fire on March 9th. The estimated loss is \$3,000.

At New Brunswick, Middlesex county, A. Atkinson, city engineer, can give information concerning pipe sewer extensions amounting in cost to \$4,000.

At Woodbury, Gloucester county, a bill is before the State Legislature to submit to the vote of the people the question of the construction of a sewerage system.

At Hasbrouck Heights, Bergen county, John Beth will erect a two-story frame store and flat, to cost \$2,500, from plans prepared by A. B. Morrison, 257 Broadway, New York city.

At Millburn, Essex county, Mrs. J. W. Pierson will erect a dwelling from plans prepared by J. W. Dow. It will be two stories high, of frame, and handsomely finished. It will be provided with all modern conveniences and improvements.

At Somerville, Somerset county, P. C. Van Nuys has prepared plans for a three-story brick and stone store and apartment house to be erected for Charles Schweb; also plans for a one-story frame flat for Mrs. George Marsh. The estimated cost is \$3,000.

At Bayonne, Hudson county, a few days since council passed resolutions, authorizing the issue of bonds to the sum of \$100,000, of this sum \$75,000 is to be used for the erection of school No. 7; \$14,000 for the erection of an addition to school No. 4; and \$11,000 for an addition to school No. 6.

At Princeton, Mercer county, ex-President Cleveland has bought twenty acres additional ground and it is said to be his intention to erect a club-house and to stock the stream and establish a game preserve. The ground adjoins Princeton and the land recently bought by Mr. Cleveland.

At Bloomfield, Essex county, at the annual school meeting, which will be held on March 19th, a proposition will be considered to spend \$90,000 for the erection of new school buildings.—Augustus Ashby will erect a two-story frame dwelling, to cost \$250, from plans prepared by Herbert A. Griffin.

At Hackensack, Bergen county, A. P. Vail has prepared plans for a dwelling to be erected for Henry Stertzer, on Berry street, at a cost of \$2,700. Also plans by the same architect for a frame dwelling to be erected on Park avenue for George Davidson, at a cost of \$2,500.—Mrs. Louise Meeter will erect an attractive dwelling in Clinton Place

at a cost of \$6,000, from plans prepared by Charles B. Waterhouse, National Bank, Passaic, N. J.

At East Orange, Essex county, Frederick Pring has prepared plans for two handsome dwellings to be erected by Mrs. S. A. Pring, on South Walnut street. They will be attractively furnished, considerable tile work, plate and ornamental glass, fine plumbing, and all conveniences. The cost will be about \$10,000 each.—Minnie M. Jenkins, Newark, N. J., will erect a frame dwelling on South Grove street, to cost \$3,500, from plans prepared by F. R. Hasselman, Decker Building Orange, N. J.—Dr. T. S. Filch will erect an addition to his present dwelling to cost \$2,000 from plans prepared by L. G. Patton.—E. V. Fowler has prepared plans for a frame dwelling to be erected by Ella Fowler, to cost \$3,500.—J. J. Magovern will erect a frame dwelling, to cost \$6,000, from plans prepared by H. D. Havell, 760 Broad street, Newark, N. J. It will occupy a site in South Orange.—T. C. Hughes, Montclair, N. J., has made plans for a frame dwelling to be erected in West Orange for Pauline Wrensch, of Montclair, N. J.

At Asbury Park, Monmouth county, a handsome casino will be erected by Mr. W. J. Cooper on the triangle at the intersection of Cookman and Asbury avenues. The plans have been made by W. B. Pierson and call for a two-story building of gray rock faced brick, as far as the second story, the latter being of shingle. The structure will have a front of 140 feet on Cookman avenue, and 132 feet on Asbury avenue. The easterly end of the first floor will be handsomely fitted up as a restaurant, and on the Cookman avenue side there will be five well-equipped stores. An arcade will extend from the restaurant through the building to the lobby on the west side; all the stores will open on this arcade. The plumbing will be particularly fine. The whole of the second floor will be fitted up as one room. Both corners will overlook the ocean. All modern conveniences and improvements will be provided.—The manufacturing committee of the Board of Trade has been notified that a party of Scotchmen will visit Asbury Park to look over a site for a lace curtain factory. The notice came through Mr. John L. Hamilton, a New York builder, who has a summer cottage at Interlaken.—Under an ordinance passed by council last week, property owners can lay asphalt walks.

At Newark, it is said that an ordinance has been passed granting permission to the Consolidated Traction Company to lay tracks on three streets.—E. F. C. Young is president of the company.—The Y. M. C. A. is raising a fund for the erection of a new building for the association. The estimated cost is \$100,000, of which \$25,000 has been subscribed and is on hand.—Charles Dill will erect a three-story brick store and flat, to cost \$5,000, from plans prepared by W. M. Wisenbarger.—Dr. Leslie Ward has made arrangements for extensive alterations and additions to his dwelling at 1053 Broad street. The plans for the improvements have been made by Charles A. Gifford, 31 Union Square, New York City. The estimated cost is \$12,000.—A. D. Hayne has prepared plans for a three-story brick store and hall and lodge rooms for James Hauh. The cost will be \$6,000.—Ten handsome dwellings will be erected by Lewis Brown, on Delvan avenue, from plans prepared by J. H. and W. C. Ely. They will be two stories high, well finished and provided with modern conveniences. The cost of the operation will be about \$20,000. The same architects have made plans for a two-story frame dwelling to be erected at 207 Montgomery street. The cost will be \$4,000. Also plans for two two-story brick dwellings on Oraton street, at a cost of \$4,000, for Lewis Brown.—Peter Charles has prepared plans for a two-and-a-half-story frame dwelling to

be erected at 805 and 807 Ridge street, for Diana Witherspoon, at a cost of about \$7,000.—William J. Reuton will erect a dwelling on Ridgewood avenue, No. 133 from plans prepared by E. Stewart Anneman.—A. W. Stoken has made plans for a frame dwelling for Mr. A. Jacobus to cost \$3,000.—Five two-and-a-half-story frame dwellings will be erected by John H. Dunn at a cost of \$10,000.—H. C. Klemm has prepared plans for an attractive dwelling to be erected by Dr. H. O. Roth, on Littleton avenue. It will be two stories high, of frame, well-finished and provided with modern conveniences. The cost will be about \$6,000.

#### Through Delaware.

At Seaford, Sussex county, the town council has signed a contract with Eagle & Young, of Philadelphia, for the construction of water works.

At Wilmington, it is settled that a new financial institution will be organized in a short time under a liberal charter secured from the last Legislature. The name of the new organization will be the Guarantee Title and Insurance Company, and the capital will be \$100,000, with power to increase it to \$1,000,000. Among those interested are Peter J. Ford, who will probably be the president; James M. Gary, Charles B. Houston, William H. Heald, Harry A. Richardson, Chas. F. Richards, Joseph P. Pyle, James L. Wolcott, Hugh C. Browne and W. M. Ross.—Work will begin at once on the erection of the proposed store building for Daniel Bubenzer. The plans have been prepared by E. L. Rice, of Wilmington.—An office has been opened by the Wilmington Light, Heat and Power Company, at 909 Market street, and it is probable that the city will have a public system of heating and a new electric plant. The plan of the company includes a system of heating dwellings and other buildings by hot water and so regulated that an ample supply of heat is available, besides being as cheap, if not cheaper, than heating by coal. The greatest project, however, will be the production of a current for electric lights. The company proposes to erect a large building in which to establish a large steam producing plant to drive the engine which will run the dynamos and manufacture the electric current for lighting and power. Canvasers will begin work at once to receive orders from the people.

#### Through Maryland.

At Easton, Talbot county, a bill is pending in the Legislature to construct a bridge across Choptank river.

At Rockville, Montgomery county, it is stated that the House has passed a bill authorizing Rockville to issue bonds for the construction of an electric light plant.

At Hyattsville, Prince George's county, at the election in May it is probable the question of issuing bonds to the amount of \$25,000 for water works and beginning a sewerage system will be voted on.

At Cumberland, Allegany county, it is stated that the county commissioners will ask for the construction of six county bridges. Three will be near Midland, one at Ocean, one near Short Gap, and one at Potomac Mines.

At Baltimore, E. J. Gallagher will erect five two-story brick dwellings on the north side of Fairmount avenue, between Patapsco and Glover streets.—An extensive building operation was begun in the erection of fourteen three-story brick dwellings on the north side of Wallbrook avenue, between Seventh and Dingliuff avenues. They will be well finished and provided with modern conveniences.—John F. Meyer will erect four two

Heaviest, Largest, Most Economical, Bake Perfectly, Require Fewest Repairs; Low in Price; High in Efficiency.

MANUFACTURED BY

Phila. Stove and Iron Foundry Co.

1625-1635 N. Fifth Street.

## REMOVED

The publication office of this journal has been removed to  
**46 NORTH ELEVENTH STREET**  
second story.

story brick dwellings on Carey street, between North Avenue and Cumberland street.—William F. Parr has made arrangements for the erection of ten two-story brick dwellings at the northwest corner of Patuxent and Baltimore streets; also for the erection of seven two-story dwellings on the east side of Patuxent street north of Baltimore street; also for the erection of seven two-story brick dwellings on the west side of Carey, north of Baltimore street.—Two handsome three story brick dwellings will be erected on Franklin street, between Pearl and Pine streets, by A. C. N. Matthews.—The fancy goods factory of Frederick Bergner & Co., at 310 West Pratt street, was damaged by fire a few days since to the extent of \$10,000.—City Council has passed an ordinance granting permission to the Baltimore, Haleshorp & St. Denis Railway Company to erect poles and overhead wires on Carbon street and Maiden Chase lane.—W. A. Jones, Lieutenant Colonel of Engineers, U. S. A. office of U. S. Light House Engineers, Fifth District, Baltimore, will receive proposals until March 31, 1895, for furnishing the material and labor necessary for the completion and delivery of the metal work of the Wade Point Light House, North Carolina.

#### Washington, D. C.

Work has begun on the Peabody school annex building on Sixth street, between B and C streets, Northwest, for which plans have been prepared by W. J. Marsh. The structure will be two stories high and will contain eight rooms of Colonial style of architecture, the outer walls of red brick laid in white mortar, terra cotta sills and cornice. There will be four rooms on each story, headed by a hallway, where will be staircases, cloak rooms, stationery washstands, etc. The interior wood work will be chestnut; fine heating apparatus, and all modern conveniences and improvements.—Plans have been prepared by Henry Simpson for two handsome dwellings to be erected on the south side of California avenue, between Connecticut avenue and Phelps place, Washington Heights, for Zach M. Knott & Co. These dwellings will be Colonial in architecture, the fronts will be of buff brick with bands of Ohio stone, and the buildings will be surmounted with a cornice and balustrade; there will also be stone balconies with carved columns of stone and wrought iron railings. A feature of the reception hall will be a handsome screen with three arches supported by fluted columns. The parlors will be finished in white, and the halls and dining-room in oak, with open fire places and cabinet mantels; there will be a billiard room in the basement, the entrance lobby and bath rooms will be tiled, furnace heat, electric lights, fine plumbing and pantry fixtures, and the cost of the operation will be about \$16,000. W. W. Souder is the contractor.—Elizabeth O'Callaghan will erect a dwelling at 1906 E street, Northwest.—A store building will be erected by Mr. Gatti at 304 Tenth street, Northwest.—James G. Hill has prepared plans for a row of eight dwellings to be erected by the Sanitary Improvement Company on Bates street, between P and O, First and North Capitol streets, Northwest. They will be well finished and provided with modern conveniences and improvements. The contractor for the erection has been let to W. L. Turner.—The same architect has made plans for an addition to the dwelling of Henry S. Matthews, Thirtieth and O streets, Northwest. The new part will contain a finely finished and appointed dining-room.—The Stone Cleveland Park Company will erect a frame and stucco dwelling at 2941 Newark street. It will be two stories high, fine interior finish and modern conveniences. It will have a high pitch shingle roof.

#### Lot Buyers.

At Overbrook, Pa., Wendell & Smith have sold lots to Edward Adam Shroud, of Overbrook, 200 feet front; to Milton W. Young, of Overbrook, lot 70 feet front; to Horace Trumbauer, architect, of Philadelphia, lot 200 feet front, all on Woodbine avenue.

#### Wants.

At Newport News, Va., bids are wanted until March 31st for the construction of a sewerage system.

At Stockton, N. J., it is said that the town council has passed a resolution authorizing the lighting committee to advertise for bids for the construction of an electric light plant.

At Nashville, Ga., it is said that bids will be received until March 21st for the erection of a new court house. F. M. Shaw is chairman of the committee and can give information.

At Cleveland, Ohio, bids are wanted until March 30th for the construction of sewers in a number of streets. Geo. R. Warden, Director of Public Works, can give information.

At Alexandria, Va., proposals will be received until March 31, 1895, for bonds amounting to \$20,000, issued by the board of supervisors of Alexandria county, Va. H. H. Young, county clerk, Alexandria, Va.

At Pittsburg, Pa., Edward M. Bigelow, Director Department of Public Works, will receive bids until March 18th for the construction of sewers in a number of streets; also, bids for paving a number of streets.

At Reading, Pa., sealed proposals will be received by Council's Committee on Finance at the office of City Clerk Hammer, until March 16, h. for the purchase in whole or in part of 100,000 coupon bonds, which are to be issued for street paving.

At New York City, 21 Courtland street, office of Chief Engineer Charles W. Buchholz, bids will be received until March 29th for certain specified work connected with the elevation of the tracks of the Erie Railroad in Jersey City, between the east end of the tunnel and Prevost street.

At Washington, D. C., Edwin S. Stewart, paymaster general, will receive bids until March 29th for the necessary material and labor for supplying an electrical installation for the experimental metal basin. Also until March 22d for furnishing the Navy Yard with a quantity of steel forgings.

At Philadelphia, Pa., in a few days the committee on property of the Board of Education will open bids for the erection of a new school building, to be erected at Sixteenth and Cayuga streets, also bids for various repairs and additions to school building, including tin roof and fire escapes.

At Philadelphia, Pa., 1428 Arch street, Col. John V. Furey, Deputy Quarter Master General, U. S. A., will receive proposals in duplicate until April 11 for vitrified china dishes, salt cellars, pepper boxes, glass tumblers, dippers, soup spoons (silver plated), bread knives, butcher knives, coffee mills, meat saws, frying pans, carving sets, etc., etc.

At Philadelphia, Pa., the committee on property of the Board of Education will receive bids at the Board of Education, 713 Filbert street, until 2 o'clock P. M., March 22, for metal ceilings in various schools; for new tin

roof and new 16-inch lathe for the Central Manual Training school; new tin roof at the Watson school; fire escape at the Ogden and Haverford schools; rubber trends at the Adaire school; new fence and wall at the Singler school and alterations at the Hart school. H. W. Halliwell secretary.

At Baltimore, Md., office of the court house commission, Henry D. Harlan and Robert H. Smith, sub-committee of the building committee, will receive sealed proposals until April 1, 1898, for the construction and installation of the boiler plant, heating and ventilating apparatus, water supply system, fire pump, etc., for the new court house for Baltimore City. Copies of the drawings and specifications may be seen at the office of the inspector of buildings, City Hall; at the office of the architects, 4 East Lexington street, or at the Builders' Exchange.

At Reading, Pa., sealed proposals will be received until March 23d, by the water commissioners, for furnishing supplies and for laying water pipes and appurtenances for the fiscal year, beginning April 4, 1898. Bids will be received separately for the following items: Item 1, cast iron pipe and specials; item 2, cast iron gate boxes; item 3, water gates; item 4, fire hydrants; item 5, corporation cocks; item 6, pea coal; item 7, oils and grease; item 8, packing; item 9, hemp and cotton waste; item 10, water meters; item 11, laying pipes and appurtenances. Bids for the material to be had by addressing Emil L. Neubling, superintendent and engineer, 25 North Eleventh street, Reading, Pa.

At Washington, D. C., Edwin Stewart, Paymaster General U. S. A., will receive at Bureau of Supplies and Accounts, Navy Department, until March 22d, sealed proposals for a quantity of steel castings and nickel steel forgings. Also until March 29th, for one model cutting machine. Also for the necessary labor and material for supplying an electrical installation for the experimental model basin. Sealed proposals will be received at the Treasury Department, Bureau of Engraving and Printing, by Claude M. Johnson, director of bureau, until April 14th, for textiles, plumbers' supplies, grocers' sundries and rubber goods, and until April 15th, for oils, chemicals and paper. Sealed proposals will be received until April 8th, by Colonel C. P. Humphrey, Depot Q. M., for furnishing during fiscal year ending June 30, 1899, such fuel and mineral lamp oil as may be required.

### Miscellaneous.

At Detroit, Mich., it is reported that the congregation of Lincoln Avenue Methodist Church will erect a new edifice to cost \$30,000.

At Youngstown, O., the congregation of Westminster Presbyterian church is considering the erection of a new edifice. The cost will be about \$20,000.

At Richmond, Va., the Virginia Union University will erect a new building from plans prepared by John H. Coxhead, 824 Elliott Square, Buffalo, N. Y.

At Lexington, Ky., it is stated that the County Fiscal Court has accepted plans prepared by Lehman & Smith, of Cleveland, O., for the reconstruction of the court house. The plans call for a handsome fire-proof building, to cost about \$150,000.

### Judgments

#### PHILADELPHIA.

#### ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of

the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term, and S, for September Term.

S. F.—Seire Facias, to revive judgment.

A star (\*) denotes judgment confessed or bond and warrant conditioned.

## Architect Notes.

Hewitt Bros., architects, Bullitt Building, are making plans for alteration to the country residence of Mrs. Alexander Van Rensselaer, at Burlington, N. J. These will consist of interior work, principally with decoration, etc. Estimates will be asked soon.

Mantle Feilding, architect, 110 South Fourth street, has completed all plans for alteration to 2012 Spruce street for H. S. Keannes. It will consist of stone and brick work, hot air heat, plate and leaded glass, tile work, wooden mantles, electric work and general inside comforts.

J. George Morgan, architect, 1012 Harrison Building, is making plans for a large club house to be erected at Montreal, Canada, for the Montreal Club. It will be two stories high, of red sandstone and terra cotta and in Spanish Renaissance style. It will be divided into parlors, smoking rooms, restaurant and cafe, provided with steam heat, electric work, and all general comforts and conveniences.

E. A. Wilson, architect, Bourse Building, is at work on plans for an operation of houses for Mr. J. Clark Moore, 718 Walnut street. These are to be erected in Germantown and will be three stories high, faced and fancy brick, stone trimmings, slate and tin roofing, hot air furnaces and ranges, electric wiring, gas fixtures, plate and common glass windows and doors, tile vestibules and general comforts on interior.

Charles M. Robinson, architect, 1910 West Chestnut avenue, Altoona, Pa., is making plans for a fine business block and four dwellings, to be erected at Clearfield, Pa. These are owned by Messrs. Patton, Patterson & Heighold, of that place, and will be up-to-date in all particulars. Same architect will make plans for a school annex to be attached to one of the public schools of the above named town. When all plans are completed further notes will be taken.

Howard Hagar, architect, 1223 Filbert street, has made the plans for the alteration and additions to the Vesper Boat Club building, noted in a previous issue of this journal. These are now on boards of contractors, at 1604 Sansom street, for estimates. The work included will be tearing down old work, piling masonry, cut stone and iron work, carpenter and mill work, slate roof, plastering and cement work, hardware, plumbing, gas fitting, painting, etc.

Horace Trumbauer, architect, 310 Chestnut street, is at work upon plans for a large casino to be erected for the Chestnut Hill Park Company upon their recently purchased grounds. The structure will be 80 x 200 feet, two stories high, frame construction, and fitted on interior with a kitchen, restaurant, bowling alley, billiard room, toilet rooms, closets, etc.

Also electric wiring and general improvements. Mr. Trumbauer has on boards other projected work which will be noted later.

Charles Balderston, architect, 144 South Fourth street, has completed plans for a front extension of 95 x 85 feet to bakery building of the Kolb estate, 1409 South Tenth street, and placed drawings on boards of Contractor W. R. Dougherty, 1604 Sansom street, and others, for estimate. These call for a two-story structure of brick, with stone work and granite base; also on interior for cement work, plate glass, iron work, carpentry and masonry; all conveniences introduced.

Schermerhorn & Reinhold, architects, 430 Walnut street, have just made plans for a fine house at Overbrook, Pa., for James A. McCarthy. It will be 40 x 60 feet, Holmesburg granite, slate roof. Interior hard wood, quartered oak, fine plumbing, electric work, steam heat and all general improvements. There will be twenty rooms arranged in suites, with baths to each, billiard room, servants' rooms, clothes' shute upon third floor. Estimates are now being taken by the architects.

John F. Stuckert & Son, architects, 49 North Thirteenth street, have completed plans for a stable for William Rumpf, at Langhorne, Pa. It will be two stories high roof, water tank, and all general stable conveniences. The contract for the large factory at Langhorne, for Frederick Rumpf, has been awarded to George C. Deitrich, contractor, 939 North Seventh street. Plans by the architects above noted. Previously described in full in this journal.

Robert S. Pitts, architect, 224 South Third street, has completed plans for ninety-three three-story dwellings, to be erected on a new street in rear of Cedar avenue, between Forty-ninth and Fiftieth streets. All to be of fancy brick, porches in front, best of home comforts on interior, including hot air heat, ranges, plumbing, gas fitting, etc. Mr. Pitts will supervise the entire work of construction. On Cedar avenue, between Forty seventh and Forty-eighth streets, John H. Rose, builder, will at once start erecting fourteen three-story dwellings, all being of the same class as the above noted.

Rankin & Kellogg, architects, 1024 Walnut street, have completed all the drawings for the public library to be erected in Newark, N. J., and the estimates are likely to be called for during the next ten days or two weeks. Sketches and specifications will be placed in this city, as well as in Newark, for bids upon construction. The same architects are at work upon the detail drawings for the new Public Building for the U. S. Government in Camden, N. J., and this also may be before contractors for bids at an early day. This work, however, is subject to orders of the

Treasury Department and entirely under direct supervision of the supervising architect. Same firm are engaged on other work which will be noted when the plans have assumed a more advanced condition.

Joseph M. Huston, architect, Witherspoon Building, Walnut and Juniper streets, has completed plans for a large twelve-story apartment house to be erected at 114-6 South Nineteenth street. The structure will be of granite, fancy colored brick and terra cotta work, 36 x 106 feet in area, and have basement and sub-basement. The first floor will contain a large reception hall and grill room, offices and parlors. A kitchen and dining room will be upon the roof, also a handsome garden scene. Among other features will be a spacious Louis XIV music room which can be utilized for banquet purposes. The apartments will be arranged en suite and furnished with every detail for convenience. Elevators, electric work, marble and tile work will decorate the halls and floors, also most approved methods of heating by steam and ventilation. Estimates are in order on the work.

Seymour Davis, architect, 917 Walnut street, has now completed all plans in detail for the new apartment house to be erected at Fifteenth and Walnut streets for G. Jason Waters, proprietor of the Windsor Hotel, Atlantic City, N. J. Mr. Waters will receive in person all sub bids from contractors at the above address and estimates will be asked during the next ten days. The structure is very handsomely designed in Flemish style of architecture, and will be twelve stories high with basement and sub-basement; the material will be terra cotta for the two first stories, and dark red brick and terra cotta trimmings for the rest; the roof in red tile with very ornamental peaks. The main entrances will be from Fifteenth street and covered clear to the curb line. The first floor will be fitted with a restaurant and cafe on either side of the main or entrance hallway, from which passenger elevators will run to all floors. Mosaic marble tile and various fancy woods will ornament the interior throughout, considerable grille work, in iron and other metals, will enclose the offices and elevator shafts. An individual electric plant, also one for power and heat will be placed in basement, whilst the kitchen and larders will be located on the ninth floor. The whole construction will be absolutely fire-proof, having an entirely steel frame and other solid material for the inner work. Apartments will be en suite and furnished with every modern comfort and convenience, etc. The same architect having under his supervision the erection of the hospital at Allentown, Pa., desires special bids on steam heating and ventilation—the fan principle and others. These can be made at once to the architect's address, as above indicated.

## A Word About MIRRORS

Nothing adds so much beauty to a home as  
a few handsome mirrors.

Men appreciate this fact as well as women.  
Do you know that our best customers for richly  
framed mirrors are men?

To be sure, many are purchased as pleasure-  
giving surprises. But the tone, the beauty, the  
service is all there, no matter who buys them.

Land Title Building

Broad and Chestnut Streets

Is an innovation in the real estate auction busi-  
ness which merits more than a passing notice, for it  
represents progression of a high order. For the first time  
the most central as well as the most expensive location  
in the whole city is selected in which to hold an auction  
sale of real estate; besides which these rooms are to  
be made headquarters at which buyers and lookers may  
be enabled to keep track, through frequent visits, of what  
is offered both at private and public sale.

PHILADELPHIA, WED'Y, MOH. 23, 1898.

### Architect Notes.

Frank R. Carswell, No. 6 West Ninth street, Wilmington, Del., has made plans for a factory to be erected at that place. It will be of brick and iron, one story, and measure 50 x 175 feet.

Yarnall & Goforth, architects, 14 South Broad street, have been taking bids on the house for W. W. Arnett, to be erected at Glenn Summit, Pa. These plans were completed some time ago and fully noted in this journal.

Charles F. Douglas, architect, 1313 South Nineteenth street, is making plans for a new building for the Tacony Baptist Church. It will be of brick and stone; hot air heat, electric work, plumbing, some marble and stone work, upholstery, furniture and general church decorations, etc.

Franklin Keagy, architect, Chambersburg, Pa., has plans almost completed for a store building at Waynesburg, Pa. for Adron Metcalf, at that place. It will be a frame structure, 36 x 50 feet, electric light, hot water heating and modern conveniences. Ground has been broken for the excavation.

T. Frank Miller, architect, formerly at 1219 Arch street, has taken a fine suite of offices in the Lippincott Building, Twelfth and Filbert streets. Mr. Miller requires more room for his growing business, as he is at present engaged upon several prospective operations which will be noted at an early day.

E. Allen Wilson, architect, 4564 Wayne avenue, Germantown, has made plans for an operation of sixty-four dwellings, to be erected for George Rutland, at Eber and Twentieth streets. All to be of press brick, stone facings and two stories high. Hot air furnaces, ranges, plumbing and all general conveniences introduced.

Harry E. Flower, architect, Heed Building, Filbert above Twelfth street, is making plans

for a residence to be erected at Broad and Tioga street, in this city. It will have a fancy brick front and stone trimmings, galvanized iron and copper work, slate roof, hot air heat, ranges and boilers, electric work and all modern conveniences, etc. Name of owner not given. Cost, \$10,000.

### Building and Real Estate Notes.

B. S. Sterling, contractor, 318 Market street, has the contract to build the store for C. Schower, at 116 Market street, after plans by Angus S. Wade, the well known architect. Previously noted.

The Plastic Club Association of this city are raising funds for the purposes of building in the near future. An exhibition of their work was held at Academy of Fine Arts last week with that purpose in view.

Miss Wiswell, 621 North Fifteenth street, will erect a three-story dwelling at 1520 Mount Vernon street, from plans by Jas. D. Williams, builder, Tioga. The building is to be similar to several Mr. Williams has erected in Tioga.

Andrew Jackson Hook, contractor, will build at once a small warehouse, 31 x 32 feet, two stories high, for John Gilk, at Lee and Moore streets, in the First ward. Material will be of brick and stone, with slow burning interior.

Mr. Randall Morgan, of Wyndmoor, Chestnut Hill, has bought from the Heebner estate four and a half acres of land adjoining his present residence on the east toward Mermaid Station, and will to some extent improve the same. Mr. Morgan is connected with the U. G. I. Co., 313, Drexel Building.

John Stafford, the well known builder, Sixteenth street and Susquehanna avenue, is reported to have bought another full block of ground from J. H. Dingee, estate bounded by Thirty-second and Thirty-third streets, Huntingdon and Norris streets, and intends putting up 135 dwellings thereon at an early day.

Phillip Anns Co., Bourse Building, have the contract to erect the new building of the Church of God congregation, at Sixth and Germantown avenue. It will be of stone, one story high, 60 x 81 feet. It will include a main room, Sunday school and assembly room, each department furnished appropriately. Previously noted.

H. H. Markley, builder, 1025 Arch street, is about to erect sixty-four dwellings at Sixty-first and Market streets; all to be two stories high, with porches in front, fancy brick fronts, plate glass windows, hot-air furnaces, electric bells, ranges and general conveniences, etc. Estimates are being made on material and work at the above address.

The Ebenezer M. E. Church congregation, located on Gay street, Manayunk, has decided to build a new church and started the general subscription on the 16th inst. No particular site has yet been selected, nor has an architect been chosen to prepare plans for the structure. Rev. William Rowick is the pastor in charge and about \$1200 has been raised for the above purpose.

H. H. Markley, builder, will at once start the erection of 60 frame dwellings on north side of Market street, from Sixty-first to Sixty-first-and-one-half street, and Market to Arch street. These are to be of fancy brick, stone steps and facings electric bells, hot air heat, ranges, plate and leaded glass doors and windows, general comforts throughout.

Solomon Greenberg, builder and owner, has broken ground for 176 houses to be erected between Twenty-ninth and Thirtieth, Huntingdon and Cumberland streets, also on Hollywood and Myrtlewood streets. These are to be of press and fancy brick, stone facings, with porches, and interior to have hot air furnaces, ranges, plate and plain glass and general accommodations.

The Tile and Grate Association is the name of a new organization composed of dealers in tiles and grates, mantels, etc., in this city. Its object is to encourage and protect trade and to oppose destructive and senseless competition. It will seek to adjust business differences among its members, besides which the social influences will be cultivated. The Board of Directors will include Mathew Hall, Adolph Grant, George B. Craft, Charles B. Kline and Charles E. Smith.

In regard to the projected new building for the Children's Homeopathic Hospital, at 925-928 North Broad street, there have been no definite details or plans agreed upon. It is more than probable that several architects will be invited to prepare plans for the structure, which will incorporate all the late sanitary ideas and general conveniences. The building will be sixty-one feet on Broad street and extend back to Carlisle street in rear. Dr. C. R. Blackall, Crozier Building, Chestnut street above Broad, is president of the board of directors of the institution.

The Avalon Water Company, of which Mr. Thos. Bray, 209 South Third street, this city, is secretary and treasurer, will this week close the contract for the construction of new water works at Avalon (Seven Mile Beach), New Jersey. The contract in its entirety will be given to one party, who will deliver the works complete. The specifications embrace a power house and elevated iron tank to hold 75,000 gallons; artesian well boring; pumping engine of 300,000 gallons daily capacity; 800 feet of 8 foot 6 inch and 4 inch iron pipe; hydrants, pipe laying, etc. The same company has let the contract for sewers at same place to B. F. Sweeten, Camden, N. J.

Competitive plans are now being made by a number of architects for the large hospital building to be erected by the Jefferson Hospital upon their holdings extending from their present building on Sansom street above Tenth, eastward to the latter street, thence to Walnut street, and along the latter street, north side for a considerable distance. The shape will be irregular somewhat, but in area give enough ground to erect one of the largest institutions in this country. All tenants have been notified to move, and those remaining do so subject to a month's notice to quit. From present indications the work will be started at an early day. Mr. William Potter is president of the board of directors.

## TRUSTS. TITLES. DEPOSITS.

# THE PLANT OF THE LAND TITLE AND TRUST COMPANY,

608 Chestnut Street,

Covers every foot of ground in Philadelphia, and is the only Plant containing an abstract of every Deed, Mortgage, and Sheriff's Sale of record in Philadelphia since 1682 located against each property described.

This Plant necessarily gives great additional protection to purchasers and mortgagees taking this Company's policy of Title Insurance, apart from the security of its One Million Dollars full paid capital.

## Beautiful Sea Shells

Every one admires them. Since coming south I have received numerous inquiries from northern people for sea shells, and now I am prepared to answer yes, I can send you shells, for I have made quite a collection of lovely shells, both from our own coast, the coral reefs, and some beautiful ones from the West India Islands. I will mail a dozen or more different kinds, no two alike, to any one who sends a stamp for postage. Also send you a lovely piece of white branch coral.

Yours, MRS. F. A. WARNER,  
Jacksonville, Fla.

BENJAMIN MOORE &amp; CO.,

256-262 Water St. Brooklyn, New York.

Geo. F. Payne & Co., contractors, 401 Juniper street, are estimating on alteration and addition to house of the Eberly Bros., Twenty-sixth and Columbia avenue. The work is principally on interior, fitting up for a drug store.

Jacob Meyers & Sons, contractors, Juniper and Sansom streets, will at once begin the work of constructing, rear of the Union League Building, a summer pavilion and minor alterations in basement, all of which have been noted in this journal.

Kemon & Andrews, builders, are to start an operation of 74 dwellings, two and three-story, at Broad street and Moyamensing avenue. These are to be of Pompeian brick, with porches in front, 16 x 56 feet in area, all to be fitted with hot air furnace, ranges, etc.

J. E. & A. L. Pennock, contractors, 305 Walnut street, are constructing a vault and erecting a five-story addition at Croft & Allen's factory, 33d and Market streets. It is of brick, stone and iron, and furnished, in keeping with the main building, with all conveniences.

A new Presbyterian congregation is being organized in the vicinity of Forty-ninth street and Baltimore avenue, and in due time will erect a chapel. No definite action has been taken yet in the matter of site or plans for a structure. When it has been settled we shall note the same.

R. C. Ballinger & Co., 218 North Thirteenth street, are taking estimates upon a ten-story office building, to be erected in this city, location not given. It is to be of stone, brick and steel and measure 32 x 75 feet, fitted with steam heat, electric work, elevators and all modern improvements.

Columbia Heater and Range Co., 1634 N. Eleventh street, has been awarded the contract for the heater and range, roofing and cornice work on 34 two and three-story dwellings for Messrs. DeLong & Stable, to be erected on Germantown avenue, Durham and Boyer streets, Germantown.

Concerning the purchase of the northeast corner of Broad and Arch streets by the United Gas Improvement Company and the erection of an office building, it can be said that as yet no architect has been retained to make plans, nor have any contracts been entered into for construction.

Thomas W. Wright, 22 Harvey street, is estimating on plans for a house to be built at Germantown for H. Q. Potts, of that place. It will be of stone and brick, three stories high, 25 x 50 feet, interior will contain Hajoca closets, tubs, wash basins, electric work, hot water boiler, ranges, etc.

A much needed improvement is about to be added to the public buildings of our city by the enterprise of Charles L. Brown & Co., 331 Chestnut street. The structure noted will be located at Broad street and Lehigh avenue, with its main front upon the latter thoroughfare and constructed as a place of amusement, with an ice floor for skating purposes, and when this amusement may be out of season the auditorium can be utilized for general purposes, as the case may require. The building will, when finished, be furnished with steam heat, electric light, and parlors, reception rooms, toilet closets, etc. Plans are as yet not fully developed, but will be completed at an early day.

### Through Pennsylvania.

☞ When any of the following are not post office towns they will be so designated.

—At Frederick, Montgomery county, the Green Tree hotel will be remodelled.

—At Wernersville, Berks county, the Grand View Sanitarium will be improved by Dr. Wenrich.

—At Sassamansville, Montgomery county, J. R. Miller has bought a lot and will erect a large dwelling.

—At Quakertown, Bucks county, work has begun on a dwelling for Mahlon King on North Fourth street.

—At Worcester, Montgomery county, the hotel owned by Martin Seitz will be enlarged by a two-story addition.

—At Limerick, Montgomery county, Henry Landis has bought the Longaker farm and will erect a number of dwellings.

—At York, York county, it is said that school bonds to the amount of \$68,000 have been sold to W. J. Hays & Sons, of Cleveland, Ohio.

—At Williamsport, Lycoming county, fire damaged a few days since the lumber yard of Ezra Canfield's Sons to the extent of \$30,000.

—At West Chester, Chester county, Charles Walker has begun the erection of two brick dwellings on West Union street. They will cost about \$9,000.

—At Boyertown, Berks county, St. John's Lutheran congregation has bought a lot of Mrs. Solomon Erb and will improve the site by the erection of a parsonage.

—At Lansdowne, Delaware county, a special election will be held in May to vote on the question of increasing the indebtedness of the town \$30,000 for street paving.

—At Harleysville, Montgomery county, A. H. Nyce has bought the Jonas Harley farm and laid out a village to be called Westfield. A number of dwellings will be erected.

—At Larksville, Luzerne county, four double dwellings owned by Mrs. Johanna Brennan and Frank Collard were destroyed by fire last week. The estimated loss is \$25,000.

—At Scranton, Lackawanna county, it is reported that the Great Railway Company will construct an iron viaduct on West Lackawanna avenue. The estimated cost is \$80,000.

—At Quakertown, Bucks county, it is the intention of the Mononite Brethren in Christ to erect a house of worship. Rev. W. K. Ziegler is in charge of the congregation.

—At South Bethlehem, Northampton county, a vote will be taken at an early day on the question of issuing bonds to the amount of \$100,000 for the construction of a sewerage system.

—At McKeesport, Allegheny county, H. J. Lohman has prepared plans for twenty-two double frame tenements to be erected at Gallatin, Pa., for the Irwin Basin Gas Coal Company, Limited.

—At Mahoning City, Schuylkill county, work will begin shortly on paving about twenty blocks with brick. The estimated cost is \$50,000. D. P. Kutz, chairman of committee, can give information.

—At Thornton, Delaware county, T. K. Darlington has the contract for remodeling the dwelling of David B. Martin, at Painter's Cross Roads. It will be wired for electric lights and an electric light plant put in.

—At Norristown, Montgomery county, the county, engineer, Alan W. Corson, has made an estimate of the cost of a bridge to cross Saw Mill run from Green to Arch street. The estimated cost is about \$16,000.

—At Uniontown, Fayette county, fire, not long since, destroyed the block bounded by Broadway, Peter and Penn streets and Gallatin avenue. The loss is about \$20,000. The fire began in Mr. Magie's livery stable.

—At Wyalusing, Bradford county, it is reported that an ordinance has been passed authorizing the Wyalusing Electric Light and Power Company to construct an electric light plant. E. A. Strong, borough clerk, can give information.

—At Beaver Falls, Beaver county, it is said that the Pittsburgh and Lake Erie R. R. is considering the erection of a round house, also a passenger station at the Fellerman bridge for

the convenience of North End Beaver Falls and College Hill patrons.

—At Lebanon, Lebanon county, the county commissioners have been directed to erect a new bridge across Quittapahilla creek, near Union Forge, Lebanon county. The span will be about 100 feet. James M. Snyder, clerk, can give additional information.

—At Danville, Montour county, the Danville Knitting company will erect a large factory to cost about \$10,000. It will be three stories high, of brick and iron, and equipped with modern machinery and power. It will give work to about two hundred hands.

—At West Chester, Delaware county, Christians Heppburn has bought a lot on Franklin street. The purchase was made from the Heppburn estate. William H. Jones has bought a lot on South Matlack street from Mrs. Ellen King and will erect two dwellings to cost about \$4000 each.

—At Oakland, Chester county, the board of managers of the Pennsylvania Hospital for Epileptics has under consideration a proposition to erect two additional cottages on the colony farm at Oakbourne. The present buildings are nearly filled with additional patients arriving daily, and more room will soon be necessary. The proposed cottages will probably be erected the coming summer.

—At Harrisburg, T. H. Sullenberger, 440 Walnut street, has made plans for a plant for the manufacture of white brick at Mt. Holly, for the Mt. Holly Brick & Clay Company, of Harrisburg. M. S. Shotwell has prepared plans for a number of dwellings for B. H. Eagle, at Second and Riley streets. The estimated cost of the operation is \$14,000; also plans for seven dwellings for the same to cost \$18,000. All brick.

—At Mt. Gretna, Lebanon county, James H. Fuertes, civil and sanitary engineer, 100 William street, New York City, has charge of the proposed sewerage system to be put in at the Pennsylvania Chautauque grounds and has already begun investigations. He will be assisted by George W. Hayes, city engineer of Lebanon, who will have charge of the construction of filters and entire sewerage system under the supervision of Mr. Fuertes.

—At Allegheny City, Allegheny county, Boggs & Buhl will erect a four-story building adjoining their present structure on Federal street. It will be of brick, steel and iron and will be of slow burning construction. The plans for it have been prepared by S. T. Heckert, Stevenson Building, Pittsburgh. John Helm has broken ground for a two-story and attic brick dwelling to be erected at 53 Avery street. George Ott, 53 Avery street, is the contractor. The estimated cost is \$4500. Frederick Booth has the contract for a frame dwelling to be erected for George Wormsley, 95 Washington avenue.

—At Reading, Berks county, Nathaniel Ferguson has bought in the old fair grounds on North Eleventh street for the bond holders for \$15,250. It is said to be the intention to make a number of improvements, including a bicycle track, base ball and foot ball grounds, etc. William H. Rummel, the contractor for the erection of Zion U. B. church, has begun work on that structure at South Ninth, between Penn and Cherry streets. Contractor George W. Beard has broken ground for two three-story brick buildings for Mrs. Wilhelmina Bishop, to occupy ground on Penn street, between Third and Fourth streets. They will be well finished and will be fitted up as stores. Dr. S. T. Schmehl will erect a dwelling at 110 North Tenth street. George Foos is the contractor. It is probable that considerable vitrified brick and asphalt paving will be put down the present season.

—At Pittsburg, J. E. Allison, Publication Building, is preparing plans for a ten-room colonial dwelling to be erected for T. Tabbuts, also carriage house and stable for the same;

## Every Artisan Employed in the Building Trades Wears Clothing

He is interested in GOOD CLOTHING.

And those skilled workpeople, who KNOW  
 good clothing, are friends of the Snellenburg  
 apparel.

The Snellenburgs BUILD Clothing as a  
 practical worker builds a house. They plan  
 it, cut it, trim it, tailor it—and sell it at one  
 small profit.

And now they employ 4000 workfolks.

*Snellenburg's*

also plans for a frame colonial dwelling for  
 Walter B. Hill, and plans for a twelve-room  
 brick dwelling for Robert Hall, all to be erected  
 at East Liverpool, Columbiana county, Ohio.  
 The plans of Mr. Allison for a bank building  
 to be erected at the same place are ready for  
 bids.—Rutan & Russell, Tradesmen's Build-  
 ing, have finished plans for the new Armory,  
 to be erected on Bedford avenue, and will in-  
 vite bids at once for its construction.—Elmer  
 E. Miller, Penn Building, has prepared plans  
 for a brick colonial building, to be erected for  
 Dr. R. H. Sykes, at Perryville avenue and  
 Charles street, Allegheny.—Six dwellings  
 will be erected by John Dimling, on Bates  
 avenue, Oakland, from plans prepared by F.

C. Sauer.—The First Pentecostal congrega-  
 tion, of which Rev. J. H. Norris is the pas-  
 or, will erect a new church, and architects are in-  
 vited to submit plans for a structure to cost  
 from \$15,000 to \$25,000.—James Verner will  
 erect two three-story brick stores and dwellings  
 on Penn avenue, near Twelfth street, from  
 plans prepared by Long & Carroll, Hamilton  
 Building. These structures will cost about  
 \$3500 each. The same architects have made  
 plans for a three-story brick store and dwelling,  
 to be erected on Penn avenue, near Thirteenth  
 street, for Mr. Levi; also plans for a dwelling  
 for Mr. McCormick, at Greensburg, Pa., and  
 for a dwelling to be erected at Bellevue, Pa.,  
 for T. E. Clark.—Oswald Werner will erect

a three-story brick dwelling on Penn avenue,  
 from plans prepared by F. C. Sauer, Hamilton  
 Building.—Five dwellings will be erected on  
 Rural avenue, by Splane & Hall, from plans  
 prepared by H. T. Waughler, 333 Fourth ave-  
 nue.—Three new railroad stations will be  
 erected in suburban towns, one at Leetsdale  
 and one at Fair Oaks, on the P. F. W. & Co.,  
 and one at New Kensington on the A. V. R.  
 R.—It is stated that a large foundling hos-  
 pital will be erected. Rev. C. P. Way, of Fair  
 Oaks, has the matter in hand.—Work will  
 soon begin on the new church to be erected by  
 the Wilkesburg Presbyterian congregation.  
 It will occupy a site at Wood and Wallace  
 streets, and will cost about \$75,000. Rev. Dr.  
 Thomas Parry has charge of the congregation.

### Through New Jersey.

At Mullica Hill, Gloucester county, Mrs.  
 Annie J. Gifford has bought a building lot and  
 will erect a dwelling.

At Plainfield, Union county, it is reported  
 that Common Council will appropriate \$20,000  
 to be used for street improvements.

At Garwood, Union county, the dwelling of  
 Noah A. Barnett was destroyed by fire last  
 week. The estimated loss is \$5000.

At Angelsea, Cape May county, it is said  
 that both the Methodist and the Baptist con-  
 gregations will erect new churches the present  
 season.

At Arlington, Hudson county, a two-story  
 frame dwelling will be erected by J. C. Fuller,  
 of Philadelphia, from plans prepared by George  
 E. Leets.

At Burleigh, Cape May county, the store,  
 dwelling and barn of Harry Crease were de-  
 stroyed by fire a few days since at a loss of  
 about \$5000. They were fully insured.

At Mantoloking, Ocean county, the large  
 hotel owned by Benjamin Alberison was de-  
 stroyed by fire last week. The loss is estimated  
 at \$21,000, on which there is an insurance of  
 \$14,500.

At Egg Harbor, Atlantic county, the Atlan-  
 tic Board of Freeholders has awarded to Quin-  
 lan & Leary, for \$10,000, the contract for build-  
 ing a new county road between Egg Harbor  
 and May's Landing.

At Belleville, Essex county, the Eastw. of Wire Cloth Company will erect a three-story brick factory 30 x 150 feet, from plans prepared by J. C. Nibel, 59 Court street, Brooklyn, N. Y. The estimated cost is \$30,000.

At Cape May, Cape May county, the contract for the erection of the new First Presbyterian Church has been awarded to Geo. W. West, of Cape May. It will occupy a site at Hughes and Decatur streets, and will cost about \$13,000.

At Haworth, Bergen county, an attractive two and a-half story frame dwelling will be erected by C. O. Hennessy, 34 Park Row, N. Y. City, from plans prepared by C. B. Woodhouse, Passaic, N. J. The cost will be about \$4,000.

At Mount Holly, Burlington county, a committee has been appointed to consider the purchase of the Mount Holly Water Works and also to investigate and report on the probable cost of installing an airtight plant to be owned by the town.

At Wayne (not a postoffice town), Passaic county, the board of education will erect a school house to cost about \$6000 from plans prepared by F. W. Wentworth, Paterson National Bank, Paterson, N. J. William C. Steel, president of the board.

At Maywood, Bergen county, Ludwig Haas, N. Y. City, will erect a two-story frame dwelling from plans prepared by Joseph Arnold, of Bergen, N. J. The cost will be \$2500. William Kreckill will erect a similar dwelling from plans prepared by S. A. Dennis, No. 150 Nassau street, New York City.

At Passaic, Passaic county, William L. Aldous will erect five two-story dwellings on Maple street, to cost \$10,000. The plans have been prepared by C. Kevitt. Mrs. Mary A. Cleft will erect a frame store and dwelling in Washington Place. It will be well finished, supplied with modern conveniences and will cost about \$5,000.

At Bloomfield, Essex county, at the annual meeting of the school board held last week, \$12,000 was appropriated for school purposes. Three new buildings to cost \$33,000 each will be erected at once. Plans for these buildings have been submitted and work will be begun on them as soon as possible. Thomas Oakes is president of the school board.

At Atlantic City, Mr. Joseph Fralinger has adopted plans for a handsome fireproof theatre to replace the one destroyed by fire, and work on the structure will begin at once. The Chalonte, conducted for many years by Elisha Ruber's Sons, has been sold to Edward C. Leeds and Walter J. Buzby. The new owners will make extensive improvements next fall.

At Asbury Park, Monmouth county, steps have been taken to make a number of improvements at Mount Pleasant Cemetery. These will include walks, tree planting, the introduction of water and other improvements. Mr. Henry M. Bennett will erect a \$30,000 monument. James A. Bradley, George M. Bennett, George W. Treat, H. S. Kenmouth, and others are trustees. Joseph T. Stewart has the contract for the erection of the A. W. Cornelius new building on Cookman avenue. Henry D. White has the contract for a dwelling for F. T. Hurst in West Park. Mr. W. J. Cooper has the plans for the new casino at Asbury and Cookman avenues.

At Jersey City, the Pennsylvania Railroad Station was badly damaged by fire on March 21. The Board of Finance has been asked for an appropriation of about \$200,000 to be used for the erection of a new high school. Mrs. Rooney will erect three two and one half-story frame dwellings to cost \$5000. J. A. Reach made the plans. Also plans by the same architect for dwelling for John Masthoff and L. Kerschner. John T. Rowland has made plans for a frame dwelling for Mr. Vanderbeck to cost \$4000. Messrs.

Smith & Martin will erect three frame dwellings to cost \$2000 each, from plans prepared by C. Fred. Lang. Gerard Killar will erect two attractive dwellings to cost \$4000 each, from plans prepared by George Von Arx.

At Paterson, Passaic county, M. Houman has prepared plans for a three-story brick building to be fitted up as a store for Dr. Rush Meer. The cost will be \$3000. William & Neill have made plans for a three-story frame dwelling to be erected on Madison street for Mary Cugan. It will cost \$4000. John Phalen will erect a frame store and dwelling from plans prepared by E. E. Vreeland. Herman Berlschy will erect a frame dwelling to cost \$3000. An attractive three-story brick store and dwelling will be erected at No. 36 Straight street by Maria Grosso. The estimated cost is about \$5500. John Reynolds will erect a two-story frame dwelling at 682 Twenty-eighth street from plans prepared by M. Houman. It will cost \$3500.

At Newark, M. P. Roche has prepared plans for a frame dwelling to be erected by the Homestead Building Co., North Third street, at a cost of \$3000. Gerald Clifford will erect a three-story frame dwelling on S. Ninth street to cost \$4000. An attractive dwelling will be erected by Mrs. Katharine M. Horness from plans prepared by Hard & Sutton. It will be finely finished and will cost about \$4000. William P. Scholling has made plans for a three-story frame dwelling for Frank Zwigand. The estimated cost is \$4000. John Hallbauer will erect a frame dwelling at 414 Walnut street to cost \$3500.

H. P. Lyon has drawn plans for a dwelling to be erected for Mrs. Eliza J. Lyon at 134 Milford avenue. The estimated cost is about \$3500.

#### Through Delaware.

At Georgetown, Sussex county, at a recent election the candidates were elected who favored the erection of water works.

At Wilmington, at a recent meeting of the Board of Education the new Building Committee was instructed to investigate the subject of putting an iron fence around School No. 20, also to select options on several lots from which to select a site for a new school building. Mr. Peter I. Ford has sold the Ford Morocco Factory, of which he was president and owner, to a Boston syndicate, represented by William A. Stets of Boston. The plant and stock is valued at about \$1,000,000. The new company, it is said, will increase the capacity of the plant and make various improvements.

#### Through Maryland,

At Hyattsville, Prince George's county, at an election to be held in May a vote will be taken on the question of issuing bonds to the amount of \$25,000 to be used in the construction of water works.

At Hagerstown, Washington county, it is said that the County Commissioners have granted permission to Powell Evans to string wires from Weverton to Hagerstown, Williamsport, Waynesboro, Greensville, Harper's Ferry, Shepheardstown, Boonboro and Sharpsburg, to supply those towns with electricity from a power plant to be erected at Weverton. The board of managers of the Orphan's Home has asked the board of county commissioners to make an appropriation to help erect an addition to the home to be used as a hospital. The members of the board of managers are Jacob Roessner, Charles E. Roach and A. A. Lechlader.

At Baltimore, a three-story carriage repository and dwelling will be erected on the north side of Columbia avenue, between Barre and Scott streets, by F. Winter. A building operation, consisting of the erection of thirteen two-story dwellings, has been begun by

Uhlir & Sprague. The dwellings will occupy ground on the east side of Luzerne street, between Fayette street and Fairmount avenue. It is stated that Goodrich & Goodrich, 801 Fidelity Building, have prepared plans for a theatre and hotel building, to be erected by a syndicate in the City of Mexico. It will be of brick, copper roof, steel frame, marble front, stairs, wainscoting and floors, considerable tile work, hot blast heat, fine interior finish and all modern conveniences. The estimated cost is about \$250,000. Plans have been prepared by J. A. and W. G. Wilson, 5 East Lexington street, for the new edifice to be erected by the Bohemian Presbyterian Congregation. It will be of brick, slate roof, well finished and will cost about \$50,000. Work has begun on the Taggart Memorial Church, for which plans were prepared by Thomas C. Kennedy, 113 North Charles street. It will be of stone, handsome interior finish and church furniture and fixtures, tile roof, and will cost about \$20,000. Plans have been completed by George W. Archer, Law Building, for the handsome building to be erected by Johns Hopkins University. It will be of brick and stone, fine interior finish, steam heat, considerable tile work, ventilating plant, electric light plant, slate roof and all modern conveniences and appliances. Ground has been broken by Carter & Billing for the erection of twenty-two story brick dwellings on Bradford street, between Lanvale and Townsend streets. A three-story office brick building will be erected at Hanover and Perry streets by the Wehr-Hofelman-Gottlieb Brewing Company. Three two-story brick dwellings will be erected at Stockholm street and Columbia avenue by L. Stroh. Work has begun on an operation of twelve two-story brick dwellings by J. A. Rodbird. They will be well finished and provided with all modern conveniences and improvements.

Three two-story brick dwellings will be erected on James street by Henry R. Guest. Margaret Pentz has bought one acre of ground on Park Heights from Michael Wright. John Stack & Sons have been awarded the contract for the erection of Taggart Memorial Chapel at the McDonough school. The plans for the structure have been prepared by Thomas C. Kennedy. It will be of Westminster stone, finely finished and will cost about \$18,000. Messrs. Seagraves and Turnbull have sold for Mr. M. H. Murray twenty lots at Park Heights. The same firm have sold for F. W. Trimble & Bros. five lots on Parkwood avenue. Bids will be received until April 25, 1898, for the plumbing of the new court house. David Eichner will erect two two-story brick dwellings at 22 and 24 Silton street. R. B. Pierce will erect a frame dwelling on the north side of old Frederick road.

#### Washington, D. C.

The sub-committee on street railways of the House District Committee has reported favorably a bill to incorporate the Washington and University Railroad. A double trolley will be used on the line. The incorporators are J. D. Croissant, Fred. C. Kennedy, A. O. Humphrey, D. D. Stone, John J. Flynn, V. K. Nash, and C. S. Lord. Senator Gray, of Delaware, has introduced a bill in the Senate to appropriate \$100,000 for the improvement of the Wilmington (Delaware) harbor. Work has begun on the erection of a monastery on the McConey farm, Philadelphia street, Northwest, by the Franciscan Fathers of the Roman Catholic Church. The plans were prepared by Aristides Leonori, of Rome, Italy, and call for a structure 200 x 336 feet, of stone and brick. The interior will be well finished, heated by steam, and supplied with modern conveniences. The estimated cost is about \$135,000. The contract for the erection has been let to

John S. Larcombe. The site includes forty acres of ground.—A fine lot on the south side of Massachusetts avenue, between Twentieth and Twenty-first streets, has been bought by Mr. Beale, who will improve the site by the erection of a handsome residence. The lot is 61 feet front and the price paid for it was about \$40,000.—Mr. Bliss has bought a building site on the east side of Sixteenth street, between K and L streets, for \$80,000. It has a frontage of fifty feet and the owner will have a fine residence erected on the site.—L. Norris has prepared plans for a handsome Colonial dwelling to be erected for Mrs. Mary D. Heyl on the north side of Wyoming avenue, west of Columbia road, Washington Heights. It will be of reddish brown brick, which will be laid in Flemish bond with head on course, showing the dark shade of the brick. The trimmings will be of Indiana limestone, sloping slate roof surrounded by a balustrade and pierced by dormer windows; porches and verandas will be a feature of the outside. The interior of the first floor will be finished in ivory white, the other floors will be finished in colors to suit; tiled bath room, plain and ornamental glass, and all modern improvements and conveniences. The contractor is John McGregor.—At Congress Heights building operations are quite active and a number of dwellings will be erected. Among those who will build are: Mr. C. W. Hulse, a dwelling on Philadelphia street; Mr. Clugs, a dwelling on Omaha street; Mr. George Kendrick, a handsome double residence opposite the new public school; Colonel Sallers, a Colonial dwelling in the square at intersection of Philadelphia and Eighth streets; Mr. Woods, a dwelling on Hamilton road; Mr. Peters, a dwelling at the intersection of Park place and Shannon street; and Mr. John E. Herrell, president of the Capital National Bank, it is said, is negotiating for a lot on which to erect a handsome residence.—B. P. Mockabee will erect five dwellings at 1400 to 1408 B street, Northeast. They will be two stories high, of brick, and well finished.—A large two-story brick livery stable will be erected at 3216-3222 Fourteenth street, Northwest, by John H. Gheen. It will have a frontage of fifty-five feet and a depth of 150 feet.—W. J. Palmer has prepared plans for two handsome residences to be erected on Massachusetts avenue between Fourth and Fifth streets. They will be three stories high, of brick, with trimmings of brown stone, and will contain bath room, ten rooms and a reception hall. The vestibules and bath rooms will be tiled, fine interior finish and all modern conveniences.—Mr. Automo Repelli, of Anacostia, is considering plans for a brick structure to occupy a site at Nicholas avenue and Morris road. The estimated cost is about \$5000.—Extensive alterations to cost \$8000 are under consideration for the Medical School and Hospital of Columbian University, on H street. Work will begin at once.—The contract for the erection of the new school building on Marshall street has been awarded to Andrew Gleeson for \$25,000.

### Wants.

At Erie, Pa., the fire department want hose, to cost about \$2,000.

At Newport News, Va., bids are wanted until March 31st for the construction of a sewerage system.

At Philadelphia, Pa., Thomas M. Thompson, director of public works, will receive sealed proposals until March 24th for branch sewers.

At Fort Washington, Md., bids will be received until April 5th for sinking an artesian well. Address Lawrence S. Miller, quartermaster.

At Bayonne, N. J., bids will be received until April 5th for the construction of public school

No. 7. Address R. Hewitt, secretary board of education.

At Philadelphia, Pa., Mr. Markley, 10<sup>th</sup> Arch street, wants bids for brick and stone work for sixty-four dwellings to be erected in West Philadelphia.

At Pikesville, Md., bids are wanted for the construction of a lake masonry dam and a culvert at the Druid Ridge cemetery. Frank S. Ely, comptroller.

At Cleveland, Ohio, bids are wanted until March 30th for the construction of sewers in a number of streets. Geo. R. Warden, Director of Public Works, can give information.

At Coranopolis, Pa., bids will be received until March 28<sup>th</sup> for the purchase of school bonds to the amount of \$30,000. W. C. Neely, president of board of directors of the school district of the borough.

At Alexandria, Va., proposals will be received until March 31, 1898, for bonds amounting to \$20,000, issued by the board of supervisors of Alexandria county, Va. H. H. Young, county clerk, Alexandria, Va.

At Newark, N. J., sealed proposals will be received until March 30th for the erection of a building to be used as headquarters of battalion chief of the Newark Fire Department, also bids for heating, etc. Address, Lewis J. Wendell, city clerk.

At Myersville, Md., bids will be received until March 28th, for the grading and construction of the Myersville and Caloetin Electric Railway, a distance of five and one-half miles. C. F. Flook, president, Frederick, Md.; G. D. Toms, secretary, Myersville, Md.

At New York City, 21 Courtland street, office of Chief Engineer Charles W. Buchholz, bids will be received until March 29th for certain specified work connected with the elevation of the tracks of the Erie Railroad in Jersey City, between the east end of the tunnel and Prevost street.

At Washington, D. C., Edwin S. Stewart, paymaster general, will receive bids until March 29th for the necessary material and labor for supplying an electrical installation for the experimental model basin. Also until March 22d for furnishing the Navy Yard with a quantity of steel forgings.

At Philadelphia, Pa., Frank M. Ritter, Director of Public Safety, will receive bids until March 25, 1898, for alterations and improvements to the following district station houses: 5th, 8th, 11th, 21st and 23d. Also, for tearing down the buildings on the site of Edwin H. Fittler park in the Seventh ward, and repairs to bulkhead at Bainbridge street.

At Baltimore, Md., office of the court house commission, Henry D. Harlan and Robert H. Smith, sub-committee of the building committee, will receive sealed proposals until April 1, 1898, for the construction and installation of the boiler plant, heating and ventilating apparatus, water supply system, fire pump, etc., for the new court house for Baltimore City. Copies of the drawings and specifications may be seen at the office of the inspector of buildings, City Hall; at the office of the architect, 4 East Lexington street, or at the Builders' Exchange.

At Perth Amboy, N. J., sealed proposals will be received until April 4, 1898, by the Board of Aldermen at the council chamber, for furnishing and erecting one compound condensing duplex pumping engine with a capacity of 4,000,000 gallons in twenty-four hours, delivered to an elevation at a standpipe 204 feet, through a sixteen-inch main three miles long—also one independent air pump with jet con, denser, and one independent boiler feed pump; together with all foundations, connecting valves, fittings, gauges and other sundries necessary to the successful working of the engine to be erected at Runyon, New Jersey. George

W. Eggert is superintendent of the water works.

### Miscellaneous.

At Hartford, Conn., a new school building will be erected in the Washington district at a cost of about \$30,000. J. J. Steane is chairman of the building committee.

At Waterville, Me., the trustees of Colby University, it is said, have decided to erect a new college building to cost about \$350,000. Nathaniel Butcher, D. D., is president of the college.

At Iowa City, Iowa, a new college hall will be erected at a cost of about \$165,000. The plans will be decided on in a few days, and then bids will be called for. A. V. Sims, chairman, can give information.

At Slayden, Tex., a wire bridge will be constructed across the San Marcos river, and plans and bids for the same will be received until May 11th. W. W. Glass, judge of Gonzales county, Gonzales, Tex., can give information.

At Youngstown, O., it is reported that the plans prepared by Mr. Owsley have been accepted for a ten-room school building to be erected on Belmont avenue. The cost will be about \$30,000. Mr. Duessing is the chairman of the building committee.

At Steubenville, Jefferson county, Ohio, a bill has been introduced in the legislature authorizing the citizens to vote on a proposition to issue bonds to the sum of \$150,000, the proceeds to be used to construct a bridge across the Ohio river into West Virginia.

At New York, plans have been accepted for the proposed new dormitory at Columbia University. It will be called Hamilton Court, after Alexander Hamilton. It will be nine stories high, of brownstone and pressed brick, have passenger and freight elevators, and will accommodate eight hundred students.

At Worcester, Mass., Fuller, Delano & Frost have prepared plans for a theatre building to replace the Front Street Opera House lately destroyed by fire. The new building will be finely finished and thoroughly equipped in every particular. The estimated cost is \$50,000. R. C. Taylor, of Worcester, is the owner.

At Springfield, Mass., B. Hammett Seabury has prepared plans for a handsome business block which will be erected on Bridge street for W. D. Kinsman. The estimated cost is about \$30,000 and will be of mottled brick with trimmings of brown stone and copper. It will be four stories high, of steel construction, freight and passenger elevators, fine plumbing, and all modern conveniences and improvements.

At New York, the old Thorn mansion in Sixteenth street, used as the administration building for the New York Hospital, will be torn down and the site with the adjoining lot improved by the erection of a frame structure for the hospital to cost \$400,000.—Collins P. Huntington has sold two lots at Fifth avenue and Seventy-second street for about \$600,000. One lot was bought by James Stillman, the president of the City National Bank, and the other by Samuel Thorne, president of the Pennsylvania Coal Company. Each of the purchasers will erect fine residences, and work will begin on them at an early date.—A. B. Knight, 102 W. Eighth street, will erect eleven three-story brick, limestone and terra cotta dwellings on Eighty-eighth street, west of Columbus avenue. They will be handsomely finished, and will cost about \$135,000. Howard & Caudwell, 10 East Twenty-third street, have made plans for a handsome residence to be erected on the northwest corner of Park avenue and Fifty-eighth street, for Dr. Clarence C. Rice, 123 East Nineteenth street. It will be four stories high, of pressed brick and limestone, all modern conveniences, and will cost about \$50,000.—Edward H. Clark, 10

West Twenty-third street, has prepared plans for a sixteen-story store and loft building to be erected at 728-30 Broadway, for Henry Hilton, of 280 Broadway. It will be of granite and light brick, with marble trimmings, and will cost \$310,000.

### Judgments

#### PHILADELPHIA.

#### ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term, and S, for September Term.

S. F.—Scire Facias, to revive judgment.

A star (\*) denotes judgment confessed or bond and warrant conditioned.

ENTERED MARCH 14, 1898.

VOL. XIII.—No. 13.

PHILADELPHIA, WEDNESDAY, MARCH 30, 1898.

\$5.00 PER YEAR.

## Architect Notes.

The Philopatrian Catholic Society, of this city, is contemplating the erection of a large society building. No lot has been secured, but it is stated that the organization already possesses ample funds to purchase a desirable site.

Addison Hutton, architect, 400 Chestnut street, is making plans for a pressed brick dormitory building, to be erected at Twenty-second and Poplar streets, for the House of Refuge, at that locality. Details will be given later.

Frank R. Watson, architect, 1208 Chestnut street, is taking figures on the plans for alteration to store southeast corner of Seventh and Chestnut streets, for H. R. Granley, owner, 527 Chestnut street. Work included will be carpenter, bulk, windows, iron work, tiling, and plumbing, etc.

Spencer Roberts, architect, Harrison Building, has completed plans for a stable to be erected at Strafford, Chester county, Pa., for Mrs. J. L. Wentworth. It will be a frame and plaster structure, shingle roof and general accommodations on interior. Estimates being made on work.

Bailey & Truscott, architects, 421 Chestnut street, have made plans for alteration to the bay window and bathroom of residence of William Simpson, Jr., at Overbrook. The work includes carpenter work, slate roofing, painting and plastering, all upon small scale. Estimates being made at office of W. R. Dougherty, 1604 Sansom street.

Dull & Peterson, architects, 1110 Walnut street, have made plans for a house to be erected at Seventieth street and Paschall avenue. It will be of cut stone and brick and three stories high. Interior fitted with hard woods, electric work, ranges and heater, and all modern conveniences, etc. Estimates being made in office of W. R. Dougherty, 1604 Sansom street, and other contractors.

The plans for the alteration of 1424 Arch street for the Lutheran Publication Society are by Frank Miles, Day & Brother, architects, 925 Chestnut street, and contemplate a full new brick front, large plate glass windows, tile roof with copper ridges, stone trimmings and the interior entirely remodeled, introducing elevator, electric work and all modern conveniences, etc. Estimates being taken by a number of general contractors.

As indicated in our former issue of this journal estimates are to be taken at once upon the work of constructing the large apartment house for G. Jason Waters, proprietor of Windsor Hotel, Atlantic City, N. J., and to be built at Fifteenth and Walnut streets, in this city. Seymour Davis, architect, 917 Walnut street, drew all plans and will supervise the work of building. The old

Tyler house is now being torn down to make way for the above.

Thomas Stevens, architect, Masonic Temple, Camden, N. J., has plans for an additional building for the Y. M. C. A., of the above named place, to be erected at Broadway and Federal street, and will be of brick, four stories high, fitted as a gymnasium, having special plumbing, steam heat, electric work, cement and wood flooring, tile work, decorations in paint and papering and all the latest improvements.

P. P. Elkinton, architect, 211 South Sixth street, has completed plans for a hotel building for the Larchmont Improvement Company, to be erected at Clemmington, N. J. It will be of stone and frame, three stories high, 70 x 90 feet, electric work and all modern improvements will be introduced. Same architect has also made plans for a bath house for the same parties. It will be two stories high, frame work and fitted with all conveniences.

Morgan Bunting, architect, 1420 Chestnut street, has finished plans for a school building to be erected at Swarthmore, Delaware county, Pa., for A. H. Tomlinson, principal of the grammar school of that place. Structure will be of cut stone, three stories high, slate roof. The interior will be fitted with all modern school fixtures, including blackboards, seats, desks, etc. Heating, plumbing and electric work are not included in the estimates which are being taken at this time in office of John R. Wiggins, 1220 Filbert street, and other contractors.

Hazelhurst & Huckel, architects, Girard Building, have completed plans for work as follows: For alteration and addition to house for Mr. H. K. Adams, at Eddington on the Delaware river; also work of same kind on a house for Mr. Geo. G. Cookman, upon which estimates have been made, and the contract will be announced at an early day; alteration and additions to the house of Walter E. Rex, at Chestnut Hill, upon which they have received bids and will soon announce the award of contract. The same architects have on boards plans for a house at Scarsdale, N. Y., upon which only local bids will be asked at that place. Also on boards plans for a P. E. church, to be erected at Rutherfordton, N. C., to be of stone, one story high, and upon which, probably, bids will be local.

Furness, Evans & Company, architects, Provident Life Building, Fourth and Chestnut streets, have been selected to prepare plans for the new office building of the West End Trust Company, to be erected at southwest corner of Broad and South Penn square. The structure will be very ornate in character, being of granite, and remainder either of hard red brick or terra cotta work, with an ornamental cornice, flat roof. Main entrance will be upon both streets, flanked on either side by large columns of granite,

whilst the interior halls will be in marble and mosaic work, two elevators running from first to top floors; these will be encased in grille work of iron. The owning company will occupy the first and second floors and entire basement, whilst all the rest will be let in well fitted offices in suites or otherwise. Steam heat, electric work, finest system of ventilation and plumbing will be introduced. As formerly indicated in this journal work will be started as soon as plans and details can be completed.

Elmer Jacobs, Morgantown, W. Va., is taking bids on a five-story office building, 25 x 70 feet, to be built of stone and buff, Pompeian brick, good tin roof, galvanized cornice and balustrade. Inside finish to include tiling, hardwood trim, office and store fixtures, first-class plumbing, electric work and combination fixtures and steam heating plant. Building for S. A. Porter. The same architect is preparing plans for a three story and finished basement office building, 30 x 100 feet, with an additional one story frontage, 10 feet wide and 35 feet deep. Will require stone front, tile roof and copper cornice. Interior arrangements will include post offices on second and third floors. All interior trim, etc., to be No. 1 hardwood first-class plumbing and wiring and good combination fixtures, steam heating plant; also complete cases and post office outfit. Architect can give all information and invites correspondence on office fixtures especially. The same architect has plans on the boards for a two-story and finished attic cottage for Mr. W. H. Morgan, to cost \$3500.

The Capitol Building Commission have decided to readvertise for bids on the modified plans submitted by the architect, Henry Ives Cobb. This plan seems to be satisfactory to the commission, but as a personal explanation of its features is desired, either from the architect or his representative, the commission has wired Mr. Cobb to come or send his representative to Harrisburg, Pa., for a conference. The modified plan substitutes brick for marble in the surfacing and rubble stone for brick in the foundation. There is practically no change in the original drawings except as to decorative features on the exterior, which are eliminated. Mr. Cobb, who is ill in Washington, states in his report that the building can be erected within the appropriation and also within the time limit, providing the contract is awarded to one with capital and the appliances and the trained men having experience in this kind of work. This change in the plans of the commission simply means that the new capital will be built according to the original plan and specifications, but of cheaper material. It is probable that bids will be invited this week, so that a contract may be awarded not later than the middle of April.

## A Word About MIRRORS

Nothing adds so much beauty to a home as  
 a few handsome mirrors.

Men appreciate this fact as well as women.  
 Do you know that our best customers for richly  
 framed mirrors are men?

To be sure, many are purchased as pleasure-  
 giving surprises. But the tone, the beauty,  
 the service is all there, no matter who buys them.

JOHN N. GALLAGHER, Publisher.  
JOHN P. BRISBANE, City Editor.

PHILADELPHIA, WED'Y, MCH. 30, 1898.

On the 23d instant the newly elected President of the Master Builders' Exchange, Mr. Charles Reeves, was inducted into office after being introduced by his predecessor, Charles G. Wetter. Mr. Reeves made a most animated address upon assuming the chair, and dilated upon the happy conditions surrounding the organization at the present time, and announced that a rare treat awaited the members, when without further ceremony he introduced Walter Cope, of the firm of Cope & Stewardson, architects, of this city, who then addressed the Exchange upon the relations that should exist between the builders and the profession of which Mr. Cope is a leading member. The speaker evolved a great many valuable ideas from his practical manner of reasoning, and urged upon all present to aid in the securing in the future more light and air, width in building fronts and general economy in outlay, as well as sanitary measures, thus contributing largely to health, etc.

### Architect Notes.

Joseph M. Huston, architect, Witherspoon Building, has made plans for an operation for a client, at Twentieth and Wingohocking streets. Structure of brick and stone, two and a-half stories high, hot air heat, ranges and boiler, electric work, slate roof, and general comforts on interior.

Savery & Sheetz, architects, Stephen Girard Building, are making preliminary plans for a handsome residence to be erected in this city for local owners, not named. It will be stone and highly ornamented with iron and other trimmings. Same architects are engaged on other work which will be noted as it develops.

David Supplee, 152 W. Washington lane, Germantown, has made plans for a factory to be erected for Damingury Bros., at 800

North Nineteenth street. It will be of brick, four stories high, galvanized cornices and trimmings, basement cement flooring, electric light, steam heat, slag roof and general conveniences on interior.

Isaac Pursell, architect, 119 South Fourth street, has awarded the contract for the Presbyterian church at Cape May, N. J., to George West, 1307 Arch street. It is to be of brick and stone, 60 x 90 feet, one story high, and contain general church furniture, upholstery and improvements. Noted in full previously in this journal.

### Building and Real Estate Notes.

Flory & Bevan, builders, are about to erect twelve more dwellings at Gross and Jefferson streets.

An ordinance has been offered in councils to purchase a lot of ground adjoining the fire and police station at Tacony. It is 75 x 154 feet and \$6000 is the amount asked.

The Division of King's Daughters, a religious organization of this city, are trying to raise \$10,000 to erect an addition to the Home of Industry, located on Island Road, West Philadelphia.

Globe Artificial Stone Paving Company, Betz Building, Jno. F. Galbraith, proprietor, have received the contract for all the cement work on new dwelling at Overbrook, Pa., to be erected by Jno G. Ruff.

J. E. & A. L. Pennock, contractors, 305 Walnut street, are taking bids on work of alteration and addition to the Philadelphia Country Club House, near Bala, Pa. This work is interior and exterior as well.

A large plant of the Westinghouse system of dynamos, 6'0 light-power, will be installed in the Master Builders' Exchange, and Ames engines. These have been contracted for and will be set at an early day in basement.

Gillender & Sons' glass works, at Howard and Oxford streets, was almost wholly destroyed on the 23d inst. by fire. The loss will be almost \$50,000. The firm intend rebuilding as soon as details can be arranged.

Forrest H. Roberts, of 401 and 402 Bourse Building, reports the sale of 238 Berkeley street, Germantown. Two-story, six rooms and bath, porch front, lot 16 x 74 feet 4 1/2 inches, to Miss Emma K. Kephart, for \$3,000.

Vickers & Falkenstein, operative builders, will at once begin forty-seven dwellings at northeast corner of Fifty-fourth street and Girard avenue. All these to be of fine press brick, stone facings, and best interior comforts.

D. B. Kaighn, 440 Cataract street, Camden, N. J., is taking bids on six houses to be erected for himself, at Cataract and Newton streets. All to be of brick and stone trimmings, two stories high and all conveniences on interior.

Joseph F. Myers & Sons, contractors, Juniper and Sansom streets, will begin the erection of a four-story addition, 19 x 40 feet, at the northeast corner of Fifteenth and Chestnut streets, and make alterations to store, the whole to cost \$11,500.

The title to the church property northeast corner Broad and Arch streets is vested in Thomas Dolan, President of the United Gas Improvement Company, of this city. Mr. Daniel C. Dallam, Seventh and Walnut streets, was the broker in the transaction.

A. Raymond Raft, contractor, will at once start an extension to the German Hospital, 20 x 41 feet, also an extra story upon the building. And same contractor will erect a fine house for Charles Weber, at Nineteenth street and South College avenue. Previously noted.

About \$12,000 has been raised and in hand to erect the new Ebenezer M. E. church, on Gay street, Manayunk. Noted in our last issue. Neither plans nor contracts have been made as yet, but a building committee has been appointed. Rev. Rowick is pastor in charge.

J. C. Moore, builder, 718 Walnut street, will erect a pair of houses at Fortieth and Chestnut streets. These are to be fancy brick and stone trimmings, three stories high, steam heat, electric fixtures, hard wood mantles, plate and leaded glass, ranges, baths, etc.

Stacey Reeves & Sons, contractors, 1611 Filbert street, are taking estimates on extensive alterations to 1424 Arch street, for the Lutheran Publication Society. These consist of a new red brick front, three stories high, 37 x 24 feet, and general remodeling of the interior.

Lewis Havens, contractor, 308 Girard Building, is taking estimates on a new store building, to be erected at 1008 Filbert street. The structure will be of brick and stone and slow burning construction on interior, with elevator lift, electric work and general accommodations.

The Contractors' Trust Company, now located in the Betz Building, has leased the first floors of the Harrison Building, Fifteenth and Market streets, for offices, and will remove as soon as alterations to office fixtures have been completed. The company's present name is to be changed.

J. A. Burger and Son, contractors, Heed Building, are estimating on plans for alterations to a Lutheran church at Forty-fifth street and Kensington avenue. The work will include brick and stone, stained glass and plain, hard wood work, electric wiring and general improvements.

The new ten-story office building noted in a former issue of this journal as being estimated upon in the offices of Contractors R. C. Ballinger and others, will be erected at 1416-1418 South Penn Square, for Dr. Jno. V. Shoemaker, and definite and full set of drawings are now being prepared.

Isaac Dunne & Co., operative builders, will at once erect twenty-four three-story Pompeian brick dwellings with stone and terra cotta trimmings, copper bays and front porches, on Broad street, between Snyder avenue and Jackson street. Interior fixtures will be of the latest and best, electric bells, plate glass windows, hot air furnaces and ranges, etc.

## TRUSTS. TITLES. DEPOSITS.

## THE PLANT OF THE LAND TITLE AND TRUST COMPANY, 608 Chestnut Street,

Covers every foot of ground in Philadelphia, and is the only Plant containing an abstract of every Deed, Mortgage, and Sheriff's Sale of record in Philadelphia since 1682 located against each property described.

This Plant necessarily gives great additional protection to purchasers and mortgagees taking this Company's policy of Title Insurance, apart from the security of its One Million Dollars full paid capital.

## Beautiful Sea Shells

Every one admires them. Since coming south I have received numerous inquiries from northern people for sea shells, and now I am prepared to answer yes, I can send you shells, for I have made quite a collection of lovely shells, both from our own coast, the coral reefs, and some beautiful ones from the West India Islands. I will mail a dozen or more different kinds, no two alike, to any one who sends a stamp for postage. Also send you a lovely piece of white branch coral.

Yours, **MRS. F. A. WARNER,**  
Jacksonville, Fla.

**BENJAMIN MOORE & CO.,**  
256-262 Water St. Brooklyn, New York.

Geo. W. Sherman, builder, Fifty-second and Media streets, intends to erect about 100 dwellings between Girard avenue and Master street, Fifty-second and Fifty-fourth streets, two and three stories high, Pompeian brick, stone trimmings and porches, ranges and heaters, as well as general conveniences.

F. C. Farmer, contractor, 1421 L street, Washington, D. C., has been awarded the contract for the addition to the Hotel Raleigh, in that city. A full description was given of this work in a previous issue of this journal. It is to be eleven stories high, brick, stone and steel frame, 85 x 100 feet, and will cost finished, about \$250,000.

John A. Jackson, of Rutledge, Delaware county, Pa., has started work on thirty-six dwellings in pairs on both sides of Frazer street, between Woodland and Greenway avenues; also ten three-story dwellings on Woodland avenue, northwest of Fifty-sixth street. All of fine pressed and fancy brick with best conveniences, etc.

Messrs. Armstrong & Printzinhoff, contractors, have started the work upon the large freight shed of the Philadelphia & Reading railroad piers, 27 and 28 North wharves, Delaware river. It will be 65 x 324 feet, and covered by corrugated iron. The same contractors will build another shed of same kind, 86 x 200 feet, at 25 North wharves, almost contiguous to the above.

The Calvary Baptist church and the Snyder Avenue Baptist church, at Se. 5th street and Snyder avenue, have just formed a union and chosen the latter location for future worship. The uncompleted portion of the present structure will be now built and enlarged with the proceeds of the sale of the Calvary church. On April 3d the first joint service will be held. Rev. J. Wesley Sullivan will be the pastor in charge.

Allen B. Rorke, general contractor, Bourse Building, is receiving sub-estimates on the six-story Press Building, to be built at Seventh and Sansom streets. It is to be of granite, brick and terra cotta work, interior will contain a passenger elevator, electric work, elevator lifts, steam power and heat, toilet rooms, offices and general compositors' rooms, all fitted with the most approved comforts and conveniences.

The contract for the bank building to be erected at Wilkesbarre, Pa., for the Wilkesbarre Deposit & Savings Fund, of that city, has been given to Wilson T. Smith, contractor, of that place. It will be of brick and stone, two stories high, 44 x 50 feet in area, and fitted on interior with all bank furniture and accommodations. Hazellurst & Huckel, architects, Girard Building, made the plans, which were noted previously in these columns.

Plans have been made by David Kinckner-backer Boyd, architect, Harrison Building, Fifteenth and Market streets, for a three-story residence, 21 x 49 feet, to be erected on south side of Sherwood road, east of Sixty-fourth street, for Wendell and Smith. Milton W. Young, of Overbrook, has the general contract. The material will be of local stone and brick, the interior in hard wood finish and all improvements in keeping with a suburban home.

Burd P. Evans, contractor, 706 North Ninth street, is taking estimates on a fine house to be erected in Germantown, for James Harkins. It is to be of brick and stone, three stories high, 18 x 50 feet, and have hot air heat, electric work, tin roof and all general comforts on interior. Same contractor is taking bids on a church, to be erected at Thompson and Orthodox streets. Press brick, stone steeples, slate covered, iron columns, marble work, and general church fixtures.

Horace E. McPherson, contractor, 417 Drexel Building, has been given the contract

for the new M. E. Home, at Forty-third street and Monument avenue, and started work on the excavation for foundation. As noted previously, the plans are by Hales & Ballinger, architects and engineers, 1200 Chestnut street, and call for a stone building of the Conshohocken quarries and granite, four stories high, 41 x 325 feet, with wings 68 feet in depth. Also two additions, 23 x 70 feet and 37 x 27 feet, two stories high. Also a boiler house, 30 x 30 feet. Steam heat and power, electric work and general comforts and conveniences.

Engineer Nichols, of the Philadelphia and Reading Railroad, has prepared plans for a new freight station to replace the one recently burned at Front and Willow streets, in this city. It will be of brick, iron and wood, and one-and-one-half stories high, slag roof, electric work, and general conveniences on interior. Bids are being made by general contractors on the work. Drawings in office of Charles McCaul, No. 10 N. Eleventh street. Mr. McCaul has also plans on boards for a store building to be erected at 1008 10 Filbert street, for the Massey estate. It will be four stories high, and finished with store fittings, including a freight lift, electric work, and other conveniences.

The Pancoast Ventilator Company, 316 Bourse Building, report a very satisfactory increase in business since January 1st. Very gratifying results are coming from the introduction of the Pancoast ventilators on the round house of the West Virginia Central & Pittsburgh R. R. Co., at Cumberland, Md. The efficiency of the Pancoast, in this instance, has been so thoroughly demonstrated that a prominent engineer has invited the company to send its representative to make a thorough examination of the round houses connected with this road, with the view of giving them the proper ventilation; in fact it looks as though the Pancoast, in this instance, would be substituted for those of other makes now on these buildings on the entire length of the road. It is these practical evidences of worth to those who are troubled with bad ventilation that is commanding so much attention for this timely, meritorious and simple device.

### Through Pennsylvania.

*When any of the following are not post office towns they will be so designated.*

—At Oilpant, Fayette county, the store and dwelling of George Shylack were destroyed by fire last week. The estimated loss is \$3,500.

—At Muncy, Lycoming county, a water company has been incorporated. S. F. Potter and C. H. Fogg are among the incorporators.

—At Hackneys, Washington county, the Carnegie company will erect a pumping station between Washington and Waynesburg, on the W. W. R. R.

—At Shamokin, Northampton county, it is said that about 20,000 square yards of brick paving are under consideration. C. H. Douty is city engineer.

—At Norristown, Montgomery county, M. D. Patterson, city engineer, can give information in regard to putting down about thirty squares of vitrified brick pavement the present year.

—At New Berlinville, Berks county, William Moyer will increase the capacity of the New Berlinville hotel property by the erection of an addition, and will also make other improvements.

—At Corry, Erie county, it is probable that about 800 feet of brick pavement will be put down on South street. C. B. Porter, city clerk, can give information. A sewer to cost \$25,000 is also under consideration.

—At Johnstown, Cambria county, it is reported that the Latrobe Water Company will

construct a new reservoir at Kingstone Station on the Legonier Valley Railroad. The cost will be from \$50,000 to \$100,000.

—At Landsdowne, Delaware county, work will soon begin on the extensive building operation on the John White tract of ground, consisting of the erection of about thirty handsome dwellings. The contract has been awarded to Edgar T. Bishop.

—At Erie, Erie county, it is said that the matter is under consideration to extend the water system to meet the growing needs of the city. The laying of new mains and the erection of a standpipe are among the improvements suggested.

—At Ardmore, Montgomery county, a free reading room is projected under the auspices of the Episcopal, Methodist, Baptist, Lutheran and Presbyterian churches. W. W. Hood, N. J. Clark, F. J. Allison, Richard A. Montgomery, A. E. Houser and John H. Shelmire were appointed a committee on site.

—At Bryn Mawr, Montgomery county, the large barn tenanted by Daniel Shupert, near White Hall, was destroyed by fire Monday morning. The loss is estimated at about \$10,000. The structure was owned by John M. Lindsay and was insured in the Union Mutual Insurance Company, of Norristown, Pa.

—At Media, Delaware county, Dr. Harry L. Smedley has bought a fine building lot at Washington and Jackson streets, and will improve the site by the erection of a handsome dwelling. The lot has a frontage of sixty feet. The structure will be finely finished and provided with modern conveniences and improvements.

—At West Chester, Chester county, Mr. George F. Brinton, Jr., has bought ground 90 feet front on West Dean street, between Darlington and New street, and will improve the site by the erection of four dwellings, all to be well finished and provided with modern conveniences and improvements. Work will begin at once on these dwellings.

—At Meadville, Crawford county, at an election to be held April 7th, the question will be voted on of issuing bonds to the sum of \$150,000 for the purchase of the plant of the Meadville Water Company. W. G. Doane, city engineer; W. R. Vance, city clerk. —It is probable that North Main street will be paved with brick for a distance of three-fourths of a mile.

—At Doylestown, Bucks county, Henry O. Harris will make extensive alterations and additions to his dwelling on West Court street, formerly the property of Samuel A. Firman. The plans for these improvements have been made by A. Oscar Martin, and call for an entire remodeling of the interior and the introduction of modern conveniences and improvements. When finished it will be one of the finest residences in the town.

—At Eddington, Bucks county, it is said that Colonel Edward De V. Morrell has an agent at work securing the right of way for a trolley line from Eddington to Trenton, N. J. It is proposed to run the line in connection with the Philadelphia and Bristol trolley, and it will cross the Langhorne and Bristol line at Midway. The proposed route for the new line is from Eddington via Newportville, where the Neshaminy will be bridged, thence to Midway, Fallsington and to Trenton.

—At Scranton, Lackawanna county, the Meadow Brook breaker of the Connell Coal Company was destroyed by fire last week. The estimated loss is \$25,000. Congressman Connell is the head of the company. —It is reported that Thomas A. Dunn, of Dunn Brothers, contractors, has organized a company at Pomeroy, O., to construct a system of water works. —The town council of Scranton has been asked to appropriate \$2,000 for a new building for the Cumberland Hose company.

—The barn of the Dickson Brewing company was destroyed by fire on March 26. The loss is about \$6,500. —Ground has been broken

for a new dwelling on Olive street by Peter Stipp. Mr. Stipp is also the contractor for a building to be erected on Court House Square for Mr. Simrell, the carriage dealer.

—At Pennsburg, Montgomery county, James Hoffmann will erect a handsome dwelling.

—At Milton, Northumberland county, the construction of a sewer is under consideration. William C. Miller, city clerk, can give information.

—At Danville, Montour county, the Danville Knitting Mill Company has under consideration the erection of a new factory. It will be 40 x 80 feet, three stories high, of

brick and iron, modern conveniences and improvements, and will cost about \$10,000.

—At Waynesburg, Greene county, Andron Metcalf will erect a building to be fitted up for store purposes, from plans prepared by Franklin Keagy, of Chambersburg, Pa.

—At Braddock, Allegheny county, it is reported that the congregation of the First Presbyterian Church will erect a handsome edifice to cost about \$20,000. Rev. W. G. Reagle is the pastor.

—At Harrisburg, it is stated that the Board of Trade will erect a building and that the money has been subscribed for it. Mr. Harlackner is President of the Board, and can

give information.

—At Jeannette, Westmoreland county, the congregation of the Methodist Episcopal Society is considering the erection of a brick church to cost about \$40,000. Rev. H. J. Giles is the pastor in charge.

—At Mastersonville, Lancaster county, it is said that a corps of engineers has surveyed a route for a new railroad through Mastersonville, beginning at Mount Hope Station, on the Lebanon and Lancaster Railroad.

—At Reading, Berks county, plans have been completed by Muhlenberg Bros. for a large structure to be erected at 819 and 821 Franklin street for A. C. Wertz. It will be

well finished and provided with all modern improvements for a store. At a recent meeting of the building committee of the school board it was decided to ask for an appropriation of \$40,000 to be used in the erection of three new school buildings—one of four rooms in the northwestern section of the city; one of four rooms in the northeastern section, and one of six rooms in the southeastern part of the town. The repair committee has decided to make an inspection of various school houses before making up its estimate for the amount needed for repairs. At a recent meeting of the West Reading Saving Fund and Loan Association, arrangements were made for the erection of eighteen dwellings—fourteen on Second street, between Elm and Buttonwood streets, and four on Second street, near Olney street. They will be of brick, well finished and provided with modern conveniences and improvements. At a recent congregational meeting of Trinity Evangelical Church, the following were elected as a building committee: President, Jeremiah G. Mohr; Vice President, Rev. B. D. Albright; Secretary, P. K. Loose; Treasurer, Howard Heck, of Shillington; Rev. W. H. Hail, John Heudel, David Roland and others.

At Pittsburgh, the congregation of Mount Washington Methodist Protestant Church will erect a new edifice to replace the one destroyed by fire last month. William East, 232 Fifth avenue, has prepared plans for a handsome new church, to be erected by the Presbyterian congregation of Altoona, Blair county. The City Deposit Bank Building, in the East End, will be erected from plans prepared by a New York architect. F. O. Osterling's plans have been approved by the grand jury for the new Insane Asylum to be erected at Woodville. The estimated cost is \$250,000. The plans prepared by H. S. Bair, city architect, for a brick engine house for the Twentieth ward, will be ready for bids about April 1st. J. L. Beatty has made plans for a frame dwelling and store for James Tannehill. W. H. Boyd will erect a brick and frame dwelling in Allegheny from plans prepared by Thomas Boyd, Westinghouse Building, Pittsburgh. The School Board of Mount Olivet is considering the selection of a site for a new school building. A proposition has been made by a number of Pittsburgh capitalists to construct and operate a system of water works at Tullahoma, Tennessee. It is probable that instead of the proposed fire boat for the city, more fire plugs will be provided, as better adapted to the needs of the city. It is stated that the contract for the construction of a tunnel a few miles west of Punxsutawney, between the Buffalo, Rochester and Pittsburgh Railroad and Moss Grove has been awarded to Bennett & Talbot, of Greensburg, Pa., and M. H. Smith, of Altoona, Pa. The tunnel will be 2300 feet long and will connect with the Pittsburgh, Bessemer & Lake Erie; also with the new Brice system to the West. The contract price is about \$550,000. Lathbury, Spackman & Bache, of Philadelphia, have been retained by the Clinton Cement Company, of Pittsburg, to enlarge and reconstruct their cement works at Pittsburg. A fireproof building will be erected and two rotary kilns; modern machinery will be introduced.

#### Through New Jersey.

At Summit, Union county, Frederick R. Little will erect a two-and-a-half story brick dwelling on Union avenue, to cost \$7000.

At Atlantic City, the contract for the paving of Michigan avenue has been awarded to Kennedy Crossan at 97 cents per square yard.

At Basking Ridge, Somerset county, H. D. Dick, of Elizabeth, N. J., will erect a frame dwelling from plans prepared by J. A. Oakley, of Elizabeth, N. J.

At Bloomfield, Essex county, James Adams, of Livingston, N. J., will erect three

frame dwellings to cost \$2500 each. Plans by A. W. Slokem, Newark, N. J.

At Orange Valley, Essex county, a large four-story hat factory will be erected by F. Berg & Company. The structure will be of brick, and will cost about \$40,000.

At Crawford, Union county, T. A. Sperry will erect a two-and-a-half story frame dwelling from plans prepared by J. A. Oakley, East Broad street, Elizabeth, N. J.

At Westfield, Union county, C. A. Smith will erect a two-and-a-half story frame dwelling from plans prepared by J. A. Oakley, Elizabeth, New Jersey. The estimated cost is \$5000.

At Woodbury, Gloucester county, it is probable that some steps will be taken toward the construction of sewers, as plans prepared by Waring, Chapman & Farquhar, of New York, have been bought.

At Bridgeton, Cumberland county, city council has reported favorably on the petition of the board of education for an appropriation of \$15,000 for new school buildings.

At Gloucester, Camden county, Contractor James McClusky has broken ground for the erection of an ice plant. It will occupy a site near Fifth street and Jersey avenue.

At Lodi, Bergen county, a large dye works will be erected from plans prepared by Julius Kastner, 744 Broadway, New York city. The structure will be of brick, and all modern appliances will be provided. The estimated cost is about \$200,000.

At Roselle, Union county, the congregation of the Methodist Society will erect an addition to the present church to cost \$4000. The plans for the improvements have been made by J. A. Oakley, 1201 East Broad street, Elizabeth, New Jersey.

At Cape May, the Five-mile Beach Railway company has applied to the borough councils of Angelsea, Wildwood and Holly Beach for the privilege of constructing a trolley line through those three resorts to extend across the shore to the mainland.

At West Orange, Essex county, a handsome frame dwelling will be erected in Llewellyn Park for Mr. T. N. Foster. The plans have been prepared by R. K. Mosley, Produce Exchange, New York city. The estimated cost is about \$17,000.

At Downer, Gloucester county, a special school meeting will be called at once to consider the subject of appropriating \$1,200 for the erection of a new school building. The superintendent of public instruction has ordered an election to decide the matter.

At Spring Lake, Monmouth county, a cottage will be erected by S. A. Worth, of Lancaster, Pa., from plans prepared by D. M. Rotteburger, also of Lancaster. It will be two and a half stories high, of frame, and will be supplied with all modern improvements.

At Pitman Grove, Gloucester county, the Pitman Grove, Glassboro and Clayt on Electric Light and Power company's plant at Reeves & Fiecht's mills has been sold to Manassas K. Treichler, of Philadelphia, who will improve the plant and string wires to Clayton and Mantua, and perhaps to Glassboro.

At Deal, Monmouth county, a company to be known as the Deal Sewer company has been incorporated with a capital of \$100,000. The incorporators are Daniel C. McManus, Herbert J. Bell, of New York; S. J. Fell, of Orange N. J. The same persons have incorporated the Deal Water company, with a capital of \$150,000.

At Newark, a handsome dwelling will be erected by Charles Shipman from plans prepared by P. T. McLagon, Jr. It will be finely finished; provided with modern conveniences, and will cost \$10,000. Lowen Hennington will erect a dwelling to cost about

\$5,500 from plans prepared by A. H. Thomas, Caldwell, N. J.

At Collingswood, Camden county, a company has been incorporated to be known as the Collingswood Water company. The incorporators are George Lippincott, Howard L. Merrick and William T. McDevitt, of Collingswood; S. Franklin Davis, of Haddonfield; E. Amber Armstrong, of Camden; Frederick D. Langenheim, of Ardmore, Pa.

At New Brunswick, Middlesex county, it is reported that the New York and Philadelphia Traction company has been merged with the Brunswick Traction company, and that the right of way will be secured through Burlington and other counties of Central and Southern Jersey for the purpose of constructing a trolley line from New York to Philadelphia.

At Asbury Park, Monmouth county, it is probable that a bridge will be erected across Sunset Lake at Grand avenue, provided certain streets are made county roads, though under city control. Mr. Rockefeller and Mr. Bradley, of the board of freeholders, are said to be in favor of the plans. It has been suggested that the city prepare plans and specifications, and after being approved turn them over to the board of freeholders to advertise for bids.

At Montclair, Essex county, Mrs. Mary Burns will erect three frame dwellings to cost \$5,000 each, from plans prepared by C. Myers, 361 Broadway, New York city. J. A. Ryan, 88 North street, New York city, will erect a frame dwelling from plans prepared by Frank E. Wallis, 9 West Thirtieth street, New York city. Arthur C. Elliot, 20 Beaver street, New York city, will erect a dwelling from plans prepared by A. F. Norris, 150 Nassau street, New York city.

At East Orange, Essex county, a handsome dwelling will be erected by Charles Hathaway, 26 Pine street, New York city, from plans prepared by N. C. Mellen, 27 West Thirtieth street, New York city. It will be three stories high, of frame, fine interior finish and will cost about \$50,000. Wm. D. Crow will erect a dwelling to cost \$2500 from plans prepared by C. F. Borgman, 24 Lawrence street, Bloomfield, N. J. Wm. H. Plumley will erect a dwelling to cost \$3000 from plans prepared by H. D. Hayward, Manhattan Park, Essex county, New Jersey.

At Hoboken, Tull & Maxson have prepared plans for three five-story brick apartments to cost \$30,000, and which will be erected on Willis avenue for Dennis McLaughlin, of Jersey City. It is stated that in a short time steps will be taken toward the erection of a brewery by Mr. J. Henry Tiniken, Martin Stelzes, 140 West street, New York city, Andrew Steffens, 16 Vesey street, New York, F. William Bender, Moritz Hammerschlag, 67 Dey street, New York city, and Allen S. McDermott and Wm. D. Daly.

At Vailsburgh, Essex county, E. Nagle will erect two two-and-a-half story frame dwellings to cost \$3000 each. Mrs. E. Burrows will erect a two-and-a-half story frame dwelling to cost \$3000, from plans prepared by J. H. & W. C. Ely, Broad and Clinton streets, Newark, N. J. The same architect has prepared plans for two two-and-a-half story frame dwellings to be erected at Columbia Heights for Alexander Volheyte. They will cost \$3000 each. The same firm prepared the plans for the dwellings for Mr. Nagle which will also be erected at Columbia Heights.

At Jersey City, a bill has been passed by the house authorizing an issue of bonds to the amount of \$175,000 for the construction of a wharf on the Hackensack river. Anthony Hauck will erect a two-and-a-half story frame dwelling from plans prepared by C. F. Long. It will be well finished and will cost about \$5,000. J. A. Resch has prepared plans for a dwelling of frame to be

## THE PENN MUTUAL LIFE

921-3-5 Chestnut St., Phila.

erected for Henry Helms at a cost of about \$3,000. — Valentine Linderman will erect a three-story frame dwelling on Whiton street, to cost \$4,500, from plans prepared by R. N. Sailor. It will be well finished and provided with all modern conveniences and improvements.

At Plainfield, Union county, the Muhlenberg Hospital will erect five new buildings. They will be of brick and stone, finely finished, and provided with all modern conveniences and improvements. The plans have been prepared by Alfred E. Barlow, 35 Nassau street, New York City. — David Eastman will erect a handsome residence, to cost \$18,000, from plans prepared by J. A. Oakley & Son, 1201 East Broad street, Elizabeth, N. J. It will be of frame, handsomely finished, the work fine plumbing, plate and ornamental glass, and all modern conveniences. The same architect has made plans for a two-and-a-half story frame dwelling to cost \$40,000, to be erected at Front street and Park avenue, for Frank Runyon. — Mrs. Hannah Cairns will make extensive improvements to her present dwelling from plans prepared by Frank Colburn, 55 Broadway, New York City.

At Elizabeth, Union county, James H. Rodenbough, of Bayonne, will erect a frame dwelling to cost \$2500 from plans prepared by Henry Van Middlesworth, 518 Hunterdon street, Newark, N. J. — A three and one-half story brick, stone and terra cotta building will be erected from plans prepared by D. B. Provost. It will be fitted up as stores, offices and for dwelling purposes. The estimated cost is \$18,000. — Peter Briet will erect a three-story brick and stone structure which will be fitted up as stores and for amusement purposes. It will be handsomely finished and supplied with all modern improvements. The cost will be

\$45,000. The plans have been prepared by J. A. Oakley & Son, 1201 East Broad street. The same firm has made plans for a frame parsonage for the Park Methodist Church to cost \$4000. Also plans for a frame dwelling to be erected on Stiles street for E. P. Woodruff. — T. F. Mackessy will erect a dwelling to cost about \$2000. A. F. Young will make improvements from plans made by Clinton Mackensie.

At Passaic, Passaic county, H. Rosensohn, Morrissey Building, has made plans for three two-story frame dwellings to be erected on Dayton avenue for Goldberg and Keeler. — Work has begun on the handsome building for the Y. M. C. A. on Lexington avenue. It will be three stories high, of brick, stores on the ground floor, swimming pool, gymnasium, reading, class, assembly rooms. The cost will be \$20,000. The plans were prepared by F. W. Wentworth, of Paterson N. J. — Seven two-story frame flats will be erected by James Taylor, from plans prepared by H. Rosensohn. — The People's Bank has begun work on a six-story brick and stone bank and office building to be erected on Main avenue, at a cost of \$50,000. — Solomon Slaff has made arrangements for the erection of a three-and-a-half-story brick, stone and iron building which will be fitted up as a theatre, and also contain a large hall and a number of stores. The estimated cost is \$25,000. — Reuben Jaffe will erect a three-story brick, stone and iron flat to cost \$7,000, from plans by H. Rosensohn. — E. E. Twist has prepared plans for a three-story brick and stone apartment house to cost \$6,000, and which will be erected for Isaac Leebson. Also plans for a similar building for A. & J. Steenberg. Mr. Twist also prepared the plans for the People's Bank Building, and Mr. Rosensohn for the theatre.

Through Delaware.

At Harrington, Kent county, the handsome dwelling and its contents, owned by A. M. Crawford, were destroyed by fire a few days since. The estimated loss is about \$25,000.

## Through Maryland.

At Baltimore, the congregation of Sharp Street Methodist Episcopal Church has broken ground for a new edifice at the north-west corner of Etting and Dolphin streets. —Three three-story brick stores and dwellings will be erected by Rice Bros. on Gay street, near High street. —James Raney, Jr., has arranged for the erection of four three-story stores and dwellings at 1417, 1419, 1421 and 1423 North Charles street. —Eight two-story brick dwellings will be erected on Oxford avenue between Barkley street and York road by E. J. Roberts. —A large building operation has begun, consisting of the erection of twenty two-story brick dwellings in Hakesley Place, between Bond street and Broadway, by Charles B. Hakesley. These dwellings will be well finished and provided with all modern conveniences and improvements. —Ground has been bought by the Commonwealth Bank at the southeast corner of Howard and Madison streets, which will be used as a site on which to erect a handsome structure for banking purposes. It will be thirty-two feet on Howard street, and seventy-three feet on Madison street. All modern improvements and handsome finish and fixtures will be supplied. James R. Gheulier, president. —George C. Haskell has made the plans for the handsome new building to be erected by the congregation of Christ Reformed Lutheran Church at Druid Hill and North avenues. The cost will be about \$15,000. —The tract of ground containing about seven acres at the New Liberty road and into building lots for improvements. —Mr. F. X. Gauder has broken ground for the erection of two large faceries and warehouses at Stockholm and Leadenhall streets. They will be two and three stories high respectively and in dimensions 80 x 129 feet. —J. E. Sperry has prepared plans for a handsome four-story brick dwelling to be erected on Franklin street, east of St. Paul street, for Lieut. John O. Lovell. It will be finely finished, considerable tile work, plain and ornamental glass and will be provided with all modern conveniences and improvements. —Mrs. William Pentz has bought an acre of ground, improved by a two-and-a-half story cottage, to which a number of improvements will be made. —At a recent meeting of council a resolution was introduced authorizing the mayor to advertise for bids for a municipal electric light plant. —It is said that the Fourth Regiment Armory will be remodelled at a cost of about \$25,000. —Wyatt & Nolting have prepared plans for an addition to the Presbyterian Eye, Ear and Throat Hospital. Electric light, hot water heating and all modern appliances and conveniences.

## Washington, D. C.

Assistant Secretary Vanderslip, of the Treasury Department, has been investigating the history of the much-needed hall of records, and it is probable that steps will be taken toward the erection of such a building. A number of sites have been suggested, and the one most favored seems to be Army square, between Sixth and Seventh streets southwest. The cost of the structure is estimated at about \$1,500,000. —The board of control has made a report of the charitable and reformatory institutions of the District of Columbia, and recommends that Columbia Hospital be reorganized, the present buildings being inadequate, and suggests that the present valuable site be sold and the money be used in purchasing less expensive ground and the erection of suitable buildings, supplied with modern conveniences and appliances. —It is said that J. E. R. Carpenter, Columbia Building, Norfolk, Va., has prepared plans for an apartment house to be erected at Twentieth street and

Pennsylvania avenue northwest. —It will be of brick, tin roof, finely finished, steam heat, elevators and all modern conveniences and improvements. The estimated cost is \$70,000.

—J. T. West is at work on a row of seven two-story brick dwellings at Thirtieth street and Irwin place, and work will be pushed as rapidly as possible. —Mr. Charles E. Tribby is making arrangements for the erection of a two-story brick dwelling at 1248 Thirty-first street. —Walter T. Weaver will erect an attractive dwelling on Thirty-fifth street, between O and P streets. It will be well finished and provided with modern conveniences. —A lot at the corner of Lenox street and Brookville road, at Chevy Chase, has been bought by Charles C. Tucker. The lot is 81 by 125 feet, and it will be improved at once by the erection of a fine colonial dwelling, for which plans have already been prepared. —Mr. George H. Chandler will erect an attractive cottage in the same subdivision on Irving street, and Mr. Van Dyne will erect a dwelling on Kirke street. All of these structures will be of attractive designs and handsomely finished, and supplied with all modern conveniences. —Henry Schneider will erect two dwellings at 1946 and 1948 Second street northwest. They will be of buff brick, handsomely finished and provided with all modern conveniences and improvements. —John Creaven will erect a dwelling at 2603 K street northwest. —The revised plan for the second section of the permanent system of highways in that part of the district outside of the city limits north of Florida avenue, between North Capitol street and the Eastern Branch, has been forwarded to the highway commission, with the plans the commissioners transmitted in the report of Mr. W. P. Richards, the assistant engineer in charge of street extensions.

F Walker, C, 8116 N 27th st, 1 dwg, 16 x 44 ft, 3 sty, NW s Lydia st, SW of 25th.

Dunne & Lynch, 3864 Eaglesfield st, 24 dwgs (size various), 3 sty, W s Broad st, Snyder ave to Jackson.

## Wants.

At Harrisburg, Pa., it is probable that a new truck will be bought for the fire department. Chief Garverich can give information.

At Fort Washington, Md., bids will be received until April 9th for sinking an artesian well. Address Lawrence S. Millet, Q. M.

At Pittsburgh, Pa., E. M. Bigelow, director of public works, will receive bids until March 31st for cast iron water pipe, special castings, lead pipe, valves, etc.

At Eatontown, N. J., bids will be received until April 2nd for the construction of three and a half miles of macadamized road. D. S. Morris, township clerk, Box 149, Eatontown, N. J.; W. H. De Nyse, engineer, 96 Branch Port avenue, Long Branch, N. J.

At Trenton, N. J., bids will be received until April 12th for the erection of a combination steel beam brick arch and concrete bridge over Gold Run Creek, near Trenton Junction, N. J. Address George L. Lowell, chairman committee of board of freeholders.

At Ephensburg, Pa., bids will be received until April 8th for the construction of an iron or steel bridge over Clearfield Creek at or near Ashville. Separate bills for masonry and the superstructure will be required. Address Benjamin Jones, county commissioner.

At Ridgewood, N. J., sealed proposals will be received by the board of village trustees until May 25, 1898, for the construction of a water plant and the furnishing of a supply of pure and wholesome water in accordance with the specifications and conditions adopted by the said board and now on file with the trustees. James Cornelius, president; H. G. Ward, village clerk.

#### Miscellaneous.

At Leocompton, Kan., the county commissioners of Jefferson and Douglas counties have decided to advertise for bids for the construction of a bridge across the Kansas river.

At Providence, R. I., the Senate Committee, at Washington, D. C., has made a favorable report on the bill providing for the erection of a public building at Providence, to cost \$1,500,000.

At St. Louis, Mo., it is stated that the contract for the erection of the Elliott and the Sherman schools has been awarded to C. Stafford, the former for \$80,600, and the latter for \$82,847.

At Mount Vernon, O., at an election to be held in a short time, a vote will be taken on the question of issuing bonds to the extent of \$25,000, to be used in the erection of a new high school.

The plans of R. G. Kirsch have been accepted for a new high school to be erected at Vinton, Iowa. It will be of brick, finely finished and provided with modern conveniences. The estimated cost is \$25,000.

At Savannah, Ga., it is stated that the board of trade at a recent meeting passed resolutions urging Congress to make an appropriation of \$500,000 to improve the Savannah river, between Savannah and Augusta.

#### Judgments

##### PHILADELPHIA.

##### ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term, and S, for September Term.

S. F.—Scire Facias, to revive judgment. A star (\*) denotes judgment confessed or bond and warrant conditioned.

[ENTERED AT THE PHILADELPHIA POST-OFFICE AS SECOND CLASS MATTER.]

VOL. XIII.—No. 14.

PHILADELPHIA, WEDNESDAY, APRIL 6, 1898.

\$5.00 PER YEAR.

## Architect Notes.

R. W. Boyle, architect, 1208 Chestnut street, has on boards plans for a house to be erected in Camden, New Jersey, for a local owner. It will be of stone and brick, three stories high. All conveniences introduced on interior. Details later on.

M. P. McNeal, contractor, of Middletown, Pa., has been awarded the contract for the large hosiery mill, at Norristown, Pa., for R. H. Romberger. Plans by E. F. Bertolletti, Heed Building, Filbert above Twelfth street. Fully described in previous issue of this journal.

Stearns & Castor, architects, Stephen Girard Building, are making plans for a residence for Henry Rodman, at Frankford. It will be of stone and brick, three stories high, slate roof, hot-air heat, electric work, plain and leaded glass and general improvements for interior comforts.

J. A. Demsswolf, architect, York, Pa., has on boards plans for an addition to the court house at that place, and contracts will be in order in a short time. It will cost in the neighborhood of \$200,000, and include all modern improvements. Fuller details when plans are completed.

Work has been started by Geo. Deitrich, contractor, 927 North Seventh street, upon the immense factory at Langhorne, Pa., for Messrs Fred. Rumpf & Sons. The drawings for this work are by John F. Stuckart & Son, architects, 49 North Thirteenth street. Previously noted in full in these columns.

Cope & Stewardson, architects, 320 Walnut street, have all bids in on the stable at Villa Nova, for Dr. DaCosta, and will award the contract during the current week. Structure will be of stone, frame and stucco work, and interior to contain every modern improvement for comfort and convenience. Previousity noted.

E. B. Kelly, architect, Holmes Station, Delaware county, Pa., has completed plans for a two-story brick and stone church, at Island road and Grays Ferry avenue. S. G. Dade has the contract and will start work at once under supervision of the architect. New seating and general church furniture will be introduced.

Charles Balderston, architect, 144 South Fourth street, made the plans for the four-story store building to be erected on Filbert street above Tenth, on the Massey estate. Estimates were being made during the past week, which was noted in our last issue. Mr. Balderston will supervise the work of construction.

Addison Hutton, architect, 400 Chestnut street, has completed plans for alteration and additions to the house of Samuel B. Huey, at Walnut and Forty-second streets. The work includes a new one-story billiard room,

a veranda, bath rooms, two in number, and other minor work. Estimates are being made by Stacey Reeves & Sons, 1611 Filbert street.

In our last issue we noted the decision of the Capitol Building Commission at Harrisburg, Pa., to readvertise for bids upon the construction of the capitol structure at that place. Information desired upon any points not given at this time may be obtained of the secretary of the Commission, at Harrisburg, Pa. It is expected, however, that the estimates will be made under the same provision as the former ones. Henry Ives Cobb is the architect.

William McCauley, architect, 1530 Chestnut street, has on boards plans for several operations of dwelling houses, among which may be noted one at Fifth street and Baltimore avenue, for Mr. W. F. Dillon. This one is of brick and stone, galvanized cornices, hot air heating, ranges and all modern comforts. This work was noted some time ago, but dropped temporarily. Same architect has plans for some minor work in alteration and additions which will be noted in future.

It is expected that during the current week Allen B. Rorke, contractor, will begin the erection of the large office building for the Press at Seventh and Sansom streets. The plans were made more than a year ago by Theophilus P. Chandler, architect, Brown Bros. Building, and the structure will be one of the most complete in general detail in the city, including elevators, electric work, a steel frame, stone and brick for walls, steam heat and power, freight lifts, speaking tubes, pumps, special ventilation, etc. Estimates have been made during the week.

The plans for the large apartment house to be erected at Fifteenth and Walnut streets, by G. Jason Waters, of Atlantic City, N. J., has been placed on boards of contractors for estimate. These are drawn by Seymour Davis, architect, 917 Walnut street, and have been previously noted in these columns in full. The structure will be twelve stories with basement and sub-basement. First two floors will be terra cotta and remainder dark red brick. Flemish bond laid, and a red tile roof with ornamental peaks. Interior will be steel skeleton, marble mosaic and tile work, elevators, electric work, iron grille work, brass and other metals. A special system of plumbing and ventilation, steam heat and power, also the best cooking and culinary arrangements, etc. Fully noted in issue of March 23d, from architects drawings.

Rabison Lea Perot, architect, 619 Philadelphia Bourse, has plans on the boards for extensive alteration to a Baptist church in this city. This includes remodeling and enlarging present building, including all modern conveniences, plumbing, steam or hot water heating, leaded glass, hard wood fin-

ish, etc. Same architect has prepared plans for a pair of houses to be built in Germantown. Owner's name withheld for present. These will be 23 feet 6 in x 61 feet, will have hot air heating, open plumbing, hard wood finish throughout, mantels, tile work, wash tubs, plate and leaded glass, gas lighting, etc. Will be noted when contract is let. Also plans for rectory, previously noted, at Wilmington, Del., are now being estimated on and it is expected the work will go right ahead. Also plans for a \$2500 cottage, to be built at Atlantic City, New Jersey.

As indicated in our former issue, the Snyder Avenue Baptist Church at Seventh street and the above named avenue, is to be enlarged and completed, owing to the union with Calvary Baptist Congregation. The plans will be prepared at once by J. P. Stuckart & Son, architects, 49 North Thirteenth street. It will be made two stories high, stone and brick, slate roof and contain steam heating, electric work and general church fittings and furniture. The same architects have made plans for the large skating rink and auditorium, to be built at Lehigh avenue and Broad street for Wm. R. Brown, owner. The structure will be 100 x 275 feet, and one story high. Brick, stone and iron will be the chief material for the structure. It will be so constructed as to be at any time, if needed for other purposes, ready without delay. An auditorium, with seats for almost 2000 persons, will be introduced, electric work, steam power and heat. Ice manufacturing plant will be introduced; also staging for concerts and general purposes. It is likely that estimates will be made in a few days.

Wilson Bros., architects and engineers, Drexel Building, have been selected by the United Gas Improvement Company to prepare all plans and specifications for their new office building to be erected at the northwest corner of Broad and Arch streets, upon the site of the Baptist church. At present we are unable to give all the minor details as to the structure, but it will be one of the finest of its kind in this country—about sixteen or seventeen stories high, steel skeleton, and entirely fireproof being of granite, brick and terra cotta work; interior will be a marvel of convenience and beauty, fitted up with a series of elevators, steam heat and power, an individual electric plant, special system of ventilation, iron and brass grille work, marble, mosaic and tile work, highly ornamental, cement floors and considerable artificial paving. It is the intention of the company to lease corporation and company quarters, as well as offices en suite and single. Work upon the design is to be pushed forward at once, and no doubt the contracts awarded at an early day. Mr. Samuel T. Bodine, Drexel Building, is the general manager of the above-named company.

## A Word About MIRRORS

Nothing adds so much beauty to a home as  
a few handsome mirrors.

Men appreciate this fact as well as women.  
Do you know that our best customers for richly  
framed mirrors are men?

To be sure, many are purchased as pleasure-  
giving surprises. But the tone, the beauty, the  
service is all there, no matter who buys them.

JOHN N. GALLAGHER, Publisher.  
JOHN F. BRISBANE, City Editor.

PHILADELPHIA, WED'Y, APRIL 6, 1898.

DAVIS' ARCHITECTS AND BUILDERS DIRECTORY OF PENNSYLVANIA for 1898 is out. The efficiency and merit of this publication as a directory to those engaged in the building trades is so thoroughly recognized as a result of many years of painstaking efforts on the part of Colonel Davis, that comment on our part seems unnecessary. Besides being a directory it is also a compendium of the building laws of the city and State. The book is handsomely bound and its list of architects, builders and contractors throughout the State is well worth its selling price of \$2.00. Colonel Davis is the head of the publishing house of James T. Davis Co., Limited, 234 South Eighth street, Philadelphia.

### Architect Notes.

Furness, Evans & Co., architects, Provident Life Building, Fourth and Chestnut streets, are now pushing forward the plans for a new and handsome office building to be built for the West End Trust Company, and fully noted in our last issue. No deviation from that description will be made, except possibly a decision as to number of stories in height. Same firm are busy upon a number of other sets of drawings, which will be noted as soon as developed more fully.

### Building and Real Estate Notes.

Munday & Co. have the contract for the Penrose Ferry bridge, on the Schuylkill river, below Point Breeze, at \$40,000, work to start at once.

The contract for the machine shop for Smith & Drum, at Huntingdon and Coral streets, has been given to Contractor David McKibbin, 2844 D street. It is to be brick and iron, 40 x 150 feet, and one story high.

Charles A. Heinke, builder, has begun eleven two-story houses, 14 x 41 feet each, at Bloyd street and Locust avenue, German-

town. All to be of brick and stone, hot-air heat, best plumbing and general conveniences, etc.

Alan Wood & Co., of this city; Wellsville Plate and Sheet Iron Company, and J. Wood Bros., also of Philadelphia, will erect a steel plant at Woodson, Pa. An engineer of Pittsburgh, Pa., is understood to be preparing the plans for it.

Solomon Greenburg, owner and builder, will erect at once twenty-two dwellings, 15 x 57 feet each on the west side of Twentieth street, between Huntingdon and Oakdale streets. Fancy brick, stone facings and steps, and modern improvements on interior.

Councils at their last session, March 31st, passed the ordinance making an appropriation of \$25,000, to purchase a lot of ground at Thirty-first street and Lehigh avenue for erection of a school in the near future. Mr. Rose, retiring member, was the sponsor for this long felt need.

Bids are being made in various contractors' offices for annexes to the House of Correction, C. F. & G. All to be of the same material and in general keeping with the present buildings. Plans by Wilson Bros., architects and engineers, who prepared all the previous drawings. All bids must be in by April 12th.

As previously noted, John Stafford, builder, Sixteenth and Susquehanna ave ue, will soon start an operation of dwellings at Thirty-second and Diamond streets, upon ground bought of A. H. Dingee. The plot measures 400 x 500 feet, and new small streets will be cut through for advantageous purposes.

George F. Payne & Co., 401 South Juniper street, has started work upon the new buildings for the U. G. I. Co., at Point Breeze Gas Works, which will cost \$99,000. The materials will be brick, stone, cement, iron work, etc. Fully noted, from plans by Wilson Bros., architects, in a previous issue of this journal.

The Lincoln Savings and Trust Company is the new name under which the Contractors Trust Company, formerly at the Betz Building, is to be known in future. The new offices of the company in the Harrison Building, Fifteenth and Market streets, are being fitted up. Business in the meanwhile will go on without interruption.

George W. Thayer, contractor, will at once start work upon an operation of houses, two hundred and twenty in number, at Sixty-sixth and Leslie streets, for James Radin, owner. These are to be 17 x 46 feet, two and three stories high, fancy brick and stone trimmings with porches in front, hot air furnaces ranges and best comforts on interior.

The Equitable Trust Company, of the Betz Building, have taken possession of the premises just vacated by the Contractors Trust Company, and alterations in the office fixtures will be made at once. The Equitable now occupies the whole of the lower floor of the Betz Building, the financial department on the south side being sep-

arated from the Title Insurance department by the main entrance to the building.

Alcott, Ross & Scully Co., 2917 North Broad street, have recently completed furnishing mantels, wardrobes, tile and slate work in 192 houses for Mr. J. L. Stevenson in block bounded by Twenty-ninth, Thirtieth, York and Cumberland streets. They also report that they are working on tile and cabinet work for the new City Hotel, Chester, Pa., which will be completed shortly.

As a result of the war scare, it is said that a number of impending transactions in real estate in Washington City have fallen through. The reason given is that the probability of war makes the financial situation uncertain and that it is only a matter of prudence to wait and see how the present issue is going to develop before entering into any agreements necessitating the expenditure of large sums of money.

### Through Pennsylvania.

When any of the following are not post office towns they will be so designated.

—At Lebanon, Lebanon county, at a recent meeting of the managers of the Pennsylvania Chautauqua it was decided to increase the bonded indebtedness of the association \$6,000 for the purpose of erecting a three-story hotel. The present dining room will be removed and the ground laid out in building lots.

—At Chester, Delaware county, M. Honan & Sons have been awarded the contract for the construction of a complete sewerage system at Newport News Va. The contract price was \$75,794.70.—It is said that a brass foundry and nickel plating works will be established by Smit h & Wi meyer, of Philadelphia.

—At Reading, Berks county, White & Myers will erect six two-story brick dwellings on Twelfth street, between Green and Greenwich streets. They will be well finished and provided with modern conveniences.—The Consumers Gas Company has under consideration the erection of an addition to its plant at the foot of Fifth street.

—At Allentown, Lehigh county, it is about decided that the German-American Steel Ball Company will be located at Allentown. Josef Kugler is superintendent of the company, and is now in Schweinfurth. The building for the proposed plant must be erected by the middle of June. A number of sites have been offered. General Snyder and Morris Hoats, of Allentown, will sail for Europe on the St. Louis April 6 to complete the details.

—At Bryn Mawr, Montgomery county, the students of Bryn Mawr College have started a fund for the erection of a building to be fitted up as a library. The academic committee at a recent meeting discussed ways and means for raising funds for such a building.—The applications for admission to the college for next year are so numerous that it will be necessary to reclaim all rooms in the dormitories now occupied by women on the staff, and a project is under consideration to erect an apartment house and to conduct it after the fashion of an old English inn.

## TRUSTS. TITLES. DEPOSITS.

## THE PLANT OF THE LAND TITLE AND TRUST COMPANY, 608 Chestnut Street,

Covers every foot of ground in Philadelphia, and is the only Plant containing an abstract of every Deed, Mortgage, and Sheriff's Sale of record in Philadelphia since 1682 located against each property described.

This Plant necessarily gives great additional protection to purchasers and mortgagees taking this Company's policy of Title Insurance, apart from the security of its One Million Dollars full paid capital.

### Beautiful Sea Shells

Every one admires them. Since coming south I have received numerous inquiries from northern people for sea shells, and now I am prepared to answer yes, I can send you shells, for I have made quite a collection of lovely shells, both from our own coast, the coral reefs, and some beautiful ones from the West India Islands. I will mail a dozen or more different kinds, no two alike, to any one who sends a stamp for postage. Also send you a lovely piece of white branch coral.

Yours, **MRS. P. A. WARNER,**  
Jacksonville, Fla.

Total Number of Operations

892

—At Birchrunville, Chester county, a creamery will be erected. The estimated cost is \$3,060.

—At Coatesville, Chester county, work will soon begin on the proposed silk mill. It will cost about \$50,000.

—At Lansdowne, Delaware county, Thomas T. Wolfenden has broken ground for a handsome dwelling on Lansdowne avenue.

—At Westtown, Chester county, the Pennsylvania Railroad Company will soon break ground for a building to be used for post office purposes.

—At Hawley, Wayne county, the main building of the Hawley Brewing Company was destroyed by fire last week. The estimated loss is \$5,000.

—At Allentown, Lehigh county, it is reported that the contract for the proposed hospital has been awarded to James M. Ritter, for \$16,472.

—At York, York county, the electrotyping establishment of the Hubley Printing Company was destroyed by fire last week. The estimated loss is \$3,000.

—At Reynoldsville, Jefferson county, it is stated that council has passed an ordinance granting a franchise to the Economic Electric Light, Heat and Power Company. L. J. McIntire, clerk.

—At Chalfont, Bucks county, Hartzell Bros. will erect a double frame dwelling. L. R. Treffinger, of Doylestown, is the contractor. —Alonzo Crouthamel will erect a dwelling. Mr. Wolf, of Telford, is the contractor.

—At McKeesport, Allegheny county, at a recent meeting of the property committee a number of plans and proposals for the new city hall were considered but no decision made. The matter of selecting the plans was laid over for a week.

—At Darby, Delaware county, William J. Hilbert will erect two brick dwellings on Fifth street, between Walnut and Spruce streets.

—R. B. Both will erect two dwellings at Twelfth and Main streets. —A. J. Sopahl will erect two dwellings on Pine street.

—At Scranton, Lackawanna county, it is stated that surveys have begun for the route of a proposed steam railway thirty miles long, from Nicholas, Pa., to Lanesboro, Pa., connecting the D. L. & W. and the Erie Railroads. A. N. Walker, Edward Gearhart and M. J. Martin, of Scranton, are organizing the capital with a capital stock of \$500,000.

—At Bloomsburg, Columbia county, it is reported that a bridge 60 feet long, with a roadway 14 feet wide, also a bridge 90 feet long, and 14 feet roadway, will be constructed in Sugarloaf Township, two miles from Central Station, the cost to be \$900 and \$1200 respectively. D. Z. Mensch, county clerk, can give information.

—At Wilkesbarre, Luzerne county, it is said that the directors of the Central Poor District of Luzerne county have decided on the erection of a new asylum for the insane and that plans are preparing by McCormack & French for such a structure. It is estimated that the cost will be about \$100,000. Abram Nesbitt is chairman of the building committee.

—At Pittsburg, plans have been prepared by E. M. Butz & Co., Park Building, for public school number two at Charleroi, Washington county, Pa. It will be of brick and stone, with some terra cotta, and will contain a hall and eleven handsomely finished rooms. All modern improvements will be provided. The estimated cost is about \$25,000. —C. M. Barberger, Westinghouse Building, has finished plans for an extension to the Thirteenth ward school building, of Allegheny, and will close bids for the same on April 8. —Thomas Boyd, Westinghouse Building, has made plans for a frame church to be erected at Industry by the congregation of the United Brethren. It will be well finished and will have a seating capacity of three hundred. —W. A. Thomas, Carnegie Building, has made plans for a handsome Colonial dwelling to be erected on Walnut street near Shady lane. The estimated cost is about \$10,000. —J. L. Beatty, Jackson Building, has prepared plans for a large colonial brick dwelling to be erected in Allegheny for Elliott Rogers. —Miss E. Mercur, Times Building, has made plans for a handsome brick dwelling to be erected at Swissvale for Frank A. Gordon. —Steps will be taken in a short time for the erection of a new school building in the Twenty-ninth ward. —James S. Fruit, custodian U. S. Court House and Post Office, will receive bids until April 11, 1898, for the labor and material required for painting and miscellaneous repairs to the court house and post office. —John H. Kerr has broken ground for a handsome dwelling at 464 Rebecca street. It will cost \$9,000. Wm. Bauersmith, 466 Rebecca street, is the contractor. —Five two-story and attic brick dwellings will be erected on Tioga street by C. Zollinger, 137 Tioga street. The contract has been let to Joseph Patterson, Nimick Terrace. The estimated cost is \$15,000. —Sadler & Evans have the

contract for the erection of four attractive dwellings for Martin & Evans, East End. They will be handsomely finished and will cost \$20,000.

### Through New Jersey.

At Riveredge, Bergen county, the bakery of Jacob Nordbuck was destroyed by fire last week at a loss of about \$5,000.

At Gloucester, Camden county, a meeting was held last week at which a fund was started to be used in the erection of a shirt factory.

At Roselle, Union county, J. Provost will erect a frame dwelling, to cost \$6,000, from plans prepared by Lineau & Nash, 64 Cedar street, New York City.

At Weehawken, Hudson county, Mrs. M. Obery will erect two frame flats, to cost \$7,500, from plans prepared by J. A. Hilpert, No. 324 Bloomfield street, Hoboken, N. J.

At Boonton, Morris county, an addition will be erected to the Presbyterian church from plans prepared by Ward & Davis, 203 Broadway, New York City. Rev. W. H. Woolverton is the pastor in charge.

At Passaic, Passaic county, the Continental Match Company, of which Edwin Gould, 195 Broadway, New York City, is president, will erect a warehouse from plans prepared by H. C. Pelton, 1130 Broadway, New York.

At Madison, Morris county, Mr. Reginald Fry will erect a dwelling from plans prepared by R. C. Walsh, of Morristown, N. J. —D. T. Pierson will erect a dwelling to cost \$4,500 from plans prepared by A. S. Pierson, of Morristown, N. J.

At Montclair, Essex county, J. Hollock Waring will erect a handsome dwelling, to cost \$7,000, from plans prepared by Brun & Hauser, 1123 Broadway, New York City. It will be of frame, fine interior finish and all modern improvements.

At Interlaken (not a P. O. town), a dwelling to cost \$8,000 will be erected by C. A. Brown, 129 Broad street, New York City, from plans prepared by Chiede & De Goll, 62 New street, New York City. The same architects have made plans for a stable for Mr. Brown.

At Haledon, Passaic county, a large frame hotel will be erected by the High Mountain Park Association. The centre building will be 69 x 69 feet, with three radiating wings be 40 x 164 feet each; tower 92 feet high in the centre. W. M. Ernst is president of the association. The plans have been prepared by S. B. Reed, 245 Broadway, New York City, and

**Phila. Stove and Iron Foundry Co.**

1625-1635 N. Fifth Street.

the lessee will be Charles Jaimes, Brevoort  
House, New York City. The cost will be  
\$100,000.

At Bernardsville, Somerset county, a dwell-  
ing to cost \$6,900 will be erected by Richard  
Stevens, of Hoboken, N. J., from plans pre-  
pared by Pollard & Steinman, No. 19 Union  
Square, New York City.—Mrs. Henry Mullen  
will erect a dwelling to cost about \$6,500.

At Perth Amboy, Middlesex county, the  
March Stove Works will erect a machine shop,  
boiler room, foundry, pattern shop, stove  
house, office and watchman's house from plans  
prepared by S. Dayton. The address of the  
company is 74 Beekman street, New York  
City.

At Cape May, Cape May county, at a recent  
meeting of City Council, Chairman Wilson, of  
the special committee, reported progress on  
the effort to get permission from property  
owners to erect pavilions on the beach  
front.—It is probable that an effort will be  
made to have a commission appointed to con-  
demn the strand for public use and to award  
damages.

At Jersey City, the Pennsylvania Railroad  
Company will erect a one-story corrugated  
iron, steel frame railroad station, from plans  
prepared by William H. Brown, Pennsylvania  
Railroad Station, Broad and Market streets,  
Philadelphia, Pa.—George C. Kein will erect  
a three-story frame apartment house, to cost

\$5,000 from plans prepared by Mr. H. Wolfe.  
—Mrs. Anne E. Gerken will erect a dwelling,  
to cost \$30,000, from plans prepared by Blan &  
Quaife.—Theodore Hoke will erect an attrac-  
tive dwelling, to cost about \$4000, from plans  
prepared by A. Beyer.

At Hoboken, the Hoboken Consumers'  
Brewing Company will change a silk factory  
into a brewery, at a cost of \$130,000, from  
plans prepared by Louis Oberlein, 27 White-  
hall street, New York City.—The board of  
education will increase the capacity of school  
No. 4 by the erection of an addition from  
plans prepared by Fall & Masson. The cost  
will be \$10,000. The same architects have  
made plans for an addition to the school house

No. 5, to cost about \$20,000.—Mrs. Minck will erect a two and a half-story frame dwelling, to cost \$4,000, from plans prepared by R. C. Dixon, 146 Bergenline avenue, Union Hill, N. J.—J. A. Hilbert has made plans for a four-story frame building to cost \$7,000, and which will be fitted up as stores and flats, for Joseph Brando. Also plans for a three-story frame dwelling for Joseph Clousie to cost \$3,000.

At Atlantic City, at a recent meeting of City Council an ordinance was passed authorizing the repaving Pacific avenue and making it a handsome boulevard. The part of Vermont avenue between Atlantic and Pacific avenues will be similarly treated, as well as parts of South Carolina, Tennessee and Arkansas avenues.—The New Jersey Electric Railway, which has completed surveys for a trolley line from Camden to Atlantic City, has bought the right of way for its entrance into Atlantic City. The right of way is also secured from Ateo, above Hammonton to Absecon. After leaving Absecon the plans provide that the road shall cross the meadow on steel piling. The line will run in a straight line to the meadow end of Maryland avenue and then turn and enter the city, the right of way being past west of that avenue. The terminal station will be on Atlantic avenue, a short distance from Maryland avenue.

At Morristown, Morris county, Mrs. Laura Ambrose will erect a frame dwelling, to cost \$3,000, from plans prepared by S. W. Parker & Son. The same architects are preparing plans for a three-story brick store and flat for J. E. Parker, which will cost \$2,000.—Frank Colburn, 55 Broadway, New York City, has made plans for a three-story brick and stone building, which will be fitted up as flats and stores by the owner, Charles Drake. The estimated cost is \$8,000.—E. G. Ames will erect a frame dwelling on Madison avenue from plans prepared by R. C. Walsh. The same architect is preparing plans for a dwelling to be erected for Edward A. Day.—G. W. Bowser & Son have prepared plans for a three-story brick, stone and terra cotta structure to be erected at Speedwell and Early avenues for Mr. Parker. It will be fitted up for stores and apartment purposes, and will be well finished and provided with all modern conveniences and improvements. The estimated cost is about \$15,000. Work will begin at once.

At Newark, Carl Redman has prepared plans for a brick store and dwelling to cost \$700, for B. Stern.—The Charles Cooper Company will erect a two-story brick storage building, to cost \$6,000.—A. Peter has prepared plans for three three-story brick dwellings to be erected at 145, 147 and 149 New street, at a cost of \$15,000, for J. R. Casey and T. J. Kennedy; also plans for a two and a half story frame dwelling for John Schieble, to cost \$3000.—Frederick E. Romine will erect a two-story frame dwelling on Ellwood avenue, to cost \$20,000, from plans prepared by P. F. McLogan, Jr.—Frederick Neibuh will erect a dwelling on Fairview avenue, to cost \$4000.—R. F. Hopwood will erect a two-story brick dwelling from plans prepared by A. H. Thomas, Caldwell, N. J.—John A. Neisil has prepared plans for a dwelling, to cost \$4000, to be erected for Miss Agnes McDonough.—H. J. Merritt will erect a dwelling from plans prepared by Harry Hangaard, Richmond Hill, Long Island.—Three three-story brick dwellings will be erected on Broad street, from plans prepared by George W. Campbell, for W. F. Mulford. The estimated cost is \$12,000.

At Orange, Essex county, C. M. Decker has arranged for the erection of a fine stable, to cost about \$1,000, from plans prepared by F. R. Hasselman. It will be of frame, finely finished and equipped with all modern appliances. The same architect has prepared plans for a two and a half-story frame dwelling to be erected on New street for W. F. Rockwell, at a cost of \$4,000.—C. M. Matthews will erect

an attractive framed dwelling at Highland street and Fulton Terrace. It will be well finished, supplied with modern conveniences and will cost about \$4,000.—James Degman will erect a saloon and dwelling on Parron street, near Central Place, from plans made by S. W. Whitmore, East Orange, N. J. The estimated cost is about \$3,000.—F. R. Hasselman, 220 Main street, Orange, N. J., has made plans for two attractive dwellings to be erected for A. P. Mitchell, on Muthrope Terrace, at a cost of \$5,000 each. The same architect has prepared plans for a similar dwelling to cost \$3,000, which will occupy a site in Mitchell Place.—A handsome dwelling will be erected on Munn avenue by Elmer S. Burnham, 61 Gansevoort street, New York City. It will be finely finished, tile work, plate and stained glass, all modern improvements, and will cost \$10,000.—John E. Baker has arranged for the erection of a dwelling on Glenwood avenue to cost about \$9,000. He has also drawn the plans for his structure.—J. Ward Grummon will erect a frame dwelling from plans prepared by John Brower, 150 Nassau street, New York City.

#### Through Delaware.

At Wilmington, at a recent meeting of city council the question of the erection of a new city hall was considered. It was found that such a structure could be erected without increasing the tax rate. The building and finance committees of council also held a meeting and discussed the subject, but action was deferred, though it is said a bill will be presented to the Legislature before long asking for authority to borrow money for such a purpose. It is estimated that a building such as would be suitable to the purpose could be built for \$250,000. Two sites for the structure have been suggested, one where the present city hall now stands, with the Saville Building, at Sixth and Market streets; another plan is to sell all the property owned by the city on East Sixth street, between Ki and Market streets, leaving the old city hall intact to be turned over to the Historical Society, and with the money thus procured secure a site in the center of the city, such as the one at the southwest corner of Eighth and Market streets. No definite steps have been taken.—Dr. Kittinger will move to the dwelling of Mrs. James W. Ware, on Delaware avenue, and will erect a handsome office on the ground adjoining.

#### Through Maryland,

At Easton, Talbot county, the county commissioners will replace the present modern structure across the Choptank with an iron bridge. The estimated cost is \$9000.

At Hagerstown, Washington county, the Senate has passed a bill authorizing the city council to issue bonds not exceeding \$60,000 in amount, the proceeds to be used for the erection of an electric light plant.

At Williamsport, Washington county, a committee consisting of L. R. Spangler, M. E. Cullen and E. F. Steffery has been appointed to investigate the best means of securing water works and an electric light plant.

At Westminster, Carroll county, it is reported that a bridge, eighty feet long and sixteen feet wide will be constructed at Oakland Mills. The estimated cost is \$160, J. E. Masenhum, county clerk, can give information.

At Baltimore, it is said that the Hibernian Association has under consideration the erection of a new building. Simon I. Kemp is president and can give additional information.—A permit has been taken out for the erection of a one-story brick and stone church at the southeast corner of Edmonston avenue and Stricker street, by the trustees of the

Methodist Episcopal congregation.—Work has begun on a large building operation by Peter Grogan, consisting of the erection of twenty-four two-story dwellings of stone, to be erected on Luzerne street and some on Preston street. They will be well finished and provided with modern conveniences.—Two two-story frame dwellings will be erected by Robert Culver on Kosuth street, between old York road and Joseph street.—William B. Raynor, Jordan stable, and Wilber F. Helm will erect handsome cottages at Stevenson, Baltimore county, the present season. They will be handsomely finished, provided with modern conveniences and will cost \$7000 each.—At the same place (Stevenson), Avalon Inn, the new hotel is nearing completion and will be opened about June 1st. It contains sixty-five rooms, is of Colonial style of architecture and was built from plans by S. Appleton Wilson. It is owned by the Stevenson Improvement Company, which also owns about 100 acres of land in the same locality, which has been cut up into 200 building lots.—M. T. Merryman is erecting four cottages on Garrison avenue, West Arlington.—Etta V. Brady has bought a lot at Eutaw street extended and Brooks avenue for \$10,000.—Frederick Walpert has bought a lot at Roland Park for \$3000.—It is reported that Mayor Malster has signed the resolution asking the Legislature to authorize a loan of \$3,000,000, to be used in improved paving, the erection of school buildings and extending the system of storm water sewers. The ordinance providing for a sewer in the bed of Brice alley, Mosher and Payson streets, has been signed by the mayor.

#### Washington, D. C.

A fine building lot between the properties owned by Mr. Whitmore and Mr. Leiter has been bought by Mrs. Postethwaith, and it is said the new owner proposes to erect a handsome residence on the site. The structure will be of the Italian style of architecture, finely finished and provided with all modern improvements. It is said to be the intention of Mr. Leiter to remove the wall on the north side of his dwelling and to erect a large conservatory.—Speiden & Speiden have prepared plans for two attractive dwellings to be erected on Q street, for Mr. L. J. Bryant. They will be two stories high, of brick, stone trimmings and all modern conveniences.

Work has begun by H. K. Fulton on a business structure on the west side of Ninth street, from plans prepared by W. A. Peter. The structure will be of brick, stone and copper plate, glass windows, finely finished interior and all conveniences. W. Bruce Gray has made plans for extensive alterations and additions to the dwelling of Mrs. McKee Dunn, at Falls Church, Virginia.—John H. Nolan has broken ground for a row of eight dwellings on N street. They will be of Roman brick, well finished interior and modern conveniences.—James E. Barnes has arranged for the erection of a four-story stone building for business purposes, to be erected at 316 Pennsylvania avenue, Northwest.—W. T. Weaver will erect a three-story brick dwelling at 1419 Thirty-fifth street. The roof will be of slate, all modern conveniences.—Horace A. Dodge will erect a dwelling at 118 B street, Northwest.—A three-story dwelling will be erected at 1347 Maryland avenue for Alice Carr.—Mr. Glenn Brown has prepared plans for a residence to be erected at the northwest corner of R and Twenty first streets, for Mr. Preston A. Ames, of Boston. The design is colonial and the material will be red brick laid in Flemish bond with points of white mortar and white cornice, gambrel roof and dormer windows. The interior will be finely finished, considerable tile work, plain and ornamental glass and all modern conveniences and improvements.—Ground has been broken by S. G.

## PANCOAST VENTILATORS.

Leads them all in giving the Best of Ventilation

Broken View.

*Handsome, Strong, Durable,  
Efficient.*

Houses, Mills, Factories, School Houses, Churches, Refineries and Ponntries use them with perfect results. Architects, in preparing plans for buildings, should always specify the *Pancoast Ventilator*. Send for testimonials and discounts. Made in all sizes, from two inches to ten feet, and guaranteed absolutely storm proof.

MANUFACTURED AND SOLD BY

Main Office, **PANCOAST VENTILATOR CO., Inc.**  
316 PHILADELPHIA BOURSE, PHILADELPHIA, Pa.

## THE RAINY DAY

The business conditions, from which the country is now escaping carried with them great misfortunes to worthy families, whose bread-winners were powerless to avert them. Mitigate them, they sometimes might; wholly prevent, they could not.

### AN INSURANCE POLICY

#### IN THE PENN MUTUAL LIFE

was in many instances a safe bridge over the dark financial chasm, turbulent and treacherous with waters rushing madly on to the shoal of bankruptcy.

### DO YOU WANT ONE?

If you have a curiosity to know what you can do, without any importunity to do anything, address, stating age,

**THE PENN MUTUAL LIFE**  
921-3-5 Chestnut St., Phila.

## THE MERCER BOILER AND HOT WATER HEATER

Double horizontal return flues.  
Each section an independent boiler.  
Reed Rotating Grate.

Works: Westfield, Mass  
Established 1853.

**THE H. B. SMITH CO.**

kinds for steam and water  
warming

## Pittsburgh Plate Glass Company

Largest Producers of Plate Glass in the World  
1012-14-16-18 FILBERT ST.  
PHILADELPHIA

Also Manufacturers of Plain and Beveled Mirrors, Hartford  
City Diamond Brand Window and Picture Glass.

H. E. SEALEY, Local Manager.

## As the Use of Gas Ranges

To any considerable extent has not been common to Philadelphia, in order to encourage this convenient, clean and economical housekeeping service, we will, until further notice, perform the work of connecting, free of charge, in houses along the line of our mains, such gas ranges as our experience in other cities has proven worthy. So much depends on the proper range and perfect gas fitting that we take this course to insure satisfaction to buyers and users. A list of the ranges we approve can be had on application at our office, Juniper and Filbert streets.

## The United Gas Improvement Company

Blackwood for the erection of three dwellings at Congress Heights; one will be a large double dwelling to occupy a site on Maple avenue, and which is to be erected by Mr. McFarland.

### Lot Buyers.

At Coatesville, Pa., Annie R. Harris has bought a lot on Chestnut street for \$1500.

At West Chester, Pa., Henry R. Guss has bought a lot on Dean street, from L. W. Shields, for \$2500.

### Contractors & Builders

Here is something that will save you time and material, by using the *Adjustable Spring Steel Shingle Bracket* to support staging for shingling.

Queen st, Germantown, No 35, lot in the rear, 100

### Wants.

At Fort Washington, Md., bids will be received until April 9th for sinking an artesian well. Address Lawrence S. Miller, Q. M.

At Pittsburg, Pa., Edward Stotz, architect, Monongahela National Bank Building, wants estimates for electric lighting, seats and school furniture for the south side high school building.

### Miscellaneous.

At Richmond, Va., it is said that competitive plans will be invited in a short time for two buildings for Richmond College. The estimated cost is \$50,000.

At Norfolk, Va., J. E. R. Carpenter, Columbia Building, has prepared plans for three three-story stone and brick dwellings to cost about \$30,000. They will have tile roofs, handsome interior finish, modern conveniences.

At Lynn, Mass., the common council has authorized a petition to borrow \$35,000 for the erection of a new school building in the Sixth ward.

At Buffalo, N. Y., it is said that estimates will be received in April for the new bank building to be erected by the Buffalo Savings Bank and for which plans have been prepared by Keen & Wicks, of Buffalo. The estimated cost is \$300,000.

At Alexandria, Va., the removal of the Court House and jail from Alexandria to Fort Myer Heights is now said to be assured, and the Board of Supervisors of Alexandria county have floated bonds to the amount of \$20,000 to be used for the purpose. Proposals for the erection of the necessary buildings will be received until May 2, 1898. King street will be paved for some distance with vitrified brick.

At Columbus, O., Mr. Frank Davis will erect a large building for business purposes. It will be of brick, stone and terra cotta, composition roof, steam heat, etc., and will cost \$25,000.—Stribling & Fox, Denig & Person Building, have made plans for a business block to be erected for E. T. Mithoff. It will be of brick and terra cotta, with stone foundation and trimmings, composition roof, steam heat, fine interior finish and fittings, elevators and all modern conveniences. The estimated cost is about \$70,000.—The present city hall will be remodeled. The material will be brick, terra cotta and stone and of slow-burning construction, slate roof, steel ceilings, iron stairs, steam heat, elevator, fine interior finish and all modern conveniences and improvements. The estimated cost is about \$50,000. Work will begin at once. Joseph Dauben, building inspector, can give information.

### Judgments

#### PHILADELPHIA.

#### ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term, and S, for September Term.

S. F.—Scire Facias, to revive judgment.

A star (\*) denotes judgment confessed or bond and warrant conditioned.

#### ENTERED MARCH 28, 1898.

## The Status of Mechanics' Liens in Philadelphia.

[Republished by request.]

The lien of mechanics and material men on buildings for work done and materials furnished is the creation of statute law; it was unknown either to the common law or in equity. There is no direct evidence as to what gave rise to the system in the United States, but in Pennsylvania, which was among the first to establish the principle, it is supposed to owe its existence to the Act of 1784, which had relation to persons employed in building and repairing vessels, but I think it evident that the real intent and object of the liens given to mechanics was to prevent a manifest injustice, that the land owner should profit by the enhanced value put thereon and then refuse to pay for the benefit conferred. The framers of the law had before them a precedent in the Civil Law which justly protected not only the builder and workmen but even persons who furnished funds for improvement of real estate when funds were expended upon it.

The first attempt to create a mechanics' lien arose from a desire to improve the city of Washington. Thus a memorial signed by Thomas Jefferson and James Madison in September, 1791, in the following words: "Your memorialists conceive it would encourage masters builders to contract for the erection and furnishing houses for certain prices agreed on if a lien was created by law for their just claims on the houses erected and the lot of ground on which it stood." I have said this much on the introduction of the subject which I propose to discuss, to show you that, during these earlier times even, it was thought that the mechanic and material man did have and has to-day more right to the protection of the law than the baker or grocer. Some people, who do not give the matter much thought, seem to think to the contrary. To better understand the law of to-day, it is necessary and, as I am writing for people not lawyers, I shall discard all technical terms as much as is possible. The next statute in the United States was our own Pennsylvania Statute or Act of 1803, confined to mechanics in Philadelphia County, which Act, while containing the germs of subsequent legislation, was very meager and imperfect. By this act, the only person who could file a lien was one who contracted with the owner direct. The Act of April 16, 1845, provided that the contractor could also lien. At the present day the contractor with the owner and the contractor with such contractor have a right to lien for work done and material furnished, and a material man who furnishes goods to the principal contractor has a lien, but not a material man who furnishes goods to the sub-contractor.

This latter person is excluded upon the principle that to entitle to a lien upon the premises of the owner a contractual relation must exist between the parties.

A sub-contractor can only claim through the principal contractor who is treated as the agent of the owner and can bind the building only in this capacity.

The question who is entitled to a lien has been the subject of many a fierce battle between the owner and those claiming to subject his building to lien for their work and material furnished to the contractor with the owner. A little of its history will be worthy of study. A good exposition of the law is given in an opinion delivered in *Harland vs. Rand*, 27 Pa. 511, as follows:

I. The debt which is the subject of the lien must be founded upon a contract with the owner either express or implied. (This contract need not be in writing.)

II. When the owner employs a contractor to erect for him a house, a debt founded on a contract with a sub-contractor or material man is by implication authorized by the contract of the owner.

III. It is incumbent on such contractor or material man to ascertain whether the one assuming to be the principal contractor has authority to lien the property of the owner.

Under this last decision the courts have said that it makes no difference whether the person who furnished the work or the material thought the person who ordered it was the principal contractor or not, he should contract with his eyes open.

These principles of law have been maintained and supported on the theory that a man's land cannot be charged without his consent, and to act otherwise would be a gross abuse of Legislative power. We have seen that the lien can only be filed by one who has a contractual relation with the owner, either expressed or implied; it then follows that if the right of lien against the owner has its basis upon the contract for the building, this is the source from which power to bind is obtained, and like a river which cannot rise higher than its source, the contractor or sub-contractor by their contractual relation with the owner are either allowed or prevented from filing a lien. Attempts have been made to make null this principle of law, but so far such attempts have been failures. The Supreme Court has decided that a contractor could contract with an owner that no one should have power to bind the buildings for work done and material furnished; the Legislature, to protect the sub-contractor and material man, passed the Act of June 8, 1891, declaring that, whenever, in a contract between the owner and the contractor, the latter agreed that the building should not be subject to liens for materials furnished and work performed, such provision should be null and void. This act was declared unconstitutional in the case of *Walters vs. Wolf*, et al. 162 Pa. 8, 1894. In this case the Court decided (and we think justly and properly) that the indefeasible right to acquire and possess property, secured by Article I, Section 1, of the Constitution of Pennsylvania, necessarily includes the right to make reasonable contracts for the improvement of property, and a contract that no mechanics' liens shall be filed, is not unreasonable as to either contractor or sub-contractor.

Such interference with the indefeasible rights of freedom of contract in the acquisition and protection of property as is attempted by the second section of the Act of 1891 the people have plainly reserved from legislative power.

The Supreme Court believing, however, that the material man and mechanic should have protection, threw out this intimation: "Whatever reasonable regulation the Legislature might make as to notice to sub-contractors and material men, of the terms of the contract between the owner and the only one with whom he bargains, the principal contractor, such as that it shall be in writing, and shall be recorded, would clearly be within the legislative power."

The Master Builders' Exchange, of Philadelphia, did not delay taking the Supreme Court at its word, and had passed, by the Legislature, the Act of June 26, 1895, which may be called an act of pure justice to the sub-contractor doing work and furnishing material, who otherwise was left to the mercy of the principal contractor, and the owner (thank goodness there are but a few who set their wits together to grind the sub-contractors and material men to powder). This act provides that the sub-contractor shall have his lien against the building unless the covenant against liens is drawn, executed and filed. It provides in brief as follows:

I. The contract of stipulation shall specifically covenant against liens of the sub-contractor or other person.

II. The contract or stipulation shall be in writing and signed by the parties thereto, prior to the time authority is given the principal contractor to proceed with the work.

III. The contract or stipulation shall be filed with the Prothonotary where the land lies, within 10 days after its execution.

Now being warned, let the mechanics and material men take care and make the examination.

From this short discussion it may be seen who are entitled by statute to file a lien for the "erection and construction of a house or building" and what exceptions and limitations are put on this right.

The status that a contractor or sub-contractor has to file a lien for alterations or repairs or for work done in the erection of buildings upon ground leased for a term of years will be considered later.

## A Word About MIRRORS

Nothing adds so much beauty to a home as  
a few handsome mirrors.

Men appreciate this fact as well as women.  
Do you know that our best customers for richly  
framed mirrors are men?

To be sure, many are purchased as pleasure-  
giving surprises. But the tone, the beauty, the  
service is all there, no matter who buys them.

JOHN N. GALLAGHER, Publisher.  
JOHN F. FRISBANE, City Editor.

PHILADELPHIA, WED'Y, APRIL 13, 1898.

The Liverpool and London and Globe Insurance Company, of England, with a branch in this country, has notified its employees who are members of the State militia that their positions will be retained for them while in the government service, whether the period be of long or short duration. This is certainly a commendable and patriotic spirit for an English company and a worthy example for all corporations to follow.

### Architect Notes.

Competitive plans are now being made by some half dozen architects for the new M. E. Ebenezer church, at Manayunk, and when a selection has been made we shall note the matter in full.

A press report states that plans prepared by Henry E. Cregier, architect, of Chicago, have been accepted for new apartment hotel to be erected on the site of the homestead of Col. Wm. M. Singler.

McCollin & Ely, architects, Washington, Pa., are making plans for a high school to be erected by the school board of Corry, Pa. It will be of stone and brick and cost about \$40,000.

W. L. Peack, architect, 1403 Filbert street, has made plans for an addition of a library and minor alteration to the residence of J. N. Snellenburg, at 2133 North Broad street. No contracts have been let for the work.

Rudolph Blankenberg & Co., manufacturers, have purchased the Lincoln Mills, on Main street, Manayunk, and will, to a great extent, remodel and improve the plant and put it in good shape for working purposes.

Lawrence Vischer Boyd, architect, Harrison Building, is making plans for alteration and addition to the residence of Mr. G. V. Lyon, Germantown. The work will consist

of stone and brick work and general inside finish, with all conveniences, etc.

G. W. and W. D. Hewitt, architects, Bullitt Building, some time ago, made plans for alteration and addition to the monkey house at the Zoological Garden, and these drawings are now on the boards of Wm. R. Dougherty, general contractors, 1604 Sansom street, for sub-estimates.

Bumgart & Jackson, architects, 1345 Arch street, have made plans for an operation of houses at Fifty-third and Thompson streets, for Geo. W. Sherman, owner and builder. These are to be of brick, stone facings, and furnace heat, electric bells, ranges and all modern conveniences, etc.

Bailey & Truscott, architects, 421 Chestnut street, have completed plans for alteration and addition to Alumni Hall, Haverford College. The work will be of stone and brick, slate roof, leaded and plate glass work, steam heat and electric work and other minor details. Estimates are being made by general contractors.

Dull & Peterson, architects, 1011 Walnut street, have invited estimates on the house of Foulson, Esq., at Pascal, Pa. It will be three stories high, stone, frame and plaster work, and contain all modern improvements on interior. Plans on boards of W. R. Dougherty and other contractors. Previously noted in these columns in full detail.

Geo. B. Page, architect, Harrison Building, has on boards plans for alteration to a residence at Penlynn, Pa., for Herman A. Denkle. These consist of heating apparatus, electric work, leaded and plate glass work, etc. Same architect has plans for a stable in rear which will be of stone and frame work and will contain all general improved stable fittings.

J. W. Shaw, architect, 16 South Broad street, has finished plans for a three-story frame and stone house, with shingle and slate roof, plate and other glass windows, and interior to contain all modern improvements. Owner and location not given. Estimates being made at 1604 Sansom street, and other contractors.

Henry Dagit, architect, 435 Chestnut street, has awarded the contract for St. Columbia Parochial School to Patrick McShane, contractor, of this city. As noted before, it will be located at Twenty-fourth and Lehigh avenue, 114 x 162 feet, Port Deposit and Green river stone, and fitted in a general way with all late conveniences and improvements in school furniture, etc.

Schermerhorn & Reinhold, architects, 430 Walnut street, have prepared plans for an operation of twenty six dwellings to be built at Overbrook for J. Cook Meeser, by Kohl Bros., contractors. Each house will be 18 x 56 feet, three stories high and of stone and brick, with all the latest comforts and conveniences on interior. They are to be located on north side of Oxford street and on south side of Columbia avenue, east of Sixty-third street.

Joseph Sinex, architect, 4906 Woodland avenue, has made plans for an operation at

Fifty-first street and Woodland avenue, for Charles G. Henderson, Forty-seventh street and Baltimore avenue. All to be two stories high, fancy brick and stone fronts, hot air furnaces and ranges and best conveniences, etc. Also plans by same architect for a smaller operation at Forty-seventh and Woodland avenue, for a private owner, and material about the same as above noted.

One of the finest improvements of the current year will soon be put in operation by the Pennsylvania General Improvement Company, S. Loyd Small, general manager, 410 Lippincott Building, Twelfth and Filbert streets. This work will consist of the erection of a grand amusement ground, to be known as Rockledge Park, adjoining Fox Chase, and contiguous thereto, reached by the Philadelphia and Reading Railroad and Fifth and Sixth Street Railway and take within its scope quite a series of buildings, consisting of a very fine hotel, a large restaurant, music pavilion and hall, a large structure also for public accommodations, entirely free for families and friends, a large auditorium and race track for bicycles with general accommodations for checking and caring for the same. Also in conjunction with the above, an individual water plant, with engines and pumping houses, an electric plant for general supply of surrounding country. Steam heat plant for the same purposes will be constructed. Plans are being prepared by Mr. Angus S. Wade, 1826-28 Chestnut street, and the entire work of construction will be done under his special supervision. None of the buildings noted will be of a temporary character, but will be in keeping with the improvements already erected in that locality. The hotel will contain one of the finest barrooms in this country, being fitted entirely in mahogany wood, marble and mosaic work, plate and leaded glass, bevelled mirrors, etc. Estimates will no doubt be asked at an early day and work started.

### Building and Real Estate Notes.

The firm of Wagner & Reitmeyer, of Williamsport, Pa., has been dissolved, and will be continued by Truman P. Reitmeyer at Masonic Temple, Williamsport, Pa.

St. Michael's Catholic T. A. Society, Germantown avenue above Columbia avenue, intend in the near future to make extensive alterations and additions to their building.

Vickers, Falkenstein & Co., builders and owners, 1820 Arch street, are taking estimates on 47 dwellings to be erected at Fifty-fourth street and Girard avenue. These are to be of buff brick, stone facings, galvanized cornices, and interior have furnace heat, ranges and best of modern comforts.

S. C. Boyer, architect, 913 Walnut street, has completed plans for 21 dwellings to be erected at Sixty-sixth and Woodland avenue, for T. C. Gardiner, Witherspoon Building. These are to be two and three stories high, stone and brick and all modern improvements. Estimates are in order and being made.

## TRUSTS. TITLES. DEPOSITS.

# THE PLANT OF THE LAND TITLE AND TRUST COMPANY, 608 Chestnut Street,

Covers every foot of ground in Philadelphia, and is the only Plant containing an abstract of every Deed, Mortgage, and Sheriff's Sale of record in Philadelphia since 1682 located against each property described.

This Plant necessarily gives great additional protection to purchasers and mortgagees taking this Company's policy of Title Insurance, apart from the security of its One Million Dollars full paid capital.

## Beautiful Sea Shells

Every one admires them. Since coming south I have received numerous inquiries from northern people for sea shells, and now I am prepared to answer yes, I can send you shells, for I have made quite a collection of lovely shells, both from our own coast, the coral reefs, and some beautiful ones from the West India Islands. I will mail a dozen or more different kinds, no two alike, to any one who sends a stamp for postage. Also send you a lovely piece of white branch coral.

Yours, **MRS. F. A. WARNER,**  
Jacksonville, Fla.

**RANDOLPH & CLOWES**  
Box 46, WATERBURY, CONN.

# Muresco

Is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effects of kalsomine, without the flashing and with none of its disadvantages. It does not rub off against the clothing nor will it crack or peel. It kills suction and gives a smooth, even coat over an old plastered wall that has been patched. It is made in fifteen artistic colors and white. A color card and full information about MURESCO sent for the asking.

**BENJAMIN MOORE & CO.,**  
256 Water St. Brooklyn, New York,

Burd P. Evans, contractor, will erect the house for James A. McCurdy, at Overbrook. Noted in a previous issue, from plans by Schermerhorn & Reinhold, architects, 480 Walnut street, to start at once.

The office of Wm. T. B. Roberts, Forrest H. Roberts, Willow Grove Land Company and the Grove Terrace and Annex will be removed from the Bourse to Room 410, Lamp Title Building, Broad and Chestnut streets, on April 20th next.

C. J. Urban, contractor, Ridley Park, Delaware county, Pa., has been given the contract for the Llanerch M. E. Church, at Llanerch, Pa., and will start work at once upon the superstructure, as the foundations have been completed some time.

The Philadelphia & Baltimore Steamboat Company and the Lehigh Valley R. R. intend extending their piers to the Warden's line on the Delaware river, and erecting new sheds, and intend to start work as soon as all contracts can be awarded and details arranged.

Contractor Charles McCane has started work upon the boiler house for the Allison Manufacturing Company on Thirty-second street above Walnut. Also on the new ferry house for the Philadelphia & Reading R. R. Chestnut street and the Delaware river. All noted previously.

Flore & Bevan, builders, 14 South Broad street, are pushing with vigor their great operation of the suburban homes at Jefferson, Gross, Sixty-third and Sixty-fourth streets. All the plans for this work are by Schermerhorn & Reinhold, architects, and have been fully noted before in these columns.

R. C. Ballinger & Co., contractors, 218 N. Thirteenth street, have been given the contract to make the addition of a third-story to the Twenty first District Police Station at Woodland avenue and Spruce street. W. C. and T. B. Pritchett, architects, made the plans and will supervise the work.

Allen B. Rorke, contractor, has taken out permit to erect the new Press building, at Seventh and Sanson streets. It will be seven stories high and constructed of brick, granite and terra cotta work, steel skeleton and all the most modern conveniences on interior. Previously noted in full in these columns. Plans were made by Theophilus P. Chandler, architect.

At a monthly meeting of the Park Commission on the 8th inst., it was suggested that a foot walk be made from Fifty-second street to the top of George's Hill. Also a retaining wall built on north side of Girard avenue west of Lansdowne entrance, and to slope off with the sodded bank. \$5,000 was appropriated to buy broken stone for use upon the drives and \$300 to repair the music pavilion at Lemon Hill.

Messrs. Stewart & Cugill, proprietors of the Parkside apartment house, Fortieth street Parkside and Girard avenues, have bought additional ground on the west side, and will erect an addition, to be seven stories high. The structure will be of same material as the present building, and contain on the first floor a handsome store for druggist. An extension of the heat plant, electric work, marble and mosaic work, etc., will be in the specifications. Plans are being made and the work will be bid upon soon.

#### Through Pennsylvania.

☞ When any of the following are not post office towns they will be so designated.

—At Salem, Snyder county, it is reported that a filer will be constructed to cost about \$4000.

—At Chester, Delaware county, the school board, it is stated, is considering the question of the erection of a new high school.

—At Limerick Square, Montgomery county, H. F. Saffer will erect a building to be fitted up for store purposes.

—At Johnstown, Cambria county, the coke works of the Cambria Iron Company was damaged to the extent of \$15,000 last week.

—At Danville, Montour county, the Danville Knitting Mills Company will erect a new three-story brick building supplied with modern machinery.

—At Bradford, McKean county, it is stated that the city has under consideration the construction of a reservoir with a capacity of 10,000,000 gallons.

—At Pottsville, Montgomery county, Preston J. Moore, of Fifteenth and Poplar streets, Philadelphia, will erect a row of dwelling during the present season.

—At Darby, Delaware county, the North Mount Moriah Cemetery property at Upper Darby, containing about seventy acres, has been sold to Joseph L. Carpenter.

—At Punxsutawney, Jefferson county, at a special election held March 29th, it was decided to increase the bonded indebtedness \$24,000 to pave the principal streets.

—At Wilkesbarre, Luzerne county, the grand jury has recommended the construction of two small bridges. M. L. Dreisbach is county clerk, and can give information.

—At Pottsville, Bucks county, Carey B. Nace has been awarded the contract for the erection of an electric light plant for Edinger & Co. It will be 50 x 75 feet in dimensions.

—At Williamsport, Lycoming county, it is stated that the county commissioners have decided to construct two bridges, one in Loysock and the other in Cogan House township.

—At Llanerch, Delaware county, the contract for the erection of the new Methodist Episcopal church has been awarded to C. J. Urban, of Ridley Park, Pa. Work was begun Monday.

—At Grafton, Huntingdon county, the congregation of the Methodist Episcopal Society will erect a new church. It will be of stone and handsomely finished. No plans have been selected.

—At York, York county, it has been recommended by Mayor Brant that a stone dyke be constructed for Codorus creek, to cost \$20,000, purer drinking water, a new sewerage system and a new city hall.

—At Coopersburg, Lehigh county, plans have been prepared for a two-story brick building, 85 x 60 feet, which will be fitted up for store purposes, and will also contain a large hall for town purposes on the second floor.

—At Beaver, Beaver county, on April 80, 1898, an election will be held to vote on the question of increasing the borough indebtedness \$28,000, the money to be used in the construction of sewers and a water works plant.

—At Colwyn, Delaware county, Mrs. Rebecca Davis will erect two buff brick dwellings on Third street below Walnut street, from plans prepared by William D. Yarnall. Fifteen dwellings will be erected at Front and Chestnut streets by John T. Walf.

—At Shenandoah, Schuylkill county, President of Council, Mr. McGuire, has recommended that a committee be appointed to secure money for the construction of a reservoir, and to make other improvements to the water works at a cost of about \$20,000.

—At Scranton, Lackawanna county, the ordinance providing for the construction of the system of sewers in the Nineteenth district has been approved by the mayor, but work cannot begin until the question of increasing the city's debt has been submitted to the people. Joseph P. Phillips is city engineer.

—At Ridley Park, Delaware county, the handsome dwelling of J. C. Bartlett, of the North American Insurance Company, of Philadelphia,

was destroyed by fire last week. The structure was valued at about \$5000. All the contents were destroyed, including considerable handsome furniture and a library valued at about \$4000.

—At Reading, Berks county, Francis Schibe will erect eight two-story brick dwellings on the north side of Robeson street, between Eleventh and Locust streets. They will be well finished and will be provided with all modern improvements. —L. H. Poehl has been awarded the contract for the improvements to the Reading library.

—At Allentown, Lehigh county, Levi Wieder has begun work on eight brick dwellings on Madison street. —Plans have been prepared for a new horse exhibit building to be erected on the fair grounds. It will be 320 feet long, 34 feet wide and 19 feet high, with a tower 20 feet high at each end. It will contain 80 box and 32 ordinary stalls.

—At Shamokin, Northumberland county, it is said that an agreement has been made to erect a four-story brick silk mill for the Vega Silk Company, of Paterson, N. J. It will be equipped with steam power, electric lights, etc. A plant of 200 modern silk looms will be installed, with machinery for operating them. The estimated cost is nearly \$70,000, and the structure is to be finished by the middle of July.

—At Sellersville, Bucks county, work will soon begin on an addition to the present school building from plans prepared by Oscar A. Martin, of Doylestown, Pa. The plans, beside the addition, call for an entire remodelling of the present building. New heating arrangements will be introduced, either hot air or steam, and all modern conveniences and improvements will be provided. The estimated cost is \$5000. —There is some talk of the erection of an electric plant for the town.

—At Reading, Berks county, at a recent meeting of Council a joint committee from Select and Common Council was appointed as a filtration committee. —The following paving ordinance was presented and referred to the board of public works and highways: to pave with asphalt Perkiomen avenue from Thirteenth to Sixteenth street; Fifth, from Pine to Canal; Bigamian, from Canal to Sixth and Eighth, from Penn to Chestnut; Sixth, from Penn to Spruce; Third, from Penn to Franklin; Washington, between Fourth and Seventh; Fifth, between Penn and Walnut; also Fourth and Sixth streets, between Penn and Walnut; Ninth and Tenth streets, between Penn and Washington; Windsor, from Eleventh to Princeton road; Douglass, from Eighth to Twelfth; Oley, from Ninth to Thirteenth, and Greenwich street, from Eleventh to Thirteenth, with vitrified brick. The following streets will be paved with asphalt or brick: North Ninth, from Marion to Penn street; South Eighth to Chestnut; Bigamian, from Third to Fifth street, Penn to Walnut; Schuylkill avenue, front to Lebanon Valley bridge, and South Seventh street, from Spruce to Laurel.

—A number of alterations will be made to the Public Library. —Frank P. Lauer has bought the hotel at the corner of Ninth and Oley streets from Chief of Police Albrecht for \$15,000. —Kemmeret & Zechman, real estate agents, have sold two lots of ground, 128 and 138 feet, North Eighth street, to Lambert A. Rohr.

—The Carpenter Steel Company will erect a one-story iron building, 48 x 64 feet, on River road, between Exeter and Bern street. The contract has been awarded to Josiah S. Koch.

—President Stout of Select Council has named Amos H. Beard, John H. Close and Matthew Rhoads as a filtration committee.

—At a recent meeting of the repair and janitors committee, plans were inspected for the proposed enlargement of the boys' high school. Plans were submitted by Muhlenberg Bros., A. F. Smith and Fred Barrows. The estimated cost ranges from \$21,000 to \$60,000. No plans were selected, but the matter will be decided at a meeting to be held

1623-1635 N. Fifth Street.

Wednesday, April 18.h.—An appropriation will be asked of \$45,000 for repairs to school buildings throughout the city.—At the last meeting of the Board of Public Works, City Engineer Hoff was instructed to advertise for bids for general supplies and hill stone for paving.

—At Pittsburg, the Public Safety Committee has instructed Director J. R. Murphy to advertise for bids for a morgue in Allegheny.—Work will begin at once on the addition to the Thirtieth ward school building, for which plans have been prepared by C. M. Bartberger.

—J. T. Osterling, Telephone Building, has prepared plans for a school building to be erected at Carnegie, Pa. It will be of brick,

will contain eight well furnished rooms, and will be supplied with all modern conveniences. The same architect is making plans for a large three-story building which will be fitted up as a store and for amusement purposes. The owner is Allegheny Council, 112, Junior O. U. A. M.—Louis Schulenberg and Charles A. Bishop will be at the head of a riding school for which a building will be erected on a site at Centre avenue and Graham street, East End. The proposed structure will be of iron and brick, handsomely finished and thoroughly equipped for the intended purpose. The estimated cost is about \$20,000.—Shaw & Bailey, 25 Sixth avenue, have prepared plans for a church to be erected on Sycamore street,

Mount Washington. It will be of veneered brick, with trimmings of stone, and will contain a handsomely finished and furnished auditorium with a seating capacity of seven hundred, connected with a Sunday school room seating three hundred. A parsonage will also be erected. The cost of all will be about \$20,000. Rev. John H. Norris is the pastor.—Work will begin at once on the building to be erected for the Union Trust Company on Fourth avenue, for which plans have been prepared by Daniel H. Burnham, of Chicago, Ills. The structure will be of granite, will be one story high, handsomely finished and furnished, and will cost \$150,000.—Ground will soon be broken for a new church for Crafton

Methodist Episcopal congregation, of which Rev. G. Chapman Jones is the pastor. The estimated cost is about \$15,000. It will be of brick and stone, and supplied with modern conveniences.—Mowbray & Uffinger, of New York City, have prepared plans for the new building to be erected by the City Deposit Bank at Penn and Centre avenues. It will be of granite, will be handsomely finished and will cost about \$75,000.—H. A. France, 1812 Rebecca street, has begun work on seven two-story and attic brick dwellings on St. Clair street, from 605 to 619. The cost of the operation is about \$31,000.—George Nickel, 4406 Calvin street, is the contractor for a three-story brick and stone building on Thirty-seventh street, for St. Augustine congregation. It will cost cost \$12,000.—Work was begun by John H. Trimble & Bro., Knox and Pine streets, Allegheny, on a three-story brick building to be erected on Fifth avenue, near Wood street, for C. L. Magee, Times Building. The estimated cost is \$23,000. F. J. Osterling, architect.—A. E. Gregg, 331 Denniston avenue, is the contractor for the erection of five attractive brick dwellings on Lang avenue for W. G. Markell, Penn and Frankstown avenues. The estimated cost is about \$15,000.—H. J. Orth, 341 Sixth avenue, has begun work on a handsome two-story brick dwelling to be erected in More Place. It will be well finished, provided with all modern conveniences and improvements, and will cost about \$3000.

#### Through New Jersey.

At Ocean City, Cape May county, it is reported that bonds will be issued to the amount of \$25,000, for putting in a water plant and a system of sewerage.

At Camden, the bridge committee of the Camden Board of Freeholders has authorized an engineer to prepare plans for a new bridge across Cooper's Creek at State street.

At Plainfield, Union county, the borough council is considering the question of paving Somerset street, North Plainfield, with vitrified brick. The estimated cost is \$30,000.

At Bloomfield, Essex county, a special election will probably be held in a short time to vote on the question of issuing bonds to be used in the construction of roads and the erection of a public building.

At Oradell, Bergen county, the Delford Electric Light Company has been incorporated with a capital of \$10,000. The incorporators are Kimball C. Atwood and John B. Lozier, of Oradell, N. J., and Hugh G. Grant, of New York.

At Jersey City, Hudson county, bonds to the amount of \$14,153 have been sold, to be used in building the new branch of the Hudson Boulevard. It is said that the East Jersey Water Company will construct a reservoir for distributing purposes at Great Notch.

At Merchantville, Camden county, the question is under consideration of issuing bonds to the amount of \$35,000, the proceeds to be used in the construction of stone roads through the town. The Borough Council will pass upon the question at a meeting to be held Tuesday evening, April 19th.

At Princeton, a new structure to be called the Little Dormitory will be erected from a fund given by Henry Stafford Little, of Trenton, N. J. The amount, which is \$100,000, will be used in the erection of the building, and the annual income from the rent of the rooms will be used for paying professors' salaries. Mr. Little is an alumnus of 1884.

#### Through Delaware.

At Delaware City, New Castle county, last week fire destroyed the handsome dwelling and barn on the Anthony Reybold farm, owned by H. P. Scott. The farm is near Delaware City. The loss on the house is

about \$5000, and on the barn about \$10,000. Mr. Scott is a banker of Wilmington, Delaware.

At Wilmington, at a recent meeting of City Council, Peter J. Ford asked that a sewer be constructed in Scott street, between Fourth and Fifth streets. The petition was referred to Engineer Hutton for an estimate of the cost.—It is reported that the Edge Moor Bridge works, of Wilmington, have been awarded the contract for the construction of a highway bridge over the tracks of the Pennsylvania Railroad at Northeast, Maryland.

#### Through Maryland.

At Annapolis, the amendment to the naval appropriation, appropriating \$500,000 for immediate improvements to the Naval Academy, has been adopted by the House.—The Finance Committee has reported favorably a bill to appropriate \$10,000 toward the building of a model high road between Annapolis and Baltimore.

At Boonsboro, Washington county, a contract has been awarded to the Boonsboro Water Company represented by H. G. Frederick, of Millersburg, Pa., to supply Boonsboro with water for a period of ten years. The company propose to build a pipe line from Monument Springs, on South Mountain, to carry the water to Short Hill, where a reservoir will be constructed.

At the recent session of the Maryland Legislature, authority was given for Takoma Park to issue bonds to the extent of \$40,000, to be used to provide a water supply, a sewer system and an electric light system.

At Rockville, Montgomery county, the Legislature of Maryland has passed the bill authorizing an issue of bonds to the amount of \$35,000, the proceeds to be used in macadamizing the old Rockville pike. The county is liable for three-fifths of the total loan, and Bethesda and Rockville for the remainder. The new road will extend from the District line, at the junction of the Glen Echo and the Georgetown & Tenleytown railroads, above Tenleytown, to Rockville, a distance of about ten miles. Arrangements will be made at once for placing the bonds, in order that work may begin as soon as possible.

At Baltimore, W. T. Litz will erect nine two-story brick dwellings on the west side of Carey street between Gold and Prestman streets.—A large operation has begun consisting of the erection of thirty-five two-story dwellings on the east and west side of Castle street, between Eager and Chase streets. The owner is August Weber.—N. Kohleman will erect a three-story brick dwelling at 705 North Gay street. It will be well finished and provided with modern conveniences and improvements.—Charles J. Meister will erect eight three-story brick dwellings on the east side of Pennsylvania avenue, between Retreat and Clifton streets. They will be well finished and supplied with all modern conveniences and improvements.—Daniel C. Gilman, President of Johns Hopkins' University, has bought, through M. J. Brandt, the property on the west side of Park avenue adjoining the Convent of the Visitation, from E. Austin Jenkins, for \$27,500. The property has a frontage of seventy-three feet, and a depth of one hundred and eighty-four feet, and is improved by a stone and brick colonial dwelling. Wyatt & Nolting have prepared plans for extensive improvements to the property.

Fleider C. Stingluff has bought the four-story dwelling, No. 16 W. Madison street, from Alonzo L. Thompson, for \$20,500, and will remodel the same.—Ex-Judge William A. Fisher has bought the property No. 8 West Mt. Vernon place for \$57,500, which is improved by a double brick dwelling, which will be remodeled.—Mr. William S. Mars-

ton, principal of the University School for Boys, has bought of Elizabeth Oliver, for \$15,000, property on the east side of Cathedral street, between Biddle and Preston streets. The building is 60 feet front and runs back to Maryland avenue, with same on that avenue. The ground will be improved by the erection of a school building on Maryland avenue and a handsome gymnasium on Cathedral street, with a play ground between the two structures. Work will begin as soon as possible.—Baldwin & Pennington have finished plans for the new office building to be erected at Roland Park for the Consolidated Railway Company, and work on the structure will begin at once.—It is stated that a bill has been passed by the House to erect a new armory for the Fifth Regiment to cost \$300,000.

#### Old Spain's Weakness

Probably but few people realize the inherent weakness of the kingdom across the sea which talks such great things and threatens humiliation, if not annihilation, to the American States. In view of this fact it may be interesting to know that the total population of Spain, as stated in official figures, is only 17,665,632. Many people, without looking up the matter, would say at a guess that Spain's population was 35,000,000 or 40,000,000. But it is in reality not 18,000,000. Spain has an area of 197,670 square miles. The area of France is only a few thousand square miles greater, and yet France has a population of very nearly 40,000,000. Texas has an area of 274,356 square miles. Spain could be laid out on Texas, and Texas would have 76,686 square miles left over. The States of Pennsylvania, New York, Illinois and Alabama have more population together than has Spain, and are immensely more wealthy.

These States could borrow enough money, with their whole field of commodities, men and capital behind the loan, to pay off at one coup the whole national debt of Spain. They could raise, pay and maintain a bigger army than Spain could. Their natural resources could outlast Spain's ten to one. Their steam power is infinitely greater, and as man power can always be gauged by steam power we can imagine the difference. These four States could exist if they sequestered from all the rest of the world. Spain could hardly live a day.—Exchange.

THERE have been many attempts made to accumulate data by which buildings of different classes may be estimated by the cubic foot, and the following statement by Mr. Edmund M. Wheelwright, who has so long been officially connected with the school architecture of Boston, recently published in the *Brickbuilder*, cannot fail to be valuable. He gives the following interesting figures on this class of buildings, viz.: That "the Brooklyn High School cost close to 15½ cents a cubic foot; the new Brighton High School 10½ cents, or 6.6 per cent. more. The extra thickness of the walls in the latter building, called for by the Boston Building Laws, accounted for 4½ per cent. of this increased cost, and various differences in finish for practically the rest. Mr. Wheelwright says that if the Brighton school had been built as a purely utilitarian structure of the factory type, a saving of 8 per cent., or between \$9000 and \$10,000, might have been made. He puts the cost of a first-class high school building at about 15½ cents a cubic foot." If similar statements could be obtained from the various architectural offices throughout the country, covering special buildings, given as in this case by name, they would become of the greatest value as approximate estimates of cost in contemplated operations.—Exchange.

**THE PENN MUTUAL LIFE****921-3-5 Chestnut St., Phila.****Washington, D. C.**

Senate bill 3473 to incorporate the Masonic Temple Association of the District of Columbia has been passed, the purpose and design of the corporation being the purchase of a site in the city of Washington and the erection of a Masonic Temple. Senate resolution No. 23 was passed also. This authorized the Secretary of War to prepare and submit to congress a project for the improvement of the Anacostia river and the reclamation of the flats from the line of the District of Columbia to the mouth of said river, with an estimate of the cost of the same. The bill was also passed incorporating the Washington and University Electric Railway, also the bill incorporating the Suburban Railway, of which the incorporators are Richard K. Cralle, Charles E. Creecy, John T. Mitchell and others.—Work has been begun on the foundations of the monastery which is to be erected near the Catholic University and which has been reported previously. The structure will surround an area of 200 feet square with an interior court 110 feet square. Adjoining the structure will be a chapel 140 feet square of yellow brick. There will be a cloister around the interior court of the monastery and on each floor double tiers of cells with a corridor between. The ground plan of the chapel will be a Latin cross, and these will practically be on aisles, as the space will be occupied by small chapels. In the centre will be a dome supported by arches springing from four piers. The plans have been prepared by Aristides Leonori & Co., of Rome, Italy. The constructor is John S. Lacombe.—Two brick dwellings will be erected by Benjamin W. Gay, at 23 and 25 Eighth street. They will be three stories high, of press brick, slate roof, bay windows and fine interior finish; all modern improvements will be supplied. A similar dwelling will be erected by Elizabeth Scherger, at 1739 Eleventh street, northwest.

It will be of buff brick, handsome interior finish, considerable tile work, hot water or steam heating.—Mr. W. A. Kimmel will erect three dwellings at 1802-4-6 Vermont avenue. They will be well finished and provided with modern conveniences and improvements, including steam heat.—Julius Weng has prepared plans for a cottage to be erected at Cherry Chase. It will be two stories high, of brick and frame, hardwood, interior finish, tiled bath room and vestibule, hot air heating, electric lights and all modern conveniences. The same architect has prepared plans for extensive alterations and additions to 1021 Seventh street for Frank Ruppert. The improvements will include a three story, brick and iron addition in the rear, tiled bathroom and vestibule, elevator, steam heat, etc.—The property at 627 F street, northwest, has been sold by auction for \$18,500, by Thomas Dowling & Co., auctioneers, and will be improved by the erection of a modern structure for business purposes.—John S. Lacombe, the contractor, has broken ground for the erection of a fine residence at the southwest corner of New Hampshire avenue and S street, for Mr. I. Maury Dove. The plans have been prepared by L. Norris and call for a structure of the Romanesque style of architecture of red brick, with trimmings of stone. The main entrance will have a stone arch and at the side will be a window. The walls will be eighteen inches thick. A large entrance hall will be one of the features of the interior, and from it will lead the library and drawing-room. The dining-room will be handsomely finished and will be 20 x 43 feet in dimensions. The kitchens will be in the basement as well as the heating plant, etc. There will be seven finely finished chambers on the second floor and three beautifully finished and appointed bath rooms. The servants quarters will occupy the third floor, which will be well finished and provided with all conveniences. The interior finish will be

### Wants.

At Georgetown, Tex., Layton and Raymond have prepared plans for a college building, to cost \$50,000.

At Alexandria, La., bids will be received until April 18th for the erection and completion of a hotel building. Thomas Clements, president of hotel company.

At Allegheny, Pa., bids will be received until April 18th for the permanent improvement of River road in Allegheny county. W. E. Thompson, county auditor.

At Newport News, Va., work will begin at once on the erection of a new high school to contain eighteen rooms. W. B. Barrett, clerk of board of school trustees, can give information.

At Camden, N. J., bids will be received by the Park Committee of City Council until April 19th for fitting up the mansion in Cooper Park for the purposes of a public library.

At Bayonne, N. J., bids will be received until April 19 for the construction of school house number 7 and additions to school house number 6. R. T. Hewitt, secretary board of education.

At Passaic, N. J., plans are wanted for a school building in the Dundee district, to be three stories high, and to cost about \$35,000. Sylvester J. Post, chairman of committee on new school buildings.

At Hagerstown, Md., Christian W. Lynch, President of the Hagerstown Railway Company, will receive bids until April 15th for the construction of an electric light and power plant, to cost about \$30,000.

At Clemson College, Oconee county, S. C., bids will be received until April 20th for constructing a brick building for the textile department at Clemson College. P. H. E. Sloan, secretary and treasurer.

At Amherst, O., a new school building will be erected in District No. 5, and bids for the erection of the same will be received until April 28th. Jacob Baus, clerk of Amherst township, can give additional information.

At Washington, D. C., William J. Palmer, architect, Warden Building, wants estimates for erection of ten dwellings, to be erected at Seventeenth and "D" streets, Northwest. They will be of brick and stone, and will cost \$50,000.

At Washington, D. C., office of the public printer, F. W. Palmer, bids will be received until April 14, 1898, for furnishing and erecting in the government printing office seven electric elevators. Detailed specifications and regulations may be obtained by addressing F. W. Palmer, public printer.

At Philadelphia, Pa., P. A. McLean, custodian of postoffice building, will receive proposals until May 3, 1898, for furnishing fuel, water, ice, miscellaneous supplies, washing towels, hauling ashes and sprinkling streets for the fiscal year ending June 30, 1899, or such portion of the year as may be deemed advisable.

At Wilmington, Delaware, proposals will be received at the office of the Water Department until Tuesday, April 25d, for supplying the Department with bituminous coal for one year. The bidder must name mine from which coal will be delivered, and price per ton of 2340 pounds delivered at pumping station. J. A. Bond is chief engineer.

At Doylestown, Pa., the county commissioners, John T. Poore, Jacob H. Myers and William W. O. C., will receive bids until April 25, 1898, for the stone sub-structure of a bridge over Annmorris Creek, in Falls township, on the road leading from Falkington to Morrisville. Plans for sub-structure can be seen at commissioner's office.

At Ridgewood, N. J., sealed proposals will be received by the board of village trustees until May 25, 1898, for the construction of a water plant and the furnishing of a supply of pure and wholesome water in accordance with the specifications and conditions adopted by the said board and now on file with the trustees. James Cornelius, president; H. G. Ward, village clerk.

At Easton, Md., bids will be received until May 13th, by the commissioners of Talbot and Caroline counties for a bridge over the Choptank river, of iron, and 324 feet long. Thos. R. Green, clerk of Caroline county commissioners; Charles F. Stewart, clerk Talbot

county commissioners.—It is stated that the court house will be remodeled at a cost of about \$10,000. Charles F. Stewart, county clerk, can give information.

At Heliottown, Pa., bids will be received until April 18th for the construction of a gravity system of water works. There will be required 11,000 feet of 8 and 10-inch pipe; 5,000 feet of 6-inch pipe; 8,000 feet of 4 inch pipe; 1,000,000 gallon reservoir; 30 double nozzle fire hydrants, 8, 6 and 4-inch valves. Plans may be seen and form of proposal obtained at the office of Engineer Warren F. Cressman, Sellersville, Pa., and at the office of Russell Koplin, Heliottown, Pa.

At Washington, D. C., Post Office department, James A. Gary, Postmaster General, will receive proposals until May 5, 1898, for furnishing wrapping paper, twine, letter-scales, post-marking and rating stamps, rubber stamps, cancelling ink pads, paper, rubber goods, pens, penholders, pencils, ink, mucilage, glass goods, rulers, articles of steel, rubber erasers, books, typewriter supplies and miscellaneous stationery, for fiscal year beginning July 1, 1898.

At Washington, D. C., W. A. Jones, Department of Interior, office of Indian affairs, sealed proposals will be received at No. 1802 State street, Chicago, Ill., until April 27th for furnishing beef, flour, bacon, waxes, agricultural implements, harness, hardware, medical and other supplies; also at 77-79 Wooster street, New York City, until May 17th, 1898, for coffee, sugar, tea, rice, baking powder, soap, groceries, blankets, woolen and cotton goods, notions, hats, caps, boots, shoes, crockery and school books.

The Committee on Property of the Board of Education will receive proposals at 712 Filbert street, Philadelphia, until April 15th for new chimneys at the Weccaco, Calhoun and Nebinger Schools; new heater, curbing, paving, wall, railing, at the Paxson and Mifflin Schools; also tin roof for the latter; new floors and painting at the Ogden and Spring Garden Schools; new floors at the Lynd School; rubber matting at the Adaire School; cement paving at the Haverford School; metal ceiling at the McMichael School; skylights and painting at the Gratz School; new floors, cementing cellar at the Morris School; new boilers, skylights and new floors at the Meade School. H. W. Halliwell, secretary.

At Neptune City, N. J., the street committee, John Thompson, George Brower and William Disbrow, will receive proposals until April 16, for grading and graveling the following streets in Neptune City: Garfield avenue from the turnpike to Ocean avenue; Woodland avenue from the turnpike road to Ocean avenue; Norwood avenue from Second avenue to Ocean avenue; Ocean avenue from East End avenue to the south side of Garfield avenue; First avenue from East End avenue to Garfield avenue; Second avenue from Norwood avenue to Garfield avenue; Third avenue from Woodland avenue to Garfield avenue; Fourth avenue from Woodland avenue to Garfield avenue; Fifth avenue from Woodland avenue to Sylvania avenue.

The Capitol Building Commission at Harrisburg, Pa., want proposals until Monday, April 18, for labor and materials for the construction of the new Capitol building according to the plans and specifications of Henry Ives Cobb, architect. Excavation, foundations, carpentry, masonry, steel, iron, stone, brick, etc. Plans and specifications can be seen in the Supreme Court room, Harrisburg. Check for \$15,000 must accompany each bid. Right is reserved to reject all bids. Bids can be obtained from the commissioners. Bids are limited to parties with facilities and responsible business standing. Bond for \$150,000 will be required from the successful bidder. Contract must be completed before November 15, 1898. Address Capitol Building Commission, Harrisburg, Pa.

At Lebanon, Pa., the Board of Water and Lighting Commissioners will receive proposals until May 2d for the following: For all labor required to place fifty-one fire hydrants; twelve gross tons standard water pipe, six inches; five gross tons specials; 2200 lbs. pig lead; 53 pounds hemp packing; 160 gross tons 8 in. cast iron water pipe, 45 lbs to the foot, 350 lbs. water pressure to the sq. in.; 2100 lbs. specials, 6550 lbs. pig lead, 325 lbs. hemp packing, f. o. b. Lebanon, Pa. For all the labor required to lay approximately 7,500 feet 8-in. water pipe on Walnut, Spring, Tenth, Twelfth, Weimer and N. Seventh streets; 8½ gross tons 8-in. cast iron water pipe, 45 lbs. to the foot, 350 lbs. to the sq. in.; 500 lbs. specials, 400 lbs. pig lead, 20 lbs. hemp packing, f. o. b. Lebanon, Pa. For all the labor required to lay approximately 400 feet 8 in. water pipe on Spruce and Mifflin streets. Specifications can be procured upon application at this office. The right to reject any or all bids is reserved. J. D. Kerr, 729 Cumberland street, secretary.

#### Miscellaneous.

At Rock Island, Ill., Drack & Kerns have prepared plans for a new high school to cost \$25,000.

At Cleveland, O., it is reported that a new city hall will be erected at a cost of about \$1,500,000.

At Little Falls, N. Y., at a recent election it was decided to erect a new school building to cost \$65,000.

At Burnet, Texas, a new public school building will be erected. Mr. Gus Grove, the mayor, can give information.

At Atlanta, Ga., the bids for paving Audubon avenue have been rejected, and new ones will be called for in a short time.

At Belair, Georgia, a new school house will be erected. James L. Fleming is chairman of the building committee.

At Morgantown, West Va., it is stated that \$40,000 will be raised by an issue of bonds, the proceeds to be used in street paving.

At Sycamore, Ill., there is considerable talk about the erection of a new jail. A. W. Fisk, of De Kalb, Ill., is one of the building committee.

At Mount Vernon, Mo., it is stated that a court house will be erected. The estimated cost is \$75,000. N. B. Spillman, county engineer.

At Kingston, Mo., L. G. Middaugh, of Kansas City, has prepared plans for a court house to be erected at Kingston at a cost of about \$24,000.

At Suffield, Conn., at a recent town meeting it was decided by vote to erect a library building to cost about \$25,000. Sidney A. Kent can give information.

At St. Louis, Mo., it is stated that plans have been prepared by H. E. Roach & Sons, for a new Masonic Temple to be erected at a cost of about \$200,000.

At Atlanta, Ga., the Coca Cola company will erect a three story brick and stone building for manufacturing purposes. A ten-horse power boiler will be installed.

At Jacksonville, Ill., it is stated that an addition will be erected to the present jail or a new jail constructed. Frank J. Heine, county clerk, can give information.

At Eaton, O., the county commissioners have decided to submit to the vote of the people the question of erecting a new court house. The estimated cost is \$125,000.

At Decatur, Ga., the contract for the erection of the new court house has been awarded to R. P. Williams, of Anderson, S. C., for \$33,945. W. M. Raysdale, county ordinary.

At Lisbon, O., the grand jury of Columbiana county has recommended that the

county commissioners appropriate \$30,000 with which to erect a new jail and sheriff's residence.

At Steubenville, Ohio, the congregation of the Christian Church will erect a new edifice from plans prepared by Joseph Leiner of Wheeling, West Virginia. The estimated cost is about \$20,000.

At Bridgeport, Conn., a report has been submitted by the committee appointed by Mayor Taylor to consider the question of enlarging City Hall, recommending the erection of a new building to cost about \$50,000.

At Brooklyn, N. Y., it is reported that the congregation of St. Mark's Episcopal Society, at South Fifth street and Bedford avenue, has decided to erect a new edifice to cost about \$50,000. Rev. S. M. Haskins is the pastor in charge.

At Alexandria, Va., the supervisors are said to have awarded the contract for the plans for the Alexandria county court house at Fort Meyer Heights to A. Goenner, of Washington, D. C. The estimated cost is \$19,850.

At New York, the Morningside Baptist congregation, at 246 West 116th street, is said to have under consideration the erection of a new church on a site not yet selected. Rev. David A. McMurray, 442 Manhattan avenue, is pastor.—Howells & Stokes, 47 Cedar street, have made plans for two five-story model tenements, 50 x 95 feet, for the City and Suburban Homes Company, 251 Fourth avenue. No site has yet been selected.

Preliminary plans have been approved by the board of estimates and apportionment for the bridge over the Bronx river, at Eighth avenue, between Williams Bridge and Woodlawn. Commissioner Moore, One Hundred and Seventy-seventh street and Third avenue, can give additional information.—The committee having in charge the selection of plans for the new building to be erected by the Mount Sinai Hospital, on Fifth avenue, between One Hundred and One Hundred and First streets, has decided to have competitive plans. The committee consists of Isaac Stern, 38 West Twenty-third street; Max Nathan, 92 Liberty street, and Edward Oppenheimer, 206 Broadway.—Oscar Lowenson, 39 Cortlandt street, is preparing plans for a proposed new factory town in which a number of concerns are interested. The proposed town will contain a factory and several hundred small dwellings, steam and electric power plants, sewerage systems, etc. No site has yet been selected, but a suburb of New York is favored.—Ingle & Almerall, 874 Broadway, have prepared plans for the new church to be erected for the Long Island City Catholic congregation, of which Rev. Thomas T. McGronen is the pastor. It will be of brick, stone, slate and terra cotta, and will cost \$30,000.

#### Wants.

(Too Late for Classification)

At New York City bids will be received until April 21st for furnishing and laying water mains in Fordham road, across Harlem river sloop canal, and in 209th and Isham streets; for furnishing stop cocks, hydrants, wooden hydrant boxes, cast iron stop cock boxes and covers and manhole heads, cast iron water pipe, branch pipes and special castings. William Dalton, commissioner, water supply.

At Albany, N. Y., bids will be received until April 19th, for furnishing and erecting in place iron galleries, stairways, railings, at the lower pumping station. Address George I. Bailey, superintendent of water works.

(Too Late for Classification)  
Through Pennsylvania.

At Pittsburgh, W. Sims, Monongahela Bank Building, has made plans for an attractive two-story brick dwelling to be erected at Aspinwall, Pa., for F. W. Patterson.—F. R. Sauer, Hamilton Building, is preparing plans for alterations to the hotel building of Mrs. Sarah Carson, Diamond street, Allegheny.—Plans have been finished by C. M. Bartberger, Westinghouse Building, for St. Luke's parish building.—E. M. Butz Co. will soon place bids for a school building to be erected at Charleroi, Pa. The same architects are making plans for a four-story building to be finished for apartment purposes. It will be erected in Allegheny and will cost about \$16,000.—Four three-story brick stores and dwellings will be erected by James Vernon Anderson at a cost of \$16,000. Louis J. Univerz, 416 Chislett street, is the contractor.—A handsome dwelling will be erected on Forbes street for A. W. Shaw. The contractor is W. B. Bennett, of Rural avenue. The estimated cost is \$15,000.—L. Benz & Bros., Thirteenth street, South Side, have the contract for the erection of a handsome dwelling for W. S. Kuhn, of Morewood avenue. It will be two stories and attic, of brick and stone, finely finished throughout and provided with all modern conveniences and improvements. It will cost about \$14,000.

## Judgments

## PHILADELPHIA.

## ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term, and S, for September Term.

S. F.—Scite Facias, to revive judgment.

A star (\*) denotes judgment confessed or bond and warrant conditioned.

## One of Our Offers

If you are a manufacturer and contemplate the erection of a new factory, or are thinking of engaging in any business that will require a tract of ground, either in large or small quantities, I have it; and if you will improve in such a manner as to require the employment of a number of workmen, I may be able to let you have the ground that I offer at a price that the burden of paying won't trouble you. If you are in the market, I would like to have an interview with you.

Call or address,

## The Status of Mechanics' Liens for Alterations, Repairs and Additions.

[Republished by request.]

Before entering upon the subject to be treated, a few words by way of warning may not be amiss.

The writer could never understand why the mechanic or material man should trust his work, labor or materials to every so-called contractor or builder who undertakes to buy a lot and erect a house or houses thereon. I suppose they labor under the mistaken notion that their hard-earned money, their work and material, are safe because the law gives them the right to file a lien for work done and material furnished.

How deceiving this has been is evident to anyone who has followed the failures which strew the course of many so-called builders. Some few years back they united in themselves the character of owner of the land and builder of the houses, and plastered land and houses with incumbrances, leaving nothing for the material man and mechanic but the shell. We are not free from the same thing to-day. Although an act in relation to advance money mortgages stopped for a time this robbery, it succeeded only in changing the character of the prior incumbrance from a mortgage to a ground rent. These people operated after this fashion: having purchased the ground and paid no cash, created mortgages (now ground rents). Sometimes a first and second mortgage was placed so that the material man and the mechanic who put their material, time and labor into the operation, found that their lien was of no account, as the property, ground and house was worth absolutely nothing after the payment of the incumbrances which had been purposely placed thereon to cheat them of their substance. And yet, to-day, after the experience of years, we find the mechanic and material men trusting this class of people and the so-called security of a lien, when there is absolutely no security.

As stated in previous article, the Act of June 16, 1836, was really the first general act passed in Pennsylvania providing for liens, and the method of filing them. It, however, simply provided that a lien could be filed for work done or material furnished in or about the erection and construction of a house or building. Under this act a lien could not be filed for alterations or repairs, as such, but when a building was remodeled in such a way that its exterior was wholly changed, even if no new erection or construction was made there, in order to save the mechanic and material man from loss the courts stretched a point and construed the act to mean "that if the building was so altered and improved exteriorly as to have the appearance of a new building, such alterations and repairs amounted to making the old building a new building, and a lien might be filed;" but they drew the line, and said: "If the whole interior was altered, no lien could be filed."

It was apparent that the passage of a special act was necessary, in order to protect the mechanic or material man who furnished labor or material for the alterations, repairs or additions to a building, where no such radical change in its outside appearance had taken place, and

hence was brought into existence the Act of May 1, 1861, which was the first statute in Pennsylvania to authorize a mechanics' lien (exclusively upon buildings) for repairs. It was extended to the counties of Huntingdon, Allegheny, Lancaster, Montgomery, Lawrence, Lycoming, Erie, Warren, Venango, Perry, Bucks, Carbon, Monroe, Lehigh, Union, Butler, Lebanon, Centre, Susquehanna, Wayne, York, Dauphin, Blair, Armstrong, Cumberland, Franklin, Northampton and Philadelphia, by Act of August 1, 1868. This Act provided that the Act of June 16, 1836, together with its supplements, shall thereafter be held and taken to apply to debts contracted for work done or materials furnished for or about the repair, alteration of, or addition to, any house or other building, so that liens may thereafter be had for the payment of all debts contracted for work done or materials furnished for or about the repair, alteration of, or addition to, any house or other building, in the same manner as liens were then had for debts contracted for work done or materials found for or about the erection or construction of any house or other building. This special Act was confined, at the time of its passage, to the counties of Chester, Delaware and Berks, and extended, as hereinbefore mentioned, to the county of Philadelphia by Act of August 1, 1868. The Act of August 1, 1868, which really gave to mechanics and material men the benefit of the Act of 1861, has a proviso that nothing in the act shall render property liable to liens for repairs, alterations or additions where the same has been done by any lessee or tenant, without the written consent of the owner or owners, or their authorized agent, a copy of which written consent must be filed with the claim or statement, and this Act should not apply where such repairs, alterations or additions are of a less amount than \$50; and another important proviso, that nothing in the act shall give a lien or render property liable for repairs, alterations or additions, except from the time of filing; that the claim or statement must be filed within six months after the work is finished or materials furnished. Another important provision was, that no property should be rendered liable which shall have been conveyed before any such claim shall have been filed. The third section of the last-mentioned act provided this act shall only apply to Philadelphia.

These were only local repair statutes, and, while they were extended from time to time to many of the counties of the State, they did not embrace the whole territory. It was to extend the scope of repair statutes to all the counties of Pennsylvania that the Act of 1887 \*\*\*\*\* was passed; but, although the benefits of the repair statutes were extended to all the counties not embraced, it left intact the repair statute, above quoted, applicable only to Philadelphia.

In order now to understand what must be done to give a valid lien in Philadelphia County, the following principles, taken from the Acts, should be complied with:

I. That a lien may be had for the payment of all debts contracted for work done or material furnished for, in, or about the repairs, alteration or addition to any house or building, in the same manner as liens are now had for work or material furnished for, in, or about the erection or construction of any house or building.

II. The debt in Philadelphia shall not be less than \$50 in other parts of the State, \$20.

III. That to render the property liable to lien for repairs, alterations or additions, where the same are

ordered by a lessee or tenant, the written consent of the owner, or reputed owner, or his or her duly authorized agent, must be obtained, and a copy of such written consent must be filed with the claim.

IV. In order to entitle anyone to bind the property to lien for such alteration or repairs, he shall give notice to the owner, or reputed owner, of the property, or his or her duly authorized agent, at the time of, furnishing the material or performing the work to the building, of his intention to file a lien.

V. If a sale and conveyance is made of the property before a lien is filed, the purchaser, or property in the hands of the purchaser, is not bound, hence it is best to file your lien at once.

To illustrate more particularly the principles heretofore set out, a few of the expressions of opinions of the courts will be to advantage. For instance: It has been decided that if a lien is filed for the work is for repairs or construction, whereas in reality the work is for alterations, such a lien is invalid. Work was done upon two adjoining four-story buildings, occupied during the progress of the improvement as a restaurant. The first store front was changed, but the other fronts remained unchanged, although the interior was remodeled. The lien was held bad because it should have been filed for alterations and repairs, and not for a new construction.

Anyone, it will be noticed, who does work must give notice to the owner; therefore, the sub-contractor, when the goods are furnished, must give notice to the owner or his agent, and his lien, when filed, must aver notice was given, or it will be stricken off.

The lien for alteration and repairs will also be stricken off as defective if it does not aver on its face that notice was given to the owner at the time of furnishing the labor or material, not at the completion of the work or about the time of the claimant's intention to file a lien.

JOSEPH A. GORMAN,

Attorney-at-Law.

313-14-15 Stephen Girard Building.

## Building and Real Estate Notes.

Another municipal use of concrete is being satisfactorily introduced, for the building of sewers. It appears that Reading, Pa., was the first city to adopt the method of construction as a substitute for the ordinary brick system, and with results that have proved its value. Not only is the adoption of such a method found to be about 33 per cent. cheaper, but the smooth, even surface of such a kind of wall furnishes no opportunity for the lodgment of sediment, or for the erosion and gradual destruction of the body of the sewer that is sure to develop, in course of time, from defective bricks or joints. Recently a committee of Chicago officials visited Reading for the purpose of thoroughly inspecting the sewers in question, with the result as reported—the plan presenting such adequate points of advantage that hereafter all sewer construction in Chicago will call for bids for brick and also for concrete construction equally.

#### Architect Notes.

Milligan & Weber, architects, 520 Walnut street, have given the contract to erect the new Church of the Nativity, at Fox Chase, to Joseph Ashby, contractor, of that place. Fully noted in a previous issue of this journal.

Guy King, architect, 431 Walnut street, has made plans for a house for H. G. Hillier, at Fernwood, Pa. It will be of brick and stucco work and have hot air heat, electric work, tiling, plumbing and general comforts on interior.

Lansing C. Holden, architect, No. 3 Union Square, New York City, is making plans for a fine residence to be erected at Scranton, Pa., for F. W. Gunster. It is to cost about \$10,000, and fitted with every comfort and convenience.

Dr. L. J. Gordon, president of the Board of Trustees of the Jersey City Library, will receive competitive plans until April 30th for a new library building, to be erected corner of Jersey avenue and Montgomery streets, to cost about \$120,000.

The contract for the school building to be erected at Swarthmore, Pa., for the Swarthmore Grammar School, has been awarded by Architect Morgan Bunting, Grozer Building, to Contractor W. S. North, of Glenolden, Pa. It will be built of stone and brick, two stories and basement. Details formerly given.

The Franklin Savings Bank Building, to be built at corner Forty-second street and Eighth avenue, New York, and which is to cost \$200,000, it is stated, will be built from plans to be made by Architects York & Sawyer, 96 Fifth avenue. Mr. Archibald Turner is president of the bank now on the premises.

E. F. Durang, architect, 1200 Chestnut street, is making plans for a parish school, to be erected at Tenth and Christian streets, for the St. Paul's Roman Catholic Church, Rev.

M. C. Donovan in charge. It will be iron, brick and stone, three stories high, and contain all modern improvements for school purposes.

Rowland W. Boyle, architect, 1203 Chestnut street, has on boards plans for alteration and addition to a residence at Twelfth and Master streets, for local owners. It will be of stone and brick, three stories high, 15 x 41 feet, hot air heat, plumbing, tiling, hard woods on interior and plate glass, with all modern comforts.

L. V. Boyd, architect, Harrison Building, is making plans for a residence to be erected at Ridgeley, Pa., for Mr. A. G. Saulsbury, of that place. It is to be constructed of stone and frame, three stories high, with hard wood interior finish and all modern conveniences. Owing to the early condition of matters, it is impossible to give details at present.

Bolton & Savage, architects, Witherspoon Building, are working on preliminary plans for a church building to be erected in this city. The exact location and name cannot be given at present. It will be of stone, one story and basement, with choir gallery and loft, and will have steam heating, electric lighting, plumbing, etc. Details later on.

Addison Hutton, architect, 400 Chestnut street, has made plans for a morocco factory, to be erected at southeast corner Eighth and Kimball streets, for Henry F. Mitchell. It will be 23 x 59 feet, 2 stories high, and built of brick and slow burning construction. Chas. W. J. Platt, 1018 Academy street, has the contract, and work is to be started at once.

The specifications for the new church to be erected at Forty-seventh street and Drexel boulevard, Chicago, Ill., for the Kenwood Presbyterian congregation, and for which Architect Robt. Rae, Jr., 225 La Salle street, Chicago, made plans, include pressed brick, terra cotta trimmings, stained glass windows, slate roof and steam heat; the cost will be \$50,000.

The Octagon House, corner Eighteenth street and New York avenue, Washington, D. C., has been leased by the American Institute of Architects for national headquarters. The roll now contains 460 members, and New York City is the headquarters at present. Frank Miles Day and Nelson Eyre, of Philadelphia, are members of the committee on selection.

Jeremiah O'Rourke & Son, of Clinton street, Newark, N. J., are at work on plans for a twelve-story apartment house at southeast corner Forty-fifth street and Fifth avenue, for the Matthew Byrne estate, 203 Lexington avenue, New York. Specifications call for Indiana lime stone, and light pressed brick front, electric elevators and lights, telephones, etc.; will cost \$750,000.

Architect Freeman P. Reitmeyer, Masonic Temple, Williamsport, Pa., has made plans for a third story addition and an annex, 43 x 35 feet, to the high school building at Renovo, Pa. There will be a heating and ventilating system, closets for boys and girls in the basement, iron beams, fire escapes, sanitary plumbing, slate roof. The building will be of brick; estimates not made yet.

Harry Peale, architect, Harrison Building, Fifteenth and Market streets, has on boards plans for alteration and addition to the residence of Wilson Seneman, of Atlantic City, N. J. The work will be brick and frame, electric work, hot air heating, plumbing, tin roof, and interior have general conveniences, etc.

Hales & Ballinger, architects, southwest corner Twelfth and Chestnut streets, have on boards plans for four additional buildings for the Mayfield Woolen Mills, at Mayfield, Ky. These consist of a two-story brick mill, 42 x 63 feet; also a warehouse, 42 x 120 feet; a boiler house, 25 x 38 feet; a picker house, 30 x 50 feet, and a two-story manufactory, all to be supplied from a present plant by steam power and heat, electric work and a new boiler and woolen machinery will be added.

As early as March 16, 1898, appeared a full description of the contemplated "Singerly" apartment house, to be erected by the Pennsylvania Construction Company, after plans by Harry E. Creiger, architect, whose offices are at 1107 Dearborn street, Chicago, Ill., and 291 Clarendon street, Boston, Mass. By reference to our issue of the above date all information concerning the construction, material, etc., may be found. The location of the structure will be on the northwest corner of Broad and Jefferson streets, and it is likely sub-estimates will be invited at an early day.

The Chicago Board of Education will erect a large school building at Twenty-fourth street and Southwest Boulevard, that city. It will contain twenty-four class rooms, and the plans will be by Architect Normand S. Patton, 1117 Schiller Building, same place, who is also at work on plans for a school building to contain twenty-two class rooms, to be located at Seventeenth and Ladin streets; also addition to the O'Toole school building, at Forty-eighth and Bishop streets. Specifications will include pressed brick, stone and terra cotta, slate roof, steam heat, electric lights. The new school houses will cost \$80,000 each, while the addition to the O'Toole school will cost about \$50,000.

Stearns & Castor, architects, Stephen Girard Building, have on boards plans for a residence for Mrs. Caroline Coward, to be erected near Tacony. It will be of stone and brick, three stories high, slate roof, porches front and side, electric work, steam heat, ranges and all modern comforts. Also drawings for a pair of houses for John Servous, Jr., to be erected at Wissinoming, to be of brick, three stories high, slate roof, hot air heat and best of interior work. Also plans for a house for W. F. Taubel, at Riverside, N. J. This building will be of frame and shingle work, slate roof, interior will have tile work, hot water heat, electric work and general comforts; it will contain fifteen rooms, and finely fitted throughout. The plans for the Allegheny Baptist church will be placed for estimate during the current week by the above named architects. Also on boards plans for a fine residence to be erected at Williamsport, Pa.; name of owner withheld for the present. To be stone and shingle work, porches on exterior, and the interior to contain every comfort and modern convenience, etc.

## TRUSTS. TITLES. DEPOSITS.

# THE PLANT OF THE LAND TITLE AND TRUST COMPANY, 608 Chestnut Street,

Covers every foot of ground in Philadelphia, and is the only Plant containing an abstract of every Deed, Mortgage, and Sheriff's Sale of record in Philadelphia since 1682 located against each property described.

This Plant necessarily gives great additional protection to purchasers and mortgagees taking this Company's policy of Title Insurance, apart from the security of its One Million Dollars full paid capital.

## Muresco

Is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effects of kalsomine, without the flashing and with none of its disadvantages. It does not rub off against the clothing nor will it crack or peel. It kills suction and gives a smooth, even coat over an old plastered wall that has been patched. It is made in fifteen artistic colors and white. A color card and full information about MURESCO sent for the asking.

**BENJAMIN MOORE & CO.,**  
256 Water St. Brooklyn, New York.

Architect Edwin C. Jefferis, 824 Jackson street, Wilmington, Del., has plans ready for addition to school building No. 17, for which the board of education wants proposals until April 25th next.

At Atlantic City, the plans of Architects Leon H. Tempest & Son, 31 Plane Street, Rochester, N. Y., have been accepted for the rebuilding of the Academy of Music; the cost will be about \$40,000.

W. L. Price, architect, 731 Walnut street, has made plans for a gardener's house for Mr. H. Hessenbruch, of Merion, Pa. To be of frame, two stories high, and modern conveniences. Estimates being made on the work.

### Building and Real Estate Notes

The Real Estate Title and Trust Company has declared a dividend of  $\frac{2}{3}$  per cent., payable May 2.

The Land Title and Trust Company announces a semi-annual dividend of \$2.50 per share, payable May 2.

S. B. McDowell, contractor, will add fourth and fifth stories to the storehouse of J. B. Rex, on American street above York street.

William W. Wells is to build twenty-one two-story brick dwellings, each 15 x 35 feet, on the northwest side of 64 $\frac{1}{2}$  street, on the west of Woodland avenue.

Geo. C. Dietrich, contractor, will build a factory for making barrels at Swanson & McKean streets, for C. H. Koch, owner. It will be of brick, 101 x 180 feet, one story.

It is reported that Brown's University, New York, will present a new athletic field to its college athletic association, including a new grandstand (removable), to cost \$10,000.

John Dunn will build thirty-two three-story Pompeian brick and porch-front dwellings, each 16 x 60 feet, on the west side of Fifty-second street between Race and Vine streets.

Geo. W. Stewart, contractor, 230 Diamond street, has the contract to place two additional stories on the factory of North Bros., at American street and Lehigh avenue, to cost about \$12,000.

D. C. Murtha will at once erect ten new dwellings, 16 x 42 feet each, south side of Martin street, east of Ridge avenue. These are to be fancy brick front and modern conveniences on interior.

A chemical laboratory is to be the gift of Mr. Nathan Snellenburg, merchant, of this city, to the new National Farm School at Doylestown, Pa., and work is to be started at once upon the building.

Charles J. W. Platt, contractor, will at once start erecting a two-story factory for Henry T. Mitchell, at southeast corner of Eighth and Kimball streets. It will be 23 x 119 feet, and cost about \$6200.

W. R. Dougherty, contractor, has the contract to build the stable for Dr. DeCosta, near Villa Nova. The plans were by Cope & Stewardson, architects, and were fully noted in a previous issue of this journal.

John Loughran, the well known builder, will erect twelve dwellings, brick, with brown stone fronts, on east side of Tenth street, above Clearfield. These are to contain all modern improvements on the interior.

Patrick McShane, contractor, has begun work on the St. Columbia R. C. school house and parish building. It will be of Port Deposit stone, and has been fully noted as to details in previous issues of this journal.

The Knickerbocker Ice Company intends to make immense improvements to wharves 39 and 40, above Catharine street, Delaware river. These are each to be made 537 feet

long and new sheds added to the superstructure.

A. M. Greene, builder, is about to erect fourteen dwellings at Rittenhouse and Morris streets, similar to other operations put up by same builder, in that vicinity. All to be of brick, stone facings, and best conveniences on interior.

Charles P. Talley, contractor, will at once start a small operation of seven three-story brick dwellings on North side of Oxford street, west of Randolph. All to contain on interior hot air heaters, ranges and best accommodations.

Jonathan Clark & Sons Company, 2 Sherman street, Chicago, got the contract for a five story cold storage warehouse, 136 x 203 feet, and boiler house for the Illinois Central Railway Company at Pier No. 2, same place. Cost, \$200,000.

At Soulae, in Gascony, a cross was discovered projecting above the sand. Further investigation showed that it was attached to a steeple, and later a well-preserved church of the Thirteenth century was excavated. The church is now in use.

The tenants of the public comfort house in Fairmount Park, Forty-fourth street and Elm avenue, have been notified to quit, as the Commissioners intend making considerable improvement in the structure, having set aside \$1,000 for that purpose.

The Newport News Shipbuilding and Dry Dock Company will soon begin the construction of the largest dry dock in the world. It will be over 800 feet long, affording room enough for two of the largest battle ships. It will cost \$1,000,000.

The Philadelphia Fountain Society will erect a fountain in memory of the late Dr. Twitchell at Forty-fifth street and Spruillfield avenue. The money, \$800, has been donated by the widow of Dr. Twitchell in memory of his love of animals.

James H. Stevenson & Sons, builders, are making excavation for 130 dwellings, to be erected at Twenty-ninth and Cumberland streets. These are to be of brick, with stone facings and steps, and all the most recent comforts and conveniences on the interior.

Funds are being raised for the erection of a club house for the Plastic Club, located at 10 South Eighth street, in this city. No architect has been engaged nor details decided upon, but it is understood it will be three stories high and basement, with modern conveniences.

J. J. Allen, 614 South Forty eighth street, is figuring on an operation of houses to be erected for himself in Germantown, after plans by Harry Feale, Jr., architect, Harrison Building. All to be three stories high, brick, with stone facings, and best conveniences on interior.

F. A. Poth has had plans prepared for six more handsome houses to be erected on Park side avenue, west of Forty-second street. These houses will measure 18.9 x 82.7 feet each, on lots 21.4 x 102.7 feet each. They will be three stories, have loggia fronts and be most completely constructed.

Contractor Philip Anns, of the Philadelphia Bourse, was awarded the contract for the completion of the Ocean Grove High School Assembly rooms. It will have steel ceilings, ash-paneled wainscoting, electric lights and about 800 opera chairs. Contract was let on Wednesday evening, April 13th.

James T. Murray has started excavation for twenty-two dwellings, three stories high, 18 x 53 feet, on West side Fifty-eighth street, from Ashland to Thomas avenue, and on the latter thoroughfare, north side to Fifty-ninth street, for Wilson R. Kerr, all to be of fine brick, stone trimmings, and best interior work and conveniences, etc.

W. A. Hurlock & Son, Stephen Girard Building, are figuring on plans for a house to be built for Geo. Schreiber, at Allegheny and Frankford avenues. It will be three stories high, face brick, stone trimmings, 25 x 75 feet in area, steam heat, electric work, tile and marble work, slate and tile roofing, and all general comforts on interior.

Stacy Reeves & Sons, contractors, 1611 Filbert street, have been given the contract to build the station at Somerton, for the Philadelphia & Reading Railroad. It will be granite, one story high, slate roof, and a three-story tower at one end. Private waiting rooms and office will be fitted up on interior. Work to start at once.

It is stated that Richard Quay, Jr., son of Senator Matthew Quay, is at the head of a Pittsburgh syndicate which has completed negotiations for the purchase of the Union Water Company's plant. Also the plant of the New Brighton Water Company. It is also stated that a large filter plant and other improvements will be added.

Buck & Gallagher, Ninth and Wolf streets, have been awarded the contract for all the brown stone work on fifty-six two-story dwellings, for Thomas Boyle & Co., to be erected at Eighteenth and Wolf streets. Also contract for all the limestone work on forty-seven two-story dwellings, to be erected at Fifty-fourth and Girard avenue, for Messrs. Vickers & Falkenstein.

Work is now progressing upon the great project of widening Delaware avenue from Vine to South streets, and after the general work of driving the piles the matter of shed construction will begin, which will consume much wood, corrugated, as well as plain galvanized iron and steel. Some of the sheds are to be what is known as double-deckers, as previously noted in these columns.

Jacob Myers & Sons, contractors, have contract to make the additions to the Country Club's buildings at Bala, and will begin work at once. Same contractors will make alteration to the McKean residence, 1921-23 Walnut street. This firm is making estimates on a slaughter house at Twenty-third street and Fairmount avenue for W. & G. Schmidheiser. This work includes exterior and interior alterations; also a stable.

E. A. Waddy & Co., 1108 Betz Building, Philadelphia, have been awarded the contract to furnish the mill work or a golf house, and other additions, to be erected on the grounds of the Phila. Country Club at Bala. The same firm are also furnishing the mill work and stairwork for the addition to the Union League, Broad and Sansom streets; also for furnishing the millwork for a suburban house being erected at Melrose, Pa.

Wilson Milnor, contractor, has received orders to proceed with the erection of a new church and residence for the St. John's Polish R. C. Congregation, on Thompson street, above Orthodox. The church will be of brick, one story high and basement, 90 x 120 feet. The interior will be fitted with altars, chancel, seating for about 600 persons. The residence will be 32 x 60 feet, two stories high, and contain an office, library, parlor, and dining room, etc.

The plans for the new Free Public Library building, to be erected at Newark, N. J., are to be placed for estimate at once in the Public Library building at that place, and are to close May 12th. The drawings were prepared by Rankin & Kellogg architects, 1024 Walnut street, in this city, and were fully noted some months ago in this journal. Information can be furnished by the architects, or by writing Frank P. Hill, Newark, N. J., Secretary to Board of Trustees.

Thomas W. Wright & Son, 22 Harvey street, Germantown, are taking estimates on a residence to be erected at Washington

lane and Church road for Townsend Sharpless. It will be three stories high 25 x 90 feet, stone and pebble dashed, electric work, steam heat, best system of plumbing, stained and plate glass, tiling and marble work, and hard-wood finish. All modern comforts. Also upon a house to be built for A. B. Jones, to have similar interior work and conveniences to the above.

A resume of the chief building operations now in progress may be stated as follows: The new office building at Broad and Chestnut streets is progressing with the steel skeleton structure and foundation. The site for the new apartment house at Fifteenth and Walnut streets, for G. Jason Waters, is being

made ready for foundation. No contract has as yet been awarded for the building. While McCollin &amp; East, architects, 1001 Chestnut street, have in readiness all drawings for the office building to be erected on site of the old Hazeltine Building, Chestnut street, above Broad street, yet no estimates have been asked; but these are likely to be called for at any time in the near future. As indicated before, plans are being made by Furness, Evans &amp; Co., architects, Provident Life Building, for the new office building to be erected at Broad street and South Penn Square, for the West End Trust Company. A full description of the structure was first given in these columns several weeks since, and

will be noted again when plans are completed in detail. No contract has been awarded for the skating rink and auditorium to be erected by Mr. William L. Brown, Broad street and Lehigh avenue, after plans by J. F. Stuckert &amp; Son, architects, 49 North Thirteenth street. Noted in full previously. A four-story addition is in progress at Fifteenth and Chestnut streets, by Jacob Myers &amp; Sons, contractors, for office purposes. The large stores of Strawbridge &amp; Clothier are being enclosed by walls, and entire work progressing rapidly under supervision of Stacey Reeves &amp; Sons, the contractors. Plans by Addison Hutton, and fully noted previously. Other

minor work all over the city indicates altogether a busy building season.

Allen B. Rorke, of this city, will build Pennsylvania's new State House, and he promises to have it done within the time specified in the Act of Assembly, November 15 next. A meeting of the Capitol Building Commission was held on the 18th inst. to open the bids. There were but two members of the commission present, but Senator McCarrell, before the seals were broken, asked the bidders whether they had any objection to proceeding with the opening of the bids under the circumstances, and there was no objection. These were the proposals: Malone & Co., Lancaster, \$307,859; Carlin & Co., Brooklyn, \$352,000; McIlvaine Unkefer Co., Pittsburg, \$329,750; Doyle & Doak, Philadelphia, \$349,892; Ball & Jones, Harrisburg, \$354,000; and Allen B. Rorke, Philadelphia, \$325,000. Henry Ives Cobb, the architect, who has been very ill, was present, and his plans in the beginning of the work. The only change from the original plans is the change from a marble exterior to plain red brick, and the omission of the covered driveway in the rear, and the pillars from the front. Otherwise the interior and exterior features are precisely the same as in the original drawings. The Acts of Assembly give the Board of Public Buildings and Grounds ample opportunity to furnish and decorate the new building. Section 3, of the Act of 1897, says: "The Commissioners shall also procure proper furniture and furnishings for the said new building by purchasing such additional furniture and furnishings as may be necessary in the manner now provided by law for the purchase of furniture and supplies for the several departments of the State government, and shall have the building properly furnished for the use of the General Assembly, its officers and committees, not later than January 1, 1899." This furnishing and decorating will not draw upon the fixed appropriation for the building, but will be paid for out of the general fund in the manner provided by law.

#### Through Pennsylvania.

☞ When any of the following are not post office towns they will be so designated.

—At Carlisle, Cumberland county, a sewerage system is being considered.

—J. Willard Hoopes will erect several new dwellings at Swarthmore, Pa.

—At Hamburg, Berks county, the church of St. John has been destroyed by fire.

—At Bellevue, Allegheny county, water work improvements, to cost \$7000, will be made.

—At Beaver Falls, Beaver county, the Roman Catholic church of Peter and Paul has been destroyed by fire.

—At Fernwood, Delaware county, Joseph Fink has contracted to erect a handsome residence for Thomas F. Janeway, of Philadelphia.

—At Sharpsville, Mercer county, about \$30,000 will be expended for new water works; contracts not let. The clerk of the borough, S. H. Phelps, can give information.

—At Swarthmore, Delaware county, the School Board will erect an addition to the public school at that place. Considerable building is contemplated for this season.

—At Parnassus, Westmoreland county, new water works are to be constructed from a driven well. An ordinance has been passed to issue \$17,000 in bonds for construction work.

—At Irvin, Westmoreland county, the plant of the Pennsylvania Plate Glass Company was destroyed by fire on the 13th

inst. The loss is about \$750,000, and it is reported that the works will be rebuilt.

—At Lansdale, Montgomery county, Mr. Amos C. Van Fossen has purchased a site on Third street, that place, for \$700, and will erect a residence. The School Board has plans for a new school house, to cost \$14,000.

—At Lansdowne, Delaware county, a \$10,000 highway loan will provide for new sidewalks and the opening of new streets.—The trustees of St. John's P. E. Church have purchased a site from Casper Pennock, and will erect a new church building.—Horace G. Twaddell, of that place, has purchased about 90 acres of land in Nether Providence for \$18,000.

—At Pittsburg, the property of Samuel Kelly, on Penn avenue, near Euclid, has been sold for \$30,000. The lot is 46 x 200 feet, and the present building will be torn down and a handsome structure erected to be fitted up for business purposes.—It is reported that a site in East Liberty has been selected for a new bank building.—Martin & Evans will erect seven attractive dwellings on Graham street. They will be well-finished, provided with all modern conveniences and will cost about \$35,000.—W. D. Stark has bought a lot on Penn avenue near Matilda street, and will erect a laundry equipped with all modern machinery.—S. A. Dickie & company have sold for James M. Donaghy a dwelling site, 40 x 100 feet, on Stateford ave., near Friendship, to Selwyn M. Taylor. The price paid was \$8000.—John K. Ewing & company have sold to Edw. W. Falck three lots each 24 x 98 feet on Grove street, Allegheny. These will be improved by the erection of dwellings. The Pittsburg Real Estate Exchange has sold twelve lots in the East Pittsburg and Braddock plan to an East End contractor, who will erect a number of dwellings.—Reed B. Coyle & company have sold for the Forbe's Land Company, to W. J. Logan lot No. 14 and half of lot No. 13 in the Wightman plan. They have a frontage of 75 feet on Bryson street, and a depth of 169 feet.—The Willet's Glass Company has bought a lot, 40 x 100 feet, on S. Tenth street.—Mr. Robert Shaw has bought a lot on Homewood avenue, through Murdock Brothers, Tradesmen's Building, and will erect a handsome brick dwelling on the site.

—J. M. Doolittle has sold to the First Presbyterian Church, of New Kensington, a lot for \$4000. A new church will be erected at an early date.—W. A. Roberts will erect an attractive brick dwelling at Fairmount avenue and Harriet street. The estimated cost is \$6000.—The Clinton Cement Company, it is reported, will erect a plant with a daily output of 600 barrels of Portland cement. The building will be of brick, with slate roof; engines and boilers, about 300 horse power.

#### Through New Jersey.

At Woodbury, Gloucester county, councils will pass an ordinance ordering a vote to be taken for the construction of a sewerage system.

At Caldwell, Essex county, a new frame church, to cost \$2500, for the Methodists, is to be erected. Plans by Lewis C. Patton, Orange, N. J., architect.

At Newton, Sussex county, the school board will erect a three-story addition, 60 x 60 feet, to school house, to cost \$18,000. George E. Poole, Prudential Building, Newark, N. J., architect.

At Newark, the U. S. Government has bought the Bolles property, adjoining the present post office, for \$250,000. The plot is 54 x 300 feet. An addition to the post office will probably be erected.

At Passaic, Gen. B. W. Spencer is chairman of a committee that has a bill, now before the

Governor for signature, to establish a home for disabled firemen, to cost \$75,000. A new building may be erected.

At Montclair, Essex county, a four-story brick and stone building, 60 x 50 feet, for the Young Men's Christian Association, to cost \$45,000, is to be erected. Architects Van Fleet and Goldsmith, 156 Fifth avenue, N. Y., made the plans.

#### Through Delaware.

At Wilmington, city council has passed an ordinance to borrow \$50,000 for the construction of Silver Brook sewer and for wiping out grade crossings.—Peter J. Ford has bought ground at Fourth and Van Buren streets, and will erect several dwellings.—The Sinking Fund commissioners want bids until April 25th for \$60,000 worth of bonds, \$50,000 of which will be used for sewer purposes as above.—The Board of Public Education wants bids until April 25th for an addition to school building No. 17.—Joseph L. Carpenter, Jr., has bought a large tract of land fronting on Delaware avenue, which will be cut up into building lots.—Mr. W. L. Madhold has also bought ground, and will erect four dwellings.—Mr. J. C. Kame will erect a dwelling at Sixth and Jefferson streets from plans by Architect L. R. Springer.

#### Through Maryland.

At Pocomoke City, water works and an electric light plant are to be built. Bonds will be issued for that purpose.

At Baltimore, John O. Lovell has arranged for the erection of a handsome four-story brick dwelling at 16 East Franklin street. It will be finely finished and provided with all modern conveniences and improvements.—A three-story brick store and dwelling will be erected at the northwest corner of Gough and Register streets by George Irehn. It will be well finished, with store fixtures, etc.

#### Washington, D. C.

The District Commissioners have decided to replace the present bridge, No. 14, over Rock Creek, on the Argyle Mill road, with a steel plate girder bridge, to cost about \$1500. The commissioners have also asked Congress for an appropriation of \$2190 for the purpose of an entirely new equipment for the morgue belonging to the district. The following sewer and water work worth noticing has been ordered: 1000 feet of 6-inch water main in Austin and Thirty-ninth streets, including one fire hydrant for \$965; 1120 feet 6-inch water main on both sides Thirty-sixth street, between "Q" and "P" streets, to cost \$1078; sewer along north side of "P" street, to cost \$1894; 375 feet 18-inch sewer and 175 feet 15-inch sewer in Trinidad avenue, between "M" and "Q" streets, to cost \$1194; construct sewer in north half of alley, in block five, Trinidad, to cost \$1248.

#### Sales at Auction.

At Malvern, Chas W Smith, lot for \$311.

At South Devon Park, William Henry Barnes, about seven acres, \$6923.

At Media, Pa, Frank J Kranz, lot, south side Washington st, \$500.

At Colwyn, Pa, Geo F Hitchcock, lot 34 x 76 feet, \$300.

Wm H Miller, of Media, Pa, one and a half acres at Nether Providence.

At Ridley Park, John S Pomeroy, of that place, lot for \$1300; Henry A McCarthy, of same place, lot 125 x 125 ft, nominal.

At Lansdowne, Pa, Jane V Eaton, of that place, half-acre for \$500.

At Haverford, Pa, Harry A Hannum, of that place, lot 30 x 105 ft.

At Marcus Hook, Pa, Chester & Delaware River RR Co, lot 250 x 248 x 340 ft, for \$900.

At Morton, Pa, Elizabeth R Rush, of Philadelphia, lot for \$1400.

At Lester, Pa, Catharine Carrigan, of Atlantic City, N J, lot for \$151.

At Swarthmore, Anna M Garrett, of that place, lot in Ridley township for \$300.

### Wants.

At Philadelphia, Pa., P. A. McLean, custodian of post office building, will receive proposals until May 3, 1893, for furnishing fuel, water, ice, miscellaneous supplies, washing towels, hauling ashes and sprinkling streets for the fiscal year ending June 30, 1890, or such portion of the year as may be deemed advisable.

At Doylestown, Pa., the county commissioners, John T. Moore, Jacob H. Myers and William W. Ott, will receive bids until April 25, 1893, for the stone sub-structure of a bridge over Aunmoris Creek, in Falls township, on the road leading from Falkington to Morrisville. Plans for sub structure can be seen at commissioner's office.

At Ridgewood, N. J., sealed proposals will be received by the board of village trustees until May 25, 1893, for the construction of a water plant and the furnishing of a supply of pure and wholesome water in accordance with the specifications and conditions adopted by the said board and now on file with the trustees. James Cornelius, president; H. G. Ward, village clerk.

Proposals for the construction of sewers. Office of the Commissioners of the District of Columbia, Washington, D. C., April 7, 1893. Sealed proposals will be received at this office until 12 o'clock M., April 30, 1893, for constructing sewers in the District of Columbia. Specifications and blank forms of proposals may be obtained at this office. John W. Ross, John B. Wight, William M. Black, commissioners, D. C.

At Washington, D. C., W. A. Jones, Department of Interior, office of Indian affairs, sealed proposals will be received at No. 1602 State street, Chicago, Ill., until April 27th for furnishing beef, flour, bacon, wagons, agricultural implements, harness, hardware, medical and other supplies; also at 77-79 Wooster street, New York City, until May 17th, 1893, for coffee, sugar, tea, rice, baking powder, soap, groceries, blankets, woolen and cotton goods, notions, hats, caps, boots, shoes, crockery and school books.

At New York City bids will be received until April 21st for furnishing and laying water mains in Fordham road, across Harlem river spoil canal, and in 206th and 14th streets; for furnishing stop cocks, hydrants, wooden hydrant boxes, cast iron stop cock boxes and covers and manhole heads, cast iron water pipe, branch pipes and special castings. William Dalton, commissioner, water supply.

Proposals for stationery and miscellaneous supplies. War Department, Washington, D. C., April 1, 1893. Sealed proposals in duplicate will be received here until 2 o'clock P. M., May 5, 1893, and then opened, for furnishing stationery and miscellaneous supplies (brooms, brushes, soaps, towels, etc.), for War Department and its bureaus and offices during fiscal year ending June 30, 1893. Information furnished on application. Proposals must be inclosed in sealed envelopes indorsed on outside, "Proposals for stationery," and "Proposals for Miscellaneous supplies," respectively, and addressed M. R. Thorp, chief of supply division.

### Judgments

#### PHILADELPHIA.

#### ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term, and S, for September Term.

S. F.—Scire Facias, to revive judgment.

A star (\*) denotes judgment confessed or bond and warrant conditioned.

ENTERED APRIL 11, 1893.

## Architect Notes.

Plans are being considered by the proprietor of the Hotel Bellevue for extensive additions and alterations, which will be noted in full when it has been concluded to put them into effect.

Hale & Ballinger, architects, 1200 Chestnut street, have awarded a contract to John M. Anderson, 1321 South Eighteenth street, to erect the Fels & Co. soap factory, for which they prepared plans some time since, and previously noted in this journal.

Stearns & Castor, architects, Stephen Girard Building, are at work on plans for school building to be erected in one of the small towns of New Jersey. Location and particulars withheld for the present. It is to be of brick, two stories and basement.

J. W. Cornell, architect, 415 Girard Building, is making plans for 22 houses to be erected by B. R. Supplee, of this city, at Fifty-third street and Girard avenue. These are to be of fancy brick, stone trimmings, galvanized cornices and best conveniences on interior.

H. A. Robey, architect, Lebanon, Pa., has made plans for a fine three-story dwelling for Henry A. Martin, Bullitt Building, in this city. The structure will be of local Ambley, Pa., and be of frame with a slate roof, steam heat, electric work and best interior comforts, etc.

Amos J. Boyden, architect, 413 Walnut street, has on hand plans for a residence to be located at Wallingford, Pa., for a local owner, name withheld. It is to be of stone, three stories high, basement, steam heat, hardwood interior, best of plumbing, ranges, boilers, all modern conveniences, etc.

Thomas P. Lonsdale, architect, Manhattan Life Building, Fourth and Walnut streets, has completed plans for the Fair Hill M. E. Church, at Fifth and Clearfield streets. The structure will be of local stone and brick, slate roof, steam heat, electric work and a fine chancel. Seating for about 1600 persons in the church and Sunday school combined. Estimates are about to be made on the work.

Addison Hutton, architect, 400 Chestnut street, has just completed plans for alterations and additions to 343 South Eighteenth street for Dr. George W. Ellis. His work includes new fronts to Eighteenth street, new fourth story and loft, new heater, fire places and flues, partitions in parlors, new water fixtures and plumbing, etc. Estimates will be made at once, and plans can be seen in office of W. R. Dougherty, 1604 Sansom street, and at the architect's office.

Harry Peale, Jr., architect, Harrison Building, Fifteenth and Market streets, has awarded the contract for the cottage of

Dr. C. H. S. Littleton, of this city, at Cape May, N. J., to Geo. W. Trest, of 1307 Arch street. It will be of frame, three stories, shingle roof, and modern conveniences on interior. Cost, about \$5000. Mr. Peale has on boards plans for a large operation of 150 dwellings, which will be noted later, or when details are completed.

Thomas P. Lonsdale, architect, Manhattan Life Building, Fourth and Walnut streets, has on boards plans for a R. C. school building for the church of our Lady of the Rosary, at Sixty-third and Vine streets. It is to be of brick and stone, three stories high, steam heat, electric work and general accommodation and school fixtures and furniture; also plans for a four-story addition for the Spring Garden Institute at Broad and Spring Garden streets. It is to be 34 x 60 feet.

Whilst preparation of the site for the new United Gas Improvement Company's great office building is being made, the plans are being pushed to completion by Wilson Bros., architects and engineers, Drexel Building, and under their special supervision it will be erected. It is intended that estimates shall be asked for and contracts awarded by the time the old church building is torn down at Broad and Arch streets, the location of the new structure. A full description has been given of this work, which will be noted again when plans are completed.

Edwin F. Durang, architect, 1200 Chestnut street, is considering estimates on the new school building to be erected on south side of Christian street, below Tenth street, and under the jurisdiction of St. Paul's R. C. Church, across the street. It will be a three-story building, with east and west wings and contain ten class rooms, 26 x 28 feet and will be three stories high, built of brick, faced with brown bricks in colored mortar, cornices of copper; heating will be direct radiation steam, electric work and general school comforts as well as all improvements introduced. Rev. M. Donovan is the priest in charge.

Geo. W. Ploughman, architect, 1011-12 Betz Building, has completed plans for alterations and additions to the Waverly Hotel, Fifteenth and Filbert streets, for the owner, Thomas Victory. These are to be placed at once for estimates, and can be seen in the office of John R. Wiggins, 1220 Filbert street. The specifications call for exterior and interior work, alterations to first floor, windows and doors, cornice work, cut stone work, tiling, counters and cabinets, office work, elevator and dumb waiter, inside blinds, toilet rooms, stairways, tinning, spouting and copper work, plain and fancy plastering, cast iron columns and small work, gas fitting, plumbing, etc.

Milligan & Weber, architects, 520 Walnut street, has on boards plans for a fine residence at Edge Hill, to be of brick and stone,

and furnished with every modern convenience. Also for two houses, to cost \$5000 apiece; five semi-detached dwellings, to cost \$3,500 apiece, and nine of the same kind that will average \$3,000. Plans will soon be placed on boards for completion for two dwellings that will reach \$4,500 each in value. All the above will be three stories high, and various in material. Several of which will be decided on later and noted. Each will contain the latest comforts and conveniences. The above architects are ready to take estimates on the M. E. Church at Fox Chase, for which they made plans some time ago, and which was noted in full in this journal.

Frank R. Watson, architect, 1208 Chestnut street, has on boards plans for a pair of fine houses for private parties at Swarthmore, Pa.; also a residence for Mr. Charles Heston, at Franklin, on Oxford pike, to be of brick, stone trimmings, three stories high and in the Elizabethan style, best interior fittings and general conveniences; also drawings for a convent chapel, at Sharon Hill, for Sisters H. C. J. It will be of stone, Gothic style, 50 x 120 feet, slate roof, heated by steam and fitted in all ways ecclesiastically. Other plans for work will be noted as they develop.—Mr. Watson is about to let the contracts for the very handsome altar work which is to be of stone mosaic and other sanctuary appointments, for the Roman Catholic church of St. Philip De Neri, on Queen street, above Second street. This church was damaged by fire some two years since.

Bolton & Savage, architects, Witherspoon Building, Juniper and Walnut streets, have made drawings for a stone building for Mr. Steinberg, 425 South street, upon which estimates are being made. C. W. Bolton, architect, has awarded contract for a stone building at 323 North Second street, to Burd P. Evans, contractor, 937 North Ninth street. It will be of brick, and consists of principally alterations. Same architect has also prepared plans and specifications for a handsome stone and iron fence for Robert M. Hogue, at Pelham, Germantown, around the grounds of his residence. It will consist of Indiana limestone trimmings and wall of Chestnut Hill local stone, and handsome gateway. Also by same architect, plans for a Presbyterian Church at Malvern, Pa. This building will be 60 x 100 feet, one story high; stone, Indiana limestone trimmings; will have a large audience room, class and school room, with seating for about 500 persons, upholstering, pews, hot-air heat, electric work, stained glass, and other details for church purposes. Also plans for a United Presbyterian Church at Front and Tioga streets. It will be of brick, stone trimmings, slate roof, class and school rooms, and general church furnishings, etc., hot-air heat and modern comforts throughout. No contracts let on the three latter operations.

## Hotel Furnishings

As we are Importers, Manufactur-  
ers, and large Wholesalers, we are  
enabled to offer advantages in the  
purchase of Furnishings for Hotels  
which should be known to every  
buyer in America.

**LINENS** Made especially to our order in the  
best mills of Scotland and Ireland  
—Table Cloths, Napkins, Sheets and Pillow Cases  
and Towels, Crashers, etc., here in immense  
quantity and greatest variety, or will be made to  
order in special design.

**CARPETS** The best looms of the world  
are represented in our great  
Carpet rooms, while our relations with the man-  
ufacturers are such as to give us unusual selling  
advantages.

**BEDDING** A good Hotel is known by its  
Bedding. Good Springs, Mat-  
tresses, attractive and comfortable Coverings are  
remembered longer by the traveler than the  
vands which are placed before him.

**FURNITURE** Upholsteries, Lace Curtains  
and Draperies, from the  
simple to the most sumptuous kinds, in stock  
and prepared to order along any desired lines.  
The same may be said of

China, Silver, Glass, Cutlery and  
House Furnishings

We are in position to supply them advan-  
tageously and of the desirable character which  
Hotels especially should insist upon.

Send applications or list for estim-  
ates to "Department of Hotel Supplies."

JOHN N. GALLAGHER, Publisher.  
JOHN F. BRISBANE, City Editor.

PHILADELPHIA, WED'Y, APRIL 27, 1898.

PROBABLY the highest compliment ever paid to a builder on God's green Earth was that of Governor Hastings, as a member of the Capitol Building Commission, when he was informed that the contract for the erection of the Pennsylvania State Capitol building at Harrisburg had been awarded to Allen B. Rorke. The Governor said: "If Allen B. Rorke has received the contract, then I can go home satisfied that the work will be well done."

MR. HOWARD L. DAVIS, of the firm of Smith & Davis, general contractors for artificial stone and concrete work, at the southeast corner of Thirty-first and Berks streets, made us a friendly visit on Saturday last. Mr. Davis is a very interesting talker. He is full of information as to Cuban affairs, and emphasizes his statement that the sufferings among the people of the island are infinitely greater than any newspaper accounts he has ever read. He has been all over the island, and is perfectly familiar with the brutal methods of the government officials.

THE building and real estate interests of this city and state are deeply indebted to Mr. Joseph A. Gorman, a young and progressive member of the Philadelphia bar, for his learned and concise interpretation of the mechanics' lien law of the state, which was republished (by request) in our issues of April 13th and 20th instant. The interest Mr. Gorman's articles have excited—the first issue of April 13th, as to the status of mechanics' liens as to new buildings, and the second as to the status of the law as to alterations and additions, issue of April 20th—has already expressed itself in such a demand for copies containing these articles as to justify their publication in book form. This is a well-merited compliment to Mr. Gorman's personality as well as to the clever and masterly manner with which he has handled a very difficult subject.

### *The Commonwealth Title and Trust Company Returns to Its Old Quarters.*

It will be remembered that the Commonwealth Title and Trust Company was compelled to temporarily vacate its office building at 813 Chestnut street owing to its injury through a fire which destroyed the adjoining building.

The company very wisely took advantage of the opportunity to radically improve and change the interior of the building with a view of increasing the facilities to an extent which can only be fully appreciated after a view of the premises.

While much has been done in the way of ornamentation, the main object was to utilize the space for the better accommodation of the company's growing business. This has been done to perfection. The safety vaults have been greatly enlarged, and, in fact, nothing has been omitted which would expedite business as well as enhance the comfort of its working force and customers. The Commonwealth removed to its old quarters on Saturday last.

### *Architect Notes.*

Re-estimates are being made on the gymnasium for the House of Refuge at Glen Mills, for Mr. A. C. Harrison. The plans are by Cope & Stewardson, and have been fully noted in a previous issue of this journal. Drawings are in office of W. R. Dougherty, 1604 Sanson street, and other contractors.

J. D. Anschutz, architect, 713 Filbert street, is making plans for an addition to the school building at Twenty-third and Pine streets. It is to be 50 x 100 feet, three stories high and basement, slag and tin roof, plate glass, iron work, pine and cement floors, sliding doors, blackboards and general school furniture, etc.

J. F. Stuckert & Sons, architects, 49 North Thirteenth street, will at once receive estimates for boilers, engines, steam heating, dynamos and electrical work. These are from the large mills at Langhorne, Pa.; also for a mill now being erected in Kensington. Bids only received by the architects.

Robeson L. Perot, architect, 619 Bourse Building, has plans on boards for a rectory for St. John's P. E. church, Twenty-third street and Washington avenue, Wilmington, Del. It will be of brick, 40 x 35 feet, three stories high and basement, concrete floor, hot air heat, electric work, slate roof, best system of plumbing and other comforts.

Lawrence Vischer Boyd, architect, Harrison Building, has plans completed for a house for A. G. Saulsbury, Ridgeley, Md. It will be of brick, frame work, with a shingle roof, interior in hard woods, with plumbing, electric work and general conveniences. Estimates are being made by local contractors in Baltimore, Md. Cost about \$6,500.

Geo. T. Pearson, architect, 427 Walnut street, has made plans for a handsome house

to be erected at Pelham, stone and brick, slate roof, electric work and hard wood interior, with all modern conveniences; also on boards plans for addition of two stories to Stetson's big hat factory, at Fourth street and Montgomery avenue, in this city.

Theophilus P. Chandler, architect, 328 Chestnut street, has on boards plans for a parochial house for St. Peter's P. E. Church, Germantown. It is to be of stone, three stories high and basement, and furnished throughout in best style, hard woods, electric work, steam heat, slate roof and present system of plumbing, with all modern conveniences.

Charles Balderston, architect, 144 South Fourth street, has awarded the contract for the bakery addition to the Kolb estate, Tenth and Reed streets, and fully noted previously. Also for the contract for the Walter S. Massey five-story store building on Filbert street, above Tenth. Both contracts are given to Wm. Rea's Sons, general contractors, 1815 Francis street. Work upon both to start at once.

Rankin & Kellogg, architects, 1024 Walnut street, have just placed on boards the plans for the new Public Library, at Newark, N. J., which was originally mentioned in these columns some months ago. Bids are to be made and in by May 16, 1898. The specifications call for excavation, stonework, tile and mosaic work, cement work, brick and fire-proof, terra cotta, steel and iron work, skylights and plastering. Carpenter's contract: lumber, mill work, roofing, sheet metal work, etc., electric work, dynamos, etc., heating and ventilation, elevators and lifts. A full set of plans are on exhibition for sub-bids at J. E. and A. L. Pennocks, contractor, 505 Walnut street.

We have information in regard to the erection of the immense office and business building to be erected by William Weightman, upon the site of the late Presbyterian Publication Society building and property contiguous, on the east, to the effect that all plans for this work will be prepared by the well known architects, Mr. Angus S. Wade and Mr. Willis G. Hale, associated for the work, and under whose joint supervision the building will be constructed. As to matters of detail, much has yet to be arranged, involving material, number of stories high, which may vary from 17 to 20, also as to whether the arcade principle shall be adopted for the first floor. It can, however, be noted that the materials will include granite, brick, terra cotta and absolute fire proof articles throughout, and the whole be highly ornamental. The interior will have a series of elevators, modern lifts, electric dynamos, marble, mosaic and slate roof, grouting and cement work, grille work in iron, bronze and brass work, and finest systems of steam power and heat and ventilation. When completed, this structure will be the equal of, if not eclipse, any other of its kind in this city. The drawings are nearing completion, and will likely be placed for estimates in the course of a few weeks at most.

## TRUSTS. TITLES. DEPOSITS.

THE PLANT  
OF  
THE LAND TITLE AND

For Sale by all Plumbers.  
Boiler Booklet tells the whole story.

Yours for the asking.

RANDOLPH & CLOWES  
Box 46, WATERBURY, CONN.

Muresco

Is a permanently hard wall finish. Over plaster it produces soft, even tints, giving the effects of kalsomine, without the flashing and with none of its disadvantages. It does not rub off against the clothing nor will it crack or peel. It kills suction and gives a smooth, even coat over an old plastered wall that has been patched. It is made in fifteen artistic colors and white. A color card and full information about MURESCO sent for the asking.

BENJAMIN MOORE & CO.,  
256 Water St. Brooklyn, New York.

**Building and Real Estate Notes.**

Wm. T. B. Roberts, real estate operator, has moved from the Bourse to room 410, Land Title Building, Broad and Chestnut streets.

Arthur Springman, contractor, is making extensive interior alterations to the First German Baptist Church, Sixth, above Poplar street. Previously noted.

C. W. Daniels, contractor, has started work upon a morocco factory, 34 x 95 feet, at the northeast corner of Kettlewell and Larpin streets. It is to be one story, brick, and is owned by E. Printz.

Work has been started by Allen B. Rorke upon the new Capitol Building at Harrisburg, Pa., and will be pushed to completion in time for meeting of the Legislature in January, 1899. Fully noted previously.

John Dunn, builder, will erect thirty-two dwellings on west side of Fifty-second street, between Race and Vine streets. All to be of pressed brick and stone facings, and all modern conveniences on interior. All to be three stories high.

Thomas Boyle & Co., owners and builders, have started work on nineteen dwellings on the west side of Colorado street, east of Boulevard. All to be two stories high, brick, stone facings and steps, and best interior work, hot-air furnaces, ranges, etc.

Guilliam A. Wells, owner and builder, will begin the erection of twenty-one two-story houses on Sixty-fourth and one-half street, north of Woodland avenue. These are to be fancy brick, stone trimmings and hot-air heat, electric bells, ranges and general comforts on interior.

F. A. Poth, owner, is building quite a fine operation of dwellings on Parkside avenue above Forty-second street, all of which are of brick and stone construction, very fancy in fronts, whilst the interiors are in hard woods, electric work, hot air heat, ranges and general comforts.

Alcott, Ross & Scully Co., 2917-19-21 North Broad street, are about completing the tile and slate work in twenty-one dwellings for Messrs. Wright & Prentzel, Butler street and York road; also the mantel, tile and slate work in forty-two dwellings for Mr. J. B. Vanderslice, Garnet street, above Cayuga.

Wilson Millour, contractor, has started excavation and work upon the Polish R. C. Church on Thompson, above Orthodox street, Bridesburg. The structure will be of brick and stone, two stories high; also a parish house, 30 x 60 feet, to contain all modern conveniences. The whole will cost about \$30,000.

John R. Wiggins, contractor, 1220 Filbert street, has received a contract to rebuild the Pecora Paint Works of S. Bowen Sons, at Fourth street and Sedgely avenue, recently destroyed by fire. The damage done was about \$5,000. The rebuilding will include interior work and a new heat and power plant, which has been let to Francis Bros. & Jallett.

William F. Morrison, builder, 2525 North Nineteenth street, will start at once an operation of fifty-three dwellings at Fifty-third and Jefferson streets, all to be of brick, with stone facings and steps, and best modern comforts on interior, including furnaces, ranges, hot-water boilers, gas fittings, and electric bells, etc.

Charles McCaul, contractor, No. 10 North Eleventh street, has on hand plans for estimate on an emergency hospital for St. Vincent's home, Seventieth street and Woodland avenue. It will be of brick, one story high, 30 x 100 feet, and have two wards, a kitchen, toilet-rooms, etc. Wilson Bros., architects and engineers, Drexel Building, made the drawings.

Doyle & Doak, contractors, 133 South Fifteenth street, will begin work on fitting up

the northern portion of the ground floor of the Stephen Girard Building for use of the Board of City Trustees. Same contractors are starting estimates and will erect a very fine four-story dwelling at 342 South Sixteenth street. All of which has been previously noted in this journal.

Wright, Tyndall & Van Roden, now at 219 South Eleventh street, will soon move to the store occupied by Davis & Harvey, auctioneers, 1212 Chestnut street, and the new firm will, before doing so, put in an entire new front and to some extent remodel the interior. Neither architect nor contractor have as yet been selected to prosecute the work. Details will soon be considered.

Plans have been made by Charles McCaul, general contractor, No. 10 North Eleventh street, for an eight-story office building, to be erected at 1416-18 South Penn Square, for the owner, Dr. J. V. Shoemaker. The structure will be of granite and brick, steel skeleton and slag roof. Interior will be fitted with elevators, electric dynamos, engines, boilers, steam heat, tile marble and slate work and mosaic flooring. The elevators will be encased in iron grille work. Considerable cement flooring will be included. Plumbing, gas fitting, wiring for electricity, toilet closets, and all general conveniences. Estimates are now being taken in Mr. McCaul's office on the work.

**Through Pennsylvania.**

*When any of the following are not post office towns they will be so designated.*

—At Berwyn, Delaware county, Harry M. Cook will erect a row of brick dwellings.

—At Greenville, Mercer county, it is stated that a sewerage system will be constructed.

—At West Chester, Chester county, work has begun on two dwellings for George F. Brinton, Jr., on Dean street.

—At Lancaster a four story factory building, 28 x 112 feet, will be erected by the Lancaster Sheet Metal Company. Electricity will be used for power.

—At Irwin, Westmoreland county, the plant of the Pennsylvania Glass Company was destroyed by fire not long since. The estimated loss is about \$500,000.

—At Boyertown, Berks county, work has begun on a handsome parsonage for St. John's Lutheran Church. It will occupy a site on Reading avenue.

—At Fernwood, Delaware county, Joseph Fink has been awarded the contract for the erection of a fine dwelling for Thomas F. Janeway, of Philadelphia.

—At Mount Oliver, Allegheny county, the city council, so it is reported, has granted the Brownsville Avenue Railway Company the right of way over the borough streets.

—At Wilkesbarre, Luzerne county, the contract for the erection of the new school building on South Main street has been awarded to C. D. Fogle, of Wilkesbarre, for \$17,624.

—At Nanticoke, Luzerne county, the County Commissioners are considering the erection of three bridges. It is proposed to pave Main street with brick. B. F. Griffin is city clerk.

—At Franklin, Venango county, it is probable that about 2500 square yards of vitrified brick pavement will be put down in June. Thomas L. Kennerdell, city engineer, can give information.

—At Sellersville, Bucks county, an ordinance has been introduced in Councils to grant a purchase to an electric light company to establish an electric light plant. H. J. Zam, borough clerk, can give information.

—At Gettysburg, Adams county, the People's Electric Light, Heat and Power Company has been incorporated with the following as incorporators: J. Darlington, of Glenn

Mills, Pa.; H. A. Sage, of Easton, Pa., and others.

—At Phoenixville, Chester county, the Phoenixville Hook and Ladder Company has decided to erect a new house on the site of the present building, and a committee has been appointed to prepare plans and specifications.

—At Corry, Erie county, a handsome school building will be erected from plans prepared by McCollum & Ely, of Washington, Pa. It will be finely finished, provided with all modern conveniences and will cost about \$40,000.

—At Greensburg, Westmoreland county, it is reported that plans have been approved for the gas run sewer. The estimate made by the engineer includes 750 perches of stone, 157,000 cubic, and an excavation of 1375 cubic yards of dirt. The cost will be about \$5.00.

—At Allegheny, Allegheny county, an estimate for paving has been made by City Engineer G. C. Langenheim, with the following result: For paving East street to Ferryville, avenue with regular block, \$137,000; with asphalt, \$139,360. Bids will be asked for both kinds of paving.

—At Washington, Washington county, an ordinance has been passed providing for the construction of sewers in a number of streets. (The Waring system will be employed.)—The plans of F. J. Osterling, of Pittsburgh, Pa., for the new county courthouse, will soon be ready for bids.

—At Downingtown, Chester county, the Downingtown Pennsylvania Gas and Water Company will erect a large storage reservoir on the Copeland system. It will be located in West Bradford township. Superintendent Holliday can give information. Contract not let at time of writing.

—The Springfield Driving Association is considering several sites for a new track and other improvements. The committee has visited Marcus Hook, Millmont and Elwyn, but has as yet made no decision. It is proposed to erect a handsome club house and to make other improvements.

—At Bellefonte, Centre county, a disastrous fire last week destroyed property to the amount of \$130,000. The properties destroyed included the flour mill and grain elevator of W. Frederick Reynolds, \$50,000; Jenkins & Lingle's foundry, \$50,000; Bellefonte car works, \$10,000; residence of Frank P. Blair, \$6000; residence of Mrs. Gehrell, \$1500, and other property valued at \$10,000.

—At Ardmore, Montgomery county, at a recent meeting of the School Board of Ardmore and Bryn Mawr, the committee appointed for the purpose reported as having considered two sites suitable for school buildings; one, valued at \$8,000, at Gordon and Lancaster avenues, and one, valued at \$12,000, on Lancaster avenue, near the road to Haverford station. Each lot contains an acre.

—At Harrisburg, at a recent meeting of the Board of Managers of the Pennsylvania Chautauqua, plans were considered for the proposed hotel to be erected by the Association at Mount Gettys, and which will be known as the Mount Gettys Inn. It will be a frame structure, and will be replaced before many years by a larger building. J. H. Groff, of Middletown, Pa., is President of the Association.

—At Chester, Delaware county, the new Chester Water Company is talking about adding a filter plant to its other improvements.—The school board has concluded arrangements for the purchase of a lot west of Chester creek and north of Seventh street, for the purpose of erecting a new high school building, which will be modern in every way.—Messrs. M. Homan & Sons have been awarded the contract for a new sewer at Newport News, Va.

And now they employ 4000 workfolks.

*Snellenburg's*

—At Scranton, Lackawanna county, a new fire-house for Century Hose Company, is talked of.—M. T. Lavelle, city clerk, can give information as to sewer on Monsey street, for which bids closed on the 21st instant.—The Oxford Coal Breaker, together with other buildings belonging to the Delaware, Lackawanna and Western R. R. Co., at Hyde Park, a suburb, were destroyed by fire on the 15th instant. Loss, \$80,000.

—At Easton, Northampton county, it is reported that J. Drake's Son & Co. have made arrangements for increasing the size of their office building by the erection of three additional stores. The new part will conform to the present building and will be of brick and iron, furnished with all modern conveniences

and will cost about \$50,000.—It is stated that the Grand Jury of the Northampton county court has approved the petition for the improvement of the Delaware river road, from Easton to Martin's creek. J. Marshall Young, of Easton, estimates the cost at about \$16,700, or \$3500 or \$3600 per mile.

—At Doylestown, Bucks county, Thomas P. Chambers, president of the Newtown Electric Railway Company, and Messrs. Baer and Knabb, in the employ of Contractor Brubaker, have viewed the proposed route for the extension of the trolley line from Newtown to Doylestown. It is proposed to run the line up the pike as far as the Brownsburg road, thence to Stoopville and to Ryan's Corner, thence to

Wrightstown by way of Penn's Park, Wycombe Station, Forest Grove, Bushington, over Pebble Hill to Doylestown. It is thought the line can be built the present season, and when completed there will be a continuous trolley line from Bristol to Doylestown.

—At Pittsburg, E. J. Carlisle & Co., Lewis Building, has made plans for a new school building, to be erected at Mount Olivet (Pittsburg). It will be of brick, well finished, provided with all modern improvements, and will cost \$20,000. The same architects have made plans for a three-story brick office building, to be erected at Crafton, Pa., for Dr. R. W. Foster; also plans for a stable. Steam heat will be used in the office build-

ing. Estimated cost, \$5,000.—F. C. Sauer, Hamilton Building, has made plans for a brick church, to be erected for the Polish Roman Catholic congregation of St. Francis De Sales, McKee's Rocks. The cost will be about \$25,000. Rev. Father Coyne is the pastor in charge.—Jackson & Fulton, Lewis Building, are the contractors for the three-story stone and brick bank building, to be erected on Wabash avenue by the West End Bank.—Additional hydrants will probably be placed throughout the city, as a committee recently presented the necessity of a better supply to E. M. Bigelow.

—At West Chester, Chester Co., the board of managers of the Chester County Hospital has purchased about one and a-half acres as an addition to the present site. It is stated that the board will soon consider the question of erecting a building as a home for training-school nurses connected with the hospital, as the Rev. W. L. Bull, of Whitford, has donated \$10,000 for that purpose. No plans have been made, in fact nothing has been done by the board except to accept the gift.

The contract for a handsome parsonage for the Olivet Baptist Church, on West Union street, has been awarded to I. R. & W. H. Griffith.—There seems to be a hitch in the erection of the proposed Chester County Insane Asylum, before reported. The county commissioners, together with several of the county judges, oppose the expenditure of the construction cost (about \$80,000), unless there is some assurance that the institution can be made to pay. The board of charities, it seems, insist upon a fire-proof building, and this will greatly increase the cost. The grand jury will, at the coming term of court, pass upon the question, when it will be settled.

—At Reading, Berks county, Contractor Geo. W. Beard has been awarded the contract for the one-story stone and brick church building, 77 x 110 feet, for the congregation of St. Stephen's Reformed Church, at corner of Ninth and Greenwith streets.—The Repair Committee of the School Board has recommended the adoption of the plans of Architect A. F. Smith for the remodeling and enlarging of the Boys' High School at a cost of \$25,000.—A. H. Zacharias has been granted a permit for a two-story brick, with mansard roof, on Front street; also to Isaiah S. Koch for an iron addition to the Carpenter Steel Works. It will be 28 x 164 feet. Kemmerer & Zechman, real estate agents, have sold to Lillian Melinger a lot on the east side of Poplar street.—At the April meeting of the School Board a resolution was agreed to appropriating \$20,350 for building and site in Ninth or Eleventh wards, and for a building at Second and Oley streets, with furniture, paving, etc.; also a resolution for the erection of a building in the southeastern section of the city. The Repair and Janitor Committee recommended repairs to the various buildings amounting to \$4,076.

—Among the proposed improvements is the erection of a large packing house by Bush Brothers, of Jersey City, N. J. The most suitable site offered is said to be the Moses K. Graeff property, below the Muhlenberg street bridge. The proposed building will be seven stories high, and will be fitted up for a meat packing establishment.

#### Through New Jersey.

At Camden, bids for repairing a number of streets will be opened on the evening of May 18th.

At Princeton, the trustees of Princeton College have accepted a gift of \$100,000 from Henry S. Little, of Trenton, N. J., for a new dormitory.

At Cranford, Union county, the Cranford Electric Light and Power Company will erect a plant, for which bids will be asked in a short time.

At Lakewood, Ocean county, the Rev. D. L. Schwartz will erect an attractive dwelling from plans prepared by R. E. Parsons, of Flushing, L. I. It will be of frame, two and one-half stories high, finely finished and provided with all modern conveniences and improvements.

At Paterson, N. J., Gallant Bros., silk manufacturers, of that place, it is stated, will erect a branch at Delhi, N. Y. from plans prepared by Architect Franklin Van Winkle, 120 Liberty street, New York. The plant will include a one-story brick and stone weaving mill, 101 x 150 feet. Specifications will include stone foundations, tin roofing, electric lights, ventilators in roof, steam heat, two 100-horse-power boilers, one 150-horse-power engine and two steel stacks 65 feet high. Another building is to be included, which will be two stories, 55 x 160 feet.

At Somerville, Somerset county, Mr. George Anderson has made arrangements for the erection of a fine dwelling to cost \$80,000. The plans, which have been prepared by Joseph B. De Reiner, of Washington, N. J., call for a structure of frame and stone, 100 x 140 feet, with handsome interior finish, sanitary plumbing, tile work, ornamental glass and all modern conveniences. A stable will also be erected to be fitted up with every modern convenience. The cost will be about \$30,000.—Jacques Vanderbeek has made plans for a frame dwelling to be erected for Charles L. Voorhees, which will cost \$2500. Also plans for alterations and additions to the frame dwelling of Jacob Shurtz, on Grove street. These improvements will cost about \$3500.

At Plainfield, Union county, three two-and one-half story dwellings will be erected on La Grand avenue for Mrs. Carrie Shaub, of Martinville, New Jersey. They will be well finished and will cost \$7500 for the three. The plans have been prepared by W. H. Clum. The same architect has made plans for alterations and additions to the brick store building of Charles H. Hand, at a cost of \$3000.—A. A. Stryker will erect a frame dwelling on Fifth, near Monroe street, from plans prepared by F. L. Lancaster. It will be well finished, and will cost about \$3000. The same architect has prepared the plans for a similar dwelling to be erected on Park avenue, for Mr. Hugh McDonald. It will be of frame with fine interior finish and all modern conveniences and improvements and the cost will be about \$3000.

At Atlantic City, the well-known bathing establishment and sun parlor on the board walk owned by Kippee & McCann, have been sold to J. Whilden Moore, who will have the present buildings demolished and erect a large hotel. The site has a frontage on the ocean of about 50 feet, and extends 100 feet on Ocean avenue. Mr. Moore will not obtain possession until October 1st, and as soon as possible after that date steps will be taken toward the erection of the proposed structure, which will be a model of its kind and provided with all modern conveniences and improvements.—John H. Rothermel, of Reading, Pa., has been awarded the contract for lighting the city with electricity at a cost of \$105.85 per light per annum. Mr. Rothermel contracts to sell his plant to the city at cost at the expiration of five years.

At Newark, Charles Sommer will erect a three-story brick structure, to be fitted up as stores and flats. The plans have been prepared by Peter Charles.—Chas. P. Baldwin has prepared plans for an addition to the factory of Caswell & Boulter.—Elizabeth Gilkinson has arranged for the erection of a frame double dwelling, to cost \$3,000, from plans prepared by P. F. MacLagan.—The same architect has prepared plans for a dwelling to be erected on Mount Prospect avenue for Elizabeth Derling, at a cost of

\$2,500.—H. C. Klemm has prepared plans for a frame dwelling for John Meyer, to be erected on Clinton avenue, near Seventeenth street, at a cost of about \$2,500.—A. E. Fisher will erect a three-story frame structure, to be fitted up as apartments, from plans submitted by Schweitzer & Diemer, 192 West Broadway, New York City.

At Bayonne, Hudson county, Mrs. C. Farley will erect a frame apartment house to cost \$3000 from plans prepared by Augustus Schmidt. The same architect has made plans for a frame dwelling and saloon for Charles Herchenroeder. It will cost \$3000.

—R. F. Martinez has made plans for a frame dwelling to be erected at 20 Willow street, for W. T. Ford, it will cost \$3000; also plans for a similar dwelling, to cost \$3000, to be erected on West Sixth street, for Mrs. M. S. Thompson.—Eugene Reilly has made plans for a frame dwelling for D. D. Broadhead, to cost \$1500; also plans for a two-story frame dwelling for the Y. M. C. A., to cost \$3000; also plans for two two-story frame apartments for the Consumers' Coal & Ice Company. The estimated cost is \$4500.—A double frame dwelling will be erected on Humphrey street, by William Stringham, of Bergen Point, N. J. The estimated cost is \$3500.—James Boyle will erect a dwelling on Twenty-fifth street, to cost \$2500.

At Jersey City, the Holy Day Society will erect a two and one-half story frame, brick and stone office, waiting room and laboratory, 50 x 80 feet, which will cost \$20,000.

—St. Anthony's Roman Catholic Society will erect a handsome rectory on Sixth, near Monmouth street, from plans prepared by Louis H. Glele. It will be finely finished, provided with all modern conveniences and improvements and will cost about \$10,000.

Joseph Reed will erect a five-story brick building to be fitted up as apartments from plans prepared by A. Berger. The estimated cost is \$15,800.—Blau & Quisfe have made plans for a frame dwelling for Chris Evans to cost \$2,500.—R. W. Sailor has prepared plans for a factory to cost \$3,000 for Michael Day.—Robert H. Pierson will erect an attractive dwelling at 1525 Montgomery street from plans prepared by William A. Telson. The estimated cost is \$3,000.—R. P. Smith has prepared plans for a dwelling to be erected for Frank McElhone to cost \$3,000. Also plans for three-story frame flats to cost \$6,500. John O'Toole, owner.

#### Through Delaware.

At Rehoboth, Mr. E. K. Rich & Son, of Philadelphia, will erect a Summer cottage.

At Newcastle, a large cupola is to be placed on the almshouse. The plans have been referred to the committee on buildings. The contract has not been let.—Mrs. Mary P. Phillips will erect a residence, which is to have a shingle roof. Architect D. L. Price, Jr., of Wilmington, Del., is receiving estimates.

#### Through Maryland.

A sewerage system is to be constructed at Cambridge, Dorchester county. Bonds for \$5000 will be issued.

At Frederick City, a vote will be taken on a bill providing for the issue of water bonds to the amount of \$35,000 for water works.

J. C. G. Pugor, city surveyor, Hagerstown, can give information as to sewerage system to be constructed at that place at a cost of about \$200,000.

At Annapolis, the county commissioners of Anne Arundel county have been authorized by the Legislature to build an iron bridge over Long Cove. Mr. R. W. Izlehart, county engineer, can give information. Contract not let.

Heater and Range Work and Tin Roofing  
Estimates Cheerfully Furnished

At Annapolis, Anne Arundel county, the county commissioners have been authorized to issue bonds for the construction of a bridge over Curtis Creek. The estimated cost is \$20,000.

The Governor has approved the bill providing for an issue of bonds for water works and sewerage system at Hyattsville, Prince George's county. The Governor has also signed a bill authorizing the construction of water works at Chestertown, Kent county.

At Baltimore, Harris creek sewer, in Paterson Park, is to be extended at a cost of about \$38,000.—Fulton avenue is to be paved with asphalt blocks at a cost of about \$53,000, and Green street with vitrified brick, at a cost of \$14,500.—The Olive Branch M. E. Church has been granted a permit for a three-story brick parsonage on south side of Fort avenue, between Charles and Hanover streets.—Also permit to John T. Gresham for three story brick addition corner Greenmount and North avenues.—Building Inspector Dowell can give information as to improvements to the City Hall. About \$43,000 will be expended. Twenty-eight new rooms will be added, also a new elevator.—Mrs. Annie B. Frost will erect five two-story cottages at Woodberry.—Mrs. F. B. Hamilton will erect a four-story brick apartment house at 302 West Franklin street, from plans by Architect A. H. Bieler, of Baltimore.—Architect B. B. Owens has made plans for an addition to the Maryland Homeopathic Hospital on North Mount street. It will be 40 x 80 feet, three stories, of brick and stone, will have electric lights.—J. W. Studdal will erect three two and one-half story frame dwellings on Franklin terrace, between Old York road and York pike.—Mary Flanagan has bought five lots at West Arlington for \$6000.—E. J. Gallagher and Albert Wehr have bought from August Denz a tract of land with a frontage of 40 feet on East Baltimore street, extended, and a depth of 780 feet. The property will be improved.—George A. Dubrenil has bought a lot on the north side of Second avenue for \$6750.

#### Washington, D. C.

The district commissioners have ordered the construction of sewers in a number of streets at an estimated cost of about \$3000.—Messrs. Hornblower & Marshall have prepared plans for a handsome residence to be erected for Robert L. Preston. It will be of brown stone, fine interior finish, considerable tile work, plain and ornamental glass and all modern improvements.—Another fine residence will be that of Admiral Thomas O. Selfridge, on Columbia road, at the northeast corner of Kalorama avenue. The plans have been prepared by McKim, Mead & White, of New York City. It will be colonial in style and finely finished.—Appleton P. Clark has made plans for an attractive dwelling for Mr. Charles Javins, at Eighth and F streets, S. W. It will be of brick and stone and finely finished.—N. J. Haller has made plans for an apartment house to be erected at 2501 and 2503 Fourteenth street for B. H. Warner.

Burd P Evans, 706 N Ninth st, 1 dwg, 52 x 36 ft, 3 sty, NW cor Overbrook ave and Fifty-ninth st.

T S McVaugh, Station 30 P O, 1 dwg, 26 x 54 ft, Welsh road, near Bustleton.

R C Winnals, 1335 Siller st, 1 dwg, 16 x 46 ft, 2 sty, W s Cambridge, N of Orthodox st.

## Wants.

Bloomfield, N. J., will sell \$11,000 in bonds for sewer work.

At Olyphanto, Lackawanna county, Pa., 500 feet of new fire hose are wanted.

At Philadelphia, Pa., sealed proposals will be received at the office of the county prison until May 2 for home-made brick, Conshohocken foundation stone. R. C. Motherwell, Jr., superintendent.

## Judgments

## PHILADELPHIA.

## ABBREVIATIONS.

Where there are no figures to indicate the amount of the judgment, the damages have not been assessed.

The figures 1, 2, 3 and 4 immediately after the name of the plaintiff indicate the number of the Court. The term of the Court is indicated as follows: D, for December Term; M, for March Term; J, for June Term, and S, for September Term.

S. F.—Scire Facias, to revive judgment.

A star (\*) denotes judgment confessed or bond and warrant conditioned.

ENTERED APRIL 18, 1898.

# THE PHILADELPHIA Real Estate Record AND BUILDERS' GUIDE.

DEVOTED TO REAL ESTATE, BUILDING, ARCHITECTURAL AND INSURANCE INTERESTS

[ENTERED AT THE PHILADELPHIA POST-OFFICE AS SECOND CLASS MATTER.]

VOL. XIII.—No. 18.

PHILADELPHIA, WEDNESDAY, MAY 4, 1898.

\$5.00 PER YEAR.

## Architect Notes.

Fire damaged the properties of N. S. R. Anderson, 200 202 Rochelle avenue, Wissahickon, to the extent of \$8000. It is likely rebuilding will be started as soon as insurance claims are adjusted.

Wilson Eyre Jr., 929 Chestnut street, has on boards plans for alterations to a house at Merion, Pa. These will consist of a piazza and interior modern improvements. The owner is Mr. Frank Thompson.

Estimates on the new front for 1212 Chestnut street have been made by Wright Tyndale & Van Roden, the glass and china merchants, Eleventh below Walnut street. Noted in our last issue in full. The plans were prepared by Geo. C. Baum and E. E. Hendrickson, associated.

By arrangement we expect to be able to announce the result of competitive plans by architects for the Homoeopathic Children's Hospital, about the middle of May. These are under consideration, we are authorized to say, solely upon merit, and with regard to main principles involved, general construction and sanitary principles.
